

MORINGSTAR INVESTMENT RESEARCH CENTER AND STANDARD AND POOR'S NETADVANTAGE DATABASES

Morningstar: Search by individual mutual fund or stock or create your own real or imaginary portfolio and find out how the individual securities work together as a portfolio. Identify individual stocks or mutual funds that meet particular investment criteria by using the Morningstar screeners.

S&P's NetAdvantage: Comprehensive business information on U.S. companies including data and analysis of industries, companies, stocks, bonds, mutual funds, and current business news.

To access information about specific stocks and mutual funds through our web site:

1. Go to the library homepage at www.nileslibrary.org.
2. Click on "Virtual Library" at the top of the home page.
3. Click on "Financial and Public Records" under "Databases by Subject."
4. Click on "Morningstar Investment Research Center" or "Standard & Poor's NetAdvantage".

To access any database from home, you must have a Niles Public Library card.
