Dawn Coglianese cultural exchange student

Dawn Coglianese, daughter of Mr. & Mrs. Daniel Coglianese, Niles, has been selected by The Experiment in International Living to live abroad with a family in Mexico this summer. Dawn is currently a junior at Marillac High School, Northfield.

She is among more than 2,000 high school and college students who will travel abroad as members of The Experiment, one of the nation's oldest and most respected leaders in the field of international cross-cultural exchange.

Following a period of thorough and imaginative orientation and/or language training, an Experimenter travels to the country of his choice with 8 to 10 other young students from various parts of the United States. The group is accompanied by a highly qualified group leader or advisor who is often fluent in the host language and who has undergone extensive cross-cultural training under the guidance of The Experiment's national staff.

The Experimenter then resides for a period of one month as the "son" or "daughter" of a foreign host family. This "homestay" during which time the Experimenter shares the daily routine of his foreign parents, brothers and sisters, has been The Experiment's hallmark since its founding in 1932 and remains an integral part of all Experiment programs abroad.

Following the homestay, an Experimenter travels within the country, accompanied by members of his group and various members of the host families. Most Experiment summer programs are approximately two months in length.

The Experiment conducts a wide variety of international programs through a network of national offices in more than 50 countries around the globe. In addition to its summer programs abroad, The Experiment coordinates programs for more than 2,500 Experimenters arriving in the United States each year from 100 countries. It also operates semester-length independent study projects overseas for high school and college students and offers a large number of language training programs at its School for International Training in Brattleboro, Vermont.

Your Telephone Company Has It All

When your telephone company talks about complete communication, we're talking about more than a phone in the den or a kitchen extension. It's the things you don't see that make the difference between a phone that just rings and a communications system designed to meet your every need. Prompt service, comprehensive maintenance, highly trained technicians, and the latest communications advances are just a few of the benefits.

As part of the Centel System, your local phone company brings you all these things whether you have one telephone or one hundred. There's one thing you don't get...an extra charge for these services.

'A dream fulfilled'

Mayor of Niles Nicholas B. Blase has signed a Proclamation designating Sunday, June 30, as "Monsignor Flanagan Day" in the Village of Niles. Monsignor John Flanagan is the Founding Pastor of St. John Brebeuf Parish—a Catholic community of more than 3,000 families. Though remaining in residence, he is retiring as Pastor, effective July 1, 1974.

Monsignor Flanagan was ordained to the priesthood of the Archdiocese of Chicago by His Eminence George Cardinal Mundelein on April 11, 1931. His education was at Epiphany School, Quigley Prep Seminary, and St. Mary of the Lake Seminary in Mundelein. Before his appointment to Niles, he served as Associate Pastor at St. William's, Resurrection, and Our Lady of Solace Parishes in Chicago, and at St. Hugh's Parish in Lyons, Ill. On June 29, 1953, His Eminence Samuel Cardinal Stritch appointed Monsignor to form a new parish in the rapidly-expanding Village of Niles. Here, with a handful of families and some vacant property on Harlem ave., the life of the parish began, with St. John Brebeuf, one of the Jesuit North American martyrs, as its patron.

In that year, 1953, Monsignor Flanagan had a dream—a dream to build a city of love. Now, 21 years later to the date, that dream is being realized. He is spiritual leader of more than 3,000 families. The building and grounds of St. John Brebeuf Parish, on a 19

acre quadrangle campus, are dominated by the church building, dedicated in 1966, acclaimed an architectural gem, a simple, yet beautiful house of worship, an inspiring edifice of national and international reputation.

Under the spiritual leadership of Monsignor Flanagan, St. John Brebeuf Parish and the Village of Niles have grown together. With a school enrollment of over 1100 students in 36 classrooms, more than 15,000 Niles students have been educated in St. John Brebeuf School. The Parish's most famous event, the annual Festival, attracts some 6,000 members of the community. The contribution of parishioners to the Niles Blood Program is outstanding. The Peace parades have long been familiar to the people of Niles.

Monsignor Flanagan has served the church and community well. An appreciation party will be given for him on Sunday, June 30, at 6:30 p.m. in the school gymnasium at Harlem and Cleveland aves. in Niles. The St. John Brebeuf parishioners invite all residents of Niles to join them that evening in paying tribute to a priest who has given so much of himself that his dream might be fulfilled.

St. Luke's

Sunday, June 30, is Family Worship Day at St. Luke's United Church of Christ, 9233 Sherman rd., Morton Grove and the children of the Sunday School will join in the celebration of the 10 a.m. worship. A nursery will be available.

A Coffee-Family hour follows the celebration of worship each week.

P.E.C. Graduation

A "grown up" type ceremony will take place on Thursday, June 20, when the Preschool Educational Center, 9000 Home ave., Des Plaines, holds graduation ceremonies from 10 a.m. until noon at the Maine East High school, Dempster and Potter, Park Ridge.

The theme of "Let's Pretend" has been adopted for the occasion and the program will include songs, skits, etc., depicting a trip through fantasy land on the way to adulthood. The graduates will wear caps and receive diplomas. Refreshments will be served.

The five year old graduates will have completed the P.E.C. study program which is designed to develop the child's physical, emotional, intellectual and social growth. Students at P.E.C. are from two and one-half to five years of age.

Neuhardt retirement

This will be Mrs. Suzanne Neuhardt's last year at Maine East since she is retiring at the conclusion of this school year.

Although all 7 of her years at Maine East were spent as a librarian, this was not always her job. Before she came to Maine East, Mrs. Neuhardt had taught English and French in schools in New York and Pennsylvania.

Mrs. Neuhardt wants to travel after retirement. Her husband and she plan to go to Arizona and Colorado this September. They also have future plans to go to Hawaii and Jamaica.

Mrs. Neuhardt is a member of the Chicago Health Club and enjoys sewing and music as hobbies.

Niles Family Service Thought For The Week

By Stan Levi
LOSS OF SPOUSE = 2 - ?

Most people tend to view the loss of a spouse either by divorce, separation, death or incapacitating event as affecting the family equation by only removing one part. Unfortunately the loss has a profound and lasting effect on the entire family's functioning, particularly the remaining member who is left with the responsibility for the children. Just as a basketball team with only four players must dramatically alter its game plan, so too a family faces quite an adjustment when a parent is absent. Following a loss, every time an important decision is made a spouse is reminded of the absence of the missing spouse. All too often after a loss the remaining spouse feels a lasting burden of making up for the absent spouse, a pressure which tends to drive the remaining spouse to unrealistic goals particularly with the children, and adds to his or her already sometimes overwhelming feeling of loneliness.

I am emphasizing the loss of a spouse but with the important qualification that the remaining spouse need not feel driven to make up for the loss. Regardless of whatever guilt the remaining spouse may feel, that person can only give to the children to the best of her ability. The more he pushes himself to do what is actually unreasonable, the more he detracts from the best for the family. I'm reminded all too often when families come in with only one parent of the devastating effect a child's problem has on the parent responsible for him. The parent often feels that the burden that has been placed on him is unfair and impossible and the only way that he can deal with his circumstances is to try to please the child in every way possible. The net effect of this kind of adjustment often is to promote rather than prevent problems.

Just try to remember if you happen to be solely responsible for your family that you too have a right not only to get pleasure for yourself and enjoy your children, but also to expect that you cannot do everything for your children and not make up for your loss spouse. His or her memory is going to be with you and is going to always affect your memories of the family the way it was. Don't try to overcome that memory; rather, try to get used to its presence, and allow yourself the human experience of making mistakes.

Because of our concern about the pressures single parents feel, we are planning to offer a series of group discussions in September about the normal problems in being an only parent. If you would be interested in this group or have any suggestions about the topics for possible community wide groups, please call Niles Family Service, 966-1640.

Flynn: Candidates should disclose income

Dear Editor:

Throughout Illinois there is a cry for decent, honest Legislators and Congressmen. Watergate and its after-effects have deeply hurt the American citizen. The time is now for candidates for public office to operate in an open and decent manner towards their voters. The 4th Legislative has the opportunity to make itself a statewide model for income, campaign and sources of campaign contribution disclosures. The 4th District has the opportunity to make itself the statewide model for public debate and discussion of the issues before the voters. The question is will the other Republican and Democratic

candidates for the Legislature give the voters their just due? I, Tom Flynn, have released my income tax returns, made complete disclosure of my sources and amounts of campaign financing and am willing to sit down with messrs. Jaffe, Juckett and Schlickman and arrange a series of public discussions throughout the 4th District. I have written the incumbent Legislators a letter asking them to follow my proposals and suggestions. In my opinion, the voters are demanding this of the candidates, and if we are truly against the Watergate political philosophy of when you can't tell the truth then lie about it, we will meet before the public.

More power to the people

Dear Editor:

In December, 1973, a women's rights group sued the Illinois Liquor Control Commission demanding that liquor licenses of 9 private clubs be revoked because they were discriminating against women. The ramifications of that litigation are being felt and watched with interest.

However, of vital importance is that women's lib groups are learning how to fight. A good right hook to the pocket book can send a male chauvinist private club reeling and changing its ways.

E.R.A. Central is working hard to make public the pro or con positions of our assemblymen in regard to the Equal Rights Amendment. It isn't easy to educate men and some women to the value of this amendment for women have historically been programmed as inferior beings.

But soon women's groups are going to learn and practice techniques of political fighting that will bring changes—for the jugular vein is to be found near the pocket books of most males, and the voting record of most politicians. More power to the people—at least to those fifty% who are women.

MG Library adds to collection

Another addition to the Library's collection is the new edition of the Encyclopedia Britannica, which introduces an entirely new concept of encyclopedic information. There has been much publicity, both written and in other media, but patrons will want to see this 30-volume set for themselves. It answers questions on several levels, from quick reference to the research level. It is shelved in the Reference Room where patrons may examine and use it at their convenience, and where librarians on duty will be glad to help them with it.

A long-awaited book, The Gulag Archipelago by the exiled Soviet author, Alexander Solzhenitsyn, has been received by the Morton Grove Library and is ready for circulation. This book is an important milestone in publishing and for anyone who has followed the author's career or read any of his earlier books, all of which are available in the Library, this is "must" reading.

The earlier titles are One Day in the Life of Ivan Denisovich, Cancer Ward, August 1914, Candle in the Wind, The First Circle and The Love Girl and The Innocent.

At Thillens Stadium, the Orioles won their 6th game in a row edging the White Sox 4 to 2. Bob Michaels and Jim Kelly had 2 hits apiece and also drove in all 4 runs. Kurt Goebel and Jim Kelly shared pitching duties for the winners.

The White Sox came close in 2 ball games losing 8 to 6 to the Yankees and 7 to 6 to the Tigers.

The Red Sox took the Indians to task 15 to 7, with homers by Mike Biskis and Mark Cooper. Brian Baver hit a bases loaded triple. Mike Oswald doubled and Mike Ziegler tripled for the losers.

The Yankees and Red Sox slugged it out with the Yankees winning 20 to 19. Jim Sundblom had 3 for 4, as did Chris Wheeler while Dennis Callaghan had 3 for 5 and drove in Mike Baron with what proved the winning run in the 5th inning. Dave Rabin

In other actions at the meeting in which Trustee Richard Harezak acted as chairman pro tem in the absence of Mayor Blase, the final approval of the ordinance for rezoning the property at 8584 Dempster for Special Use as a sit down restaurant and pie house as requested by Oven Eze Foods, Inc. was held over until the next meeting after trustees Bast and Pesole voted negatively on the passage of the ordinance. Trustee Ang Marcheschi was also absent and due to lack of a quorum, the vote on the ordinance will be scheduled for the next meeting. Trustee Peter Pesole voiced his firm opinion that the village

should do something about "toughening up our zoning ordinance" to make the village less attractive to all the businesses who are seeking property in Niles for the purpose of opening new stores and restaurants. Pesole told the board he feels the appearance of the village is marred by so many new shopping centers, many of whom are having a problem with renting out their vacant stores. He cited Four Flags on Golf and Milwaukee as an example and also the new Shopper's Walk shopping center on Milwaukee ave. near Ballard rd. Now with the construction of Candlelight Courts on Oakton and Milwaukee, he felt the problem would only be compounded and consideration should be given to investigating the possibility of making the zoning restrictions for the village more stringent. Chairman Harezak suggested this motion be brought up at the next meeting and a committee be appointed with Pesole as chairman to investigate this problem.

Board okayed a four way stop sign at Keeney and Odell and also "No Parking" signs on Mulford. Niles Youth Commission and the members of the Girl's Softball teams were congratulated on their marathon last weekend which they played under adverse weather conditions for 55 hours. Final results were not available, but all profits realized would be given to the Julia Malloy School for Handicapped children.

A Diamond Jubilee souvenir booth will be set up outside the Administration Building at 7601 Milwaukee ave. to display and sell souvenirs of the Jubilee. Residents are invited to stop by and also to watch for the raving souvenir stand in the various shopping centers in the village. This stand will be at Jozwiak Park for the Contest Day on Sunday, June 30.

Martin Ashman listed the following tax receipts: 1973 property tax, \$1,208.67; March 1974 Sales Tax, \$67,239; State Income Tax for May of 1974, \$39,070.05; M.F.T. for May 1974, \$22,419.39.

Dave Cohen reported Richard Zembron, our Family Services Director had 7 referrals in May and has put in 57 1/2 hours that month. Cohen also said our Police Dept. has been working diligently on their Bicycle Safety Program which they take into the schools every year. The Traffic & Safety Committee recommended putting up a 4-way stop sign at Crain & Marmora. The board agreed.

It was announced the contract has been let for the striping of lanes at Ozark & Dempster including left turn lanes. The board also passed a motion to put up a 4-way stop sign at Main & Central and Keeney & Central. There will also be a 1-way stop sign put up at Monroe & Reba and Washington at Central. A 4-way stop sign will be installed at Lake & Marmora.

John Hilkin noted that in July, the Blood Drawing will be held on July 11 at the Julia Malloy School because of the July 4 holiday. Mr. Hilkin also said the Wells Mig. Co. hearings will probably be concluded before the end of summer, according to the Atty. General's office.

Mayor Bode said he received a letter from Alan Goldberg of the Plan Commission requesting the Plan Commission hold Public Hearings to review our Fence Ordinance and the board voted to direct the Plan Commission to do this. Harry Fiset, our trustee to the N.S.M.T.D. said M.G. owes \$17,139 as its share of the assessment. John Hilkin said he felt we have a responsibility to fund this for the bus route that goes through our village. The board agreed and will pay its share.

Fred Huber said there has been a request for 90 minute parking at Parkside & Dempster to the first alley north. This request will be referred to the Traffic & Safety Committee for study. Mayor Bode said he received a letter from the Archdiocese of Chicago saying that the Catholic Television has received funding and will be on a private station. They are asking for our cooperation to put up a 70' transmitter atop St. Martha's Church in M.G. for TV reception. The mayor suggested referring this request to the Plan Commission for study since the height of this transmitter exceeds our code requirement.

OCC to offer language courses

Oakton Community college will be offering Hebrew, Italian and Polish as additional foreign languages this fall semester. Trustees Tom Flynn of Niles and Steve Loska of Des Plaines conducted a private feasibility study to determine if there was a need and potential students in the District to warrant inclusion of these courses in the fall semester curriculum. It was our conclusion that the need and interest exists and we introduced the resolution to include the course offerings. The courses have now been added but they do not appear in the new 1974 OCC Catalog. If you are interested in enrolling in these new foreign language courses, please call the Admissions Office at 967-5120 or stop by the college which is located at Nagle and Oakton in Morton Grove.

Additionally, several local newspapers reported that the resolution to include Polish as a foreign language was not passed. This statement was in error and Polish will be offered this fall semester. We hope that the inclusion of these courses is in direct response to a need and interest of the residents of the OCC District. The success of offering these courses in Hebrew, Italian and Polish will depend on you. We encourage you to enroll in these courses if you have that interest in your cultural background or simply to increase your knowledge.

ED HANSON

'95¢ for Reading
Today's Column'

You'll actually get paid 95 cents for reading today's column. Here's how:

Just mention my name, "Ed Hanson," when you order a DeLuxe Club sandwich, chicken, bacon, lettuce and tomato, next Tuesday & Wednesday, July 2 & 3 at Jake's Restaurant, 7740 Milwaukee ave., Niles.

This DeLuxe Club sandwich sells regularly at the low price of \$1.90 at Jake's, but when you mention my name, "Ed Hanson" to your waitress she'll reduce the price from \$1.90 to half that price or only 95 cents.

This is sort of a reward for your loyal readership. If the response is good, I can promise you many more half-price deals in the weeks to come.

So, get over to Jake's Restaurant, Tuesday and Wednesday, July 2 and 3 and get a delicious Club Sandwich for half price or Only 95 cents by just mentioning my name, "Ed Hanson" to your waitress.

And here's another goodie. On those same days, July 2 and 3, Jake will be giving away free a beautiful full color American Flag, 12 X 18" to each family. Jake has a thousand of these beautiful American Flags to be given away free of charge on a first come, first served basis. One American Flag will be given to each of the first 1,000 families who respond to this offer.

So, not only can you get a DeLuxe Club Sandwich for only 95 cents but you can receive a free American Flag. Who sez, "America isn't the land of opportunity?"

But, there's even more good news today, folks. For beginning Thursday, June 27 and continuing 7 days a week, Jake will offer a Free Caesar Salad with All dinners off the menu. This offer will not apply on Jake's "All You Can Eat" dinner specials. But, by ordering any of Jake's low cost dinner specials, you can get a King size Caesar salad for Free!

In this issue there are plenty more good deals you can bank on. For in this issue is our mid-year financial section in which the leading area and some out-of-the-area financial institutions carry ads and interesting news stories about the current money market. Money, as they say, isn't everything but where can you go without it? So read the ads and the news stories of the banks and saving & loan companies in the financial section of this issue. You'll find they are making a great many money-saving offers you may be interested in taking advantage of.

Here's another money-saving tip when you eat out. Allipio's Restaurant & Cocktail Lounge, 6474 Milwaukee ave. serves Prime Rib of Beef and it's really a prime piece of meat, for Only \$3.95 on Saturday nights only. You can't get a better piece of thick, juicy prime rib anywhere for this price. And it's served au jus, with tossed salad, baked potato, rolls and butter. Allipio's also specializes in flaming dishes, Shish Kebab and ocean seafood. Try Allipio's once and you'll return again and again for the decor, food quality and service are par excellence and the prices reasonable.

For great casual dining whether it be a top steak or a sandwich and beer, you'll find the Beam'N Barrel, 7136 Milwaukee ave., Niles, the perfect place to relax. For family dining or a late evening snack and a drink, you'll enjoy the cozy and rustic atmosphere the Beam'N Barrel provides for both the young and the old. They offer a complete salad bar which provides all you can eat with dinner and they offer a "Happy-Hour" from 4 to 6 weekdays. Early or late, it's a fun place to visit.

Another fun place where there's always something going on is The Ground Round, Dempster & Waukegan rd., Morton Grove. Every day and night patrons of The Ground Round get a big kick out of their puppet shows, old movies, style shows and live entertainment. And the kids love the place because like a circus there's always plenty of free action. And the food is excellent and there's never a cover or entertainment charge.

One place I never go or recommend going is Wrigley Field. I've heard rumors that they play baseball in this place, but these are only rumors. The last time I was at Wrigley Field was early in September of 1945. The Cubs played baseball then and clinched the pennant a couple of weeks later. Since then, for almost 30 years, there has been no baseball played in Wrigley Field. You've heard of unearned runs, but how about unearned games? The Cubs lead the league in "unearned" games. So far this year the Cubs have won only 3 earned games - the other 25 they've won are "unearned" games. Right now the Cubs should be in last place by 10 games. But have no fear fans, because come the end of September they will be. By the time the "young Cubs" learn to play baseball they'll all be collecting social security.

Better than watching the Cubs - watch for the grand opening of the new Ridgewood Restaurant opening soon at 9235 N. Waukegan rd., Morton Grove - see the announcement soon to appear in Bugle newspapers.

You can get a Free 6 pack of Pepsi with the coupon in the ad of Gigio's Pizzeria, 8532 Waukegan rd., Morton Grove in this issue. Just buy a large delicious pizza and the 6 pack of Pepsi is yours Free!

Named Prexy of Music Association

Charles Groeling, Director of Bands at Niles West High school, has been elected District VII President-elect of the Illinois Music Educators Association.

His actual three-year term as President will begin next year. Groeling received his Bachelor's in Music Education from Drake University in Des Moines, his Master's at Northwestern University, and is currently completing studies for a Doctorate degree there (NU) also.

Appointed Dean of Learning

The Board of Trustees in action taken at its June 18 meeting authorized the appointment of Dr. Antonette P. Hastings as Dean of Learning Cluster II.

Previous to her administrative appointment Dr. Hastings was Associate Professor of Biology at M.S. degree in Zoology and a Ph.D. in Biology from Northwestern University. She has had previous teaching experience at the University of Chicago and Bucks County Community college in Penn.

For the past year Dr. Hastings has served as the elected president of the Faculty Executive Council, served as the faculty representative to the Board of Trustees, and has played a major role in faculty negotiations which resulted in a 2-year salary agreement.

The cluster system for faculty and students has been an integral part of Oakton's structure since the fall of 1971. The cluster system was formed to enable the college to retain a kind of smallness as enrollment increases and the college grows. This system encourages personal contact between students and faculty. Various learning options in course and curriculum choice, as well as alternative methods of instruction within college curriculum are emphasized in the clusters.

Each dean of the four learning clusters has major administrative responsibility for coordination and evaluation of faculty objectives, compacts and course outlines to provide for flexible vocational and baccalaureate curricula to best serve the interests of all students.

Dr. Hastings resides in Deerfield, is married, and is the mother of four teenage sons. She replaces John Tosto who will return to teaching and serving as a member of the OCC student development staff. Mr. Tosto has served as dean since January 1971.

Teachers receive recognition

Three Maine East teachers have been chosen Outstanding Secondary Educators of America for 1974. Miss Willa Mitchell, Mr. David Jeffers, and Mr. David Barker were nominated by Maine East Principal John Clouser earlier this year, and they were selected for this honor on the basis of their professional and civic achievements.

Outstanding Secondary Educators of America is an annual awards program honoring distinguished men and women for their exceptional services, achievements, and leadership in the field of secondary education. Each year the biographies of those honored are featured in the awards volume, "Outstanding Secondary Educators of America."

These educators are now eligible to receive the Outstanding Secondary Educator of the Year award trophy. Five \$500 unrestricted grants will be awarded to the schools represented by America's five Outstanding Secondary Educators.

Summer Festival of Theatre

A Summer Festival of Theatre has been announced for 3 weeks in July by Des Plaines Theatre Guild. Guild Playhouse, normally dark during the summer months (except for rehearsals for the opening musical in September), is currently alive with activity as DPTG production crew and actors ready 4 separate plays for presentation July 12 through 28.

Production coordinator for the Summer Festival is John Marquette, 1115 Walter, Des Plaines, drama director at Buffalo Grove High school. Directors and casts of the musical and 3 one-act plays which comprise the bill of fare are announced by Marquette as follows:

"I Do! I Do!" the warm and

happy musical by Harvey Schmidt and Tom Jones, based on Jan de Hartog's play "The Four poster," will be directed by Mike Sims of Wauconda, with musical direction by Grace Coash of Des Plaines. Starring in the two-character lyrical propaganda piece for marriage are Pat Piper of Arlington Heights as Agnes and Jim Tuvers of Buffalo Grove as Michael.

Five performances of "I Do! I Do!" are scheduled for July 12, 14, 20, 26 and 28, with curtain times at 8:30 p.m. on Friday and Saturday, and 2:30 p.m. for the Sunday matinee on the 14th and 28th.

Alternating with the musical on July 13, 19, 21 and 27 will be an evening of one-act plays, offering audiences a different kind of theatre than is possible to present during the regular season at Guild Playhouse.

This program includes "The Chairs" by Eugene Ionesco, directed by Marshall Kievit of Des Plaines, and starring local residents John Maes and Jane Brenner as the Old Man and Old Woman.

Second act is "The Zoo Story" by Edward Albee, directed by Max Elsey of Des Plaines, featuring

John Schile of Rosemont as Peter and John Marquette as Jerry.

Third playlette is "Double Solitaire" by Robert Anderson, directed by Julie Tobias of Des Plaines. The cast of this one-act includes Arlette Dawson of Des Plaines as Mrs. Potter, Mike Lucchesi of Chicago as Mr. Potter, Bert Miller, Evanston plays Sylvia; Hank Vandenberg, Wheeling, is George; Pat Baker, Des Plaines, Peter; Marianne Marquette, Des Plaines, Barbara; and Tom Ventris, Arlington Heights, Charley.

Helping behind the scenes with set furnishing and props are Betty Kandlbinder of Palatine, Jackie Tuvers, Buffalo Grove and Christine Gysler, Des Plaines. A.J. Riegler, Des Plaines, is assistant to the director for the musical, "I Do! I Do!"

Des Plaines Theatre Guild hopes audiences will come casual, relax and enjoy their Summer Festival. Tickets for both programs in a combination are \$4.50 and for single performances, \$2.50. For information, phone the box office, 296-1211, noon to 8 p.m.

Oakton Child Care Center granted license

The Oakton Community college child care center has been granted by the state of Illinois a two-year license authorizing day care. Dr. James Butzek, Dean of Learning Cluster Four, said the certification relates to health and fire regulations, size of the play area and washroom facilities.

The day care center has a dual role. Not only is it a nursery school for the children of Oakton students, staff, and the general community, but also allows Oakton students interested in education and child care to observe and work with young children.

The faculty of the child care services program at OCC coordinate classroom instruction with the activities and facilities of the center.

Dr. Butzek said this is the first summer the day care center has been open and presently the 15-child maximum is filled. The center is staffed by Ms. Susan Berger who joined Oakton last January. Ms. Berger has a master's degree in child development. For further information call Ms. Berger at 967-5120, ext. 200.

Honored as Outstanding Educators

Seven members of the professional staff of Maine Township High School District 207 have been named Outstanding Secondary Educators of America for 1974 by an awards program of that name which each year honors distinguished men and women for their exceptional services, achievements and leadership in the field of secondary education.

Dr. Clyde K. Watson, principal of Maine South, and James L. Coburn, principal of Maine West, were among those chosen. The others included Maine East staff members Willa Mitchell, chairman of the Home Economics Department, David Jeffers, head of speech-drama, and David Barker, language teacher, and two members of Maine West's Science Department, Rollin D. Porter and Joseph K. Jobst.

The seven were selected on the basis of their professional and civic achievements. Their biographies will be included in the awards volume, Outstanding Secondary Educators of America.

In announcing the award winners, Dr. V. Gilbert Beers, director of the program, states: "The men and women chosen for this high honor have explored new paths, developed new insights and effectively communicated their knowledge to their students and colleagues." Guidelines for selection include an educator's administrative ability, talents in the classroom, contributions to research, civic service and professional recognition.

The seven award winners from District 207 will be among those considered for award trophies which will be given to five individual educators. Trophy winners will be selected by a group of distinguished judges and by the Board of Advisors of the Outstanding Secondary Educators of America awards program. Five \$500 unrestricted grants will be given to the schools represented by the five trophy winners.

Appointed to OCC administrative position

In action taken at the June 18 meeting of the Board of Trustees of Oakton Community college, Carol Ann David was appointed as Assistant to the Vice President for Student Development.

Ms. Davis has been a member of the student development faculty of OCC since Aug., 1972. She received her M.Ed. degree in counseling and guidance from the University of Arizona and is currently enrolled as a Doctoral Candidate in behavioral studies at Nova University.

In connection with her work with students she was responsible for developing a drug abuse education program. She has also participated in the faculty governance structure of the college. Ms. Davis resides in Chicago and will assume her new position on July 1.

The Spirit of '76 Essay Contest is open to all high school students in the 10th Congressional District. Student contestants may enter the contest by writing a 500 to 750 word essay on goals which the writer feels the United States should pursue between now and the end of the 20th century.

Each high school will judge the essays submitted by its own students and select two winning essays. It is from these essays that the Spirit of '76 Essay Contest Committee will select two winners. Both will win expense-free travel to Washington, D.C., for the Bicentennial Commission publications.

SAFETY

for your children

SAFETY

for your funds

Safety. It's why you bank with us. You know we'll keep your money in a safe place while offering the assurance that your savings will grow with complete safety. Now Dempster Plaza State Bank is concerned with another kind of safety -- bicycle safety. This summer many children will enjoy the fun of bicycling. But along with the fun is the ever-present danger of traffic mishaps. That's why safety councils and police departments everywhere suggest attaching bright pennants to your children's bicycles, making them more noticeable to motorists.

We at Dempster Plaza State Bank strongly support this safety precaution. And so we are now offering vibrant yellow bicycle pennants for only \$1 a piece. These durable, easy to fasten pennants stand more than 6 feet high and readily identify a cyclist in fair weather or foul; in the daylight or after dark. You need not be a Dempster Plaza customer to buy one of these potential life savers, even though you'll find the \$1 price below that of most stores. Nor do you have to open an account or add to an account or anything of the kind. Simply drop into our main lobby or our motor lobby anytime during normal banking hours and pick up as many pennants as you need. Safety. At Dempster Plaza State Bank our basic concern is still with the safety of your money. But we realize that the safety of your children is worth all the money in the world.

Dempster Plaza State Bank outlines new programs

Growing participation in public service and community involvement is the focus of new programs at Dempster Plaza State Bank.

The 3-year-old bank in the Dempster Plaza Shopping Center at Dempster and Gegenwood is taking an active position in the welfare of its customers and community with two new programs; bicycle pennant sales and American Cash Card.

As bicycling becomes an increasingly popular pastime, more and more people will be taking to the streets on two wheels. To prevent traffic mishaps, it is recommended that bright pennants be attached to the rear bumper of bicycles. Dempster Plaza State Bank heartily agrees with this safety measure and is selling bicycle pennants for \$1 apiece in the main lobby. The pennants are available to customers and non-customers alike. Also, Dempster Plaza State Bank joins the growing number of local financial institutions offering the American Cash Card. This card allows the holder discounts on cash purchases from participating merchants. More than 200 Northwest suburban area stores, restaurants, service stations and business establishments honor the American Cash Card.

Dempster Plaza State Bank can offer the American Cash Card only to customers. The ACC program is relatively easy to qualify for, as thousands already

have. Dempster Plaza believes customers should not only save money in the bank, but save money when shopping as well.

Other services to customers and community are presently under consideration by Dempster Plaza State Bank. It's a way of thanking the people who have built Dempster Plaza's assets to over \$12 million.

Sets Prudential sales records

Lincolnwood resident Eugene W. Hahnfeld, a Prudential special agent, set two sales records during 1973, the company announced recently.

His total sales of Prudential insurance protection for the year (more than \$7.3 million) established a new high for the company's Mid-America operations (Illinois and Indiana). Prudential has more than 2,300 sales representatives in the two-state area.

Mr. Hahnfeld also set a company wide record in sales of Prudential Group Security Program, an insurance product covering groups of 10 thru 49 people. His sales of these plans exceeded \$4.7 million, giving him top rank among the company's nearly 23,000 sales representatives in the United States.

He is associated with the James J. Griffin & Associates Agency, 4849 N. Scott, Schiller Park, and has represented Prudential since 1961.

Mr. Hahnfeld and his wife, Alice, live with their family at 7219 N. Crawford.

St. Paul Federal - Hamilton Savings announce merger

Faustin A. Pipal, board chairman, St. Paul Federal Savings and Loan Association of Chicago, and Bruno J. Dygdon, president of Hamilton Savings, 2159 W. 18th st., announced the merger of Hamilton into St. Paul effective on June 21, 1974.

Pipal said that the Hamilton office will be operated as a branch of St. Paul Federal and all members of the merged Association will become members of St. Paul. Deposits of Hamilton are less than \$100,000 at this time, he said.

In anticipation of the merger, the Hamilton office and building have been thoroughly renovated for full savings and loan services. Pipal emphasized that a customer can be serviced interchangeably at any of St. Paul's three offices, regardless of the point of origin of his or her account.

"This branch represents a happy homecoming for St. Paul Federal," Pipal pointed out. "From 1889 to 1953, our Association was located in the very same neighborhood, the majority of the time at 2116 W. 22nd st. We have many customers who came with us to North ave. from the old community and will now find our new office a special convenience."

St. Paul Federal, with resources of \$490 million, has its headquarters at 6700 W. North ave., Chicago.

Power tool offer

For many weeks, the bank has been deluged with demands for power—that is, power tools. It results from many First National Bank of Des Plaines depositors having taken advantage of the bank's offer of four Shopmate power tools at reduced rates for placing \$200 or more into a new or existing savings or checking account.

"People have really been pleased with our unique power tool promotion," Arthur R. Weiss, president, reported. "Especially with the fact that the more they deposit, the less the power tools cost. For instance, the orbital sander costs \$14.50 plus tax with a \$200 deposit but

only \$9.50 with a \$2,500 deposit."

Other tools included in the offer are: a 3/8" vertical drill, a sabre saw and a 7-1/4" circular saw. Since the tools are being offered for a limited time, depositors are urged to visit the bank at 733 Lee st. soon.

"While the offer lasts," Weiss added, "we're enjoying the opportunity of giving power to the people."

A special "Power Tool" window has been set up to handle the many depositors taking advantage of the current power tool promotional offer sponsored by First National Bank of Des Plaines.

First National Bank installs 3rd generation computer system

A new era of bank data processing is being ushered into Des Plaines as the First National Bank installs a revolutionary, third generation Burroughs B-2540 computer system.

With this new capability, First National will provide faster, more accurate handling of accounts and all aspects of its banking services. In addition, the new computer system will enable the bank to offer more financial services to customers that were not possible with the previous equipment.

Another unique feature of First National's new generation computer is its on-line capability. In the future, this will enable the bank to install terminals at each personal teller's window to speed account handling by allowing tel-

lers to talk directly to the computer.

According to Bruce W. Phillips, vice president and data processing manager, a comparison of the new system with the old computer gives a clearer picture of the many outstanding advancements in data processing. Phillips stated that the new Burroughs system operates under a Master Control that enables the computer to run as many as 80 different programs concurrently compared to only one program for the old system.

The Burroughs B-2540 system consists of a Central Processing Unit with three disc file modules capable of 30 million character storage capacity. The old system was limited to 4 million character

storage. Card reader of the new system handles 800 cards per minute, which is twice as much as the old reader. The new line printer handles 850 lines per minute compared to only 600 for the old unit. Capacity of the new card punch is 300 cards a minute.

With the additional capabilities of the new computer system, Phillips remarked, the bank will be able to more quickly process all time deposit accounts, installment and mortgage loans, all accounting procedures as well as checking accounts and other bank services, including payroll processing for commercial accounts. In addition, bank management will receive reports much sooner enabling them to keep a closer watch on operations.

To handle the expanded system, First National found it necessary to construct a special computer room. This soundproof room has a raised steel frame floor under which are stored all computer cables. The room is fully air conditioned with a separate 15,000 ton capacity unit. Temperature is kept at a constant 72 degrees and humidity at 50%.

The computer room also features smoke detection devices with a direct hook up to the fire department.

The First National Bank runs a two-shift operation. There are two operators handling the day shift and one at night. Phillips added that the system enables the bank to process more data using the same number of people and provides them with greater processing skills.

Be alert for check forgers

"Use extra care in keeping your eye on your checks, credit cards, and other personal financial information, because check forgers are very ingenious about getting money out of your bank account," warns Jack Lavold, vice president and cashier of the First National Bank of Des Plaines.

In a talk to the Businessmen's Breakfast Club at Nielsen's Rosemont Restaurant, Lavold said he expects banking to change radically in the near future. He expressed alarm at today's high interest rates and feels these high rates are hurting the economy. He pointed out that banking must offer more automated services to take care of the demand.

"For example," said Lavold, "30 billion checks are written every year. Over half of them are personal checks, not business checks, and 40% of the personal checks are for amounts of less than \$25. First National Bank of Des Plaines processes almost 5 million checks a year and 617,000 deposits. That alone," he emphasized, "explains why we must be automated. Now, with our new automated computer systems, we will be able to serve the community better in many ways."

Mortgage money expensive, but available

W.C. Walters, Sales Manager of Callero & Catino Realty, Inc., a local Realtor, Builder and Land Developer, is confident that soon the cost of borrowing money will drop, however, not too significantly unless the Usury Rate ceiling is raised.

"It is interesting to note, says Mr. Walters how misconceived some people are over the Usury Rate issue." Many an Illinois politician seems to be concerned over the little man's dilemma in facing a higher interest rate, failing to understand that higher rates don't necessarily cost the consumer more money. To exemplify, he states, "The present charge on a residential mortgage is 7.7% interest with 7 points (premium in cash to enable to borrower to make a loan) over 25 years is quite common among the Cook County lenders. This computes an annual percentage rate not exceeding 8%, however, it should be noted that the charges for the loan inasmuch as payable in one lump sum at the closing are spread over 25 years, the duration of the loan. However, assuming the exemplified loan was repaid in 7 years, the average longevity, the effective annual percentage rate would increase to 8.7%. Again, records show that numerous transactions required refinancing within 3 years of its last transaction, which in our example would increase the rate to over 10%."

The foregoing clearly indicates the disadvantage an Illinois borrower is at as compared with borrowers in States where there is no limit on interest charged or where the limit is 10% or over. We have recently negotiated a mortgage at 8½% with a fee of 2 points premium without difficulty.

Another inequity in the matter is the federally insured loans under the titles of FHA and VA which are exempt from Illinois Usury Law and as such can be adjusted to a rate indicated by

existing economic conditions. Presently, the quote on Federally insured loans is 8½% + 5 points. Again, since those are the low down payment loans permitting the least affluent to acquire a home, the one who can least afford it pays the usurious rate.

Students rush for last minute summer jobs

Unfortunately, not all college students who want work will have jobs during their summer vacation break. Many will have missed the boat for summer work because they waited till the last minute to seek employment. Others will miss out any way due to the typical surplus of summer workers and the scarcity of summer openings to begin with.

If a student has personal contacts he may be lucky enough to land a summer job. But, for those having no personal contacts to fall back on there is a way out.

Elaine Revell, of Elaine Revell Temporary Service said, "A large majority of students will be working through temporary office services."

"Canvassing companies door at this point, will probably be a waste of time," said Miss Revell. "Signing up with a service like ours can save a lot of shoe leather and wasted hours sitting in waiting rooms of company personnel offices. It is never too late to register with a temporary service."

There is always an urgent demand for summer fill-ins for people on vacations and in businesses having a heavy seasonal work-load. Elaine Revell said, "The summer job market is open all summer for people with certain office skills. Shorthand secretaries, dictaphone operators, typists, switchboard operators, and receptionists, are always in demand."

Most firms who intend to hire their own summer fill-ins do so early in the Spring. It is unbelievable, though, how many firms still wait until the last minute to obtain summer help.

Miss Revell made a point of stressing that temporary services are definitely not the same as

employment agencies. Temporary workers are actually employed and paid by the temporary service they work through. The temporary service sends people to their client companies on actual jobs rather than sending them for job interviews.

Miss Revell made a point of taking a correct attitude toward applying for summer work and keeping busy once on the job. "Neatly trimmed hair, conservative dress and a willingness to work may sound 'square,' but that's like it is in the business world."

J. Stephen Vanderwoude has assumed the position formerly held by Mr. Shreck. Mr. Vander-

woude was previously General Plant Supervisor with CITU's telephone operations staff in Lincoln, Neb.

He is a graduate of Maine East High School and completed two years of engineering at the University of Illinois.

He and his wife, Faith, a former Centel employee, live in Des Plaines with their two daughters. Mr. Shreck has been very active in the Jaycees, Rotary and other community organizations.

Prior to being named General Plant Supervisor in 1971, Mr. Vanderwoude was employed by New York Telephone Company for four and a half years.

A native of Long Island, N.Y., he and his wife Marilyn are the parents of two sons, ages 5 and 7 years.

Varied savings plans offer solutions to individual goals

(by Leonard W. Happ, Vice President, Golf Mill Bank)

Choosing the savings plan best suited to meet individual requirements is an important step for every person, states Vice President Leonard W. Happ of Golf Mill State Bank.

"The financially well-rounded family," said Happ, "may actually have a variety of accounts in their own thrift package. At Golf Mill Bank, we invite savers to discuss their own particular needs and goals with us so that a practical plan can be individually tailored for them."

The bank can assist in helping the individual determine how best to save and in what types of accounts his or her money is deposited.

Various types of accounts offered include a wide range of plans, including Christmas Clubs, regular passbook savings accounts, and certificates of deposit.

Deposits in regular passbook savings—the type of account most commonly held—presently earn 5% annual interest, the highest rate allowed by law for this type of savings. Major advantage of this type of account is that the saver can deposit into or withdraw from the account in any amount at any time.

Certificates of deposit are funds left on deposit at the bank for pre-determined lengths of time, from 90 days on up to 4 years.

Usually investment of larger sums of money—\$1,000 or more—is required to purchase certificates of deposit. These funds, Happ pointed out, draw substan-

added advantage of high security because individual accounts are insured up to \$20,000 each by an agency of the federal government.

"The real key to financial success," Happ said, "is a disciplined program in which money is regularly and faithfully deposited into savings. Every family budget should contain a set amount of money that should be used exclusively for saving."

Happ acknowledged that planned savings do not come easy to most people at first, commenting that a bank can help the family become faithful and persistent practitioners of thrift through automatic savings programs.

The service offered at Golf Mill State Bank, can act as the family's financial conscience in this way:

When the amount and time of month of a savings plan is decided—whether for \$5, \$10 or any amount on a regular basis—just tell your banker to enroll you in an automatic savings plan. He'll work out the details. Then the bank will regularly move the agreed-upon sum from your checking to savings account on the specified date.

Finally Christmas Club accounts, the local banker explained, are a form of enforced savings of relatively small amounts. The regularly weekly "payments" into the club allow a family to have its holiday expenses covered without going into debt. The clubs also provide youngsters with an educational forum to learn thrift habits.

tially higher interest rates than passbook savings, up to 7-1/4% annual interest, depending upon how much and for how long the saver pledges to leave the funds on deposit.

Because withdrawals made before certificates maturity are subject to substantial interest penalties by federal law, Happ cautioned that taking out money ahead of time should only be in cases of extreme emergency.

"Inclusion of certificates of deposit in the family's financial portfolio," Happ continued, "is an excellent method of earning high interest rates."
