

Left Hand

(Continued from Page 1)
since there were only 22 votes cast the meeting couldn't have been "rigged."

As far as future Niles Days go, it seems likely they will continue as they are, only so long as the five or six men now active continue to devote their time to the "Days." If they should lose interest Niles Days will "go by the board." It is unlikely that the many groups who take only meager interest in the event will suddenly arouse more interest thus becoming more active in future years.

I was asked what becomes of the many prizes which are left over at the end of the last evening. I was told they were "auctioned" off to the workers. Since they do the work which makes the "wheels go round" it would seem that they are entitled to a "break" such as this. However, since this is a fund-raising venture more money could be raised by "throwing open" the auction to the public. It seemed as late as 10:30 Sunday evening there was a disproportionate number of prizes still lying on the shelves. A public auction of the remaining prizes could still bring in a sizeable amount of money.

I thought the new Miss J.C. Judy Mroz, was a delightful winner of the queen contest. As the phrase goes on the borscht circuit, she had plenty of "moxie." I imagine it's pretty tough for a 17 year old girl to parade before the judges, assume a smiling air which is supposed to tell the judges that your having a wonderful time, even though you're tied up in knots on the inside. Judy showed she had loads of poise when she needed it. She gave all the right answers, about being thankful to her parents, wanting more education, and having a future ambition of "just" being a good wife and mother. And when she was announced as queen she managed to blurt out that she was nervous in answer to Bob Bergman's question as to how she felt. She was indeed a vivacious and captivating queen.

One of the judges was Vince Garrity, a very gabby guy who has a local radio show in Chicago. While this was Queen Judy's nite "Gabby Vince" was bending the ear of last year's winner, Phyllis Koch. She was chosen "Miss Illinois Press Photographer" this past year and Garrity was much impressed with last year's queen. He should have known this was Judy's nite and given her the attention he was extending to Phyllis.

But... it was a fine nite... Niles has a new queen... and long may she reign... until next Niles Days.

Lions Bowling Winners

Winners of the Niles Lions 2nd annual bowling classic and the committee which conducted the tournament. L. to R. President Joe Conti, Bob Franklin, Walter Wedge, 1st prize winner and recipient of a \$500 check, Paul Alonzi, Robert Fendler, \$250 2nd winner, Chuck Giovannelli, Bill Kosko, \$175 3rd winner and Cliff Eickoff. (Selene Studios)

Carnival Equipment Stolen; Niles Police Seek Thieves

Ralph Holden of Villa Park informed the Niles police that two men who had worked for him for five months had stolen two hub caps which support a ferris wheel, a commutator, pipe wrenches and miscellaneous tools and spoke tackle blocks. Niles police were informed when it was believed the men may be working for a local carnival group which may "show up" in Niles.

"He Didn't Come Home Until Morning"

Edward Clifton Skinner, 8104 Elmore Street was brought into the police station July 12 at 2 A.M. in the morning. It was desired that he take the breathalyzer test but he refused. He was charged with driving violations which included hitting a barricade at Milwaukee and Octavia, hit and run, weaving, driving on the wrong side of the road, improper passing, reckless driving, under the influence of liquor and driving without a light.

But... it was a fine nite... Niles has a new queen... and long may she reign... until next Niles Days.

Trustees

(Continued from Page 3)

area the school will then connect their sewer with the Niles one.

Plans for the subdivision known as Celsel's subdivision were referred to the committee on plats and subdivisions. A revised estimate for sewers, pavement, water for the Callere and Catino re-subdivision was submitted for approval. The revised new estimate is an increase of \$60,000 over the original estimate.

Referred to the zoning board a request for the rezoning of the southeast corner of property at Howard and Harlem to be used for a parking lot by the Jewel Food Store at Milwaukee and Harlem. The property is 60 feet east of land they already own that they had rezoned with the intention of using the land for a parking lot. It was stated that the property is now used as a dumping ground. Also, it was stated that it was not dollarwise to build a parking lot on the one lot only. Poeschl said that the people in the area said this action was "OK."

Mayor Stankowicz stated nine streets in the south end of town need re-surfacing. The streets include Ebinger Drive, Franks Street, Albion and Jarvis. Nielsen said they had been re-surfaced five years ago. These streets are all arterial streets (connect into state highways) and thus are eligible for Motor Fuel Tax money.

Poeschl commended Allied Paving Co. which recently completed the improvement known as Oketo and Other Streets. He said he has never seen a better job of paving in the Village. He contended when they completed the improvement they immediately began cleaning the catch basins and the washing down of the curbs.

The meeting was then adjourned until July 23.

Kirk Lane

(Continued from Page 1)

court would then decide what price is a fair and equitable one.

However, the problem in the case of the Niles Park District, is the lack of money available as of now for such a purchase.

Whether or not condemnation proceedings would take place, the appraisal would be a "measuring stick" which the Board could use for planning any future purchase of the land in the coming years.

Rizzo Homeowners Weigh Annexation

By David Besser
Editor & Publisher

In "The Letters To The Editor" column today are two letters from Frank Luecker and Lou Schreiner, Niles Days' Chairman and Personnel Chairman, regarding an error made in the last issue of THE BUGLE. I had written that the prizes that were left over at the end of the three day affair were auctioned to the workers who had participated in Niles Days. As both men noted, these prizes are taken on consignment and those remaining at the end of the evening are returned to the company from which they came. I had received the misinformation from a Niles Days' worker who is one of the most active persons in the community and likewise one of the most reliable. Unfortunately, this person received the information from a second source who I'm sure was considered equally reliable. As Luecker points out, I should have spoken to him before I printed the item. He is absolutely correct and I hope my error did not cost anyone any undue embarrassment. I certainly apologize for this inaccuracy.

I have never written an opinion or a word about the township papers which come into Niles from the outside. However, I have long been cognizant of the irresponsible reporting that has been manifested in one of the papers. I feel very strongly that a newspaper which consistently reports inaccuracies is committing the gravest sin in our business. The printed word is too often accepted by most people as being law, merely because they saw the words in "some paper". Since the era we are living in seems to be the "lazy era", most people accept without question whatever is presented to them. Only the "thinking few" ever seem to raise their voices in protest; this is the same "thinking few" who are the movers in the community. The woeful minority in any group which get things done, the same few people who raise their voices when injustice arises and finally arouse the "lazy many".

I can't rationalize my error, much as I would like to. However, I have a king-size problem in this community which grates my sensibilities, even though it's ludicrousness should be accepted with humor rather than with frustration. I can best spell out the problem by giving a play by play story of an incident which happened a couple of weeks ago.

I telephoned Lou Schreiner, one of the Park Commissioners, regarding the appropriation for the 56-59 year. I mentioned to him that the paper would be out the day preceding the evening when the appropriation would be approved. I asked Lou if he could give me the total figure for the appropriation. His answer was, "Bud, I'd rather you call Lee Cress (Park Board Pres.) and ask him about it." I then called Cress and made (Continued on page 8)

St. John Brebeuf Festival

PLANNING COMMITTEE for St. John Brebeuf carnival, from L. to R. Ray Egan, 6917 Madison, Supply Chairman; Alex Greenwood, 8206 Osceola, General Chairman; Father Keating, Frank Leonard, 8312 New England, Grounds Chairman; and Frank Di Maria, 8126 Osceola, Personnel Director.

More Than 200 Residents Support Bank Of Niles

The Organization Committee, and the Commissioner of Finance, State of Illinois.

Many people have already contacted us and have expressed their desire for a larger number of shares than was indicated as an average in our letter. The committee wishes to advise that anyone can have upwards of one share to as many as they desire.

Plans are now being made on the bank site. The actual site of the bank will be released within thirty days.

The Organization Committee hopes that those people who are still holding back their subscriptions will come forward as quickly as possible so that they can close the subscription drive. They are working very hard to get the bank organized as soon as possible. Their work to date has been very successful. They only hope they can complete the task at an early date. To do this, they will need the wholehearted support of the Community.

Maine Hi Announces Book Schedule

The following days have been set aside for the purchase of next year's textbooks and supplies at Maine Township High School. Students Accident Insurance and Activity Tickets will also be available. Students are being requested to stop at the school Bookstore according to the following schedule:

Freshmen - July 22 through August 5. Sophomores - August 6 through August 15. Juniors - August 18 through August 22. Seniors - August 25 through August 29.

During the weeks that freshmen buy their books, the Girls' Club of Maine will have representatives at the school who will assist the incoming freshmen. Immediately after obtaining a number for a place in line in the bookstore, all freshmen are asked to report to room 137 where a group of upper class girls will arrange a tour of the building and help them become acquainted with Maine.

District 63 Pros And Cons Revealed By Residents

At the School Board meeting of District 63, Board members approved three new principals for the coming year at their Monday night meeting.

The principal approved for the Oak School in Niles is James R. Medlock. He replaces James Bagge who is now superintendent for the entire district.

Medlock is a graduate of the University of Illinois where he received a Master's degree in Education. He comes to Oak School from Jacksonville, Illinois where he served as principal in that district.

John A. Brumm was approved as principal for the Melzer School in Morton Grove. Brumm received his degree from Northern Illinois University and was previously a principal at Lockport, Illinois.

Robert Evans will be the new principal at the newly named East Maine Junior High School on Ballard Road.

He also received his education at Northern Illinois University. He was a principal in both the St. Louis and the Kankakee areas.

St. John's Carnival August 6 To 10

The fifth annual carnival of the St. John Brebeuf parish, will be held from Aug. 6 to Aug. 10 on the church grounds, at 8200 N. Harlem Ave., Niles.

Mr. Alex Gruenewald, 8206 N. Osceola is general chairman of the event. He will be assisted by Mr. Frank Di Maria, 8126 N. Osceola in charge of Personnel. Mr. Ray Egan, 6917 Madison St., chairman of booths. Mr. Frank Leonard, 8312 New England, chairman of the grounds and Rev. Laurence Keating and Rev. Francis Waldron, parish priests, in charge of good weather.

The Holy Name Men, Catholic Women's Club members and the parishioners will all be on hand to help make this project a huge success. All proceeds of the carnival are for the benefit of the parish building fund.

Accident Report

July 23: Faith Tischler, 8431 Olcott and Vern Peterson, 8845 Greenwood at 8:20 A.M. at 8520 Greenwood.

July 17: William Paradose, 6956 Dobson at Harlem and Milwaukee at 9:12 A.M. No injuries; other driver a Chicago resident.

July 16: Alfred Ulrich, 8324 Oriole and Arthur Falvey, 8347 Oketo at 8324 Oriole.

July 16: Clarence Rogier, 8343 Osceola and Donna Curran, 6966 Seward at 7230 Monroe.

Pros And Cons Revealed By Residents

Niles quest for annexing land to the north of her present borders continues to meet stumbling blocks which may or may not be insurmountable in overcoming.

Recently Trustee John Stanley addressed the Greenwood-Ballard Civic Association, a group of homeowners who for the most part live in Rizzo-owned homes both north and south of Dempster, in the Greenwood Avenue area. Stanley discussed the advantages these residents would have if they became a part of the Village of Niles. He emphasized the decreased insurance rate they would have if their area came under the auspices of the Niles Fire Department. He also mentioned the decreased costs in water and garbage disposal and the advantages they would derive by having the police protection of Niles local force.

Residents in this locale, which extends from Carol on the south to Ballard on the north and from Greenwood on the west to Cumberland on the east, are sharply divided as to which direction they should go. There are homeowners who desire annexation into Niles. There are others who would prefer to remain in an unincorporated area. Still others are interested in the "social prestige" which they believe might be forthcoming in their being admitted into Park Ridge while a fourth group has spoken of possible incorporation of the area into an entity of its own.

THE BUGLE discussed the problem with Charles Whitaker, Sr., 8501 Carol and Dr. Reilly, 8543 Carol.

Whitaker had mixed emotions regarding the possible annexation into Niles. He stated the advantages and disadvantages would have to be carefully weighed before he would commit himself one way or another. He pointed out that based on the 1957 tax rate in the two areas Niles highest tax bill in District 63 was about \$404. He cited this in contrast to similar bills in his area which were about \$372. He then asked the obvious question whether the Niles city rate offsets the additional costs the homeowners are now paying. These include a \$1.75 monthly garbage charge, a \$2.00 monthly sewer charge, a fire insurance rate, which he felt was only nominally higher and water costs he admitted were extremely costly. The area receives water from a domestic utility company which supplies the water from a deep well in the area north of Golf Road. Whitaker emphasized another homeowners association in the Glenview area are protesting the high rate in court action at this present time.

Dr. Reilly strongly pointed out that annexation plans are only in the "talking stage" and that these people do not want to be pushed one way or the other. However, this 10 month resident said he personally feels the area should "belong somewhere." He felt the residents should have all the advantages and disadvantages revealed.

Report Of July 23 Board Of Trustees Meeting

The July 23 Board of Trustees' meeting was called to order at 8:50 p.m. Coughlin and Stanley were absent at the initial roll call though Stanley arrived soon after the opening minutes of the meeting.

An audience of about 50 persons were present primarily for the purpose of discussing drainage problems in the 7200-7300 blocks on Greenleaf, Lill, Conrad and the surrounding area. Because of the momentary absence of a Fidelity Builder representative regarding this problem the meeting continued with other matters until the representative arrived.

In an opening discussion regarding matters pertinent to the sewer, committee Trustee Nielsen complained he had not received a copy of a report which had come from the engineer's office. Nielsen said, "I am the chairman of the sewer committee; the engineers are lax in their correspondence." Engineer Bill Cadigan, representing the village engineers, said that this was not true and that five copies of the report had been submitted to the trustees. Nielsen insisted he had not received a copy of the report.

The Board then approved the final agreement between Chicago and Niles for the furnishing of water to the Milwaukee-Golf Shopping Center. A few changes in the technical requirements need for additions to the original agreement.

Mayor Stankowicz then brought up the subject of the need for water storage facilities in the land adjacent to the Harlem-Touhy area where the present water works are located. The engineers report, which cost \$143.87, determined the feasibility of purchasing this land for the expressed purpose. The proposed tank would store 4,000,000 gallons of water. The land would be appraised and if it could not be purchased for this amount the report with the appraisal would be on file for future court action in the event the Village would take condemnation proceedings against the land.

The Mayor said that the engineers said the tank for storage should be alongside the present water works. He added that the land in the area is selling so fast that it isn't "tied up" by the Village it will be sold to some other party. He said appraising the valuation of the land should take place and then further steps should take place (either to take an option on the

land or to plan for condemnation proceedings).

The Mayor added that a year old report from the engineers' office had recommended the purchase of the 3 acre land. He wondered if it was necessary to purchase this large a piece for these purposes. Engineer Cadigan said this was the parcel of land suggested in the report.

The Board unanimously authorized the engineer and the attorney to seek an appraisal on the land. The \$143 previously discussed was for this year old report and the Board approved this payment to the engineers.

The discussion concerning the surface water standing in the rear of the lots in the Fidelity Builder project in the 7200-7300 blocks on Greenleaf, Lill, Conrad and Crain was then the next order of business.

Seymour Wiener, one of the associate owners of the firm, stated most of the homes were approved by the V.A. and the F.H.A. and that they satisfied their requirements. He also said that the engineers' drawings were approved by the Village. He added that despite these approvals Fidelity Builders spent \$10,000 re-grading the areas to prevent these water pools from developing in the backyards. However, Wiener added, in October 1957 after they re-graded the area, pools did exist after a one and one-half inch rainfall which occurred during a one-hour period. He believed the residents disturbed the gradings by their building swimming pools and garages and thus blocked the water from draining off. He added that now the V.A. has "washed their hands" of the entire affair.

A resident from this area then stated that two of the Fidelity owners had stated at the time he bought his home that there would be no valley on his property and that there would be no tapering of the land in mid-block. He said despite these promises he is down in a valley. He also said that blue grading marks can be seen at the rear of his lot and a surveyor told him they are above the foundation of his home.

Builder Wiener then said that his problem has not been solved by catch basins (which were recommended by the engineers) in the Oleaner Osceola area. He said that silt over the basin prevents them from working effectively. He stated that the area was originally level but it has been built up 16 inches due to the neighbors building up their yards.

Wiener then said Fidelity would build a swale (ditch) in the rear area which would cross over to Oketo and Harlem streets.

Joe Mulcrone, 7306 Lill, wondered what a swale was and after being informed that it was a ditch asked how it would be set-up. Wiener said it was the same as the ditches that are along the county highways and that they last for many years. Mulcrone contended that this would do little good and Wiener admitted this would require maintenance; he said anything devised would require maintenance by the homeowners.

In answer to questions from Nielsen, Wiener said the ditches would be built along the easements leading to Harlem and

Oketo. He stated Fidelity would be happy to build culverts leading to the streets.

Poeschl then said that ditches could be very neat and described a similar project on Golf Road leading into Mount Prospect. He added that something has to be done in this area and that "we should get at it".

A resident complained about his home with a similar problem in the 8800 block on Oriole. It was brought out that a catch basin was not in the area.

Wiener then said he would be happy to build the swale after the engineers determine the size of the swale, after the Village gives its approval of the ditch and on the condition that Fidelity Builders will not assume any further responsibility regarding this matter.

Poeschl then said that Wiener would have to hire the engineers; that this survey would not be paid for by the Village.

Engineer Cadigan then stated that the village engineers were being placed in the middle by this type of action. He said the engineers are not sure the swale would be satisfactory (the engineers had recommended four catch basins for the area in a recent report). He said with the fences, garages and lawns this ditch could not be guaranteed to provide the correct drainage.

Somewhat irritated Poeschl told Cadigan to do just the survey. Cadigan said that the engineers don't advocate these ditches and that they believed the catch basins were better.

In anger Poeschl said, "I don't aim to have the sewers filled up with water similarly to what you did in three other areas".

An indignant homeowner then complained about water which he said is 14 feet wide in his yard. He said Wiener can't blame the landscapers for this. He said the homeowners that move into the home adjacent to the back end of their lot causes a problem due to different grading in the two areas. The resident, identified as Mr. Kukla, 7307 Greenleaf, said that someone must have been drunk when they put in the grading.

Another irate resident wanted to know why houses on Oleaner are higher than those on Oriole which he said causes a down-grade. Wiener said that the houses must comply with the streets which they are on. The house must be from 2 feet to 2 1/2 feet above the curb.

A resident at 7214 Lill said they should not blame the V.A. In exasperation he said that due to the water in his yard he has not cut the grass in seven weeks. He noted the difference between the engineers' who advocated catch basins and the builders who favored the swales. He said if the engineers accept the idea of the swales he would be willing to accept their judgment.

Nielsen then proposed drain tile be used with a three inch aggregate which elicited applause from the audience. Stanley seemed to favor the catch basins since a basin with a concrete top could easily be cleaned to clear it of any debris that might clog it. He said it is easier to clear the mounted basin top than to dig up the land to clear the drain tile.

Marszalek said that Cadigan seemed to be the "whipping boy" at the meeting. He asked that the report on the best way to solve this problem be brought

to the next meeting August 6. He said the last survey took six weeks rather than the ten days as had been proposed. He added that the survey should take in the whole Fidelity area.

The three choices that will be considered will include a swale with partial drain tile, an all drain tile drain and catch basins. The engineers will determine the costs of each plan and determine the feasibility of each plan. The decision should be based on the maximum reliability with the minimum disturbance. Olcott and Oleaner Avenues in the Fidelity area will be included in this survey. The report will be forthcoming August 6 and action on the plans will take place as soon as possible after these recommendations. All Fidelity Builders' property in the immediate area not included in another survey (Crain, Osceola) will be included in this survey.

In other actions — The Board approved a subdivision owned by an Ida Gloomski in the 9100 block on the east side of Milwaukee Avenue. While this area is outside the Village limits, nevertheless, area within a one-mile limit of a corporate area must seek local approval. They also received approval from two other locales.

Approved a three-lot subdivision known as Ceisel's subdivision on School Street south of Niles Terrace.

Three petitions were sent to the Zoning Board for their consideration. The locations desiring changes in zoning included a lot at 8028 Wisner and 8333 Ottawa. A third lot also included which desires B-2 Zoning, the newest zoning classification which is for multiple-dwelling units.

Engineer Cadigan suggested the need for a new water main between Ozark and Oriole on Greenleaf. He stated that the present main servicing this area is located on Ozark between Main and Greenleaf. The pipe used for this main is only 6 inches and services an area covering 230 lots. He suggested an 8 inch main be installed at a cost of \$6000 which would avert a critical problem in this area in the event of a water main break.

Trustee Nielsen said that he thought the subdivisions should pay for this installation. Cadigan said eventually the Village would receive at least one-half of the money back from future building in the area. He said this would be the minimum

amount returned.

Trustee Marszalek made the motion that the engineers draw up specs and plans for the 8 inch water main with the assumption that those persons "hooking into" the main will pay for this attachment. It was unanimously approved 5-0.

Received notice from a Robert Bender regarding an accident involving the park District. It was a confusing correspondence which was addressed to the village trustees. Included in the letter was a statement which noted an injury to the above mentioned party at 8134 Octavia. Since this is not park property the letter was confusing in its interpretation. It was to be forwarded to the Park District.

Reported in the Parkview area where homeowners are required by ordinance to disconnect their down spouts, only 24 homes of 162 in the area have complied with the previous notice sent into the area. 92 homes were not contacted personally because no one was home at the time of the personal notice. Another notice will be transmitted to the area that all downspouts must be disconnected within 10 days. Persons not complying with the ordinance will receive notices from the Village which are subject to fines.

Approved, unanimously (5-0) three building code changes. They included the changing of the depths of foundations from 48 inch minimums to 42 inches. Also utility rooms could have a minimum of 15 square feet and garages which service multiple-dwelling units would have.

LETTERS TO THE EDITOR

Dear Editor:

In seeking facts concerning Niles Days why don't you interview the chairman or members of the committee instead of taking some hearsay views or opinions from person or persons not thoroughly familiar with the operations of Niles Days.

All merchandise that you saw remaining on the shelves at the conclusion of Niles Days is not auctioned off as you stated but is returned to the merchandise firms, because it is purchased on consignment.

Another correction: Vince Garity was not a judge of the beauty queens on Sunday night but was an invited guest. I was the fifth judge on the panel.

I would like to thank the members of the various organization and residents of Niles who volunteered their services and help make this year's Niles Days another successful venture.

Respectfully yours,
Frank M. Luecker
Chairman of Niles Days

Mr. Luecker is correct on both points. See "The Left Hand" regarding this matter.

Mr. Besser:

From a good left hander to your Left Hand Column. I wish to enlighten you in regards to Niles Days.

I have been personnel chairman of Niles Days for the past 10 years.

Five years ago we discontinued purchasing merchandise in job lots, and going through the trouble of trying to dispose of it at the end of Niles Days. All merchandise for booths is now sent on consignment; we pay for only what is lost via people winning items; any merchandise that is left is packed up and returned.

As to help for Niles Days, in past few years, it has been the same faces with an addition of one or two new ones.

This past Niles Days the only ones that let the committee down was the Niles Youth Organization and the Niles Chamber of Commerce respectively. All other Civic organizations which volunteered their services turned out in good order.

I would like to take this opportunity to thank all the good workers who made this past Niles Days a success.

Louis Schreiner
Personnel Chairman
of Niles Days

Dear Sir,

I would like to publicly thank the Niles Fire Department and our fine neighbors for the assistance they rendered during the recent heart attack of my father. Their promptness plus their kindness and efficiency is deeply appreciated.

Sincerely,
Ray Slussar and Family
7810 Nora Ave.

Niles Youth Organization
Niles, Illinois
Mr. Gene Bauer, Secretary
Members:

A forthcoming job assignment will necessitate my absence from home for extended periods. I, therefore, regretfully ask that be relieved from all duties as your Counselor.

The Niles Park Board and Niles Youth Council have set up programs which should interest your club. It is suggested that you contact them for further guidance.

Respectfully,
James B. Schick
8322 Newland Street
Niles 31 Illinois

An Open Letter

We wish to thank all whose support has made the construction of Lutheran General Hospital and School of Nursing possible. The work of the hundreds of tireless, devoted volunteers who served as leaders and workers in contacting the homes, businesses, and industries of this

Niles Days Car Winner

Mrs. M. Schuetzner, 3132 Western Avenue in Chicago receives keys and a wax handshake from Police Chief Bob Roney when she picked up the new car she won during Niles Days. Mrs. Schuetzner is the mother of Mrs. Arthur Treutler, 8235 Olcott and Gordon Schuetzner, 7405 Monroe. Roney was treasurer for the Niles Days festival.

TEENS

by Marilyn Congiu

Judy Vosmik and Judi Johnson had a lot of fun in Kentucky where they spent the week of July 14. With them were Mr. and Mrs. Vosmik. How was the water and the road workers?

Although it's been a long time, on behalf of Giesle Hagemann, Jerry Warner, Bill Ahlman and myself, I wish to thank the Glenview Heights Improvement Association for the wonderful prizes given us at the annual Summer Festival, June 28. The winners of the dance contest, Giesle and Jerry, received beautiful trophies and transistor radios. Bill and I, being runners-up, received lovely camera kits. Thanks also to the judges: Mr. John Peterson, Mr. Lee Cress, Mr. John Poeschl, Judge Anton Smigiel and Mr. James Schick.

Spending the summer at Don Scully's are his cousins Diane and Denny Scully from San Diego, California. Sure, hope you are enjoying your visit in Niles.

How was the hay ride, Betty Bacher?

Carol Racette had a nice little "hen" party on Wednesday, July 2. Just what were all the phone calls from Glenview about?

Don Deering and Jack Meier will be getting a nice sun tan since they aren't working. How 'bout a little Rummy, Jack?

Pete Hoh's cousin, Dick Merrill of Van Nuys, California, visited Mr. and Mrs. Hoh a few weeks ago. Pete was able to come home from Glenview, where he is stationed with the Navy, on Saturday, July 12, to see Dick.

Gene Bauer must have a house full of stuffed dogs, pandas, and seals after his big haul of Niles Days! Are you getting ready for your brother's return?

Fall On Wire Sends Girl To Hospital

Marylyn Kula, 9, was taken to Resurrection Hospital July 16 after receiving a large gash on her right hip caused by her fall

Teen Hospitalized

July 14 Doris Di Silvestro, 16, 8613 Oketo, was taken to St. Francis Hospital in Evanston after falling on the sidewalk. She received a brain concussion from the fall and lacerations about the skull. Police car 417 was in the vicinity at the time of the accident and witnessed the mishap.

a minimum of 220 square feet per unit. Thus, a three-family dwelling would have a garage which has a minimum area of 660 square feet.

Notified a builder named Ronnie Dreyfuss that the Board has approved one of the fifteen changes which Dreyfuss has recommended.

Received a supplemental report for the Dobson Street sewer which will be studied.

Reported that the heating engineer will check the KIF Builders' homes in the Sherman Road — Wright Terrace area on Tuesday.

Authorized street maintenance for streets discussed at the previous meeting which will use Motor Fuel Taxes for said maintenance. Trustees Poeschl and Marszalek will meet with Myer Engler Tuesday at 1 P.M. to discuss the \$65,000 to be used for the street improvements. Of this amount 25% or approximately \$16,000 can be used for non-arterial streets. Included in the project which will be re-surfacing of streets are Ebinger Drive, Franks, Albion and Jarvis.

The meeting was adjourned until Wednesday, August 6 at 8:30 P.M.

31,000 Volt "Short" Causes Equipment To Blow Top

A short in a 31,000 volt line caused a cover to blow off electrical equipment July 21 at the Imperial Brass Company. Black smoke was seen pouring from the mishap. The Public Service Company was summoned and they turned off the electric power subject to adjustment of the accident.

"IMAGINATION RULES THE WORLD"

(*Author's Name Below)

Scientists first use their imagination to figure out what can be the possible causes of a disease. Then they research each theory until they are positive of their basic facts.

Next, the chemists create a formula, or sometimes even a new man-made chemical, that will accomplish the desired result.

After it has been clinically tested for safe use, the new discovery is sent to our prescription departments. Your pharmacists compound it and another disease can be treated better than ever before.

YOUR PHYSICIAN CAN PHONE Niles 7-8188 WHEN YOU NEED A MEDICINE

Pick up your prescription if shopping near us, or let us deliver promptly without extra charge. A great many people entrust us with the responsibility of filling their prescriptions. May we compound yours?

EDITORIALS

Niles Sounding Board

Being THE BUGLE is a one-team man and wife operation we have long been aware that the paper tends to lack a diversity it should have. While we certainly believe in our rights to sound-off (and we have exercised this right to its fullest) nevertheless we believe that other opinions than ours should also go into the homes of Niles residents.

We received an anonymous letter some months back stating that THE BUGLE is little more than "crack pot" editorials. While the letter-writer got us spitting mad nevertheless it caused us to become a bit more introspective. And while our vanity would not allow us to think too harshly of ourselves, nevertheless, it gave us grounds for improving the "balance" of the paper.

While THE BUGLE is too small for adding more personal columns (we have had many requests from volunteers) we have decided we would develop an editorial page which any and all Niles residents could use as a sounding board.

Beginning with the August 13 edition you will read editorials from your friends and neighbors. We will only censor the editorials regarding slanderous material and those that may stray from the realm of good taste. Village officials, park board members, housewives, teenagers and hen-pecked husbands can use our editorial page to make themselves heard.

Editorials should be restricted to two-double-spaced type-written pages. They must be in the offices of THE BUGLE seven days preceding publication. All editorials must include the name and address of the writer.

Unlike our "Letters To The Editor" column, all writers' names will be published.

Teenagers Youth Center

Once again the police and teen-agers are having run-ins due to the teens congregating in the Oakton-Milwaukee area. We've noticed that the same problem as last year still exists and that only the change from one restaurant to another has varied the problem.

Last year we suggested unsuccessfully to have the Park Board open the Grennan Heights fieldhouse to the teens. They offered two days of each week for teen activities but for the hours from about 4 P.M. until 8 P.M. Since this period included the supper hour, in which the time allotted was woefully limited, the two volunteers who would "man" the fieldhouse decided against accepting these hours.

The Park Board has the problem of finding someone to supervise the activities voluntarily and also to find a time-slot in which the teens can be allotted.

Since it is highly unlikely that the Park Board is going to eliminate adult groups from using the fieldhouse in the evenings there has to be another solution to finding a place where the teens can congregate without having the unhealthy problem of being confronted by the police.

George Heinz, who started a fund for youth a few years ago, has a large building across from the Village Hall on Milwaukee Avenue. I have been told he might be receptive to helping the teens have a place they can call their own.

Since the Mayor and many of the trustees are friends of Mr. Heinz possibly they might take the initiative in seeing if the building couldn't be used for youth activities.

Just as the library is now staffed by volunteers I'm sure a similar arrangement could be worked out for a youth center. And perhaps even the library, which is interested in larger facilities, might be considered in the use of the building.

It would be a worthwhile project which we're sure would enlist the aid of all Niles teenagers who could convert this large garage to a building with many recreational facilities.

The Park Board received an offer for the donation of table tennis tables last year from one of the local industries in town. Some similarly concentrated action could easily raise additional equipment.

However, the first step is the acquisition of the building for a temporary youth center.

Chasing the teens from one drive-in to another is no answer to teens congregating. Since the Park Board and the many groups that coffee-kitch evenings at the fieldhouse can't make room for the teens we turn to the Mayor and the Trustees and to Mr. Heinz.

Dr. Kuhn Reports On Alcoholism

Latest figures showed that the number of people in the United States afflicted with the illness of alcoholism has increased to 5,000,000 during the last several years. Dr. Arnold J. Kuhn, executive director of the Chicago Committee on Alcoholism, pointed out today.

Citing figures from the current issue of the Yale Quarterly Journal of Studies on Alcohol, Dr. Kuhn stated that this compares with an estimate of 4,500,000 five years ago. The rate of alcoholics per 100,000 adults has climbed steadily during these years and has increased from a rate of 4,390 in 1953 to 4,760 in 1956, he said. For the purposes

of these statistics, an adult is defined as an individual aged 20 years or over. Dr. Kuhn commented, and thus excludes teenagers, whose drinking has been of increasing concern in this country.

"These new figures point up the necessity for increasing efforts to provide treatment for existing alcoholics and to broaden educational programs aimed at preventing alcoholism," Dr. Kuhn declared. "Unless we take vigorous steps to fight alcoholism we shall never decrease the incidence of this illness let alone stem the growing increase."

Encouraging signs are the greater interest in alcoholism being evidenced by such groups intimately involved with dealing with alcoholic cases, such as physicians, nurses, the clergy, educators and industry, the alcoholism organization executive noted. The developing state program under the division on alcoholism in the Department of Public Welfare also promises help with this problem, he added.

"We are receiving an increasing number of requests for information, talks, and help in furthering understanding of this problem," Dr. Kuhn stated. We hope to expand our program substantially by using a new training program an increasing rate of alcoholism. For example, we are currently planning a workshop for clergy in the fall to enable them to deal more effectively with alcoholism cases in their congregation."

The implementation of expansion plans of the Chicago Committee on Alcoholism depends in part on the degree of success of the campaign for \$100,000 currently being conducted by the alcoholism organization, Dr. Kuhn indicated.

The Chicago Committee on Alcoholism is a non-profit organization established for alcoholism education, treatment and research. The Committee operates a partial fee outpatient clinic for the treatment of alcoholics. Its offices and clinic are located at 46 E. Superior st.

St. John Brebeuf Girl Scouts

Intermediate Girl Scout Troop No. 405 wound up a fruitful year's activities by entertaining their Dads at a Cook-Out at Camp Pine on June 11. Proud Dads were served a delicious "one-pot" meal by their daughters and afterwards joined them in a songfest of familiar songs to make it an outing long to be remembered. Their leaders, Mrs. James Walsh and Mrs. Edward Tomcik, were ably assisted by Mrs. Robert Detloff, Mrs. John Layky, Mrs. Jack Kull and Mrs. J. Rumann.

On Friday, June 13 (no superstitious Girl Scouts here), the girls enjoyed a splash party at The Playdium in Glenview.

The final program of the year was a joint meeting of all Brownie and Girl Scouts of St. John Brebeuf on Monday, June 16 at 8 P.M. At this Brownie Fly-up and Girl Scout Court of Awards Ceremony to which all relatives and friends were invited, most of the 36 girls of Troop No. 405 earned at least 3 or 4 badges including the Health-Aid Badge while many of them received 5 or 6 badges. Members of this troop are: A. Bielak, J. Borgerson, S. Burke, M. Detloff, R. Di Maggio, Joan Douglas, Judy Douglas, C. Geahos, J. Hahn, B. Kramczyk, V. Krazinsky, K. Kroucheck, B. Kull, J. Landauer, L. Larweth, P. Layky, D. Lazars, D. Lesniak, J. Letourneau, K. Lorenz, M. Luzwick, H. Malooly, J. Myles, J. Nelson, J. Olsen, N. Roth, D. Rumann, S. Shively, B. Spencer, L. Stanley, R. Sturm, M. Tomcik, M. Walsh, B. Weins, J. Wojda and K. Zizak.

Letters To Ed.

(Continued from Page 3)

area put the fund raising drive for \$1,250,000 over the top. Vital clerical work by dedicated volunteers was efficiently performed.

Thousands of families joined the doctors, business men, industrial leaders, and organizations in contributing liberally. We deeply appreciate each contribution.

Many gifts were made over an extended period. Payment of these pledges as scheduled is necessary if construction obligations are to be met. To date payment on pledges has been \$200.

The 200 bed hospital now under construction, to be serving in 1959, will meet a part of the hospital need. However, the area will still be faced with the problem of not having adequate facilities.

The design of the hospital makes it possible to add 126 beds now at a very low cost, less than one-third of current new hospital construction cost. These beds would enable more than 6,000 additional patients each year to be hospitalized, very close to their homes instead of being forced to travel great distances.

We are hopeful that as the opportunity presents itself those who have not yet contributed will join their neighbors in supporting their community health center.

Sincerely,
N. M. Nesset, President
Board of Trustees
Lutheran General Hospital

Woman's Club Board Members Meet

A board meeting of the new and outgoing officers and chairman of The Woman's Club of Niles was held July 2 in the home of the new president, Mrs. William D. Egan, 8300 Elmwood St. The board members being welcomed were Mrs. William D. Egan, president; Mrs. Max M. Gildard Jr., first vice-president; Mrs. Edward J. Aigner, treasurer; Mrs. William C. Baum Jr., program chairman; Mrs. Allen D. Carlton, social chairman; Mrs. Philip L. Bergeron, ways and means chairman; Mrs. William H. Curtin, philanthropy; and Mrs. Kenneth R. Harris, publicity. Not present was Mrs. A. G. Marcheschi, who is the club's new parliamentarian.

Regular meetings of the club will resume in September, and ideas and plans were discussed for the coming club year, which promises to be a most interesting and enjoyable one.

Baseball Hi-Lites

by Mrs. Lynn Doud & Mrs. Willis Gutschow

Peanut League —

Last Tuesday night the Indians beat the undefeated Tigers in a close game by a score of 12-11. They were trailing until the 6th inning when Jeffrey Freitag and Bob Greshner both came through with homers to bring in a total of 5 runs and gain the win.

Little League —

The Little League season has come to an end for 1958, with the Giants in first place in the National league. The crucial game was played at Oakton Manor last Tuesday night. The Dodgers made a valiant effort but the Giants came out ahead by a score of 11-2 behind the fine pitching of Jerry Weihs.

Last Sunday the Dodgers clobbered the Giants by a score of 16-0. Chuck Davis, pitching the shutout, Chuck struck out 12 and Ken Rogers homered. Chuck also pitched the last game of the season against the Cardinals. Dodgers came out on top by a score of 14-2. Chuck struck out 14 and the Dodgers scored in every inning.

The Cardinals beat the Red Legs 5-3 behind the fine pitching of Art Midenberger. Art allowed only 3 hits and gave up 4 walks. The Cards gained their 2nd win of the week when they beat the Cubs 15-6. Steve Morelli was the winning pitcher. Greg Stroble and Gary Schutzneger each got home runs, other base clouds were triples by Larry Brown and Dennis Kosing.

Gary Brown of the Senators pitched 2 hit ball for 6 innings in their game with the White Sox, but a double by Dick Weber of the Sox tied the game in the bottom of the 6th after Bob Wawrzniak had singled. An error behind Leo Stech, Senator relief pitcher, walk to Kosmatka and a long home run over the left field fence by Dick Weber beat the Senators in the bottom of the eighth inning by a score of 4-2.

The White Sox came across with 20 runs and the Red Sox scored 9 in the game. Dick Weber got a grand slam homer in this game. This was Dick's 8th homer this year.

Pony League —

Grennan Heights gained 3 wins last week by beating Chamber of Commerce 8-3. John Brennan was the winning pitcher. The second win was over Cicconi Bros. Rick Cass was on the mound for the winners striking out 12 batters. Ed Sabey homered for the winners. The third game was with The Harczak nine. Gr. Heights on the winning end of the 9-8 score. Ed Sabey got credit for the win on this one, striking out 14 and Rick Cass got the home run. Tim Smith collected 2 homers for Harczak.

N.W. Ins. gained 1 win and lost one last week. The win was over Chamber of Commerce 10-6. Ray Bacel was on the mound for N.W. Harczak team beat N.W. by a score of 5-3. Bill Feizer and Bob DiAntonio homered for the winners.

SPEAKING'S

By Kay Spikings
NI 7-9330

Birthday congratulations to the following:

CANCER July 23, George Pasek

LEO

July 24, Peter Pasek, Aug. 4, Sigmund, Kazmierczak, and Leonard Swanson. June Clark was 12 on July 9. Her mother had a very nice birthday party for her, and many of June's girlfriends were there, and enjoyed games, fun, and treats. Kit was sorry she could not be there, but that was the same day as the LIONS parade, and we couldn't and wouldn't miss that for the world.

SICK BAY

Mr. and Mrs. Oscar Ekren, 8345 Newland, were involved in an automobile accident July 12. They are both hospitalized at Resurrection Hospital, and I'm sure if you would send them some "get well" cards, they would certainly appreciate them and maybe make the days seem a little shorter. Barbara Illian almost lost two things last week. First of all, while playing, she hit her front teeth against a metal sun chair and broke off part of her front permanent tooth. That wasn't enough, so

her parakeet decided to take off for the "wild blue yonder" — the neighbors were all out scouting for the parakeet, and sure enough, Susan Mariani cited him, ran home and told the Illians, and Ray rescued her from a tree. Nice going Susan! I know the Illians were certainly glad you were so alert!

HOME JAMES

Mr. and Mrs. Fred Turkis, 7329 Greenleaf, and their two children Kathy and Marty, just came home from Santa Monica, California, after visiting Mrs. Turkis' sister. I understand they had a wonderful time. The Hills, Rudolph, Jean, Denny, Larry and Sharon had a two-week vacation in Michigan — The Clarence Chilvers are home from their vacation too! Kind of nice to get away for a while, isn't it?

The weather has been very disappointing to many. Usually during July, upon walking into the yard, the aroma of barbecues working, like mad hits you, and all of a sudden you become very famished. That has not been the case up until now.

Nights have been very chilly, or rainy, and mostly everyone is eating inside. Maybe we should feel well off, because on very hot evenings, there comes that marvelous, magic moment. That tiny interval of time at dusk when the flies knock ed off for the day and the mosquitoes have not yet taken over. Which reminds me that a mosquito is like a child. When it stops making a noise you know it's getting into something. And remember, even a mosquito doesn't get a slap on the back until it starts working!

Zientara-Covers Wedding

On June 21 Joan Zientara, 7639 Osceola Avenue was married to Edward Covers, 9033 Walnut, Franklin Park. The wedding was held at St. Julian's Church and a reception was held at the Portage Park Legion Hall in Chicago. (Photo by Selene Studios)

T.B. Prexy Tells Value Of Mobile Units

Fifteen to thirty per cent of all new active cases of tuberculosis reported annually in Chicago and the suburbs are found through the mobile chest X-ray survey, which the institute conducts with the Municipal Tuberculosis Sanitarium and The Suburban Cook County Tuberculosis Sanitarium and The Suburban Cook County Tuberculosis Sanitarium District.

In explaining the whole purpose of the year-round free chest X-ray program conducted by the three agencies, Dixon said, "Our case-finding program is no longer a 'mass survey.' It is a selective case-finding program, concentrated in neighborhoods where we know there is a lot of TB. For this reason, where mobile units have been located in past years and where the incidence of TB is low, will not be surveyed this year. However, spot checks will be made in all areas periodically to determine where there is X-raying should be resumed."

"The X-ray survey is carried out in industrial offices and plants during the winter, and there is a permanent admission X-ray program underway at the Cook County Jail and the House of Correction. In addition, special groups are encouraged to have regular chest X-rays because we know that TB is more prevalent among these groups than among the general population. These groups include elderly white males, middle-aged persons in lower economic levels, adolescents and young adults in non-white groups, migrant workers, diabetics, alcoholics, silicotics, persons with chronic respiratory diseases or debilitating illnesses, and any persons who have been in contact with active TB patients."

"There are also regulations, some state and some local, which require food handlers, and school teachers and employees to have annual checks against the disease. High school students were at the time included among the

groups where mass chest X-raying was carried out. However," reported Dixon, "a continued decrease found among students has prompted the agencies to substitute the tuberculin test for students. This is an injection test, and only those students who react to it are given chest X-rays."

"The change in our procedure of hunting for tuberculosis cases in the schools is just one example of our continual re-evaluation of case finding methods," said Dixon. "As tuberculosis is wiped out, or at least greatly cut down, in one area or group, we can concentrate most of our efforts on areas where it is still a menace."

Last year there were 3,623 new active cases of TB reported in Chicago. In the suburbs there were 333.

Mrs. Galter Reports Missing Chauffeur

Mrs. Galter, 6460 Harts Road, reported James Wilson, 44, as being missing. Wilson, employed as a chauffeur by Mrs. Galter, was driven to Chicago Avenue and State Street in Chicago, but never returned to the Galter home. He has not been seen since departing from the car at this location. He has been employed by the Galters for the past nine years.

TB Institute Reports

One person out of every five in Chicago and Cook County had a free chest X-ray last year. A total of 1,101,369 free chest X-rays were taken during The Tuberculosis Institute's fiscal year of March 1957 to March 1958, according to the annual report the Christmas Seal organization released today.

George W. Dixon, Jr., president of The Institute's board of directors, said that the Institute had taken close to seven million free X-rays since 1947 when the mass X-ray survey was begun here. Chicago and Cook County have the most extensive tuberculosis case-finding program of all large urban centers in the United States.

A total of 3,956 new active TB cases were found in Chicago and the County last year, and there are an estimated 5,000 unknown active cases in the area.

Fifteen to thirty per cent of all new cases reported each year come from the Institute's case-finding program.

The Institute's report showed that 268,792 of the X-rays were taken in industry, 77,274 in schools, and 755,303 in the community as a whole.

The school X-ray program is being replaced by tuberculin testing in which an injection is made into the student's arm. A reaction to the injection shows that TB germs are present, and a follow-up chest X-ray is then given.

About 10 per cent of Chicago students tested are showing a reaction to the tuberculin test. A tuberculin reaction does not mean the student has TB. It does mean he is harboring the germs in his body and they may possibly activate at some time.

The annual report also reveals that 32,924 public and parochial elementary and high school students had tuberculin tests last year as the program began to expand to replace the X-raying.

The free chest X-rays are taken at mobile units moving through different neighborhoods and industries, at City Hall, at the House of Correction and the Cook County Jail, at Cook County Hospital, and at clinics operated by the Municipal Tuberculosis Sanitarium and The Suburban Cook County Tuberculosis Sanitarium District. The Institute works closely with both of these organizations in attempting to find unknown cases of TB among the Chicago population.

The Tuberculosis Institute's program of case-finding, rehabilitation, health education, and research is supported entirely by contributions to Christmas Seals. Last year the Seal Sale netted \$797,076.

Research grants totaling \$21,353 were given by The Institute to scientists at the University of Illinois, Northwestern, and the University of Chicago. These grants are part of the stepped-up attempt by tuberculosis associations all over the country to find a preventive vaccine or a quick cure for TB.

Classic Bowl Opens On Niles Border

The new 38-lane Classic Bowl, located on the Niles border at 8530 Waukegan Road, opened its doors to bowling-lovers this past week.

In addition to the bowling lanes there is featured the Classic Restaurant, a cocktail lounge, The Crown and Anchor Room, and another bar. The alleys also feature a nursery where children have a supervised playroom.

The alleys feature free instructions for both individuals and groups by Kay Heggie. The alleys are managed by Joe Springer.

There are still openings for bowlers for the Men's and Women's Handicap on Monday night, the Men's Handicap on Tuesday night and the mixed bowling on Friday night. For information phone ORchard 5-9300.
