Buglenotes:

It was state representative Tony Scariano who pushed thru the public-right-to-know statute which forbids public officials from going behind closed doors when discussing the public's business. It is the intent of the law in a democratic society the give and take of public discussion by elected officials is in itself a check against the abuse of power. Rather than hide any dirty linen from the public, Scariano's statute implies the business of elected public officials must air the public's business in front of the public. Two exceptions are allowed. If the discussion concerns the hiring or firing of employees, or the acquisition of property, elected officials can then go into "executive session". There are no other exceptions. This is the way the ballgame is to be played within the borders of Illinois.

The underlying philosophy behind the law is the public can best decide on a given issue if they're informed about what confronts public bodies.

Unfortunately, there's one set of rules for the ball game and another set for the way it is played. And in most public bodies pre-meetings, post-meetings, and executive sessions are a way of life.

Niles Village board holds pre-meetings. Niles park board holds the record for executive sessions. And now, our new town, Wheeling, seems to like the idea of holding closed-door sessions. Not to be outdone, the town which prides itself on economy in government, Morton Grove, also has had a past propensity for public officials meeting outside the public eye.

We'd like to say that great bastion of journalists, who defend the public's right to know, are out there battling the arrogance of public officials over this issue. But the milquetoasts, milksaps, and other wishy washy souls, who are little more than newspaper stenographers, never raise their voices at the meetings we attend. And since the public seldom attends public meetings, there's no one around to blow the whistle on the closed-session-guys.

For old-time Bugle readers there's little new in these comments. But it's now Tuesday at noontime, and it's a lousy day, wet and Londonish, and sort of blue funkish, and I thought you might like to share this first snowy day by helping me vent some spleen on an old pet peeve.

Sunday night a lady from Morton Grove said her group was instituting a get-out-the-18-21 young people to register to vote. She said it was their intent to parade around town and let young people know, during their holiday breaks, they can register at the village hall. She reminded us college students living out-of-state cannot vote for Illinois offices if they register in their out of state college towns.

Registration for 18 Year Olds

Village Clerk Frank C. Wagner, Jr. announces that the Village will conduct a special registration for those who are 18 years of age and older on Saturday, Nov. 27, from 8:30 a.m. until 2 p.m. at the Administrative Building, 7601 Milwaukee ave. This date was chosen as many of our college youth will be home for the Thanksgiving holidays and it will afford them the opportunity of registering for the upcoming elections. Clerk Wagner also announces that to assist those residents who have not registered, or have had a name or address change, that the Village will hold voting registration the evening of Nov. 19 from 7 p.m. until 9 p.m. at the Administration Building.

The new laws concerning voter registration are now in effect and they are that anyone over the age of 18 who has resided in the state for 6 months or longer and has resided in the Village of Niles for 30 days or longer is eligible to register. Any questions you may have can be answered by calling 967-6100.

Blase Criticizes GOP Tax Plan

Mayor Nicholas Blase of Niles, whose law suit challenges the system for financing education in Illinois, criticized the GOP tax reform plan regarding the abolition of the personal property tax. Blase stated that of the 300 million dollars in personal property taxes presently collected, 80% of it comes from corporations. According to the GOP reform measure, the revenue eliminated every year from personal property taxes would be made up by a new "Illinois local property tax replacement fund." This fund would be financed by using the income tax. It should be noted that of all the state income taxes collected in Illinois, 80% of those taxes come from individuals.

Therefore, what the Republicans are proposing is replacing the personal property taxes, 80% which comes from corporations, with the income tax, 80% which comes from individuals. Obviously again favoring the corporation to the harm of the individual taxpayer.

If the personal property tax is to be eliminated there must be a substitute franchise income tax on corporations in order not to lose the money that they pay now through personal property taxes. We cannot keep favoring bigger interests to the detriment of the middle income wage earner.

BINGO! NILES COPS WANT IN ON THE ACTION

Bingo-in-the-round may be coming to Niles and Niles Police men's Benevolent Association may be sponsoring the program. At Tuesday night's village board meeting trustees postponed action until they studied the request from the NPBA. While the plans are only in the talking stage the proposal would include bingo-playing every Monday night, with the possible use of the Mill Run Theatre as the locale for the games. Recent state law has approved bingo, and groups throughout the state are standing in line to pay the \$200 state fee. While it has been rumored a local church group, veterans organization and high school may also have applied for licenses no formal announcement has been made.

One question which has to be resolved is the location of the games. While the Mill Run Theatre may be available for one night's games it was suggested only a non-profit building can be used. Thus, church, school and veterans halls would be the most common building for the project. Inflated estimates contend the bingo games are big money makers. In Buffalo Grove the fire department is conducting games and the revenue to be used for a new fire station.

In other actions representatives from Super City Shopping Center requested permission to apply for a state license does not require village approval, but the police benevolent association is affiliated with the village and it is believed they should receive trustee approval before proceeding with their application for the state license. According to one policeman

It's almost curtain time and the 50 participants of the Niles Top Talent Show are busy polishing up their acts and learning their lines, songs and dances. Sponsored by the Niles Youth Commission with Committee Chairman Sydney Mitchell and Committee members Ambrose Panico and Cynthia Spaeth, this year's show is being produced by Phyllis Peterson and the Jefferson Theatrical Society. Twelve acts won the talent auditions and will be competing for the 3 cash prizes. All participants are eligible for the Fine Arts Scholarship which will be awarded the night of the show.

Sunday, Nov. 21, at 6:30 p.m., the final product of the weeks of rehearsals can be seen at the Niles Elementary school North, 6921 W. Oakton st. Tickets are \$1 for adults and 50¢ for children and are available from any Niles Youth Commissioner, participants of the show or the Niles Administration Building.

Select Site for Oakton College's Permanent Campus

Trustees of Oakton Community college have selected the site of the old, former Dempster Golf Course in Niles as the location of the college's permanent campus.

The 105-acre site, which uniquely is located almost at the center of Junior College District 535, is approximately 8800 north and 8400 west. It's generally bounded by Dempster on the north, Cumberland on the west, an elementary and a junior high school on the south and a cemetery on the east.

Selection of the Dempster st. site was approved in a resolution approved unanimously by Oakton Community college trustees at a special meeting Tuesday night, Nov. 9.

In the resolution, trustees also directed Dr. William A. Koehnline, president of Oakton Community college, to appear before the Illinois Junior College Board and seek to obtain state approval to proceed with acquisition.

Approval of the state board is necessary because under the Illinois junior college law the state will pay 75 per cent of the costs and therefore imposes rigid requirements pertaining to location, accessibility, and space adequate for not only the college's present needs but also the college's future growth.

Dr. Koehnline said he plans to appear before the Illinois Junior College Board this Friday, Nov. 12, to discuss the distinct advantages of the Dempster st. site and to request approval for acquisition.

He added he expects immediate approval because the proposed site represents "one of the best possible locations available to any community college district in the state and meets every state requirement."

"Being centrally located, it's equally convenient to the residents of both Niles and Maine townships, which comprise our junior college district," said Dr. Koehnline.

"It's easily accessible by 3 major thoroughfares — Dempster, Oakton, and Milwaukee ave., — which will keep traffic away from nearby neighborhood streets."

"Although a campus of 105 acres will be substantially smaller than the average of other nearby junior colleges, we believe it will be adequate to meet all our future educational needs, to provide for complete off-street parking and still maintain desirable open space."

Dr. Koehnline noted that the average size of seven nearby junior colleges in northern Illinois is 185 acres, compared to the 105-acre campus site proposed for Oakton Community college.

These junior colleges and their campus sizes are DuPage, 273 acres; Triton, 86; Elgin, 100; Harper, 170; Prairie State, 119; Joliet, 368; and Lake County, 183.

Oakton Community college, one of the fastest-growing educational institutions in the nation, opened its doors last year in temporary leased quarters consisting of remodeled factory buildings at 7900 N. Nagle just off Oakton st. in Morton Grove.

First-year enrollment was 832 students. The enrollment figure has almost tripled for the current school year to more than 2,300, is expected to almost double next year to more than 4,000 students and to peak out

at more than 7,000 in the 1979-80 school year.

Oakton Community college's limited temporary space and mushrooming student population are posing a number of problems. The college already is operating 14 hours a day four days a week — from 8 a.m. till 10 p.m., Monday through Thursday — in addition to classes from 8 a.m. to 5 p.m. Fridays, and 9 a.m. till noon Saturdays.

For the number of junior college students this district is expected to have by 1979, the state would pay 75 per cent of the costs of a campus as large as 200 acres.

Oakton Community college trustees, however, felt that a campus this large would be both "impractical" for this area and an "unnecessary luxury."

Milton Falkoff, chairman of the board, said it would be "impractical" because of the scarcity of undeveloped land in this highly developed district, and would be a "luxury" in view of the relatively high prevailing prices of land.

"We believe that the proposed 105 acres off Dempster st. will be completely adequate and definitely much less costly to acquire than an unnecessarily larger site," Falkoff said. "Why pay for something you don't really need."

Selection of the Dempster st. site represents the culmination of more than two years of study and research by a team of experts headed by Trustees Griffith MacDonald and Paul Gilson, who also is secretary of the board.

After an independent review of this committee's work, Trustee Stephen J. Loska, who became new chairman of the site selection committee earlier this year, concurred in the findings and joined in recommending the Dempster st. site to the Oakton Community college board.

If the Illinois Junior College Board approves the site, Oakton Community college trustees will then consider taking action to purchase the land.

Although trustees have the results of preliminary expert appraisals of the Dempster st. site, no figures were made public to protect this district's interests in pending negotiations for the land or in condemnation proceedings, if they become necessary.

St. John Lutheran Anniversary Sunday

On Sunday evening, Nov. 14, at 7 p.m., there will be an anniversary celebration at St. John Lutheran church of Niles, 7423 N. Milwaukee ave. We invite our friends and neighbors to join with us that evening to commemorate the seventh anniversary of the re-building of our church after the fire destroyed the former church in 1959. The speaker will be the former pastor, Rev. Martin Behling, who went through that harrowing experience with the congregation, and the trying period of adjustment and rebuilding. The organist will be Gerhardt Schmel, who was organist and school principal at that time, and is now semi-retired in Wis-

consin. He is also pictured in photo above. Special choral music will be provided by the choir of Concordia Teachers' college, River Forest. Slides of the fire and rebuilding will be shown after the service, and refreshments will be served by the ladies in the gym after the service. A successful anniversary attendance can be one way of showing our appreciation for our present house of worship, and God's gift of religious freedom in our country. Please join us, won't you? Pastor Behling has chosen a passage from Joshua 4: verse 5-7, and his theme is "What Do You Mean By These Stones?"

If students still desire to register for the Dec. 4 College Entrance Examination Board tests, either S.A.T., or Achievement, they may still do so, but they

plication blank information is available in the Guidance Center. Students are advised to consult with Mr. Honn or their assigned counselor as to which achievement test is required. Achievement tests may also be taken on Jan. 8.

Thirty-nine members of Notre Dame High school's award winning high school student band presented a program of contemporary music at the opening ceremonies of the 1971 National Plastics Exposition, held at Chicago's McCormick place on Nov. 1. The Exposition was sponsored by the Society of the Plastics Industry. The band played marches, tunes from the current Broadway show "Jesus Christ, Superstar," and a variety of music for athletic event pep rallies. The band was conducted by Don Tolosko of Glenview, and Gregory Mullen, Assistant Director.

build additional stores in their Harlem-Dempster area. It was stated the excessive amount of parking there makes the center too costly for the developer. A Mr. Hochberg stated the 365 parking spaces are too many for the present stores. Plans, approved by the zoning board, would call for additional stores on a northwest wing of the present building, as well as a single store east of Sav Mor Drugs and a possible corner store 30 feet from the intersection which could be used for a restaurant. A parking study by the village will be made this week before final action is taken.

In the first action of the evening junior high essay winners were public officials for a night as they took over the seats of Niles officials. Reports from each of the trustees and department heads were read and approved by the "elected" officials.

..... Bicycle paths will be identified by street stripes.

..... Alley vacations in the NICO area were approved and Jonquill Terrace vacations will be considered.

If you haven't received yours by Dec. 1, please call 967-6100 and another will be sent you. This drum-beating for the younger voters is an excellent idea and would be a worthy project in all our communities.

While sitting alongside the drum-beater Sunday night we were sharing coffee with Dan Walker, who is attempting to upset the Democratic machine in his bid for the governor's chair. We were present at the 18th coffee Walker attended Sunday. The hour was past 2100 and he said he still had 2 more meetings before he would call it a night.

Walker's a tall, athletic man. He's definitely North Shorish, with a North Shore wife who treks alongside him, with all the poise and class that goes with this Kennedy-like set. Despite the 18 other meetings Sunday they introduced themselves to each one of the coffee drinkers in our room, warmly shook hands, and really gave each handshaker their full attention. Some months ago we met Chuck Percy in Lincolnwood, and these people must all go to the same school. Like Walker, when he grabbed your hand he gave 100% attention for the brief flurry of talk surrounding the introduction.

Walker, like most of us, is really just another guy. Oh, he was valedictorian of his high school class, and he received an appointment to Annapolis, and he was a law clerk to Chief Justice Vinson, after graduating from Northwestern's law school, and a few other credentials which filled three pages of double-spaced 8x11 pages. But he's just one of the boys.

While we all like to say Horatio Alger is still alive and kicking in the U.S.A., nevertheless, knowing there's hundreds of Walkers and Percys and Stevensons roaming around this country, gives you a confidence there are many extremely able people in government. Borrowing a teen phrase, there's an echelon of Americans "who've got it all together" and Sunday night we met one of them.

Niles trustee "Ang" Marcheschi was radio station WAIT's "businessman of the day" last week. He was cited for his civic efforts including his great work as state chairman of the Lions Candy Day.

A second Nilesite, Richard Troy, village attorney, announced he is running for attorney general in Illinois. Being a village attorney in Niles seems to be a sure-fire step toward higher positions. Former Wheeling resident Walter Dahl, was Niles attorney before eventually becoming a circuit court judge. Jim Geocaris, followed Dahl and is another member of the bench. And now comes Mr. Troy, out of the same law firm as Geocaris.

Senior law partner Angelo Geocaris is heading the Illinois group supporting Senator Muskie. There's plenty of steps toward the top of the political machine here for the County Democrats, and the name Geocaris seems to be the key for many of these high steppers.

PET CIRCLE

Ear Cropping

On Thursday, Oct. 28, Kricker, our 8 week old Great Dane puppy, had her ears cropped. For the both of us it was quite an experience, one of which I will not soon forget.

I arrived at Stresser Animal hospital about 10:30 a.m., that morning with Kricker. When we arrived the doctor was busy with some Schnauzer pups. We were told to please take a chair, as the doctor would be with us shortly. About 15 minutes later one of the doctor's assistants called out our name and asked

us to follow him to the room where the cropping would take place. Off we went to meet Dr. Stresser.

The Stresser Animal hospital was started by Dr. Stresser's father in 1891. At that time the older doctor treated only horses, as taking care of dogs at that time was not done. The horse was a beast of burden and had to be taken care of, as most of them were used by the people in their businesses.

In 1925 the senior doctor stopped treating the horse and started to concentrate on the dog. It became quite fashionable to take a pet or working dog to the veterinarian. Dr. Stresser then became a licensed veterinarian. He worked at this job for several years before he decided to just specialize in the cropping of ears. He told me he has been cropping ears since 1935. He also claims to have done over 100,000 ears in that period.

Surgery takes about one-half hour as he works quickly and with confidence. I got the impression that he could do the job with his eyes closed if he had to. The first thing I had to do was sign a release giving him permission to crop Kricker's ears. After that he weighed her. Then he gave her an injection of Pentobarbital Sodium, and in a matter of 10 seconds, off to dreamland. Then they shaved her ears void of hair and cleaned them with alcohol, from the inside to outside, from the back to the front tip. After he cleaned them he took a colored pencil and outlined the inside of her ears showing how the ear would be cropped.

After doing this he took a very sharp scissor and cut the ear along the pattern he drew. Then he cleaned the ear and tied off the arteries. Laying the cut piece of ear on the uncut one, he cut that ear the same way, again tying the arteries off making sure there was no hemorrhage. He then started to stitch the cropped ears. At this point the doctor stopped to tell me people should have the ears cropped when the puppy is young, usually by 6 weeks. The older the puppy the

harder it is for them and the longer it takes for the ears to heal.

The doctor will not do a Dane or Doh, over three months of age. He also suggests if it's at all possible try to purchase a puppy who has had his ears cropped already as it spares the new owner the fear and worry of having to have his puppy's ears cropped. Puppies come to Dr. Stresser from all over the country to have their ears done. At one time he even took puppies which were shipped in by air but he stopped doing this because it got to be too much for him.

Making sure the ears are immaculate he then dusts them with a medicated powder and wipes the ear with ether. Then taking cement glue he paints the inside of the whole ear. Using a hand hair dryer he blows the cement till it dries and stiffens the ear. He then takes tape and applies it to the inside of the ear going all the way to the tip of it. This keeps the ear from shrinking and keeps the ear in place. Laying gauze over the ears and putting powdered tape to hold them in place, he places a bandage over the ears and the head. This bandage looks just like a head band, and completely covers everything. The dog is then placed in a blanket you have brought from home, wrapped up and taken home, to be placed in a dark, warm corner to sleep off the Pentobarbital sodium.

Maine East Basketball

by Jim Brosnan

With great expectations Maine East loyalists await the upcoming basketball season. Last year's record of 11 wins and 13 losses was Maine East's best record in 7 years.

However, in the tough West Suburban Conference the eager record was only 4-10. Frosh-soph Coach Craig Schafer surmised, "In any other conference last year's record could have been reversed entirely."

He added that next year's shift to the Central Suburban Conference will help the Demons considerably. The new conference

will be composed of the four Maine schools: Niles West, East, and North; Glenbrook North and South; Deerfield; New Trier West; and Highland Park.

Pioneer interviewed Paul McClelland, who is in his second year as varsity coach. Coach McClelland stated that the team shows promise, but "teams will be keying on our big offensive weapon Mark Bondeson." He added that outside shooting must improve to "give Bondeson a chance to maneuver underneath."

The varsity squad boasts a fine group of juniors and one sophomore, Bill Costanzo, Greg Ma-

loney, John Wolff, Jim Croner, and Bob Lloyd had a junior class that was the freshman conference champ in 1969. Those boys in front for starting positions include returning lettermen Bondeson, Al Nakas, Russ Anderson, and seniors Mike McDonnell and Mike Faden.

Of the sophomore, Keith Larson, Coach McClelland remarked, "Keith's potential is great. He has a fine shot and is an all around good ball player. I am glad that I have him in my future of head coach at Maine East."

When asked what comparison there is between this year's and last year's team, Coach McClelland replied, "We have lost conference leading scorer Dale Deschamps, and, well, how do you replace him? But we will be steadier this year and do have a shot at the title."

Maine East is ranked second in the West Suburban Conference, next to Hinsdale Central, from a coaches' pre-season poll. York and LaGrange are ranked third and fourth, respectively. Defending champ in West Suburban Conference competition, LaGrange, is in a rebuilding process after losing all of their top players.

Frosh-soph Coach Schafer said that his team has potential and a fine crop of ball players. "Ron Parker, Dale Constantino, Greg Hemming, and Mike Cohen head a group of boys who have come to play basketball and work hard at it."

Mr. Dale Manning, varsity assistant last year, will coach the freshmen, whose tryouts will begin Monday, Nov. 8.

Football Results

by Jim Fujimoto

Imagine how David felt upon confronting Goliath. Maine East faced an opponent of similar magnitude in Hinsdale Central, the West Suburban Conference leader. Only this time, the underdog got killed. The Demons were soundly beaten by the Red Devils, 47-3.

Hinsdale won its previous two games by scores of 49-0 and 64-0. So the outlook for Maine East was not promising. The Red Devils did nothing to help this situation either, with their first play from scrimmage resulting in a 76 yard touchdown pass from quarterback Jim Flynn to halfback Bob Hardig.

On the next series the Demons, with senior Mike Strand starting at quarterback in place of the injured Greg Maloney, were unable to move the football and punted. Hinsdale proceeded to march 74 yards to paydirt. Hardig ended the drive with a 7 yard run to make the score 15-0.

Maine could not get their offense in gear and had to punt again. The Red Devils sustained another march of 67 yards which culminated in a 24 yard touchdown for Hardig's third score of the quarter. In 12 minutes Hinsdale had rolled up a total offense of 222 yards.

Maine finally got going in the second period. Strand scampered 11 yards for the Demons' initial first down. Mike Kan kept the drive alive with another first down on fourth and five. But Maine was

unable to dent the stingy Red Devil defense for any more yardage and Bruce Hoefnagel once again had to kick the ball away.

Hinsdale, meanwhile, tallied twice more on a 55 yard touchdown pass from Flynn to stand-out end Pete Byisma and a one yard plunge by (who else) Hardig. The score at half was Red Devils 22, Demons 0. Hinsdale displayed a devastating offense that rolled over Maine for 337 yards. The Demons, on the other hand, could muster only 32.

Maine fumbled the ball away to open the third quarter. The Red Devils then went 73 yards in 11 plays as halfback Kim Suchy rushed 10 yards for the score. The Demons got on the board late in the period. When a drive stalled, Hoefnagel was called in for only his second field goal attempt of the year. The kick was good from 35 yards out to make the score 41-3. But by this time, Hinsdale had already put the game away, and both teams were employing their second string line-ups.

The fourth period became a matter of running out the clock on the part of the Red Devils, rather than running up the score. They tallied once on a two yard run by halfback Paul Watt. Maine did not pose any kind of threat, though, and the game ended with Hinsdale on top, 47-3.

So the West Suburban title will be decided next week when Hinsdale (6-0) meets Downers Grove North (5-1). For Maine East, it will be their last and perhaps best shot at a victory this season.

Soccer Results

by Howard Johnson

Maine East's varsity soccer team has apparently regained its early season form, as was evident in two recent victories over Maine West and LaGrange.

After subduing West by a 2-1 margin, the Demons outplayed LaGrange in a well-played, 1-0 victory.

The aggressive Demons took the field against Maine West with no intentions of losing the ball-game. The fired-up players from East applied the pressure to their opponents right off the bat. Somehow the Maine West defense was able to keep the Demons off the scoreboard until East was awarded a penalty kick, which came after a Maine East player was tripped in the area right off the goal crease. Mike Strahler converted the opportunity into a goal, and the Demons led by an insecure, 1-0 margin.

This slight lead did not hold up for long, as a Maine West forward successfully deflected a pass from his left winger out of the reach of the diving Demon goaltender, to tie the score at 1-1.

The Demons were not about to settle for a tie, as they came back with everything they had. The pressure paid off late in the fourth quarter, when they pushed across the winning goal, thanks to the efforts of Bill Lin-

den. Linden took a pass from Jerry Marcus and worked his way into position, before releasing a blistering shot that caught the Maine West goalie off guard.

Naturally the Demons acquired a good deal of self-confidence from this victory, and with their newly acquired outlook, they took on their opponents from LaGrange. Maine East outclassed and outthrust the LaGrange squad throughout the game, and the team was rewarded with a well-earned 1-0 triumph.

Although Maine kept LaGrange bottled up in its own half of the field for most of the game, they failed to score a goal until the fading moments of the fourth quarter. The Demons had many near misses at the winning goal, but they were constantly being thwarted by one means or another. Several attempts for a goal were stopped by the LaGrange defense, while other chances took bad bounces off the goalposts. Finally, with only several minutes remaining in the game, Bill Linden played the hero again, as he scored the winning goal for the second game in a row.

Linden's constant hustle was an important factor in this goal, since he had to fight an opponent for the pass from teammate Russ Anderson, before placing the shot over a mass of players and into the LaGrange net.

Cross Country Results

by Bill Wilson

The varsity cross country team began winding up their season on Saturday, Oct. 23, as they finished second place in their final West Suburban Conference meet. The Demons turned in a score of 53 points, while the champion York team had 44 points. Riverside-Brookfield finished third with a score of 67, and fourth went to Proviso, who had 73 points.

Maine East's top finisher was Rick Phalen, who led off and on throughout the whole race but finished second with a time of 13:15, beaten only by Jim Hurt of Proviso, with a winning time of 13:11.5, a conference record. Our pack finished as follows: John Lovasz was ninth, Mike Seifert was eleventh, and Gary Marshak ended twelfth. Our fifth man was Pat Moyer, taking nineteenth.

York's team ran a very good race, taking fourth, seventh, eighth, tenth, and fifteenth; this was their second W.S.C. championship in four years.

In the district meet, the second of four increasingly important races, our harriers ran for a winning score of 60 points, beating second place Notre Dame by 48 points. The other three qualifying teams for the sectional meet were Maine West (120 points), Elk Grove (130 points), and Forest View (131 points).

John Lovasz finished fifth as Maine East's first place score; Mike Seifert was sixth; and our pack ended with Gary Marshak at 14, Rick Phalen was 17, and Pat Moyer was 18. The individual winner was Dick Runtz of Notre Dame, finishing at 15:22. In addition to the top five teams, the top 10 individuals also qualified for the sectional meet, run on Oct. 30.

This, the semi-final run for the state finals, was one of the most demanding runs all year, for Crystal Lake's Veterans' Acres is almost entirely hills and forests, which is especially tiring to run. Here, our team also won, but by a larger and closer score.

Maine East had 73 points, where Forest View finished second with 83 points, and Fremd, state champs in 1969, was third with 98 points.

Saturday's first finisher for Maine East was Rick Phalen, who took fifth. Close behind was Mike Seifert at eighth place, followed by Gary Marshak, who was thirteenth. The scoring ended by Lovasz' 20th place finish and Moyer's 27 placing.

In other sectional races in the area, York, Lincoln-Way, Glenbard West, Proviso West, Riverside-Brookfield, and Morton East also qualified for the state finals. Including our team, five of eight W.S.C. teams will be running, proving how tough our conference actually is. Top teams to watch are Maine East, Proviso West, R-B, and York.

Coach John Coughlan also commented that Maine East is the only school in cross country history to have won two sectional championships.

On Oct. 25 at St. Patrick the Maine East frosh harriers finished sixth out of 22 schools with a total of 198 points. Oak Park was the winner.

York hosted a W.S.C. meet at La Grange on Oct. 23. The varsity harriers took second place with 53 points, and the frosh-soph were third with 63 points.

At Hinsdale Central on Oct. 19 the Maine East varsity won with 15-50 score, the frosh-soph won 15-49, and the frosh lost 32-23.

At the St. Ignace Invitational the freshman harriers took second place with 104 points out of 12 schools.

The panel of judges included: Michael Provenzano, Park Board Commissioner; Gerald Sullivan, Park Board Commissioner; Mrs. Karen Forzak, Art Instructor and Carol Chameriski, Children's Knitting Instructor. The judges had a very difficult time selecting first, second and third place winners in each category as all of the 800 costumed participants merited an award. Cash prizes were presented to the winners by Mrs. Sanford, Recreation Superintendent.

No one left the party empty handed as 1,000 taffy apples and donuts were given to the participants and spectators, compliments of the Niles Park District. It seemed that all in attendance had a good time, as smiles filled the faces of young and old alike.

LETTER TO THE EDITOR

Grateful for Niles North Meeting

Dear Editor:

On Oct. 8, Rev. Paul Bussert of St. John's Lutheran church in Niles addressed a group of freshmen at Niles North High school. His purpose was to present a viewpoint in opposition to the teaching of evolution as given in one of the freshman courses. His talk was followed by a Question and Answer period. Attendance at this session was completely voluntary, and it is a credit to the students that although it was standing room only, they were extremely attentive, interested and well-mannered.

There is a tendency today to concentrate on bad news and unpleasant events. Niles Township High School District 219 has had its share of bad publicity, and

we would like to publicly thank Niles North for making possible the Oct. 8 meeting. There are times when school teaching comes in conflict with home or religious teaching, and we commend Mr. Hosler and Mr. Tracy of Niles North Social Studies Department for giving the opportunity for presenting an opposing viewpoint on a delicate matter.

Because of the high student interest, we hope this becomes a regular occurrence, and we hope that Niles East and West consider a similar program.

Sincerely,
Tom Goebel

Mr. Lezak will describe the ACLU and present information on current cases in which it is involved. Such cases concern the issues of freedom of speech, the rights of prisoners, and the rights of persons in mental hospitals.

member of the ACLU and the Independent Voters of Illinois, and a member of the advisory board of the Montrose Urban Progress Center. It was his active involvement in civil liberties issues that led to his appointment as director of the organization in Illinois. Mr. Lezak has said "What is important to me is that the ACLU defends everyone — racists, socialists, integrationists, long hairs, short hairs. We are concerned with protecting everyone's rights."

Free Diabetes Blood Tests Being Offered

Nov. 14 thru 20, 1971 is National Diabetes week and the area hospitals in cooperation with the Diabetes Association of greater Chicago will give free blood sugar tests for diabetes during this time.

One person out of every 125 has diabetes that has not yet been detected. Detected early, diabetes can be controlled and a person can lead a productive, satisfying life.

Ron Sano, captain and third baseman for the Chicago Cubs is an example of the success a diabetic can achieve when his condition is under proper control. Detected early, when he was 18, Sano has had diabetes during his entire 12 year baseball career. Appointments for free blood sugar tests must be made in advance during the week of Nov. 7 by calling the following area hospitals which are participating in the program:

Lutheran General Hospital
7775 Dempster
Park Ridge, Ill. 60068

Resurrection Hospital
7405 Fairview Ave.
Chicago, Ill. 60631

Alexian Brothers Medical Center
800 W. Blesterfield rd.
Elk Grove Village, Ill. 60007

Diabetes now ranks 5th in the list of fatal diseases and is the 2nd leading cause of blindness. Those most likely to have diabetes are relatives of diabetics, and people who are over 40 and who are overweight, but anyone at

any age can have diabetes.

Everyone should be aware of the symptoms of diabetes — excessive thirst, frequent urination, constant hunger, loss of weight, tendency to tire easily, changes in vision, and slow healing of cuts and scratches.

Undetected and uncontrolled diabetes can be serious and everyone should be tested for diabetes once a year.

Hohs. . . . Continued from MG P.1 ter was received stating a traffic light will be installed on Oakton and Austin. Morton Grove will be responsible for the maintenance of this along with Skokie. David Cohen moved to approve this responsibility, but Martin Ashman moved to table the motion for two weeks till the Traffic and Safety Committee met. He said he wished to see if perhaps something could also be done about a signal of some kind on Menard. The board passed Ashman's motion. Martin Ashman said he and Gene Kennedy will review the financial situation of the Water Dept. shortly. He also reported water main leaks last week all of which have been repaired. Ed Brice read a letter from a doctor at the East Grove Medical Center thanking the police and Officer Pearson especially for their fine work in surveillance of that building. Mr. Brice also noted the receipt of several letters to the Fire Dept. from Cub Scouts and Girl Scouts and Boy Scouts thanking representatives of the Fire Dept. for the program they put on at pack meetings. Since Village Clerk McClory is to attend the Municipal Clerk's Seminar in Champaign on Nov. 16-17 David Cohen moved the board provide the necessary funds for this trip. The board carried this motion. Then Mr. Cohen stated all department heads should get their budget requests to Treasurer Kennedy before the first of the year. John Hilkin in noting the Beautification Committee has had its 25th meeting said he wished to give this group the credit they deserve for doing such a fine job. They have taken steps for tree planting in conjunction with the Beautification of Waukegan rd. a project scheduled for this spring. The committee has also developed a Special Service Award Certificate to be presented to all worthy businessmen, homeowners and scout groups. Dick Hohs said we will have to face up to the fact that many of our police detention facilities are outmoded and need improvement. These facilities were inspected and found lacking in the areas of heating, ventilation, security, etc. Improvements are to be made within three months time or these facilities may be closed. Trustee Hohs also said he attended a meeting of the Transportation Council where a bill was discussed concerning a Mass Transit District which would pay its members \$60,000 a year. Not many were in favor of this. Before the meeting was over Hohs again surprised board members by stating that he was shocked to find that nepotism existed in our village. I feel that it is wrong for department heads to hire the relatives of village officials because this leads to dissatisfaction among other employees of that department. "This should come to a stop," said Hohs.

 Dick Hohs said we will have to face up to the fact that many of our police detention facilities are outmoded and need improvement. These facilities were inspected and found lacking in the areas of heating, ventilation, security, etc. Improvements are to be made within three months time or these facilities may be closed. Trustee Hohs also said he attended a meeting of the Transportation Council where a bill was discussed concerning a Mass Transit District which would pay its members \$60,000 a year. Not many were in favor of this. Before the meeting was over Hohs again surprised board members by stating that he was shocked to find that nepotism existed in our village. I feel that it is wrong for department heads to hire the relatives of village officials because this leads to dissatisfaction among other employees of that department. "This should come to a stop," said Hohs.

Martin Ashman said he was also shocked when he heard that sons of some elected officials were hired for summer jobs. "I think we should have an investigation of all those hired by Morton Grove in the last 12 months, and in the future hiring be done by merit alone," said Ashman. David Cohen said he felt this was uncalled for and that you might as well look up all those who were hired in the last 12 years. He said he felt that if an individual were qualified and we get a fair day's work for a day's pay that is what should matter most. Ed Brice said, "My son always wanted to be a policeman here, but because I was on the board he was disqualified. For that reason when he got out of Rockford to get a policeman's job," Brice said "I think that this is a lot of hogwash. Why should someone be discriminated against just because they happen to be related to someone who is a village official."
