GENERAL SEARCHING

Search the Online Catalog UNDER: the title of the literary work, if you are interested in finding the work

Search UNDER: the author of the literary work if you are interested in finding works by the author. (If you type in the author's name when you search by subject, you may find biographies and literary criticism this way.)

Note: Sometimes, even if you do not find literary criticism that is just about the work you are interested in when you search in the online catalog, books about the author (especially books located in the 800 section) may have pages and/or chapters of literary criticism about the author's work. So, it is important to look in books about the author that are located in the 800 section as well as books that are just about the work, itself. In addition, check books that include the work. Some of these books may also include literary criticism or other useful information at the beginning or the end of the book.

Browse the following areas: R/800-R/895

Biographies that can be checked out of the library are usually in the biography section under the last name of the person that is the subject of the biography. However, some works of literary criticism also provide biographical information and most of these works are in the 800 section.

If a book you are interested in is checked out, one of the reference librarians can put it on hold for you.

NOTE

This pathfinder was prepared to assist you in locating materials. If you have any questions or require assistance, please ask a Librarian on duty.
