Student jobs available at Oakton

There are student aide positions open now and for the fall semester at Oakton Community college, according to Gerry Aiuppa, job placement officer.

Ms. Aiuppa reports that these positions are general clerical and students will be employed in the administrative offices, library and for faculty.

"The hours are flexible, as a rule, and can revolve around a student's class schedule," she added.

Preference for the student aide employment will be given to those students who qualify for the College Work-Study Program. To determine eligibility, all students will be asked to complete the

Parent's Confidential Statement or Student Financial Statement. Eligibility for the College Work-Study Program, however, is not a condition of employment as a student aide.

Ms. Aiuppa points out that salaries for student aides have just been increased by Board of Trustees action. Student aides

will be paid \$2 per hour or more depending on experience and other factors.

She also stated that full-time students cannot work more than 15 hours per week. Part-time students must be enrolled in eight semester hours and are permitted to work up to 40 hours per week. Students who wish to apply for

the College Work-Study program are urged to contact Michael Dessimoz, director of Financial aid at OCC, (967-5120, ext. 392), as soon as possible. For information about student aide or other part-time jobs, students should see Ms. Aiuppa, Room 409, Building 4, Oakton Community College, 7900 N. Nagle.

Russ Beavers, Niles police captain, and head of its uniformed division, gave us a "No-Yes" answer to our question whether or not Niles Police Department sets ticket quotas.

The "No" answer was followed by a bit of laughing, which indicated the question was one of those dumb Besser-Bugle questions which have not been heard recently around the department. But Beavers suddenly turned 180 degrees and said, "Yes, we have...but No, there is no quota".

Russ explained the Department does have an "average" number of tickets which the patrolmen are expected to write but he said he doesn't want the public to think the police cars are just waiting around to ticket cars to maintain this average. He added the men must be "productive" and a reasonable standard is expected from the men, but "No, there is no 'end of the month' total expected".

The Bugle received information a directive was circulated querying why certain men in the department "are not going to make the department set average by the end of the month". In other words, why won't they have 150 X tickets by June 30, 1974? The directive was signed by a lieutenant in the department. The "X" referred to is for moving vehicles.

Niles Village Manager, Ken Scheel, told us the village has instituted a plan called, "Management By Objective". The fancy name refers to measuring the productivity of personnel and the public departments. Ken said it is a measurement of determining whether personnel are doing their job.

While Scheel admitted ticket-writing is a "ticklish" matter he said this is one way of measuring a man on his job.

In the world of college business school jargon it was explained to us "measurements do not necessarily mean quotas". But it was further explained a typist in our office would be expected to be measured by the production she completes. The analogy should be extended to the police department and ticket-writing.

More than \$1.2 million is being sought from the Regional Transportation Authority by the North Suburban Mass Transit District (NORTAN) to meet expenses in the coming year, according to the Chicago Tribune.

"We cannot meet operating cost without RTA money and we have no intention of asking the communities for more money," NORTAN chairman Richard T. Newman of Evanston said last week.

Newman told the NORTAN board that "we will have no choice but to eliminate service" if operating funds are inadequate. The NORTAN board voted last week to apply to the RTA for an operational grant of \$1,233,430 for fiscal 1974-75.

State of Illinois funding and

the level of assistance provided by the member communities in anticipation of the formation of the RTA will not be sufficient to sustain service" next year, Newman said in a letter explaining the board's grant request to Joseph Tecson, acting RTA chairman.

The district faces sharply rising bus operating losses in the fiscal year ending June 30, 1975, as the result of increasing fuel, labor, and maintenance costs, he said.

Actual losses of the United Motor Coach Co., which served the district for 1973, are \$390,618; projected losses for 1974 are \$642,538, according to Newman.

It is hoped that the RTA will respond to the grant application by Oct. 1 when NORTAN

Paramedics

Twenty-seven paramedics who have graduated from Advanced Emergency Medical Technician training at St. Francis Hospital will receive their official state certification at 7:30 p.m. Tuesday, August 6, in ceremonies at the Holiday Inn, 1571 Sherman Ave., Evanston.

They will be among some 237 trained paramedics who are the first to be certified.

The paramedics that trained at St. Francis Hospital and are receiving their state certification Tuesday are from five departments in Glenview, Morton Grove, Niles and Skokie and from private ambulance companies in Chicago.

The emergency medical technicians' training and certification enables them to render professional medical care at the scene of illness or injury through the use of radio and telemetry equipment.

St. Francis Hospital will be one of three base stations linking 12 hospitals in the state's mobile emergency services network.

Nursing Home Residents Seek Plans

Significant things happen in quiet ways in a nursing home. A man who has become increasingly limited in vision finally came out to the old piano in the Golf Pavilion dining room the other day. With his one good hand he attempted to pick out some favorite tunes, and the melody of "Fascination" became recognizable. Then he stopped, and staring with frustration, he lamented, "You can't play these songs. Too many keys are missing."

It is true. And the old piano player made the faint noise shifting even then staff members who play the piano every day or volunteers who frequently come to entertain. Golf Pavilion Nursing Home, at 9535 Golf Road, needs a good piano. Residents themselves back up the appeal, as they have raised close to \$200 with the help of volunteers, rummage sales and daily coffee time change.

Do you know of a piano that needs to get back into real service again? Please call us at 827-6622; staff there will take care of pick-up. And thank you for making happiness happen!

Niles Library grants amnesty

In conjunction with the Diamond Jubilee celebration of the Village of Niles, the Niles Public Library has declared an amnesty on all overdue book fines during the week of Aug. 11 through 17. During that week you have a chance to get those long overdue books back to the library without having to pay an overdue fine on them. Look around the house and see whether you find any books, or any other Niles Library materials that should have gone back to the library before. Bring them in either to the Main Library at 6960 Oakton St. or to the Demonstration Library in the Golf Mill State Bank Building or to the Bookmobile at any of its stops, and forget about the fine.

The Library takes this method of joining in the Niles Jubilee celebration and extends its congratulations to the Village on the occasion of its 75th birthday.

So remember, Sunday through Saturday, Aug. 11 through 17, no fines at the Niles Public Library!

New time for Chamber meeting

The next Board meeting of the Morton Grove Chamber of Commerce will be held on Tuesday, August 13, in the downstairs room at Val's restaurant, at 12 p.m. Please note the change of time! We are going to try this earlier time schedule, as some of our members, who faithfully attend these meetings, have other meetings later in the afternoon, and must leave earlier.

As always, we invite all members of our Chamber to attend these monthly meetings. We welcome any ideas or suggestions you might have to make our Chamber more viable.

You may call the Chamber office, 965-0330, to make your reservations for the meeting.

Hadassah

During the months of August and September, Hadassah groups are having their membership parties. Hadassah has a group for every woman. There are young adult, young married, business and professional, day and evening groups. Hadassah members help to improve the health of the people of Israel through medical services, teaching and research emanating from the largest medical complex in the Middle East, the Hadassah-Hebrew university Medical Center; they help to provide education and vocational training for immigrants and youth in much needed skills and aid in the rescue, rehabilitation and education of thousands of Jewish youth who come to Israel from 80 lands through Youth Aliyah.

In the United States, Hadassah fosters democracy, youth leadership and Jewish education.

Hadassah now is embarked on a membership campaign. Choosing Hadassah means 'action' at a time when 'action' is needed to help meet the needs of the democracy of Israel, the needs of American Jewry and the need of all our citizens. For the women who join Hadassah, membership will be an enriching experience. For the people of Israel and for American Jewry, they will add a unique strength and dimension in the quest for peace, human well-being and the perpetuation of Jewish values. For information for a group for you, call AN3-7473 days.

Nimrod says 'No unfair increase in real estate taxes'

Senator John J. Nimrod (R-4th District) stated that there will be no unfair increase in real estate taxes as a result of the fixing of the lower tax multiplier. "Tax bills can finally be processed and mailed out so that payments can be made by Sept. 15," Nimrod said.

Nimrod heralded the setting of the permanent real estate tax multiplier at 1.4813 and the signing of the tax bill which settles the question for local taxing bodies and the taxpayer for this year.

The multiplier problem erupted when the Governor set a lower temporary tax multiplier for Cook County, on April 29, which created the inequitable tax increases or the loss of over 35 million dollars to the schools and local taxing bodies within the four quadrants of Cook County.

"The Legislature could not take away the responsibility of the Illinois Department of Government Affairs to fix the multiplier. The Legislature, without the support of the Administration,

had to guarantee a means and establish a formula which would prevent discriminatory taxation and insure adequate funding for the schools and local governments of Cook County," Nimrod added.

A Nimrod amendment to the legislation allowed for a factor to even out tax assessments and to provide the monies for the taxing bodies without inflicting a tax burden on a segment of the Cook County taxpayers.

Nimrod, Vice-Chairman of the Senate Appropriations Committee, said, "The State must avoid action which transfers the responsibility of funding to the taxpayer. The shifting of State obligations either to local governments or to the local taxpayer must be prevented. There were other areas where action by the Senate stopped the attempt to shift approximately 100 million dollars from the State to the taxpayer."

Nimrod is also a member of the Tax Study Commission which conducted hearings throughout

the State and will continue to meet during the remainder of this year investigating tax structures with the primary aim to benefit the tax payer.

The BUSINESS Picture

Centel reports income gain

Central Telephone & Utilities today reported a 15% rise in net income for the 12 months and quarter ended June 30, and expressed confidence in meeting objective of an 8 to 10% gain in earnings per share for the full year.

Primary earnings per average common share rose to \$2.03 for the latest 12 months, compared with \$1.79 in the corresponding 1973 period. Net income, before extraordinary items, climbed 15.1% to \$39,114,000.

Second quarter primary earnings were 55% per average common share versus 50 cents for the year-ago period, despite a 5.6% increase in outstanding shares. Net income advanced 15.5% to \$11,001,000.

Robert P. Reuss, president and chief executive officer, said CTU's business continued to make "excellent progress" at midyear, although second quarter results were affected somewhat by lower net income in gas and electric operations.

The company said second quarter operating revenues increased 12.5% from a year ago, but were affected by mild weather and customer energy conservation of gas and electric power. Telephone revenues rose 15% while electric and gas revenues showed modest gains of only 6.8% and 4%.

Telephones in service were up 7.8% for the latest 12 months.

Long distance calling volumes for the June quarter ran 10% ahead of a year ago.

The company said it has \$2.4 million in telephone rate increases pending in two states, and is seeking an additional \$986,000 in electric rates to recover the increased costs of purchased power. Higher gas rates, which went into effect May 1, are expected to add \$700,000 to annual revenues.

Short-term debt amounted to \$13 million at the end of June. The company noted that earnings were not significantly affected by higher interest rates since the company had no short term debt during the quarter until mid-June.

The company estimated 1974 construction spending at \$132.8 million and expects to finance 60% of the program from internal sources of funds. Of this amount, approximately \$18 million was budgeted for use in Illinois, with more than \$15 million appropriated for use in the Des Plaines-Park Ridge and surrounding service areas.

Items covered in this budget included the all-electronic TSPS toll switchboard system, the three-story addition to the Centel building at 767 Pearson, the conversion to Dial-Tone-First and the fifth installation of Crossbar switching equipment now in progress.

St. Paul Federal Personnel Director

Thomas J. Rinella, assistant vice-president, has been promoted to the position of Director of Personnel for St. Paul Federal Savings and Loan Association of Chicago, it has been announced by Faustin A. Pipal, board chairman.

Rinella was formerly manager of the loan closing department and had been appointed an assistant vice-president in June 1973. Earlier in his career, he was associated with Chicago Title & Trust company.

He has a B.S. degree in marketing from the University of Illinois and holds a Masters Degree from DePaul University Graduate School of Business.

Ripella and his wife, Linda, make their home in Elmhurst.

Bank of Commerce & Industry

For the second consecutive year at its location in Norwood Park, the Bank of Commerce & Industry, 6100 Northwest Highway, has registered unprecedented growth in total assets and deposits.

The bank's Statement of Condition as of the close of business on June 29, 1974, reported total assets of \$41,193,514.26, an 18 percent increase over total assets of \$33,801,262.92, as of June 30, 1973.

Deposits over the same one-year period increased nearly 19 percent to \$34,035,125.08.

Meanwhile, the bank's capital structure surpassed \$5 million, and includes \$1 million in capital stock, \$3 million in surplus funds and \$1.3 million in undivided profits and reserves.

Bank president Richard P. Larsen attributes the bank's rapid success to offering full banking services in a "community" atmosphere. "We offer as many services as any downtown bank," he said, "and, in fact, one might conclude that we have brought downtown banking to the northwest side."

Larsen's assessment is supported by the more than 10,000 depositors who regularly take advantage of over 25 banking services offered for residential, commercial and industrial customers.

Services include Christmas Club savings, a variety of checking accounts (free for firemen, policemen and senior citizens over age 65), free bank by mail, over the counter sale of auto license plates during December, January and February; cashier checks, CTA senior citizens reduced fare permits, and travelers checks.

Also a free notary public, handling of securities transactions, international services, gift checks, and the consultation of a professional travel agency. Eight different sizes of safe deposit boxes are available in the vault room, located in the lower course of the bank. Rental fees range from \$5 to \$35 per year.

For the convenience of commuters, the bank has an "early bird" and "night owl" window that serves workers who prefer to conduct limited transactions before or after regular banking hours. In addition, a drive-up banking facility is open evenings until 7 p.m. except on Wednesdays when it closes at 5 p.m. and Saturdays at 1 p.m.

The Bank of Commerce & Industry, noted Larsen, also makes available the use of its community room free of charge to community groups, serves free continental breakfasts each Saturday morning and provides free use of a courtesy telephone for local calls in its "rendezvous corner."

The bank regularly participates in the Norwood Park Home Improvement Show, supports numerous community organizations and sponsors a variety of contests, including its annual Easter Egg Decorating Contest for children attending nearby schools.

The Bank of Commerce & Industry, chartered in 1919, moved to Norwood Park in 1972, to provide customer service, offer investment counseling, highest interest rates on savings, and encourage active participation in community affairs.

It is meeting its objectives and living up to its slogan "Your Community Bank" quite well.

NEW RECORD HIGHS AT GOLF MILL STATE BANK

Golf Mill State Bank continued to set new highs in growth during the first six months of 1974 announced Robert A. Sharpe, president.

At the end of the six-month reporting period, June 30, total assets at Golf Mill Bank were at an all-time high of \$39.7 million, an increase of \$3.3 million since the first of the year. The figure represents a growth of \$5.1 million in total assets over the past 12 months.

"The growth rate in total deposits into savings and checking accounts," said Sharpe, "reflects the growth in total assets. Our bank has experienced a steady growth in deposit activity, indicative of the overall growth and health of our community."

Total deposits on June 30 this year were \$36.5 million, another all-time high for the bank. In the past year, total deposits have increased by \$5.1 million.

Lending activity at the institution, according to Sharpe, was strong throughout the first six months of the year with total loans and discounts increasing by \$2.8 million to \$21.5 million on June 30.

"Like most banks in the nation in recent months," Sharpe said, "we experienced heavy loan demand. At the community level, our bank has been able to respond to the financial needs of our customers while our commercial department has been able to work with local commerce and industry to help solve their needs for funds."

Sharpe said that the coming six months would "hopefully see a gradual decline in the inflationary

trend we have experienced in recent years. A leveling off of spiraling costs would be most healthy for everyone."

Golf Mill State Bank, located at 9101 Greenwood ave. in Niles, is observing 13 years of service to the community this month. The bank first opened for business in the Golf Mill Shopping Center in July, 1961 and moved to its present location in December, 1972.

Insurance program at Oakton this fall

A beginning course in General Principles of Insurance will be offered for the first time this fall at Oakton Community college, according to Dr. James Butzek, dean of Learning Cluster IV and acting coordinator for the Insurance career program.

The two-credit hour course is scheduled for Wednesdays, 6:50 p.m. Topics to be studied include indemnity, insurable interest, co-insurance, subrogation, proximate cause, risk, rating, underwriting, and adjusting.

This course initiates a new career program in Insurance at Oakton which prepares students for employment in the fields of property loss and liability claim adjusting.

The Insurance program will explore the general field of insurance, insurance principles, structuring of the insurance mechanism, and insurance contracts. Courses will also prepare students for the national examination given by the Insurance Institute of America.

To meet the needs of individuals already employed in the insurance field, Oakton Community college has surveyed local insurance agencies and large companies in order to determine interests and needs for the fall semester.

Interested students are urged to register now for this fall course. A registration appointment can be made by contacting the Admissions Office, Building 3, Oakton Community college, Interim Campus, 7900 Nagle, Morton Grove, phone 967-5120.

The Insurance Program offers certificate and degree programs for both new students and individuals already employed in the insurance industry. Area insurance executives point out

Oakton typing classes

Students enrolled in the daytime typewriting courses at Oakton Community college this fall will be given flexibility in arranging their class schedules, according to Judith Gerhart, coordinator of the secretarial science program.

This open lab program is a departure from the usual structured class periods of the past, she points out. Typing labs will be open from 9:30 a.m. until 11:20 a.m. every weekday and students will be required to attend a minimum of four hours each week. The hours are of the student's own choosing, and if extra practice is desired, the student may spend up to 10 hours a week.

Both intermediate and beginning typing courses will be offered in the open lab, Ms. Gerhart said. Each course will have specific objectives to be met by the student in order to receive credit. The student will also be able to proceed at his or her own pace, she added, and upon completion.

Students interested in this program should contact the Admissions Office at Oakton Community college for a registration appointment. For further information about the program, call Ms. Gerhart at 967-5120, ext. 347.

that there are many career opportunities for women, including positions in program development, marketing, sales promotion materials, commercial and telephone claims.

OCC course for nurses

A special course in general chemistry for students in nursing, nutrition, and other health science fields will be offered at Oakton Community College this fall.

The course, Introduction to General Chemistry (CHM 105 10), will be taught by Dr. Jerome Maas, assistant professor of chemistry. It introduces the basic concepts of general chemistry with a minimum of mathematics and theory to students who need only one semester of chemistry.

Completion of high school chemistry or mathematics beyond high school algebra is not required. This course will lead into the one-semester organic chemistry course for students who wish to continue chemistry studies, Dr. Maas said.

Classes for the course will be scheduled on Monday, Wednesday, and Friday mornings from 9:30 until 10:20. A laboratory session will be held on Tuesday afternoons from 2 until 4:50.

Interested students can make a registration appointment now at the OCC Admissions Office, Building 3. Classes for the fall term at Oakton will begin during the week of August 26.

OCC solution for charge-back problem

Mr. David E. Hilquist, Vice President for Business and Finance, announced that Oakton Community college will seek to provide an answer to north shore residents wondering about the future of the charge-back. He met recently with the finance officers of other nearby community college districts who indicated that they also would take the same kind of action.

North shore residents interested in studying at community colleges for the coming school year are likely to be confused about tuition, Hilquist points out.

As a result of the June 21, 1974 action of the Illinois Community College Board to establish a new community college (District #540) in the north shore area, two local high school districts, Evanston and New Trier, have announced that they will no longer authorize charge-back tuition assistance. The Glenbrook and Highland Park/Deerfield districts have indicated that they will continue to authorize charge-backs for the coming school year.

Under state law north shore area students have been able to receive tuition assistance from their local high school districts in order to enroll in community colleges.

Hilquist noted that with charge-back assistance north shore students pay the same tuition rate as in-district students (\$10 per semester hours at Oakton). Without the charge-back, these students would be required to pay out-of-district tuition (about \$40

per semester hour at Oakton). In order to respond to the need for accurate and up-to-date information about the status of charge-backs, Oakton Community college now provides an information service. For answers to charge-back-questions call 967-5120, ext. 391.

OCC has also initiated a new procedure for residents of the north shore whose high school districts no longer issue charge-backs. Hilquist said. On the basis of filing a charge-back request through Oakton's Admissions Office, the student will be permitted to pay in-district tuition and the college will bill the new district for the charge-back as soon as the new district becomes organized.

OAKTON BUDGET AVAILABLE TO PUBLIC

The proposed budget for Oakton Community college for the fiscal year 1974-75 will be on exhibit at the college and at public libraries throughout the community on Friday, Aug. 9, according to David E. Hilquist, Vice President for Business and Finance.

A public hearing on the budget will be held by the Oakton Board of Trustees on Tuesday, Sept. 10, in Building 3, Oakton Community college, Interim Campus, 7900 N. Nagle, Morton Grove.

Questions concerning the budget should be directed to the office of the Vice President for Business and Finance, telephone 967-5120.

New vice-president

The election of Roger D. Bergloff as vice president and cashier of the Dempster Plaza State bank was announced this week by William J. McSweeney, chairman of the bank's board of directors. Bergloff assumed his new duties July 15. An officer in Chicago area financial institutions for more

than 25 years, Bergloff will assume a major role in customer contact at Dempster Plaza, assisting the bank's customers in all their general banking needs.

In announcing the addition of Bergloff to Dempster Plaza's senior management team, McSweeney said that the bank was "fortunate in finding a man with such an impressive background in banking. Mr. Bergloff's association with Dempster Plaza will prove a distinct asset to this young but rapidly growing bank."

A licensed private pilot, Bergloff lives in Des Plaines with his wife and five children. He is a member of the Executives Club of Chicago, a director of the Chicago Christian Business Men's Committee and a member of the Executive Committee of the Des Plaines Bible Church.

Located at Dempster and Greenwood in Niles, with an ultra-modern six-lane drive in facility just one block east of Greenwood, Dempster Plaza Bank serves residents of Niles, Des Plaines, Park Ridge, Glenview and Morton Grove.

Newcomers to Maine High Schools should register now

Students who plan to attend one of the Maine Township High Schools this fall and who have not registered previously are urged to do so without delay. Registration is being conducted daily-Monday through Friday-in the guidance offices at Maine East, Maine North, Maine South and Maine West high schools. Past experience has shown that waiting until the week prior to the opening of school increases the problems of testing, purchasing of books and supplies, and selection of courses.

It is required that one or both parents accompany the student who is registering for the first time. Parents desiring appointments or further information should call Maine East, 825-4484; Maine North, 298-5500; Maine South, 825-7711; or Maine West, 827-6176.

All students who plan to enter the ninth grade this fall are required to take a placement test before registration-for courses will be completed. Students who have not taken this test can do so at 7:45 a.m. on Wednesday, August 14, at Maine Township High School South, 1111 South Deer rd., Park Ridge. Details may be obtained by calling any of the four schools.

This reminder to register applies mainly to students who have moved into the district within the last few months. Students who have attended the elementary schools within the Maine Township High School district and who graduated this past June had the test given to them earlier in the year by high school personnel.

Young supports aid bill

Washington, August 1—Congressman Samuel H. Young (10th, Ill.) voted yesterday in favor of H.R. 69, a bill authorizing Federal monies for elementary and secondary education. The bill providing \$25.2 billion in Federal aid, passed the House by a vote of 322-83.

This legislation provides for a simplified application for States applying for Federal aid to education. This simplification is meant to cut down on the amount of paperwork in applying for Federal aid.

The bill also contained anti-busing provisions.

Niles Family Service Thought For The Week

By Larry F. Renetzky, ACSW

"Spare the Rod and Spoil the Child"

Thank you for responding by letter and phone call to the above expression. One of the letters received is as follows:

"Normally I do not believe in hitting a child. For the most part sending a child to their room or denying some privileges usually takes care of the problem. However, every once in a great while when the child does get unreasonable and there seems to be no way to get through to them, one crack on the rear seems to bring them out of it, at least stop them long enough to listen to you."

Name confidential

I believe the above letter has some sound wisdom in it. It is not either/or rather it is both. Most parents agree, young and old alike, that some discipline is needed. In fact it has been my experience that children who have little or no discipline interpret this as their parents not caring about them.

In a family that I was working with, the parents had considerable difficulty resolving who was going to discipline the children. Mother's needs got in the way of her administering any discipline. She left it all for her husband. When he would spank the children then she would severely criticize him and become all the more protective of the children. As you can imagine this brought Mom and Dad more and more into conflict which greatly affected their marriage. Also, the children were becoming quite unruly and manipulative, playing one parent against another. Neighbors and friends called the children "brats." Certainly the children were hurting in this parental discord around disciplining their children.

How would you resolve the above example? Do any of you mothers have a tendency to do the same? Let me hear from you about this and also whether you believe in "Spare the Rod and Spoil the Child." Maybe you might also like to comment on the above letter. Just write Niles Family Service, 251 Lawrencewood, Lawrencewood Shopping Center, Niles, Ill. 60648 or call 966-1640. Look forward to hearing from you.

Are tennis courts open to everyone??

Dear Sirs:

The usage of our community facilities is based on good will and cooperation. There are, for instance, more tennis players than courts. In spite of this situation, there is a group of ladies who have our tennis courts system cornered in the name of a so-called "tennis league". Some days they tie up the facilities for 3 or 4 hours at a time, and are in the habit of forcing people out of the courts because "they pay more money". Information about when the courts are not available is not posted at the courts, so these ladies are abusing tax payers at their will.

Thank you

Dear Editor:

All of us associated with the Township Community Theater production "My Fair Lady" thank you and the residents of this community for helping to make this, our first production, successful.

Last winter, when the district 19 Board of Education authorized the formation of the Township Community theater, it was with the hope that this community would enthusiastically receive and support its own community theater. Judging by your help publicizing the production and the large audiences attending it, their hope was fulfilled.

Thank you everyone. We hope that your newspaper and the community in general will continue to support future productions.

New vice-president

The election of Roger D. Bergloff as vice president and cashier of the Dempster Plaza State Bank was announced this week by William J. McSweeney, chairman of the bank's board of directors. Bergloff assumed his new duties July 15.

An officer in Chicago area financial institutions for more

than 25 years, Bergloff will assume a major role in customer contact at Dempster Plaza, assisting the bank's customers in all their general banking needs.

In announcing the addition of Bergloff to Dempster Plaza's senior management team, McSweeney said that the bank was fortunate in finding a man with such an impressive background in banking. Mr. Bergloff's association with Dempster Plaza will prove a distinct asset to this young but rapidly growing bank.

A licensed private pilot, Bergloff lives in Des Plaines with his wife and five children. He is a member of the Executives Club of Chicago, a director of the Chicago Christian Business Men's Committee and a member of the Executive Committee of the Des Plaines Bible Church.

Located at Dempster and Greenwood in Niles, with an ultra-modern six-lane drive in facility just one block east of Greenwood, Dempster Plaza Bank serves residents of Niles, Des Plaines, Park Ridge, Glenview and Morton Grove.

Newcomers to Maine High Schools should register now

Students who plan to attend one of the Maine Township High Schools this fall and who have not registered previously are urged to do so without delay. Registration is being conducted daily-Monday through Friday-in the guidance offices at Maine East, Maine North, Maine South and Maine West high schools. Past experience has shown that waiting until the week prior to the opening of school increases the problems of testing, purchasing of books and supplies, and selection of courses.

It is required that one or both parents accompany the student who is registering for the first time. Parents desiring appoint-

ments or further information should call Maine East, 825-4484; Maine North, 298-5500; Maine South, 825-7711; or Maine West, 827-6176.

All students who plan to enter the ninth grade this fall are required to take a placement test before registration—for courses will be completed. Students who have not taken this test can do so at 7:45 a.m. on Wednesday, August 14, at Maine Township High School South, 1111 South Dee rd., Park Ridge. Details may be obtained by calling any of the four schools.

This reminder to register applies mainly to students who have moved into the district within the last few months. Students who have attended the elementary schools within the Maine Township High School district and who graduated this past June had the test given to them earlier in the year by high school personnel.

Young supports aid bill

Washington, August 1—Congressman Samuel H. Young (10th, Ill.) voted yesterday in favor of H.R. 69, a bill authorizing Federal monies for elementary and secondary education. The bill providing \$25.2 billion in Federal aid, passed the House by a vote of 322-83.

This legislation provides for a simplified application for States applying for Federal aid to education. This simplification is meant to cut down on the amount of paperwork in applying for Federal aid.

The bill also contained anti-busing provisions.

"It was expected that some House members would object to the busing provisions as not strong enough," Young said. "However, the Supreme Court's recent decision mollified the proponents of a tougher stance."

"Actually, the anti-busing language included in the bill is the strongest ever adopted by Congress," Young noted.

We pay high enough taxes in our village and that should entitle any tax payer to use the facilities. Allowing some people to pay more money resulting in the deprivation of other tax payers' rights is discriminatory and unconstitutional.

It is regrettable to realize that this is not the only instance where our public facilities are run on 'little clicks', last names, and 'I-am-more-than-you' basis. I refuse to bribe anyone for my legal rights.

'Carousel' opens Music On Stage season

Karol Verson, 8149 Davis, Niles, president of Music On Stage, Inc., announces the community theatre's opening production of the 1974-75 season of three musicals will be Rodgers and Hammerstein's beloved work, "Carousel."

This is the musical play about the swagging amusement-park barker who marries a gentle girl, makes an attempt at robbery, commits suicide when trapped by the police, and then returns to earth to see his daughter and whisper affectionate words long unspoken to his wife.

It will be presented for two week-ends (Sep. 13 thru 22) at Elk Grove High School Auditorium in Elk Grove Village, bringing alive again such memorable songs as "June Is Bustin' Out All Over," "You'll Never Walk Alone," "What's The Use Of Wonderin'," and "This Was A Real Nice Clambake," says Mrs. Verson.

Neil Burghard, 6530 N. California, Chicago, and Linda Jarvis of Addison have the leading roles in "Carousel" as Billy Bigelow, braggart barker for a merry-go-round, and Julie Jordan, the trusting, gentle factory girl who marries him against all sound judgments, except that of her heart.

Barbara Curren, 1766 Linden, Des Plaines, is cast as Julie's more practical-minded friend who shrewdly marries the dependable Mr. Snow, played by Jack Ruane of Rogers Park, who is a new Mt. Prospect resident. Betty Kand-finder of Palatine will appear as Billy's employer, jealous owner of the carnival, while Betty Myers of Mt. Prospect is Nettie Fowler, owner of the resort where the "real nice clambake" is held.

Others in the cast include John Noerenberg, 1510 N. Valley Lake Dr., Schaumburg, as Jigger Craig, the sly crook who persuades Billy to attempt a robbery; Christine Gyssler, 1847 Linden, Des Plaines, as Billy's daughter, Louise; and Ed Sauer, 9356 Landings Ln., Des Plaines, as the Heavenly Starkeeper who sends Billy back to earth to see that daughter.

Antique toy show

A gigantic show of miniature antiques is coming to the Chicago area. The largest antique toy, doll, and train show in the world will return to the Kane County Fairgrounds, Route 64 and Randall rd. in St. Charles, on Sunday, August 18 from 9 to 5. The first toy show consisted of 110 dealers from 30 states, and this second exhibit promises to surpass that record. No other place in the world has ever held an antique toy show of such magnitude—every type of toy, doll, and train made in the last 100 years will be shown.

The fairgrounds will contain the best toys of more than 30 states displayed all together to create a panorama of the United States from 1850 to 1930. All antique toys are a detailed realistic copy of the adult world of trains, ships, carriages, costumes, furnishings, automobiles, airplanes, etc. As each state varied in agriculture, commerce, and industry, so did the toys the children played with to imitate the adult world of their area.

A scan of the toy show will re-create Americana as it once was: the shipyards of New York, the fishing boats of San Francisco, the riverboats of the Mississippi; the trucks and cars of the cities, the horse and buggy of the Midwestern states, the farm wagons of the South, and the trains and airplanes that linked them all together.

These miniature antiques from the last century tell the story of our culture better than the written word. The show offers a historical survey for the young and a nostalgic trip for the rest of us. Admission is \$1.50 for adults, and children under twelve are free.

Variety Club Open

All systems are "GO" for the second annual Ivy Kuppel-Variety Club Open, the prestigious celebrity-amateur golf tournament sponsored by the Variety Club of Illinois for its Children's Charities and honoring the famed newspaper columnist, television star and a board-governor of the club.

Past Chief Barker Bill Margolis, originator and managing director of the event, has set the date for Sept. 9 at the Dominion Golf and Country Club, Wood Dale, Ill. He predicts the renewal will even outshine the illustrious inaugural tourney.

Those who participated, including Kuppel, hailed it as one of the finest ever staged in the Middle West. A good-sized field including many celebrities took part and contributed \$9,000 to Variety Club Children's Charities.

The charge will remain the same as last year -- \$350 per player, which will include breakfast, lunch, cocktail party, banquet, bar, 18 holes of golf, cart, golf jacket, cap, golf balls, prizes, photographs and other amenities. Entries are being accepted by Margolis at Suite 550, 410 N. Michigan ave., Chicago, Ill. 60611. For further information, call 664-6400.

ED HANSON
'A Bigger Bombshell Than Nixon's Admission Of Guilt'

First, let me make this perfectly clear—this column was written by me on Sunday, August 4—but was not typed until Tuesday, August 6. Further, I taped this column and deposited said tapes in my safety deposit box on Monday morning, August 5.

President Nixon will toss a bombshell when he admits this Sunday that he has concealed damaging evidence and concedes impeachment. (I thought the announcement would be made on Sunday, August 4, 1974.)

The thing about the Nixon caper that has always bugged me was that during his 'second term' he permitted damaging statements made on tape of everything he said.

If there were no tapes there would have never been a case. If he had destroyed said tapes there would have never been a case.

Why would a man, an attorney, with certainly above average intelligence permit a tangible record of his guilt to remain. Why, knowing his guilt was on record would he continue to repeatedly deny said guilt?

Because Nixon wanted to go down in history as the greatest President in American history. After his mandate of '72, Nixon was heart sick by the graft and corruption that ran thru the political fabric of this nation.

There was only one way he could accomplish this and that was by doing deliberately what he pretended to be guilty of himself, i.e., corruption and graft at the highest political level of this country.

Nixon also made one final tape, which he and he alone recorded in private prior to all this Watergate business. This tape is hidden safely away and will be opened only after his death.

This tape will then reveal that Nixon deliberately sacrificed his political life for his country.

And he will gain a place in the political history of the world, which never had, and probably never will have, a peer.

Around town lottery tickets are selling well. Terry of Sullivan's in Niles says his ticket sales are brisk. This figures, for did you know that Sullivan's sells more newspapers than any place in this area. And Sullivan's tavern business is terrific too. I drop into Sullivan's frequently for they serve an excellent hamburger, and it's a nice clean friendly neighborhood tavern that's run in the right way. Terry Sullivan is a nice gent and like the old saloon keepers of yore frequently buys a drink. This is rapidly becoming a thing of the past—this buying a drink bit—in many bars and lounges of today.

One of the very few women in this area that a slack set or pants outfit looks good on is Toni, the lady day bartender at Eddie's Place, next to the La Venecia Restaurant in Niles. Most of the women, particularly those who bulge in the wrong places, if they could see themselves going would never wear pants. But Toni enhances this type of outfit, and on her it looks good.

Eddie reports a good sale on lottery tickets at his place. Eddie's wife chided me for not writing more about Jake's Restaurant, for each week she loves to read what I have to say about this restaurant. So I've decided in the future to write less about Eddie's Place and more about Jake's. Eddie thinks that maybe, now that Illinois has a lottery, maybe the village daddy Nick Blase may permit the return of amusement coin operated machines. I hope they bring back Pinball machines—life has never been the same since they were outlawed by blue noses.

Dropped into the Fred Astaire Dance Studios, 7403 Milwaukee ave., Niles and found the 'Single Singles' Club going bigger and better than ever. The boss, friendly Bob Garvey, was his same old genial self. Some of you may recall my columns about this dance studio, and many of its fine personnel, some months back. Most of the old bunch, only they're still very young—are still there, for they enjoy their work. Dancing and their wonderful parties can put a lot more fun in your life. It's fun to learn to dance at the reliable Fred Astaire Studio; drop in and see Bob Garvey or phone 647-7494.

Jake of Jake's famous Restaurant of Niles said why not leave a lottery ticket for a waitress instead of a tip. In this way you could become the world's biggest tipper because the waitress could win a million bucks from such a tip.

Jake says his lottery tickets are going faster than his hotcakes and he plans new and novel lottery ticket promotions in the immediate future.

Dear Sir:

A few weeks ago we visited my aunt, Mrs. Mary Karlove (Karlovsky) and cousins in Niles. They had a surprise for us -- the May 30 issue of your paper, The Village of Niles edition.

In it was a picture of my aunt's restaurant and tavern on Newark, ave. taken many years ago, with my aunt, uncle and cousins as well as my mother and father, Josephine and Fred Horack and my sister JoAnne and myself. (The paper erroneously listed someone else's name instead of my mother who is standing next to my father.) The man sitting is my mother and aunt's cousin. As we were growing up, we spent many, many happy times there with my aunt's family.

Would you possibly have more copies of this issue or of page 20 where it appears? If so, could you spare six? Or whatever you can send? I would like to give one to my sister, JoAnne and our two children. Aunt Mary and mother also have two other sisters still living.

Please let me know how much it would cost and I will be happy to send you a check. Wish we had had time to stop by when we were there.

Thank you so very much. We never knew this picture existed.

Sincerely,

Mrs. Evelyn Horack Tittle

Occasionally we get phone calls at KROMER'S about TV trouble and we suspect they come from folks who are repairing their own sets or from part-time TV fixers. The difficulty is most often of the intermittent type that takes electronic meters and circuit knowledge training to ferret out. We'd like to give the caller a definite answer but the several different components that cause this trouble all react the same way.

Generally, these callers keep changing tubes and parts in a bit-and-vice guessing game and if they're lucky, might solve the problem. However, most often it is expensive and time consuming. You're better off in the long run to call an experienced technician to do the job right. Many folks phone 967-6485 in this area. We'll guarantee your satisfaction.

Present paintings to Orchard Village

Paintings by Rosemary Zwick were presented by Marvin Cohen of MGM Realty, Inc., to Orchard Village, Skokie, a newly opened community living facility for retarded young adults.

Cohen contributed the paintings through MGM Realty's "We Care" program. He is one of eight salespeople who earned pledges they made during a three-month period from April through June.

According to Bernard Saltzberg, executive director, Orchard Village is the first live-in community center for trainable mentally handicapped adults in Illinois. The Village, located at 7606 Marmora st., Skokie, will serve young adults from Niles and Maine Townships.

Cohen said he chose the Village for his contribution because he felt the facility would give young retarded adults a much needed opportunity to become happy, useful citizens. The paintings will hang in the apartments of the Village's occupants.

New childrens services available at Orchard Center

Orchard Center for Mental Health is actively seeking parents of infants and children up to age three with some concern about their children. The Early Intervention Program is intended to provide information or direct services to children and their parents about any concern or problem relating to the child's growth and development. These problems may include known or suspected handicaps, or simply parental concern about every-day child management. Some form of help or information at the earliest possible age may prevent problems in children with known handicaps.

Concerns may be about the infant or child who is frequently ill, doesn't eat or sleep as well as it is thought he should, is nervous or restless, or may have more serious medical or other handicapping conditions. The Early Intervention Program is also attempting to reach parents who are concerned about having their first child, a child considered to be premature, or twins.

Services include individual or group meetings with parents or direct contact with children in activities planned to stimulate psychological growth and development. The Center will also help parents plan for or find remedial or therapeutic services for youngsters' having identifiable handicaps.

Orchard Center's Early Intervention Program is funded by the Niles Township Administration through revenue sharing funds and by a grant from the National Council of Jewish Women. Also donations from civic groups, such as the Morton Grove Woman's Club have been gratefully accepted. This program is available only to Niles Township residents at the present time. Persons interested in the program are encouraged to telephone 967-7300.

Mr. James Androff, Assistant Professor of Natural Sciences at Niles College of Loyola, is shown above working with a group of children from the Morton Grove Park District's Camp Mor-Gro on the native prairie land proposed to be set aside at the site of the new sports center in Morton Grove.

Morton Grove Park District youngsters are already beginning to benefit from the native prairie land proposed to be set aside at the site of the new sports center. Campers from the Park District's Camp Mor-Gro experienced a rare treat when they were led by Betty Tessten, a junior high science teacher and camp counselor and James Androff, Assistant Professor of Natural Sciences at Niles College of Loyola, on a nature hike through the prairie.

Mr. Androff pointed out that the children and their families were very fortunate to have what he called a "natural conservatory of flowers" right here in Morton Grove, and that the preservation of such land was especially significant now with the coming of our country's bi-centennial celebration as part of the preservation of part of the heritage of our past.

Among the morning's activities on the prairie was a talk by Mrs. Tessten on the significance of the native prairie land and its history, followed by a hike across the land where Mr. Androff pointed out such native prairie plants as

Lincolnwood Recreation survey

About 1,300 Lincolnwood residents are to receive questionnaires in the next two weeks in an attempt by the village to determine recreational and educational needs, according to the Chicago Tribune.

The survey is to be conducted for Lincolnwood by the Institute for Community Education Development, Ball State University, Muncie, Ind.

The 14-page questionnaire is designed to find out what community education programs residents want and what can be developed in Lincolnwood to fulfill its needs, John A. Fallon, a representative of the institute said.

Fallon met last week with village officials and volunteers who are to distribute the questionnaires.

A rough report on the survey data is to be presented to the Lincolnwood Recreation Committee in about five weeks, Fallon said.

Households receiving the questionnaires were selected at ran-

dom from the village's water bill list, Fallon said.

"In other towns where these questionnaires have gone out, people have begun to see that public buildings, particularly schools, can be used as community centers," Fallon said.

Eight Lincolnwood community organizations and service clubs helped plan the study in hopes of expanding recreation programs in the village.

Objections by Harvey Kriloff, 3724 Wallen, that the survey is a waste of time and invasion of privacy were largely ignored.

Survey data is to be used only by the university and will not be available to anyone else, Fallon said. Residents are not asked to identify themselves, and may skip questions they find objectionable, he said.

Such questions as "How important do you feel your present job is?" and "When you feel tense or worried, what is the usual reason?" are designed to discover basic needs in the community for which programs could be devel-

oped in recreation, education, or health, Peter Murk, a representative of Ball State University, said.

From the LEFT HAND

Continued from Page 1

Scheel noted this MBO program (Management by Objective) has proven successful in Cincinnati and he believes it can be applied in a smaller community like Niles. He added he will be attending a midwestern university in the fall to further his knowledge of this program.

The patrolman's side of this fancy program is a bit different. He sees it as a 150-moving-violation ticket quota over a six-month period. We were told if ticket quotas are not up to par no special privileges are granted the men. If they desire to switch days with other men, we were told the request is turned down if the ticket quota is slack. When the men go on vacations they're still expected to maintain the 150 over 6 months quota.

The question which must be asked is, how effective is such a program on the morale in the department? If ticket-writing becomes an obsession of the bureaucracy, do other areas under police jurisdiction suffer? If ticket-writing is held over the heads of the men can they rightfully protect a community in the more important areas of crime-fighting? We read about the increased crime in the suburbs and it begs the question whether suburban police forces should be concentrating on ticket-writing.

The police higher-ups must ask themselves how they can best 'keep their guys on the ball'. Certainly, in the case of the Niles Department, they must feel such a policy controls the effectiveness of the men, and that the very nature of a quota keeps greater control over the men.

From The Left Hand there is a slim line between 'control' and 'fear'. And if it takes this ticket-writing method to control the patrolman on the beat, there's a definite problem in the department between the brass and the enlisted men. Lack of communications, and perhaps lack of rapport with the leadership, is manifested by such actions. In subsequent issues we'll explore this relationship.

formally acquires the United Motor Coach Co., said Harvey Schwartz, attorney for the board. United Motor Coach is the only privately owned company serving the district. Others are the Chicago Transit Authority and three local feeder systems.

NORTRAN was organized in February, 1972, under the Local Mass Transit District Act. It serves 450,000 residents in 18 member communities north and northwest of Chicago.

Newman said he had no idea what effect if any last week's action by the U.S. House of Representatives to set aside an \$800-million transportation bill would have on the grant application.

A spokesman for the Chicago Transit Authority said last week that between \$50 million and \$54 million of the federal money had been earmarked for Chicago.

Some of the money would have been funneled through the RTA to subsidize operating cost of suburban bus companies, he said.

ON DEAN'S LIST

They were among the 882 Illinois Institute of Technology students named to the Dean's List for the spring semester of 1974. These students had attained a grade point average of 3.0 or higher, based on a 4.0 scale.

Fish Stories

Bill Heunisch received a little note from our new member Ed DeBarre who is spending the summer in Butternut, Wisconsin. Bill has been mailing the Wise-Times to him and he noticed that Bill Haefke had a birthday in July. He wants to wish you a Happy Birthday, Bill.

He said the fishermen there caught Muskies ranging from 8 1/2 lbs. and 32 inches long, to 33 lbs. and 49 inches long. The last one was caught by a Mrs. Gloria Kroone of Minnesota.

Dolly Fritz just got back from a fishing trip in Hayward, Wisconsin. All she could catch were two crabs. But her friends got 26 Wall-eyed Pike. She says they know how to fish for the big ones.

Flamm to Address Morton Grove Senior Citizens

Lola Flamm, Republican candidate for Cook County clerk, will talk with the Morton Grove Senior Citizens at 12:30 p.m. Monday, Aug. 12, at National Park, 9325 Marion ave., Morton Grove.

Mrs. Flamm will outline some of the improvements she plans for the county clerk's office, including the mechanization of record-keeping through a computerized data storage and retrieval system and the deputizing of municipal and township clerks to provide the county clerk's services at more convenient locations.

These two steps, she maintains, would expand the services currently offered by the clerk's office and make them more effective, and remove access to public records from the mercy of public officials and their employees.

The House On The Rock Trip

It was a beautiful morning on a Tuesday in June when the Senior Citizens Club of Niles left the Recreation Center at 9 a.m. by bus to spend the day at the House on The Rock, in Wisconsin. The drive was a beautiful one, driving along Route 90, approximately 180 miles of beautiful, scenic and picturesque attractions, as we drove along the roads of Illinois and Wisconsin. It was about a three hour leisurely drive, and we arrived there shortly after noon. As we were driving along the highway, we could see the House on The Rock from a distance. The Rock on which the House is built is a citadel of stone, sturdy, sentinel, sightless and alone—seeming to guard the invisible gates of the extraordinary Wisconsin countryside. The Rock had withstood glacial torrents, and vast ages of winds that swept away the remaining soft spots, and only that solid rock remained. Alex Jordan, the architect of his own dream, created this house to his own taste.

We then left the House rather hungry to get to the Dutch Kitchen in downtown Spring Green. We were served soup, buns, salad, roast beef, mashed potatoes, carrots and coffee.

Back to the bus and the beautiful trip home.
