

Download eBooks to Your Amazon Kindle

Step 1: Finding a book

- On your computer, log on to <http://www.mymediamall.net>
Need help with the website? Click on the *Digital Media Help* tab near the top of the screen.
- Find book (Advanced Search - narrow format to Kindle Book and click box for only copies available)
- Click on Add to Cart next to Kindle Book
- Proceed to Checkout
- Sign in with your Library card
- Confirm Checkout

Step 2: Adding book to your Amazon account

- Click on Get for Kindle
(if on same computer you bought your Kindle on, you will be taken to Get Your Public Library Loan page in your account). If not on same computer, log into your Amazon account.
- You will see on right side of page: Deliver to: (your name) Kindle
- Click on Get Library Book
You will see the message that the book has been delivered to your Kindle. The next time the Kindle connects to Wi-Fi, the title will be downloaded. Or, you will see a choice to transfer to device via USB

Step 3: Opening the book on your Kindle

NOTE: the book will not transfer through the Kindle's 3G network - you need to connect the Kindle to a Wi-Fi network.

- Go to Menu
- Choose Settings
- Go to Wi-Fi setting
- Choose network
- As soon as you connect to the Wi-Fi network - you will see on your Kindle screen - you will see Item Downloaded.
- Titles will appear on your Home Page
