If we have the picture closely in focus the Niles Park District mini-revolution by lifeguards and maintenance crew is a symptom of the sudden change in the district.

This Spring the district hired Webb's Norman at a \$17,000 salary to run the entire park program. Norman had originally been hired as a swimming pool consultant in hopes of improving the profit structure at the swimming pool. However, when the district sought a recreation director the commissioners thought Norman, Oak Park's director, might well be the man to take over the Niles job. When he was hired at a salary several thousand dollars above the previous director, it could be assumed Niles was paying for more expertise than it had ever had before.

There's little sense in denying Niles was in dire need of acquiring as much professional opinion as possible. The past Tam O'Shanter fiasco, which Commissioner Jack Leske said had cost the park district more than \$40,000, plus the recent Ballard Park mess, pointed to the need for professional services. When Niles chose an architect for the Grennan Heights, Oakton Manor, and Administration buildings and the Ballard Park complex, it hired a firm whose experience in park buildings was non-existent. The subsequent problems with the buildings, plus bids for Ballard Park exceeding \$350,000, manifested Niles Park District was blundering at taxpayers' expense. While taxpayers are in their second year of paying for non-existent recreation facilities, the errors of the past are being paid for by every Nilesite.

In addition to these obvious errors, the direction of the recreation program in past years has been in weak hands. Interference in past years by commissioners, who tied the hands of the recreation director, made a strong unified program almost impossible. More recently the very weak director showed little direction, allowing programs to exist with little help from the top.

After 15 years of hit and miss administration Niles has finally hired a no-nonsense guy, who is thoroughly professional and who administers through his department heads.

The past week we've spoken to several workers who've been highly critical of Norman, accusing him of being indifferent to their problems, and stating if they didn't like their jobs they could pick up their paychecks and leave immediately.

While Norman denies such actions perhaps such intolerance or arrogance is true, which certainly reflects poorly. But considering the looseness of the past year's leadership, the conflict between the workers and Norman seems from here to be due to the sudden businesslike attitude of an administration, which heretofore has been non-existent.

Part-time maintenance/help were told this week they're thru working at the end of this week. In previous years they worked until school started, but this year they're let go with little notice. According to Norman, he's working on a tight budget, and he's been hired to operate as economically as possible and in as businesslike a manner as possible.

Lifeguards complained their staff was reduced to 8 persons this year resulting in an over-burdened schedule for them, without compensation. According to Norman, the swim program received a top AA rating from the County, acknowledging the program meets top safety standards. He said Morton Grove's Harrier Park pool is 30% larger than Niles, having 8 rather than 6 lanes, and they have 1 more guard manning that pool, which also had an additional wading pool.

Norman noted last year's Niles swim operation cost more than \$21,000 to operate over revenue taken in. He said Niles can no longer subsidize such a deficit, since it now has greater fixed costs with its additional facilities. He said he was first brought into Niles to iron out the pool problems here and he felt the 25 person staff in 1969 was overstated. He said the present 17 person staff (not all full time) was more reasonable.

VILLAGE OK'S \$2 DECREASE IN TAX RATE

Nilesites will be paying \$2 less per \$10,000 assessed valuation for their village tax levy than they did last year, as the result of approval of the 1970-71 tax levy ordinance Tuesday night.

Village Manager Ken Scheel, who gave a thorough review of where the tax money goes, showing comparisons with past years, said "We'll need every penny we can get", in answering questions from THE BUGLE reporter regarding all the other revenue Niles is now receiving.

In Scheel's very comprehensive report it showed estimated assessed valuation for the village will increase to \$190,000,000, up \$7,000,000 from last year. The previous year it jumped \$17,000,000, which Scheel said indicates Niles as a community is beginning to stabilize. He said the increased valuation is partly due to annexation of new properties north of Dempster Street.

The tax rate is estimated at .364 per \$100 valuation for village purposes, which is about 5% of the total real estate tax bill paid by residents. Every fund the money is used for showed a decreased rate from last year except the social security fund for village employees which increased from last year's .0393 to this year's .0421.

The general fund reduced from .1068 to .1060. The general fund is estimated at .364 per \$100 valuation for village purposes, which is about 5% of the total real estate tax bill paid by residents. Last Chance To Tee Off at Tam

For 2 days, Saturday and Sunday, Aug. 29 and 30, area golfers and golf fans will have the opportunity to walk around and play golf on the world famous Tam-O-Shanter Country club greens and fairways, located at the corner of Howard st. and Caldwell ave. in suburban Niles.

The special 2-day event, sponsored by the Rotary club of Niles, has been made possible through the generosity of Paul Brandel of the J. Emil Anderson Co.

This is the last time the public will be able to see the course in its present form. As of Sept. 1, the remaining links will be turned over to the Niles Park District. Plans call for complete re-layout and rearrangement into a nine-hole municipal course which will be opened for play beginning in the Spring, 1971.

Tickets covering one "last round of golf at world famous Tam-O-Shanter" will cost \$2. Funds from the golf spectacular will be used for the Niles Rotary Community Service Fund, according to Jack Leske, club president.

LETTERS TO THE EDITOR

Niles Day "An Unqualified Success"

Dear Sir:

I have been asked so many times whether or not I thought the Niles Days Festival this year was a success that I believe it would be of interest to your readers to have this question answered, along with my reasons for so doing.

In its bringing together of the community and the good will and togetherness that are a part of these efforts of the Niles Days Committee I believe it to be an unqualified success.

You know, the day before we were supposed to open we had the carnival almost completely erected. The morning of the day the carnival was supposed to open, it had been demolished by high winds of hurricane force, and through the herculean efforts of many residents of Niles it was ready to open on schedule that night.

The first 4 days were hot and humid but on the 5th and final day temperatures plummeted into what was to become the coldest day in history for

that time of year and yet, not one person deserted his post once that had reported. Some booths were occasionally boring and even lonely, others were extremely busy and oftentimes, hectic and yet those manning the booths bore it all in good spirit.

The day of the big parade, as you know, dawned cold and rainy. The parade went off smoothly and all had passed the reviewing stand when a rain of torrential proportions hit the carnival, which shortly before had just seen a tornado hop right over it. Although it was cold and wet and everyone was certainly put to the test, we opened at 6 p.m. with everyone at their posts.

Many residents of Niles who had not previously committed themselves were asked to help during the days of the carnival when we ran short for one reason or another, and not one person turned us down, all willingly helped out. It is to their everlasting credit that they did so in such a good cause. I remember calling Ed Zielinski of the Lions Club for some extra help for the parade, which he promptly gave and when he showed up at the carnival to verify this commitment he was promptly put to work himself, and then 2 days later after being drenched in the rain came back that night to help some more. A beginners class will also be starting Friday, Sept. 25, from 8 to 10 p.m., with Jerry Spooner as caller. These classes will continue every Friday at the Niles Recreation Center. For further information, call 967-5736 or 698-3182.

the night as we drafted him also.

Members of those organizations that support the Niles Days Committee all did such great work it would be impossible to single any one person out, as many times it is the one who seldom hear about who just comes in and does his job who is really the solid base upon which we depend, and sometimes takes for granted to sustain our efforts during these days. This is not to mention the fine work and splendid cooperation received from all Village departments.

To sum it all up I have to say that this is what I believe the Niles Days Committee is all about. Certainly we have to earn money for the good works the Committee does, but more than that I believe this Festival pointed up the real reason for the Niles Days Committee, and that is, regardless of the inconveniences endured by a great many people, for 5 days there was a spirit of togetherness and good fellowship, secure in the knowledge that we were all working for a good cause. Tomorrow we may all go back to our old ways, but for these days, these Niles Days, there was a common bond and this, to me, is the real worth of the Niles Days Committee.

These are the reasons I believe this year's festival to be a success and also why I am proud for having been the chairman for this 1970 Niles Days Festival.

Thank you,
Donald J. Jahns

Clarifying Position

Dear Sirs:

As an employee of the Niles Park District for the past three years, I have worked in the capacity of pool manager for the last two years, having been appointed by the same Board of Commissioners based on my qualifications and past experience. In this position of responsibility it would be expected that I come to my supervisor in his capacity as Park Director, with problems concerning the safety of the children and the residents of Niles, and also make recommendations to help solve any existing problems.

It is my understanding that my obligation and responsibility as an employee of the Niles Park District is to serve in the best interest of the people of Niles.

Sincerely,
Wayne Jacobson
8003 Lyons

Carbon monoxide, the subtle yet potent poison, is produced by machines other than cars too. Liberty Mutual Insurance suggests that you never run a power lawn mower chain saw or snow blower in an enclosed area such as a cellar or garage. Doing so could prove to be an overwhelming experience.

Mrs. J. Beegun

Niles

In presenting these problems to the park director, it was agreed these recommendations would be afforded due consideration for next year. It was, however, not my intention to embarrass or openly criticize the Park Board, but only bring to its attention these serious problems.

Criticism regarding lack of communication amongst the Board, the director, and the Park District employees should not be misconstrued by the Park Board President as a "demonstration" or "plot". Since I am responsible for the actions and behavior of the life-guards who serve with me, I would not like to feel my services are no longer required this year or in the future.

LWV Announce New Stamp Golf-Maine Park Dist. Referendum

Accepting from Postmaster Lutz the newest stamp commemorating 50 years that women have been voting are two of the newest members of the League of Women Voters of Morton Grove-Niles, Mrs. Lawrence Lasker of Morton Grove and Mrs. Vasco Mattenont of Niles. They are proud to carry on the heritage of informed and active participation of women in the political process.

"Members of the League of Women Voters of Morton Grove-Niles have a special interest in the new six-cent stamp that will go on sale for the first time in Adams, Massachusetts on August 26, 1970 commemorating the 50th anniversary of the ratification of the 19th (woman suffrage) amendment," said Mrs. John Adams, President.

In announcing the new stamp, Postmaster General Winton H. Blount stated "Women have responded magnificently to their political responsibilities. Ours is a better nation because they have marked ballots."

Adams, Massachusetts was selected for the First Day of Issue of the Woman Suffrage Stamp because it is the birthplace of Susan B. Anthony, pioneer crusader for women's rights. Miss Anthony was founder and President of the National American Woman Suffrage Association which became the League of Women Voters in 1920.

The Woman suffrage commemorative designed by Ward Brackett of Westport, Conn. is a horizontal stamp printed in blue. It shows a modern woman at a voting machine and in the background are a number of suffragists, a reminder of the days when women did not have the vote. As official sponsors of the stamp ceremonies in Adams, the League has designed a special envelope to be used for First Day Covers. Information on obtaining the official cachets can be obtained from Mrs. John

Students for Stevenson

There is a need to change the policy of our government, and one of the best ways to change it is to change a vote in the United States Senate, the chairman of the Stevenson for Senator Committee of the North and Northwest Suburbs told 40 students in Skokie July 8.

The session at Devonshire fieldhouse was the organizational meeting of Students for Stevenson. On hand were college and high school students from Skokie and nearby Niles township communities. Students were invited to attend campaign training sessions from 6 to 7:30 p.m. every Thursday at the downtown headquarters.

Mike Gelder, 9304 Lockwood, Skokie, who attends Michigan State University, and Holly Cogen, 9850 Karlov, Skokie, a Northwestern University student, were elected co-chairmen of Students for Stevenson.

The Golf Maine Park District has announced plans to hold a Referendum on Tuesday, Sept. 8, 1970, to increase its Debt Limit from 2-1/2% to 5% of its total assessed valuation, and to issue \$1,000,000 in 20 year bonds. The funds would be used to develop the Kathy and Western park site, adjacent to Mark Twain School, and to purchase additional land for development as Park sites.

The need to acquire land now was expressed by Park Board President, Donald Ross, who stated: "When this Park District was organized 4 years ago, there were 60 acres of undeveloped land available within its boundaries - today there are 36. Of these 38 remaining acres, one 20 acre parcel, The Creation Children's Home is for sale. A 13 acre parcel, owned by the Archdiocese of Chicago, was originally intended for use as a Catholic High School. The condition of the Catholic School System, the lack of need for such a school in this area, and the Church's pressing financial need, make it a prime prospect for a profitable sale. If both parcels are sold before the District has an opportunity to acquire additional acreage, only 5 undeveloped acres will remain.

"This Bond Referendum, which is for the maximum amount permissible, will provide the funds needed to develop the Kathy and Western Park Site, and to buy 15 acres of land, based on current appraisals of \$60,000.00 per acre."

"Purchase at this time is absolutely vital. Our ratio of Recreational acreage to population is 1:10, national standards call for 1:10. This will be our last opportunity to improve that ratio, since open land continues to vanish rapidly beneath the blades of bulldozers, and land

sale prices continue to rise. Cost per acre has risen 50% in 3 years."

"We expect to make this a One for One-and-a-half Referendum, by turning \$1,000,000.00 in Bonds into one and a half million dollars, by applying for matching Federal Funds, as we have successfully done in the swarming with children. This Park was purchased with, and is being developed with, Federal Financial Assistance.

LEFT HAND. . . Continued from Page 1

He mentioned this year family memberships are up from 591 to 629. He said last year there were personal problems at the pool that had to be ironed out and while he was very careful not to point a finger at anyone, he noted there were complaints from parents who would not send their children to the pool because of them. He quickly noted the pool staff has done a "good job" alluding several times to the outstanding work the pool guards do, and emphasizing the personal problems mentioned, had nothing to do with the guard staff.

In pointing to his job as director he said his approach to the job is to have competent people as heads of all departments. He added, "my job is to understand and improve" upon efforts presently being made. He noted the problem of leadership and public relations were the major problems confronting the district.

Niles received much publicity for the recent marathon it ran and Norman was not too enthused about the effort. It was created and manned by the teens, and there's little doubt the long vigil, which included sleeping at the pool, exhausted many of the guards, who put in their regular work at the pool, in addition to this extra effort.

Norman said there is much emotionalism surrounding the mini-uprising, and changes in the district will come slowly since he is up against long established traditions, which have been at work in the district.

In ending our interview he said there would be no retribution resulting from the controversy, answering our question the youngsters are fearful they won't be hired next year because of their objections.

In meeting with both the lifeguards and the maintenance crews there's little doubt they've been bruised by the abrupt behavior from Norman. His brusqueness ("you can pick up your paycheck . . .") certainly can't be commended. And his businesslike approach toward the youngsters, who've had a job in past years in which the supervision has been loose and indirect, shocked them when they suddenly are confronted by the impersonal behavior of the adult world of us meet everyday in our business dealings.

Some criticism has come from residents who seem to resent the \$17,000 salary Norman receives. And somehow the salaries of the guards, and the maintenance workers who make \$2.75 an hour, certainly does not reflect they're not being fairly paid for students doing part time work.

Having seen the park district function thru the years we hope residents will get behind Norman, who is sorely needed here. This district has been operated wastefully and without direction for too many years. The park commissioners are standing behind the director, which they do not have. While his no-nonsense approach may injure some egos, and ruffle many feathers, he deserves both the support and the opportunity to make Niles Park District function properly. Like Leo Durocher, he's not running in a popularity contest. He's got a job to do, has the most background and professionalism Niles has ever had, and is sorely needed. And like Durocher, if he brings a pennant to Niles, all the irritations and feather-rubbing will be forgotten.

M.G. Legion Auxiliary Receives State Awards

At the recent American Legion Auxiliary, Department of Illinois annual convention which was held at the Sherman Hotel, the Morton Grove Unit #134 received several awards. The presentation of prizes in various contests on different levels is a highlight of the convention, and an eagerly awaited conclusion to the three day event.

Retiring president Mrs. James Campanella attended the sessions with a group of delegates including president-elect Mrs. Herman Hack.

Certificates were awarded the Unit for their Veteran's Craft sales and for the promotion of the purchase of government savings bonds under the National Security program. Mrs. Howard Hoffman served as Mrs. Campanella's National Security Chairman.

Co-Veteran's Craft Exchange Chairmen were Mrs. Lois Miller and Mrs. Joseph Klemens. The Veteran's Craft offers items made by hospitalized or disabled former servicemen. Many are still confined to VA facilities. The men (and women) are paid for these articles as they are sold, thus giving them a dignified manner in which to earn some money. Such craft as rugs, jewelry, stuffed animals, aprons, etc. is available. The Morton Grove Unit offers

these at their meetings, special events and at the Post's weekly fish fries which are set to resume after Labor Day.

Mrs. Jack Bartholmy was given two state wide awards, one for her Book of Prayers and the other for her district Historian's Report. Mrs. Bartholmy, a past president of Unit #134 was recently installed as vice president of the district. Nina Bartholmy will handle the sgt. at arms duties this coming year for her unit and served as chaplain the 11th year just concluding. As 7th Dist. historian, she submitted a report in book form of the district's history coupled with the individual units' histories. For this report she was given a first place prize in county judging at a recent Cook County meeting.

Mrs. Bartholmy also prepared a book of prayers for entry into that contest and also won a first place prize on the county level.

Both of these entries went on to state judging subsequently; and the Morton Grove received respectively a second and first place award and gift for these magnificent compilations.

Village Ok's

hage fund lessened from 1969's .0843 to 1970's .0750. The street and bridge fund decreased from last year's .0466 to .0415. The police and firemen's pension funds both decreased the same, from last year's .0450 to this year's .0421. The debt retirement fund was reduced from .0169 to .0152. Totalling all the funds including the social security fund they total the .364 tax levy for the village's coming year.

While noting the stabilized figure which is the same as it was in 1964, Scheel said the great increase in expending moneys is in the pension funds which now cost the village about 40% of its total revenue from this source. The pension fund contributions have more than doubled during the same period from 1964 until 1970. In other actions Mayor Blase appointed Chuck Morris as Youth Commission chairman, filling the vacancy resulting from former chairman Ralph Bast, moving up to the village board.

Mayor Blase spoke of the drug problem in all communities including Niles. Noting

Cont'd from Niles-E. Maine P. 1

such a problem is becoming overwhelming, and stating "25% to 40%" of young people have experimented with drugs, he said families must be made aware of the problem before it becomes catastrophic. Blase called for a meeting with the Youth Commission and would likely include Niles Family Service, in an effort to reach Niles families.

.....Okayed ordinance for disconnection of Shell Gas Station at the southwest corner of Dempster and Greenwood, which will become part of Park Ridge.

.....Approved ordinance for a 4-way stop sign at Ozanam and Greenleaf with Marcheski voting against it, contending previous traffic survey did not recommend such action.

.....Tr. Pesole motion for the County to consider creation of a Mass Transportation District died for lack of a second. Marcheski contended Niles should work with North Suburban Transportation District group in pursuit of solving local problems in our area.

Blase: Facts Clouded On Township Government

The allegations and charges of blame being issued by the GOP concerning township collectors fees not being returned to school districts is one of many complicated arguments they have offered to cloud the truth. The GOP has made persistent claims that the Democrats are responsible for having the 23 Township Collectors Fees declared unconstitutional. Upon examination, the truth is the Illinois Supreme Court, comprised of 4 Republicans and 3 Democrats, unanimously voted to uphold a lower court decision's ruling the Collectors' fee unconstitutional.

Are we now to believe—the Democratic Party controls the Illinois Supreme Court? With a GOP majority?

Though both are aware of the truth, Republican legislatures Juckett and Carroll of Park Ridge continue to hammer away by maneuvering the blame to the Democratic Party. I would remind them the GOP controlled Illinois Supreme Court rendered the final decision, not the Dem-

ocratic Party.

The real question to be answered at this point is where has all the money used for administration gone over the past 20 years? With Township collectors fees unconstitutional for 20 years, it has been a tremendous waste of the taxpayer's dollars.

Republican Dinner Sept. 19

The 1970 Maine Republican Dinner, major local social event of the fall political season, will be held in the Grand ballroom of the Marriott Motor hotel Saturday night, Sept. 19.

This was announced here this week by Raymond Hollis of Park Ridge, dinner chairman, and by his co-chairmen of the dinner—County Commissioner Floyd T. Fulle of Des Plaines, Maine township Republican committeeman, and Mrs. Frank B. (Joan) Hall of Park Ridge, township GOP committeewoman.

Tickets for the dinner, sponsored by the Republican party of Maine township, are \$25-a-plate. Table reservations and individual tickets are now on sale in Park Ridge, Des Plaines, Niles, Morton Grove, Glenview. Hollis said that in addition to any of the above tickets may be obtained from any member of the Republican Party of Maine township.

Tickets also may be obtained by sending a check for \$25 a ticket, or \$250 for a table of 10, payable to the Maine Republican Dinner and mailing the check to P.O. Box 154, Park Ridge, Ill. 60068.

meeting at the Ramada Inn on Aug. 17 regarding Noise Pollution being caused basically by the O'Hare Field Expansion. The meeting was attended by Congressmen Rodino and Collier and it was learned the city of Chicago is trying to purchase adjacent land from the government in order to build four more super jet runways. It was decided to see if a complaint should be lodged with the Illinois Air Pollution Commission. Mr. Cohen then related he met with Mr. Klaus of the Milwaukee Road regarding the railroad's Trans-a-Plan proposal. Under this plan the railroads would operate, but would not own the railroads and equipment. Funds would be 2/3 Federal government and 1/3 local. (Possibly supplied by the RR). Cohen said he felt this could benefit the commuter. Profits would be used to secure replacements, etc. Mr. Cohen then moved to have a letter of intent sent to the railroad. The motion was carried unanimously. A total of \$10,575.84 was received as the village's share of the July income tax.

John Hilkin who attended the North Suburban Transportation Council meeting (due to Trustee Dick Flickinger's illness) reported the group's consulting firm submitted a detailed report concerning bus service. They suggested that the bus service in the area be improved and be made available to more citizens by taking them to transfer points of importance. This however could cost about 5-1/2 million dollars. Mr. Hilkin then said that the Sign Committee was busy working on the new Sign Ordinance.

Paul Spiess reported Engineer Nick Clorba was recovering from a heart attack at Holy Family hospital and doing well. He also said the Dempster st. resurfacing project was just about finished. Ed Willander said the village engineer's firm made a topic study of the corner of Shermer and Harlem and agreed there should be no left turns allowed there. Willander then moved to have the atty. draw up an ordinance to prohibit left turns from Shermer rd. onto Harlem ave. The board agreed. Mayor Bode announced that Illinois Bell will occupy the Illinois Bell building at 8625 Waukegan rd. in March of 1971 with about 240 employees.

WHY STAY IN SCHOOL?

What sculpture is to a block of marble, education is to the human soul. The philosopher, the saint, the hero, the wise, the good, or the great, very often lie hid and concealed in a plebian, which a proper education might have disinterred and brought to light. . . . Addison

Education is a companion which no misfortune can depress-no crime destroy-no enemy alienate-no despotism enslave. At home, a friend; abroad, an introduction; in solitude, a solace; and in society, an ornament; Without it, what is man?—a splendid slave, a reasoning savage. . . . Varle.

Education is our only political safety. Outside of this ark, all is deluge. . . . H. Mann

It is on the sound education of the people that the security and destiny of every nation chiefly rest. . . . Kossuth.

FIRE - AND YOUR FAMILY

Fire prevention should be a family affair. A family should discuss what to do in case of fire or smoke. Escape exits are important, as well as a prearranged meeting place to determine that everyone is out and safe. Each person should be warned not to lose time dressing, grabbing valuables or fighting the fire. Stress escape - orderly and immediately. Small children should be made to understand that they must leave - not hide under a bed or in a closet.

Your best protection is a healthy respect for fire. Clean out old rags, paint cans, papers, rubbish, etc. Have Dad check all electric plugs, cords, stoves, heaters and other sources of flames or sparks.

Fires annually destroy 650,000 homes and apartments causing deaths in excess of 7,000 in the United States. One third of which involve children. Many of these in the home without a baby sitter or a member of the family. IF YOU MUST LEAVE THE HOUSE ON AN ERRAND... TAKE THE SMALL FRY WITH YOU...

It is not every single who starts as an internationally known superstar! Like Bing Crosby and Frank Sinatra and Andy Williams, Diana Ross started with a group. In the beginning they were known simply as The Supremes, three Detroit high school kids who liked to sing together and who did it so well that over a period of ten years, they racked up sales running into unprecedented millions. Fifteen of their singles were sensational smash hits. No one else has ever surpassed their double feat of having five consecutive records in the Number One spot on the charts. Now that she is an artist strictly on her own, Diana Ross still reigns supreme! As one critic remarked after her solo debut at the Frontier Hotel in Las Vegas, "Diana Ross is merely superb. She leaves the audience breathless... she's style, class, personality."

Appearing with Diana Ross is Special Guest Star, Myron Cohen, America's foremost story teller. His laugh anecdotes once cajoled fabric buyers into giving him huge orders for his firm, a top silk concern which employed him for 25 years before show business adopted him. Now that he's spinning yarns instead of selling silks, Myron Cohen has more orders than he can fill, for he's constantly in demand to appear at all the top night clubs and hotel supper clubs from coast to coast.

Performances are Tuesday through Thursday at 8:30 p.m., Friday at 8 p.m. and 11 p.m., Saturday at 7:30 p.m. and 10:30 p.m., and Sunday at 5 p.m. and 8 p.m.

Chamber Honors Champs

Niles Chamber of Commerce honors its Little League winning ball team, the Athletics, at dinner at the Lone Tree Inn, Niles on Aug. 18. In front row (from l. to r.) Robert C. Wordel, Jr. of the Teletype Corp., Chamber president congratulates team manager Michael Hujer. Between them is Tom Bondi, team coach. Also in front row are Daniel Pulcinski, coach; Helen Skaja, Terrace

Funeral Home and Dee Pomeraning, Niles Spectator, Chamber directors. In top row are directors Gordon Faller, Yorktown Finance - Insurance, Frank Troiani, Acro Remodeling and Carl Drummond, Niles Kwik Car Wash. Athletics beat the Vikings (15-7) in final game for World Series crown in their division. (Meyers Photo)

Shriver at All Stars Banquet

Once again, the Niles All Stars (Pony League) are very proud to have as guest speaker, Charles (Chuck) A. Shriver, manager, Office of Information and Services, for the Chicago Cubs at their 1970 All Star's banquet on Friday, Sept. 4, 1970 at the Bunker Hill Country club in Niles. Chuck's concern and warm feelings toward these young Americans is twofold: (1) as a resident of Niles he is, naturally, interested in their success and progress; and, (2) he was their guest speaker at their 1968 Little League All Star's banquet. (With the exception of three boys, this squad of athletes is the carbon copy of the 12-year old Little League All Stars.)

Chuck, who claims Chicago as his home town, is in his fourth year as head of the Office of Information and Services for the Chicago Cubs. Only 31, he is living proof that the Cubs current youth movement has even reached the front office. Chuck came to the Cubs from WGN-Television in Chicago, where he was Assistant Sports Editor for five years. In that capacity, he was personal writer for the famous television voice of the Cubs, Jack Brickhouse. In his present capacity, Chuck handles publicity for the club as well as promotions. Although his actual baseball playing consisted of butchering third base in high school and college, he says, "I was the best 180 third baseman you ever saw - hitting or fielding!" Chuck was closely associated with the Cubs while working games for WGN-Television. In addition to WGN, he also gained journalism experience with United Press International, Chicago; WLS-Radio, Chicago; WLBK, De Kalb, Ill.; and the "Northern Star" newspaper, DeKalb. He received his B.S. Degree in Journalism from Northern Illinois University in 1962, and is a graduate of Marengo, Illinois Community High School.

Travellers Trounce Norridge

The Niles Girls Travelling Baseball team trounced the previously undefeated Norridge Speed Queens by a score of 23 to 9.

The "Junior" Travelling Team also defeated the Norridge All Stars by a score of 6 to 4. These same teams will be playing at Jozwiak Park on Monday, Aug. 31 at 6:45 p.m. and 8:15 p.m. If you want to see outstanding softball teams in action, please join us in a night of fun and excitement.

Goldfish Day

The Morton Grove park district has announced that the day for Goldfish Day will be Saturday, Sept. 5. The place is Oriole Pool; the time is 1 p.m. Harrier Pool will be open for regular swimming. Both pools will be open all day Sunday and will be open from 1 to 5 on Monday. The Pools will close at 5 p.m. on Labor Day, Sept. 7 for the season.

Last week, we spoke of the simple, easy to manage hair-do designed for the young lady on the go. Here are a few suggestions...

- (1) ... The Pageboy (A smooth gentle curving easy to brush into shape)
- (2) ... The Half Bang (Swinging the bangs over one eye only)
- (3) ... The Short Flip (A pageboy with the back curled under and the sides flipped out. Casual, but oh so smart)
- (4) ... The Pixie (A gay exciting French style hair-do)

The proper at-home setting machine makes any of these styles only a matter of minutes. Once you have the hair-do and are ready to go - keep it in place with a hair spray designed for your particular hair. At BIRCHWAY DRUGS we have a spray to fit every kind of hair. By the way - our back-to-school special is on

Of course you look for and find bargains in quality merchandise when you shop locally, but did you know you are also really investing in our community too? Your neighbor-merchants' taxes support civic improvements and help finance schools and recreational facilities right where you live. It pays, in many ways, to shop at home!

It's mighty nice to know that the merchant you deal with is probably one of your own neighbors. You feel you can trust him and he is eager to maintain that trust. He is anxious to please you in a personal way — to give you quality products at the lowest possible price. "Yes," you'll say, "it really does pay to shop here at home!"
