'Cop Cake' Sale Saturday

(REPRINTED FROM SEPT. 18, 1969 ISSUE)

It wasn't any traumatic experience... and it couldn't even be considered a tear-in-the-eye moment... or a lump-in-the-throat feeling... but still, our "little girl" left the nest Sunday, and Little Mother and Dad knew one era had ended and another one was starting. We had joined that ever-growing legion known as parents of a collegiate.

During the past week I had noticed Betty Coed's mother was lingering in her daughter's bedroom. She'd just sort of stand in the center of the room, and rather gloomily look about the room. She didn't say anything but I didn't tease her about her lingering.

Sunday at the noon dinner Betty Coed had her boyfriend alongside her and when her corny Dad gave a toast wishing her well during the coming years she gave me that, "Did you really have to say that" look. Since there were three other younger ones at the table who generally spill their way thru a meal, the chances for any sentimental "last meal at home" were unlikely. The only sentiment I had was, "I'll be glad when she's gone, then I won't have to look at this boyfriend 6 times a day."

Surprisingly, packing all her gear in the car took only a short time and the ride up to school was equally fast. Carrying her brown cardboard box luggage into the new dorm was done amidst much huffing and puffing. And while the huffing and puffing was natural for me, when I came upon the hordes of young people who seemed to be coming from all directions, I vowed I'd begin getting into condition at the "Y" beginning Monday.

Eleven floors up is her bedroom, a 12 by 20 room which seemed too small for all her brown boxes. When I saw her roommate had an equal amount of the same kind of luggage it seemed impossible 2 teen girls would be able to live in that cubicle.

The hordes of young people, who were downstairs, were figuratively matched by the throngs who were on floor 11.

Amidst the brown boxes, the 2 teens and the Little Mother and Father, an endless stream of Betty Coeds began squeezing into the room, laughing, griping about the food, shaking hands, squealing and just being friendly. They were from Edwardsville and Bensenville and "she worked at Lyons" and "I remember you from orientation" and "boy, was the food bad... I was sick for 3 days with the flu... and I'm sure it was from the food." It was an endless stream of people, all young and full of talk.

It was supertime and the number 1 daughter had very little for lunch so Little Mother said we'd take her out for a bite... but naturally, she wasn't hungry, and I gave Little Mother the "Let's get out of here and leave her alone" look.

She kissed us goodbye and Mother remembered she needed a few dollars cash. She kissed us again and I even counted a 3rd time, which was some sort of a record. It must have been that good clean corn-bearing DeKalb air.

As we left I borrowed an old standard bromide from a friend by telling the girls, "Have a good time and be good girls... but not necessarily in that order." They all laughed and then they all told me what their old Dads said and I realized all old Dads are much the same... pretty corny.

As we started the drive home we mulled over whether the school was too large. "Maybe we should've considered a smaller school." Little Mother worried because she missed supper and she wouldn't have anything to eat. "The least I could have done was left her some fruit," she worried and soon Mother was dozing as we headed for the tollway.

Friends of Library Set 70-71 Season

The Friends of the Niles Public Library, in conjunction with Niles Public Library District, announces its first program of the 1970-71 season. Entitled, "Inspiration with Flowers," it will be presented by Mrs. Frank J. Packee, past president of the Garden Club of Illinois. Mrs. Packee is a music major, specializing in harp. Her musical background has made flower arranging a natural hobby and study, since both are closely allied in beauty, rhythm, dominance, repetition, contrast, etc.

She is a serious student of Japanese floral art, having received six certificates from the Misho-Kai school. Her studies in Japanese Floral Art have been under Koho Hihars, Grand Master of the Misho-Kai in Osaka, Japan.

Circle your calendar for Friday, Sept. 18, at 8 p.m. Tickets are free and available at the Library upon request.

UMC TO GET \$714 MONTHLY NILES SUBSIDY

Niles will contribute \$714 per month to the United Motor Coach Company for the next year, to help subsidize the bus company, which Mayor Blase said would be out of business at the end of the year if such monies was not forthcoming from neighboring communities. Blase reported the city of Des Plaines had studied the company's books and found the company is operating on a monthly deficit of \$12,000. While Blase noted he was not happy with the way the company has operated nevertheless he said 50% of Golf Mill Shopping Center employees use buses and the need for such service for Niles Senior citizens is obvious.

In unanimously approving the ordinance Niles set up a transportation district which will consist of a 3-member board. Niles will also send 1 representative to serve on an executive board which will make recommendations to the company. 1971 legislation at the state level is likely to set-up a 7-county transportation district. The temporary subsidy is likely to continue until such state action is taken.

Blase admitted most surrounding communities were not interested in such a subsidy but said Des Plaines showed the primary interest in such a plan, and Niles had a similar interest. While trustees approved it Rich Hartzak said he was not in favor of a subsidy but voted "Yes" because of the emergency nature required to keep the company afloat.

In other actions Tuesday night Circle Tr. Keith Feck suggested the possible banning of non-returnable bottles and cans be considered, citing Bowie, Md., as a community which instituted such action. Niles also will cooperate with Glenview in cleaning the north branch of the Chicago River, at least once a year, both actions attacking the increasing pollution problem. In this area it was reported Imperial Eastman has spent \$65,000 installing anti-pollution equipment and building commissioner Ben Mankowsky said other plants are looking into similar activity. Mankowsky praised Imperial's efforts fighting pollution.

trustees passed a resolution making Seward street east of Milwaukee Avenue a 2-way street with a cul de sac east of the alley changing the traffic flow there. Two entrances to the parking lot on Milwaukee Avenue north of Oakton will be closed as well as closing 2 or more entrances on Oakton Street between Milwaukee Avenue and Osceola. Entrance to the 7-11 store will be from Osceola and no left turns will be allowed entering or exiting from the Oakton-Milwaukee parking lot. A left turn signal will be sought for the Oakton-Milwaukee intersection and a guard rail will be placed at the Seward Avenue cul de sac. The estimated cost for the improvement will be \$3,000.

Merchant Receives Award

Mr. Hugo Horn of the Lawrencewood Shoe Service who suffers the handicap of being deaf and dumb has received the Midwest Silver Cup award from the shoe industry of America for outstanding service.

Shown with Mr. Horn receiving his award are Mayor Nicholas B. Blase and Mr. Peter Karstens, Manager of the Lawrencewood Shopping center.

Mr. Horn was born in Germany of normal parents with normal hearing, became deaf at the age of 2 months from illness. He was raised and schooled at a Deaf school in Germany. During summer vacations from school, he used to drop in a shoe-repair shop and watch the owner do the operations of repairing shoes. This held a fascination for him and prompted

his future plans of entering this field.

Mr. Horn finished grade school and thereafter was sent to a vocational school for 4 years. This was the deciding factor that he would be an orthopedic shoemaker and do repair shoe work as well. From the age of 18 on, he did shoe repair work in various locations in Germany until 1955 when he decided to come to the United States.

When he arrived in Chicago, he worked for the Dr. Scholl Mfg. Co., Inc. for 13 years making shoes. Then in the fall of 1966, he bought a shoe repair shop in the Lawrencewood Shopping center in Niles. This shop is called "Lawrencewood Shoe Repair Shop" and is doing a very successful business.

The program for the evening will be a floral arranging demonstration by James R. Ashner, a Niles resident and president of Richard Lange & Co. Florists in Chicago. Mr. Ash-

James R. Ashner has appeared before other Niles organizations in the past and has always pleased his audiences with the beauty of his floral artistry.

Please come, we will be happy to meet you. For further information, please phone Dottie Krause at 827-1973.

Orchestra Auditions

The Metropolitan Youth Symphony Orchestra will hold auditions for the 1970-71 season at the Y.M.C.A., 19 S. La Salle st., Chicago, on Sunday, Sept. 13, from 10:30 a.m. to 12:30 p.m. in the cafeteria.

The Orchestra, one of the finest youth orchestras in the country, provides a unique opportunity for musically advanced students to play and perform great symphonic music together with others of their own age, under the competent direction of Mary K. Rosen, conductor.

Local members are: Morton Grove - Roberta Goldberg, 5525 W. Main st.; John Woods, 9130 Mansfield, Niles - James Neubauer, 8444 Amella; Ann Marie Becker, 8308 N. Oleander.

Legion Carnival Workers Party

The Morton Grove Post #134 of the American Legion traditionally says "thank you" to their members and the Post friends and the Auxiliary gals who worked at their annual carnival with a get-together. The party this year is being held at the Post Home at 9:30 pm this Saturday, Sept. 12.

A 4 piece orchestra will play and a midnight buffet is scheduled also.

P. C. Frank Selzer was general carnival chairman. He, post commander - elect Ray Harris and retiring commander Al Nehart, along with personnel chairman Tony La Rosa will welcome guests to the party.

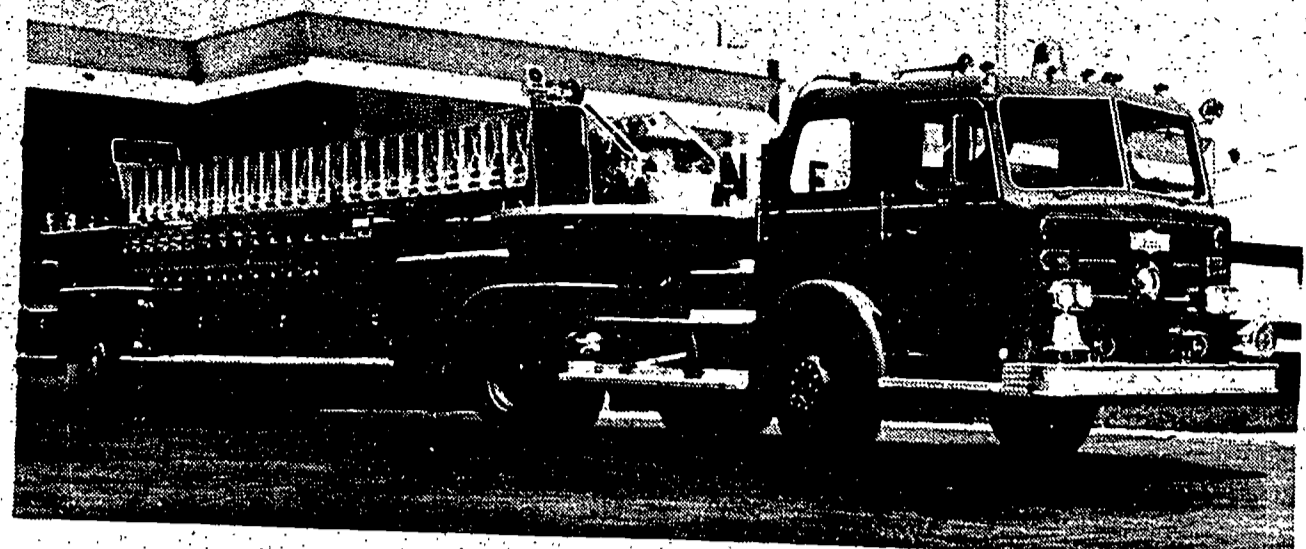

LaRosa, who job it was to recruit workers for the various rides, games and booths, sent out tickets for those who worked at least 4 hours. Prizes will be offered, with one to a married couple, as an added attraction. Workers need not be present to win awards. If a worker is unable to attend the party, then they may mail back to the Post where LaRosa indicates he will deposit them in the special box he has and they will be eligible for the drawing.

This is just another good will method Post #134 employs to show their appreciation. Many non-Legionnaires yearly assist at the 4 day summer event and are likewise invited along with the Morton Grove Post member, the Auxiliary Unit and their spouses.

The allocations to municipalities follow: NILES, \$27,903.

New Hook and Ladder Truck for Niles

A new versatile tool has been added to the firefighting arsenal of the Niles Fire Department - a \$77,000 hook and ladder truck.

In addition to mounting a 100-ft. permanently attached aerial ladder capable of reaching high rise floors, the truck also carries a wide assortment of portable ground ladders and a complete stock of rescue and salvage equipment.

The Niles Fire Department has long been considered a leader in the adoption of new equipment and methods. It was the first suburban department to have a free emergency ambulance service. When the snorkel truck was first developed, Niles was the first suburb to purchase one. The department is always well represented at the various professional fire schools and seminars. It was the first suburban department in this area to purchase a 1500

gallon per minute pumper. According to Chief Albert L. Hoelbl, the 53 foot, tractor-trailer vehicle will respond to all structural fires. Its design makes the truck highly maneuverable and stable when its aerial ladder is fully extended. It requires a driver and tillerman for its operation.

Chief Hoelbl said that the new truck's inventory of tools includes ropes, shovels, life net, battering ram, portable generator with high chain saw, power rescue saw, capable of cutting through wood, metal or concrete, oxygen masks, axes and forcible entry tools, a sump pump, and an inhalator-resuscitator plus many other hand tools. There is even a portable deodorizer unit to help rid a house of unpleasant smoke odors after fire; a portable deluge gun, capable of converting the aerial ladder into a water tower. The portable ladders range in

size from a 10 ft. collapsible ladder to a 50 ft. extension ladder.

The department's rolling stock now consists of 4 engines, a squad-light wagon with rescue tools, the snorkel, 2 front-line modern Cadillac ambulances, a utility truck, 2 station wagons equipped as back-up ambulances and a fire prevention vehicle. "This gives the Niles citizens one of the finest equipped fire departments for a village of our size," Chief Hoelbl proudly stated.

He added that the new truck is quartered at Fire Station #2, 8360 Dempster st., and that the public is invited to stop by and inspect the vehicle. "I'm sure they will be as proud as we are of this latest addition," Chief Hoelbl stated.

after many hours of spirited debate we finally come up with a way for your money to work as hard for you as you did for it.

it wasn't easy... but we finally worked it out.

At the Bank of Niles you don't have to deposit \$100,000.00 or more, to earn more than 7%. If your savings total \$2,000.00 you can earn 7-1/4% on your investment in our exclusive Bank of Niles "7-1/4% Notes". Terms are very simple. Minimum amount of \$2,000.00 for one calendar year earns 7-1/4% interest. Only available at the Bank of Niles, these "7-1/4% Notes" are not insured by FDIC. They are, however, backed by the somewhat more than substantial assets of the entire bank. Only a limited number will be issued... so it's first come, first served. Any of our officers will gladly answer your questions or take care of your needs. Come see them, today. Look for the fellows with the smiles on their faces and the dark circles under their eyes.

LETTERS TO THE EDITOR

Correcting "Left Hand"

Dear Mr. Besser: I believe you should correct some of your quotes. In last week's Left Hand column, you state Mr. Norman's salary as \$17,000. I was at a meeting and heard Mr. Norman himself quote his salary from NILES as \$18,000. I also heard him state he has a consulting business. Is he running this on Niles time? Is he using our facilities and utilities plus our time to carry on this other business? No wonder he didn't seem to take care of "little" details for us. He doesn't seem to have the time.

Also in your cleverly written column you state life guard and maintenance at \$2.75 per hour. The way in which it was written would have the public believe they all make that wage. Now really, you know this is not true. Some maintenance get as little as \$1.25 per hour and alot of the life-guards ended up with about \$1.29 per hour. If you are printing the "news" print it as it is.

Bugle Unfair to St. John Lutheran

Dear Sir: It is with great distaste for the staff of the "Bugle" that I write this letter. After dealing with your paper for one year I am beginning to think that an organization must either be Catholic or Jewish to have news items properly printed in the "Bugle" when requested.

Two weeks ago, I brought a news item into the "Bugle" office about my non-graded school here at St. John Lutheran Time To Set Your Watch??

Dear Sir: On Tuesday, Aug. 25, 1970, at 10:30 a.m., I was very pleased to hear the Civil Defense siren on National and Greenwood ring once as at 12:00 noon and then diminish.

This past Tuesday, Sept. 1, to my chagrin, I heard the siren repeatedly breaking the ear drums of all around as usual.

We have resided in Morton Grove for three years now and would like to make it clear, we are not against Civil Defense.

After talking with neighbors, workmen, and delivery people in the area, the consensus is that when the siren rings, everyone looks at their watch and sets the time, never thinking this is a protective siren against sudden attack.

Please reconsider a single or shorter blast period and perhaps a re-education as to what it really is for.

Sincerely yours, Mr. & Mrs. Howard Sostrin, 8841 Bellefort, M.G.

In Niles, I had been promised by one of your display men that it would appear in the Aug. 27 issue of the "Bugle" which is when it would have been the most effective for St. John.

When it did not appear on that date, I was quite angry, but resigned myself to the fact that it would appear in the next issue. But, you managed once again not to have it printed. What kind of fair business operation do you run over there? You always take our money for ads that we put in the paper, but very seldom do you print our news items. I would have to call that a form of discrimination. Whatever happened to freedom of the press?

I am still expecting to see that article in the paper, and not on the amusement or sport page. You say in your paper that you "serve" the people of Niles. Well, it is about time you live up to that. I want some service!

John R. Kober, Principal.

Ed. Note: In the September 3rd issue we had one article measuring 7 column inches including a picture of a school teacher from your school. During the opening of school weeks the tremendous amount of school news has to be placed in several issues of The Bugle. We are in an area which services 3 Maine Township High Schools, 2 Niles Township High Schools, Notre Dame High School, Resurrection High School, 2 elementary schools in district 71, 3 schools in district 64, 2 schools in district 67, 2 schools in district 70 and 11 schools in district 63, in addition to parochial schools such as St. John Brebeuf, Our Lady of Ransom, St. Martha's, St. Isaac Jogues, St. John Lutheran and 3 synagogue hebrew schools.

Since district 63 has more than 6,000 students, and Brebeuf more than 1,500, while your school has about 74, we have to consider this in placing the news. In 13 years we have tried to publish every release of every religious group in our area.

Clarifying Life Guard's Wages

Dear Mr. Besser: After reading your article on the Pool Controversy last week, and I agree with most of the reasons you put forth, I do think one sentence should have been stated more clearly. You mentioned "The life guards, and the maintenance workers, who get \$2.75/hr." This gives the erroneous impression that the life guards made this amount also, which is definitely not true.

My two daughters guarded this summer, and a record was kept of their hours. My oldest daughter, Sue, received approximately \$1.65/hr., and my youngest daughter, Barb, received approximately \$1.29/hr. To be brief, their day began at 9 for lessons until 12; at 1 to 5 guard duty; from 6 to 9 guard duty; one afternoon a week off plus one evening; lessons were 5 days; pool guard duty 7 days. Last year my daughter received \$2.10/hr.

I am not complaining about the wages and neither are my daughters; but the wages are low considering the responsibility involved and the hours worked. I just wished to clarify their wage scale.

Sincerely, James McNab 8246 Neva Niles

HOW SAFE IS YOUR HOME? #1

The group of people who started the National Society for Crippled Children and Adults deserve our praise and thanks. By their efforts, the less fortunate are enjoying a better life. Their programs have helped in alleviating the stigma and superstitions associated with physical impairments. In 1968 the Easter Seal Society joined the National Safety Council in launching a safety campaign aimed at eliminating hazards in the home.

Twice as many disabling injuries occur at home than on our highways. In 1968 more than 4 1/2 million people were injured at home; over 30,000 of whom died, many in preventable accidents. Approximately 130,000 suffered some form of permanent damage; a great number of them will ask the society for help.

MG Legion Receives Endorsements of Dist. 219 Support

After publication in this newspaper of the resolution which was passed by the Morton Grove Post #134 of the American Legion supporting the School District #219 Board of Education in the enforcement of policies established to guarantee a quality education for all students attending the Niles Township High Schools and recommending that a continuing program be instituted at the Township High Schools to impart knowledge and respect towards our country's leaders, our flag and the country itself, much favorable response was received by the Legion Post.

First to agree were neighboring Legion Posts, Skokie Post #320 and Lincolnwood Post #1226 sent endorsements seconding this resolution through their commanders, Donald Demstad and Richard Rossi respectively.

Post #134 was concerned that facilities of the buildings provided for the education of our children were made available to students for use in disseminating literature far from the field of secondary education. As a

taxpaying organization, they deplored the recent incidents which occurred at the high schools and placed an ad in this newspaper to call these facts to the communities' attention, in the Niles Twp. area.

Retiring commander Al Nehart and adjutant Howard Karsten who signed the resolution passed at a regularly convened meeting report many phone calls giving resident support, sanc-

tion and encouragement in this project. Callers included educators, parents and other categories of individuals in the township area.

Nehart indicates that unsolicited financial donations were also received in the mail from local businessmen who wanted to help defray the cost of the advertisement and assist in this manner. The post is sincerely grateful.

ST. Martha's Golf Tourney

The St. Martha Church in Morton Grove will hold their annual golf outing this year on Saturday, Sept. 19th. Once again, as they have in the past, the dinner - dance where trophies will be awarded is to be held on a different day. This event is scheduled for Sat., Sept. 26.

The Men's Club feel that golfers are more at ease when they do not have to rush to complete their day and return for their non-golfing wives for an evening dinner; and for those who do not have a second car or do not drive, it has always been a difficulty to arrive at the country club in time if their husbands had a late tee off.

Vic Faraci, president of the Catholic Church's men's group, announces the dinner-dance is

set for the beautiful Chateau Royale in Chicago.

The golfing, the previous weekend, will take place at the lovely Four Winds Country Club in Mundelein.

Faraci says teens are especially invited, and this means the gals, too. Older "gals" are also encouraged to get together a foursome or play with their husbands if they both so desire.

Congratulations

A boy, Derek Holt, was born to Mr. and Mrs. Paul A. Wood, Jr., 9660 N. Golf tr., Des Plaines, on Aug. 25. The baby weighed 8 lb.

The combination earned a very beautiful trophy, which was presented to the "MacCleen's Team."

Pack 83

plans for a fun year are ahead. The first pack meeting will be held Sept. 28, at the Northwest Suburban Temple, where 56 new boys will be Bobcated.

Webelos Days, a week-end outdoor camping event for Webelos cub scouts and dads, was held July 18 and 19 at the Northwest Suburban Council Boy Scout Camp Napowan, Wild Rose, Wis.

Over 170 fathers and sons attended and the ten year old boys participated in competitive events, scoutcraft demonstrations and outdoor projects. Webelos Day introduced dads and sons to the outdoor program of the boy scout troop.

Chairman Ed Wades, 1317 Carol, had a group of scout commissioners including Jerry Anderson, 7449 N. Waukegan Rd., Niles; Les Milligan, 504N. Rose; Norb Harz, 123 S. Home; Dick and Dave Smaus, 729 S. Maine Ridge

The Maine Ridge district of the Northwest Suburban council of the boy scouts reports a 10.5 per cent increase in membership on June 30 compared with a year ago.

John Breen, 7258 Greenleaf, reported that the district, which is composed mainly of Niles and Park Ridge, had 2062 boys registered in 26 packs, 23 troops and eight explorer posts.

"In Niles," Breen added, "there are seven sponsoring institutions have 10 packs, six troops and three explorer posts. Some of these religious, school and civic groups have used scouting as part of their youth program for over 25 years, and are doing a fine job."

"Scouting's volunteer leaders, over 700 in our district, make it possible for boys to take part in cubbing, scouting and exploring, which is keyed to the world of today," Breen said, "and we're proud of the number of adults who have completed volunteer training."

Cubbing is for boys 8 thru 10; boy scouting for boys from 11 thru 17; and exploring for high school age boys.

Awarded Order Of Arrow

Order of the Arrow, a brotherhood of scout and scouter honor campers, recently had the ordeal and induction of new members at Camp Dan Beard.

Fifty seven boys and 14 adults from Niles and Park Ridge became members of the Maine Ridge chapter, Lakota Lodge, O.A. These scout campers best exemplify the scout oath and law, give cheerful service to others and maintain camping tradition and spirit.

The boys were nominated during the Spring by fellow troop members while the troop committee chose the adults. The scouts are registered and active in scouting and have 15 days and nights of scout camping within a two year period, six of which must be in long term camping. The adult leaders are men, who because of their job in scouting, will make the O.A. program more meaningful in the lives of the boys.

In Niles, St. Isaac Joques Catholic church troop 73 had 7 scouts and Niles Community church troop 62 had 6 scouts inducted.

Local Scouts Arrive at Ranch

We have 14 special phones for the handicapped.

The number isn't important. But the variety is. Because it means that more of our customers can use their telephones comfortably and conveniently.

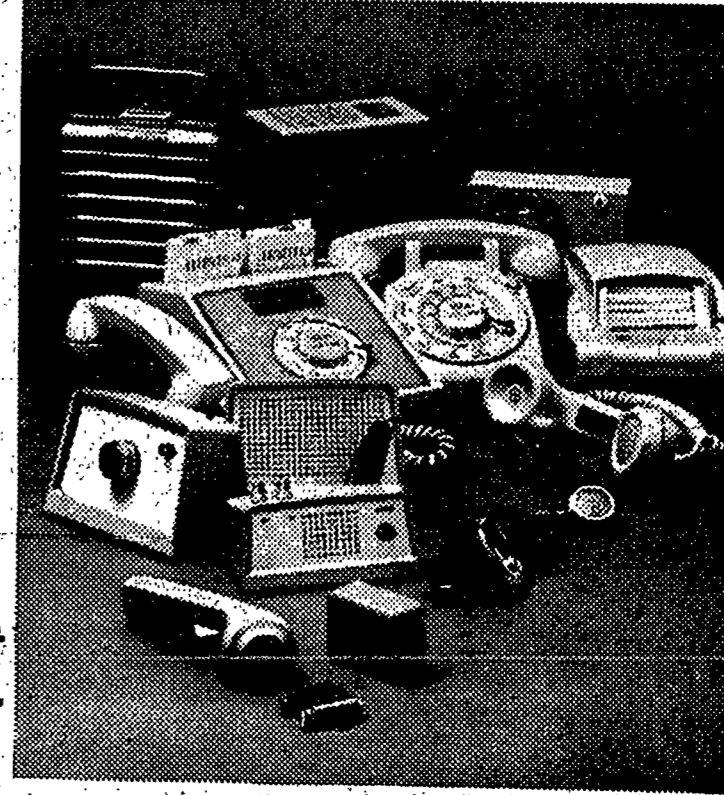

Illinois Bell has developed a wide range of special services and equipment to help handicapped people communicate.

We've designed phones with signals you can see to replace the telephone bell for the deaf... volume control phones for the hard-of-hearing... and even an electronic larynx which permits people with impaired vocal cords to talk over the telephone.

Some of our regular equipment—like speakerphones and automatic dialers—can help people who are blind, paralyzed or bedfast.

And if a customer has a special problem, our engineers will do their best to design special equipment.

But there are some problems we haven't even heard about. So if you know someone who has a physical handicap which interferes with his use of the phone, please call us at 727-4421. Or call collect from the suburbs. We want to help.  Illinois Bell

We're a lot more than just talk.

Nongraded Classes at Lutheran School

For years schools have been talking about instructional programs to meet the needs of all students. However, traditional education, with a curriculum planned for the average child, doesn't challenge the gifted student, frustrates the slower student, and frequently offers nothing significant to the so-called average student.

St. John Lutheran school, 7423 Milwaukee ave., Niles is doing something about this situation. They have revealed a new program for the 1970-71 school year. The program of continuous learning will make possible the adjusting of teaching and administrative procedures to meet differing social, mental, and physical capacities among children. It uses an organizational plan which eliminates grade levels, promotes flexible grouping and continuous progress and permits the utilization of meaningful individualized instruction.

Beginning on Sept. 8 the classes of reading and math in grades kindergarten through four will be approached on a nongraded level. The curriculum is planned in a series of levels, 1 through 10 for reading and 1 through 20 for math. Pupils are placed in groups wherein the children are as similar as possible in achievement. An outstanding feature of this flexible grouping system is that it abolishes repeating and skipping of grades, yet allows each child to work at all times at the instructional level which fits his educational foundation and mental maturity. Promotions from level to level will be made as they occur rather than in June of each year.

When asked the purpose of adopting the continuous learning program, Mr. Kober, the principal at St. John said, "The

program will provide an opportunity for every child to learn according to his own growth pattern. Each student will be able to establish a pattern of success in school experiences. The faster moving child will not have to mark time at artificial grade barriers while the slower moving child will be permitted to progress with satisfaction and success at his own rate. We firmly believe at St. John that each child should have the benefit of a curriculum adopted to his growth pattern."

The new program will be under careful guidance and evaluation of the dedicated teaching staff at St. John. It is hoped that students will free themselves to explore the resources of the school as well as their own resources as they assume responsibility for their own learning.

Each year the program will encompass another grade level until all 8 grades and kindergarten are included. It is also in the future plans to expand the program horizontally so that more subjects, in addition to reading and math are included.

Anyone wishing to learn more of this continuous learning program and the variety of other educational opportunities at St. John may contact Mr. Kober at the school or call 647-8132 or 692-6258.

It's mighty nice to know that the merchant you deal with is probably one of your own neighbors. You feel you can trust him and he is eager to maintain that trust. He is anxious to please you in a personal way — to give you quality products at the lowest possible price. "Yes," you'll say, "it really does pay to shop here at home!"

Exiting at Dempster Street I told Little Mother, "Look at it this way, 'You didn't lose a daughter, you gained a car.'" I thought it was kind of funny but she ignored the little morale booster.

When we arrived home the younger brigade peremptorily asked us 2 or 3 questions about "her school" and then reviewed the sprinkling fight they'd had, and lapsed into a finger-pointing battle over who did what to whom.

There's now 1 less finger-pointer at home... and we're going to miss her... but I realized as we sat down to dinner... it's only a matter of minutes before someone spills something. And I was right... and I suddenly had a lump in my throat.

Achievement Tests for Maine Seniors

Maine high school seniors will be given the Iowa Tests of Educational Development (ITED) on Wednesday morning, Sept. 16 at Maine East, Maine South and Maine West High schools. While the testing is in progress, a faculty workshop will be held at each school. Seniors will report at the usual opening time at their respective high schools and will be dismissed for the remainder of the day at noon. Freshmen, sophomores and juniors will not be in attendance in the morning. They will report at 12:15 p.m., attend home room and then proceed to afternoon classes.

A modified bus schedule will be in effect and students will be advised by their respective high schools of this schedule. Because of space problems and the time periods for testing, the cafeterias in the schools will not be open to the students on that day.

Each year since 1963, as part of its education program, the Maine Township High school district has administered the

ITED achievement test battery to all incoming freshmen. The tests are given again to students after they have been in high school 3 years. The areas covered in the ITED test battery are: social studies, natural science, English, Math and Vocabulary.

Three years later the same test is given to these students to evaluate, on an individual and group basis, the degree of growth that has taken place. Although individual student assessment is the primary value of this program, the school district itself can make certain judgments regarding its academic program by studying results of the tests. From available materials comparisons can be made on a national, state and regional basis.

The evidence as shown on previous test results indicates that the instruction being given at all 3 Maine high schools in the basic academic areas has maintained the high level of student competency shown by the incoming freshmen.

The book could not have been presented had it not been for the advertisers. Mc Tier said, "They made this the actual reality it is. But we cannot forget the Lions and Rotary clubs for their solicitation crews who sold the space."

Concluding the representatives of the Committee added that they were grateful to the various organizations who sponsored events for the Diamond Jubilee Committee and to the club representatives who attended the Jubilee meetings as the Planning Board Committee and were the liaison with their groups and a big vote of thanks also to the Park Dist.'s Senior Citizens who made the beautiful DJ pennant.

The Niles Twp. high school band was in for praise also for their participation at a summer activity.

"We hope we have not forgotten anyone; but many helped in a variety of ways," Mc Tier said.

Chrysler Corporation was turned down in its desire to build its Milwaukee Avenue building with 60% masonry rather than conform to the village's 100% requirement. After the unanimous rejection Tr. Dick Gruenwald suggested this part of the code be reviewed, in turning the Chrysler agency down officials pointed out the building was on Milwaukee Avenue, Niles front yard, and the village is interested in beautifying the street, retaining its high standards.

Tr. Pesole recommended all restaurants be placed under special use zoning and must seek zoning board approval before coming before the village board.

New trustee Ralph East reported a meeting between the Youth Council and the Family Service Council will meet Wednesday, Sept. 10 regarding drug problems in the community.

Niles approved a resolution the federal government send the official census to the village as quickly as possible. Officials were concerned with the drop of 1,100 persons in the census from the 1967 census. Manager Ken Scheel said he thought residents might not have included children which are away at school. Trustees said the only course of action to consider is a new census in 1971. Niles receives Motor Fuel Tax money based on the head count from the last census. The village receives about \$6 per resident, which means the 1,100 drop represents an annual loss of \$6,600 for money for street improvements. Scheel estimated Niles added about 1100 to 1300 new residents by annexation though the census figures are based on residents prior to April.
