## Left Hand: Report on the Young-Mikva court in action

Opposes 6 lanes for Golf Road

### District 63 School Board voices danger to children

School Board District 63 members voiced strong objections to the proposed widening of Golf rd. to six lanes with a lane-wide median strip at Tuesday's board meeting. They postponed their Nov. 23 board meeting so board

members could attend the public hearing on the proposal, which will be held at Washington School on that date. While the board cited the hazardous conditions to school children, the combined street

widening and sewer project have been supported by the City of Des Plaines, the Village of Niles and Maine High Schools. Letters from these three public districts supported the proposed project which will widen Golf rd. from Potter to

Harlem at a cost of 7.7 million dollars. Approximately 5 years ago the state had made a similar proposal but withdrew it after strong opposition from the school district. A proposed overpass be-

tween St. Isaac Jogues property and Washington School was allegedly rejected by the parochial school people which contributed to the overall rejection of the highway plan.

Niles-Evanston contract  
for supervised inspections

## OK plan for control of nursing homes

[by Alice M. Bobula]

An inter-governmental agreement with Evanston which will provide Niles with supervised nursing home inspections monthly was unanimously approved by the Niles Board of Trustees Tuesday, Nov. 9. Niles has no village department qualified to inspect nursing homes and therefore decided on a pilot program with Evanston, which is equipped with the necessary expert dietetic, nursing and health care personnel, according to village president, Nicholas Blase. The contract stipulates that

### From the Left Hand

By David Bosser

My son, who knows more about journalism at age 22 than his 30 year older pere, suggested I write about the other side of newspaper work, few lay people know about.

If you saw the movie, *All The President's Men*, you might have an inkling of what takes place before you read a story at tomorrow morning's breakfast table.

Early Monday afternoon we finished working in the office at about one o'clock. We jumped into our car, decided to miss lunch, and drove downtown, in anticipation of reporting on the court case involving the absentee ballot controversy surrounding last week's Young-Mikva election. We parked our car on Wacker Drive after waiting ten minutes to get into the city parking lot, and jogged over to the Civic Center. A bailiff told us the courtroom number we were looking for as we moved into the elevator for the 17th floor. Hopping off the lift we wandered thru the maze of corridors, climbed over TV cables in front of the destined courtroom, and shoved our way into the overcrowded courtroom of Judge Helen McGillicuddy. A bailiff let us inside the gate and we moved to a side wall alongside the jury box where we waited for the Judge to enter. There were only 25 or 30 seats for spectators, and those who got into the courtroom were told they'd be forced to leave if they remained standing in the center aisle.

When the Judge came into the room everyone stood, those with seats then sat down, and attorneys representing Mikva (2), representing Young (2), and assistant state's attorneys (2) introduced themselves to the court.

The lady judge noted the case was initially scheduled for Judge Comerford, but because of recent past political affiliations, he disqualifed himself from the case, transferring it to the lady. She said it was being transferred again, and it would be heard in another courtroom at the opposite end of the building in Judge Schneider's courtroom.

Immediately the chase for seats and entrance into the new courtroom got underway. Elbows shoehorned the public thru the one open door exiting from this room, and everyone dashed down the hallway and stood outside the second courtroom. When the doors opened, those sharp elbows

## 1977 Niles vehicle and animal applications

Niles Village Clerk Frank C. Wagner, Jr. announces that the applications for 1977 vehicle and animal licenses will be mailed soon to every resident in the Village of Niles. This packet of forms, called a "Data Pack", contains applications for next year's vehicle sticker, animal tag and free bicycle license. As an added convenience a pre-addressed return envelope is also contained in the "Data Pack", along with some local ordinance

laws that new, as well as established, residents will find helpful.

Clerk Wagner states that after the village receives the completed applications, it will mail out the appropriate number of licenses to the applicant. He further stated that if you haven't received your "Data Pack" by Dec. 1, to call 967-6100 and another will be sent to you. Additional vehicle sticker, animal tag and bicycle tag applications may be obtained at the Village Administration

Building, 7601 Milwaukee ave. and will be mailed to any resident upon request.

1977 Niles vehicle stickers, like state license plates, cannot be displayed until Dec. 1, 1976. Clerk Wagner is also reminding citizens over 62 years of age, that they may purchase one passenger vehicle sticker for only \$5 instead of the \$10 charge.

Mail early and be first to display your new 1977 Niles vehicle sticker!

## Demon soccer results

On Thursday, Oct. 28, the Maine East Demons took on the Niles East Trojans. Just as the skies were beginning to blacken so were the Maine East hopes for a state final berth.

On this day the sectionals began, and in the sectionals once you lose you are out. The Demons' season came to a screeching halt at the hands of the Trojans, who won 1-0 in over-time.

There were two line-up changes for the Demons. John Castellano returned to the goal after a three-game absence and Scott Schwandt moved to full-back, replacing the injured Bill Selers.

To say the least, the Trojans were up for this game after suffering a 3-0 loss at the hands of the Demons one week prior. The Trojans carried the play.

The Demons had several fine shots on Trojan goalie Brad Moss, who was credited with the shutout. John Lee even managed to put one past Moss on a rebound from his penalty kick only to have it called back due to a Demon offside. It was the Demons' inability to score that cost them the game. At the end of regulation time, the score was 0-0. The game then went to sudden death. In sudden death the first team to score wins.

Death came suddenly for the Demons when, with 57 seconds of the first overtime gone, left wing Cary Cleaver put the ball over the outstretched Castellano. The Trojans went wild, and the Demons were stunned.

On a somewhat brighter note, the Demons have several all-conference players — goalie John Castellano, fullback Gary Brown and forwards Roland Weiss, John Lee, and Housh Khoshbin.

## Delay action on reducing salon which 'wraps' weight loss

[by Alice M. Bobula]

Niles Zoning Commissioners tabled action Nov. 3 on a Special Use zoning change for a reducing salon in Oak Mill Mall at 7900 Oakton st. for determination of actual mechanics involved.

Petitioner Conetta Bizzoni of Des Plaines, who came before the zoning board with attorney Richard Ross and business consultant Randy Pedolski, told commissioners a new concept was intended for reducing at the "Waisted Dimensions" salon.

The concept, which she described as successful in Ft. Myers, Florida operation, is based on an old Swedish remedy, a method of dry heat, medicated wrapping and a shower with the end result of spot loss in the area needed.

An hour long "wrap" could cost from \$15 to \$20, she said. As sole operators of the salon the petitioner and her sister, Mrs. Toni Meininger of Chicago, are certain of results with a "no contract, pay after satisfaction" guarantee.

Commissioners said the delay in action was due to their "responsibility and obligation to inspect business operation as closely as possible."

Licensed operation, health and safety regulations were also to be considered, said Zoning Comr. Kenneth Cohen in recommending a continuance to Dec. 1.

In other action Zoning Commissioners recommended approval of a Special Use zoning

change for a Victoria Station restaurant at 7800 Caldwell ave., directly south of Tam Tennis Club.

Approval came after zoning commissioners refused to compromise on parking requirements with J. Emil Anderson & Son, owners of the contracted restaurant site and the Tennis Club.

Petition for the railroad box car eatery had been granted a continuation from last month to seek easement for additional parking from the planned 120 sites to the 144 required by village code.

As general counsel for J. Emil Anderson Co., Bradley Olsen argued the restaurant site had adequate parking. "If extra parking is needed," he said, "Anderson will not object to Victoria parking on the Tam lot, but we are reluctant to give legal easement due to possible changes in the future."

Comr. Charles O'Grady noted he would agree, "except that Anderson owns both pieces of property... the restaurant site is unique," he said, "because it does not provide for parking on Caldwell or anywhere else except to the south on the Tennis Club lot."

Faced with imminent denial of petition by commissioners, Bradley conceded creation of an easement by Anderson for 41 parking spaces on the north boundary of the boxcar site, which right of usage could be

removed by Niles if not deemed necessary after a year of restaurant occupancy.

Site construction is planned for March, 1977, with a Grand Opening planned for the following July.

Approved a variation in lot size to Joseph, Mario and Lea Verre from 7,500 sq. ft. to 6,750 sq. ft. of 8420, 3204 and 3212 Maynard to 10 lots on 66 ft. cul-de-sac streets.

Denied a Special Use zoning change petitioned by Randy Wright of Skokie to operate an equipment rental store at 9015 Milwaukee ave.

Commissioners objected to a proposal by the petitioner to install slotted fencing with landscaping of low bushes in front of the fences to obscure sight of rental machinery.

"Milwaukee ave. has been upgraded in recent years," said Comr. O'Grady who objected to the proposed fence set 27 feet in front of other Milwaukee ave. businesses.

Intended use as projected by the petitioner, according to Cohen, would handicap proper development and beautification of the area. "Our previous experience with rental units in Niles have not been good," he noted.

## Free blood pressure tests

Blood pressure readings will be taken on Thursday, Nov. 18 from 4 until 8 p.m. at the Niles Administration Building, 7601 Milwaukee ave. This service is provided monthly by the Niles Health Department at no charge to the participant.

It is recommended that all persons have their blood pressure checked several times each year in order to assure prompt treatment of developing hypertension. There are no symptoms from high blood pressure so do not wait for symptoms to develop before checking your pressure. Early awareness is the best defense you can have in the fight against high blood pressure or hypertension.

### Woman's Club of Niles discuss Indian culture

It is appropriate during the month of November to turn one's thoughts toward the first settlers of this great nation. We're speaking of the American Indians, of course, for without them the first Pilgrims to land here would never have survived. Throughout the history of our country the American Indian has played a role. And while we grew and changed, the Indian was there resisting that change. What made the "red man" resist modern technology, refuse to blend and carry forth his culture in spite of everything?

These questions will be discussed at the Woman's Club of

Chairwoman or Bernie Saltzberg, Executive Director, at 967-1800.

Ms. Sievers has worked among the Indians for nine years at the Indian Center 1630 W. Wilson ave., Chicago. During this time she has developed personal relationships between individuals, families and herself. She will discuss the psychology of the American Indian culture which makes them remain aloof from the mainstream of our culture. Interested persons are cordially invited to attend.

For two years in Niles, we did business with you in a small ranch house. In Mt. Prospect, it was three years in a special trailer unit.

Now First Federal is happy to announce the opening of two spacious new buildings at both locations.

Striking, contemporary architecture characterizes both structures. Glass-walled and topped by an overhanging, open-truss roof, they are a study in simple, clean-lined beauty.

Inside, the decor is comfortable and friendly. With First Federal's familiar deep-blue carpeting, smoked glass privacy partitions between teller stations, and warm wood furniture and paneling.

The new buildings are as functional as they are beautiful. Increased space allows us to expand our services with more tellers and counselors, private counseling rooms, and safety deposit boxes.

Drive-up service has been expanded and

improved with an electronic traffic control system that cuts down waiting and directs you to the first open teller. You'll save time on busy days.

Both our Niles and Mt. Prospect branches offer the full range of financial services you get downtown at our main office. Including savings accounts, Saver's Certificates, and mortgage, home improvement and education loans. Plus a world of sound, personal advice about the best way to handle your individual financial situation.

There are now 15 First Federal branches in the city and suburbs with more on the way. And your First Federal passbook is good at every one of them.

So stop in at First Federal's brand-new offices in Niles and Mt. Prospect. You'll be pleased by what you see. And by the service you'll get. Watch for the grand opening celebrations planned for both new buildings. They'll be coming in a few weeks, with gifts, celebrities and refreshments for everyone.

## Hanson must be Bugle owner??!

Dear Mr. Hanson:  
Don't ask me why, but I read your latest column last night. Now I can only hope that you will go back to shilling for the local eateries.

Your sophomoric ramblings on the Bears were a waste of valuable space as well as an insult to intelligent readers. If you are trying to establish yourself as suburbia's answer to Mike Royko, forget it! Your attempt, at best, is feeble...and that assessment may be too kind.

If you were actually serious, then I feel you should do the Bugle a favor and find another line of work.

It's incredible that a man of your questionable talents could be given this weekly forum. So the only logical answer is, you must be the owner. How lucky for you!

## LETTERS to EDITOR

### LWV concerned over MG Village Board actions

Dear Mr. Besser:

The League of Women Voters of Morton Grove-Niles is concerned with some of the recent actions of the Morton Grove Village Board. The amendment of the ordinance concerning village administrator, the election and swearing in of the village president at an executive session, and the pension plan for trustees and village president deserve the attention of the citizens of Morton Grove.

The ordinance concerning the village administrator was originally designed to insure the non-partisan continuity of the village administrator post, thus trustees were barred from taking over that post for a period of two years after serving as trustee. The amendment passed by the Board now allows a trustee to become village administrator immediately after serving as trustee. We feel it is a mistake to change the non-partisan intention of the ordinance.

The League is disappointed that the Board chose to elect and swear in a village president in executive session. Village Attorney Gabe Berrafato has expressed the opinion that it is legal. That may be so, but the intent of the "right to know" law was to make government as open as possible. To use the letter of the law to justify an action which keeps important information from the public does not satisfy the intent of the law. Since the citizens are the ones who elect a village president it seems unjustifiable to allow them no knowledge at all of the selection of a replacement until the process was completed and the new village president was sworn in.

A resolution has been adopted providing for a pension for trustees and village president. Tr. Henrici stated that other villages have such an arrangement. Checking with surrounding villages, the League found that Niles does not, and Glenview does not. Only Skokie has two trustees and a mayor who participate in the state IMRF pension plan. In order to qualify under state rule, they must be regarded as part-time employees spending a minimum of 600 hours a year in the service of the village.

Morton Grove is the only community in Illinois which does not participate in IMRF but has its own pension fund with a private insurance company. At this time, when it is being expanded, it is imperative that citizens consider the costs involved and the necessity of including elected officials in this program. We understand that \$25,000 was budgeted for pension funds for elected officials in the 1976 Morton Grove budget, in comparison to \$75,000 for all village employees. Since plans for the pension fund must have been made before the budget was drawn up we feel the public deserves more factual and accurate information concerning the cost, who will be included in the program and the justification for the pension plan.

Sincerely,  
Mary Marusek  
League of Women Voters

## Questions vote count in Mikva-Young race

Dear Editor:

This election year has made me proud to be an American, in so much as the turnout of voters. It is a good feeling that we can count on the people of this great country to come out to vote for the people they want to run their country.

There is a saddening feeling, or else there would be no reason for this letter. It really surprises me that men like Stanley Kuper believe that they can go around and pull the wool over the eyes of the voter forever. He must know that people like myself are watching him, and for that matter, watching all people in office.

To be more precise, I'm speaking of the Tenth Congressional District. I will not go into party affiliation; for I do not think that is the issue here. I do, however, think that the way the votes were counted is. The oddest part is that rules are set forth to insure a fair and honest election. Then behind closed doors, Kuper and others who will go without name, decided to break those rules to the benefit of their political party.

I as an American want every voter's vote counted, but if rules are made they should be followed. For rules are made for the betterment of all the people, not just a few. I'm speaking of the absentee ballots. I am not sure these votes arrived at the time they were supposed to according to law in order to be counted. After all, it was Kuper's office that did not arrange for the votes to be at the right precinct at the right time. Then to cover for his mistake in the eyes of the people, he overextended his official duties by picking up absentee ballots from the post office on election day and afterwards.

The fact is that on the night of Nov. 2, there were only some 700 absentee ballots unaccounted for; on Nov. 5 there were 3,000. I ask how many more will turn up? Is the County Clerk so incompetent as to allow these votes to keep coming in? Or is it just that he feels his rules are only good for others and he is above them?

Also on Nov. 2 the count for Mikva was 105,487 and Young 105,280. Then 2 days later Kuper's office came out with 106,488 for Mikva and 106,287 Young (the difference is approximately 200 votes, even though the figures are greater). Another odd thing is: why did Mikva's and Young's figures both come out with Young ahead by approximately 250 votes? Could this mean the Kuper totals were changed to come out for the benefit of Kuper's choice, not the people's choice?

In closing I would like to see how Mr. Kuper came up with those figures? What did happen behind those closed doors of his office? If the absentee ballots are to be counted, they should be doubled checked to insure that one name for one vote is to be counted. Also that these so-called absentee ballots are not from people who did in fact go to the polls and vote.

If the day is here when Americans go out in record numbers to vote for the people they want in office, then let's show them the same courtesy by giving them truth and accuracy. The days of the American blind faith in the elected officials is over.

Thank you in advance for the time to read and publish this letter.

## "Is there life in the family after Women's Lib?"

Diane Martin will address herself to the question, "Is there life in the family after women's lib?", at next Tuesday's free lecture (Nov. 16) in the series **Turning Points in Marital and Family Living** presented by Niles Family Service and Maine Mental Health Center at the Niles Trident Center, 8060 Oakton st., Niles. Diane Martin, who has a M.A. from the University of Chicago is the speaker. She teaches part time at a college and Theological Seminary in the area. She also has a private practice of psychotherapy for individuals and couples in Glen Ellyn. She has taught many courses in the area of interpersonal communication skills, self-actualization for women and marriage enrichment.

In fact, several of these courses have been at Niles Family Service. Diane Martin and her husband, Ron Martin, Ph.D., have co-taught marriage enrichment courses, several of them at Niles Family Service. Diane and Ron Martin have two sons, ages 6 years and 6 weeks.

To find out customer opinion of telephone service, Centel has underway a telephone survey program, according to S. E. Leftwich, Centel Vice President and Division Manager.

Interviewers begin each call by identifying themselves as calling for the telephone company. Customers are selected at random to answer questions on one of the following Centel operations: business office, repair, installation, operator assistance or general service. "The surveys are being conducted throughout Centel's operation in 10 states and should benefit all Centel customers," Leftwich added.

## Niles Family Service Thought for the Week

[by Larry F. Renetzky, ACSW]

"IF YOU DO NOT UNDERSTAND MY SILENCE, YOU WILL NOT UNDERSTAND MY WORDS."

Silence...What a descriptive word. Little did I ever think 20 years ago that I would treasure silence and learn so much from it. I'm writing this in the stillness of the hour before my staff come in and the hustle-bustle of the day really begins. I've come to greatly appreciate these moments even as you probably have come to enjoy some of your quiet moments. Mothers saying, at last I have some time to myself; or dads saying, it's good to get away from work and everything else for awhile.

I remember that I used to always want to be with people, at least one other person. I still enjoy being with people. In fact one of my basic philosophies in life is "put yourself into people for it's people that really count." Though this be the case I find quiet moments by myself whether reading, fishing, sleeping or just walking or sitting in the woods, park, or my own living room as precious golden silent moments.

One of the things I appreciate so much is my wife's understanding and acceptance of my need for silence. In fact my wife helped me to learn the importance of silence through her example. I gradually learned from here the beauty that can be realized through these golden silent moments. The beauty of just observing and listening to nature, people, God, your mate, your children and other children. I know some of my most precious moments with my wife and children are: just holding hands and walking through woods together; sitting across the table, just the two of us looking at one another without saying a word; my wife and I just being close and not saying a word; my daughter and I watching butterflies and seeing the wonderment in her eyes; my son and I on a campout looking up at the beauty of the stars and sky; watching a squirrel eating a nut or a robin building a nest, or a doe getting a drink from a stream, or...

Yes, the expression, "If you do not understand my silence, you will not understand my words," is significant. Begin to observe and listen more. Just be silent at work with your employees or at home with the family or on a street corner or in the woods. Watch how much you can learn, how your understanding of a person or of life in general can become richer and more full.

I was taught one of the definitions of Social Work being, "the art of being a good listener." I will have more to say about this "art" in the future but for now I just want to point out that in order to really listen one must be silent. Furthermore, that your silence can and does communicate much that one needs to try to understand. Try to cultivate understanding the silence of others and you will probably find that you can better understand their words.

If you have individual, marital or family problems, or want to enhance your personal, marital or family growth, call Niles Family Service, 692-3396, or come in to 8060 Oakton Street, Niles.

## MG Board

Continued from MG P.1

resolution was drafted as a Group Deferred Pension Plan whereby a village official can take some of his earnings and put them into a fund and can derive some current tax benefits by doing so. Ron Henrich said when he came on the board, he was surprised to find that M.G. had no retirement plan and feels he and the other trustees should have the option of joining such a program. Ms. Marusek said according to this, the village also had to pay part of this and the attorney said this was so.

In other business Bldg. Commissioner Hajek recommended giving Kohl's a 6 month observation period for their existing parking plan. After a very long discussion, trustees finally approved a motion by Trustee Henrich asking that Kohl's be made to comply with our village ordinance. Relevant to this John Hilkin moved to direct the Plan Commission to review our existing Parking Ordinance and modify it to comply with state and federal parking requirements, also including compact cars and motorcycles. The board passed the motion.

## Area boys invited to Notre Dame Open House

Notre Dame High School for Boys, 7655 Dempster, Niles, will conduct its annual open house on Sunday, Dec. 5, from 1 to 5 p.m. All boys in both parochial and public schools and their parents are invited to be the guests of the school, especially those in seventh and eighth grades. Teachers are also invited to attend.

Members of the Notre Dame administration, faculty and students will be present to greet the visitors and conduct tours. Displays and equipment of the various departments will be presented. All student organizations and sports will also be represented. Refreshments will be served in the cafeteria throughout the afternoon.

The present freshman class at Notre Dame High School has boys from 38 Catholic elementary schools, 25 public elementary schools, and one private grade school. In recent years approximately one out of five boys in the freshman class, or 20%, have

come from public grade schools and remain for four years. In this year's freshman class, 67 boys have at least one brother in school and 26 have older brothers who are already alumni of the school. In the entire enrollment there are 109 families with two sons in school, seven families with three sons in school, and one family with four boys in school at this time. These figures remain fairly constant thru the years. Mr. and Mrs. Edward McCaskey of Des Plaines have sent all eight of their sons to Notre Dame High School. Six of the older boys have received their diplomas: Mike '61, Tim '63, Pat '67, Ed Jr. '71, George '74 and Richard '76. Brian is a member of the Class of '78 and Joe is in the Class of '79. Notre Dame High School opened its doors in 1955 and the first senior class was graduated in 1958. Alumni now number over 6,000.

The admissions process for all next year's incoming freshmen

starts with a placement test which will be given at the school on Saturday, Jan. 8, 1977, from 8:15 a.m. to 11:30 a.m. Each boy is asked to bring two #2 pencils and a \$10 registration fee which covers materials, scoring, and reporting of the test results.

In planning an individual program for a freshmen, the school considers scores from the placement test, the recommendations of his grade school principal and teachers, and conducts an interview with his parents.

For further information, please call 965-2900 between 8:30 a.m. and 4 p.m.

## Coffeehouse features Bluegrass sound

New Grass Revival, a folk-oriented band combining the sounds of bluegrass with the beat and feel of rock, and the Unity Band, six musicians inspired by

their Baha'i faith, will appear at the Oakton Community College Sunday Night Coffeehouse on Nov. 14.

Appealing both to the contemporary rock audience and to bluegrass regulars, New Grass Revival musicians have bought their unique sound to campuses across the country. Members are John Cowan on bass and vocals; Curtis Burch on dobro, guitar,

and vocals; Courtney Johnson on banjo and acoustic guitar; and lead vocalist Sam Bush who has been called "one of the best instrumentalists around on mandolin and fiddle."

Unity Band members, some of whom attend Oakton, include Hayden Mohr playing harmonica, autoharp, washboard, jug, and spoons; vocalist Janie Harries on rhythm guitar; David Neidig playing lead guitar and mandolin; Steve Neidig on standup bass; and Dave Bragman on banjo.

Citing their common religion as the main reason for formation of the band, members explain that their name comes from a quote from Baha'u'llah, the prophet-founder of the Baha'i faith, who taught that "So powerful is Unity's light that it can illumine the whole earth". In their own way, using their own special talents in creating bluegrass and Mountain Music, Unity Band members attempt to share the fruits of their unity with their audiences.

Coffeehouse programs begin at 8 p.m. in Building 6 on the Oakton Interim Campus, Oakton and Nagle, Morton Grove. Admission is \$1 for students; \$2 for others.

For reservations or further information, call Lou Pettica, Oakton's Director of Student Activities, at 967-5120, ext. 320.

The next big event ...?

Now that the election is over (I predicted the result) and the Chicago Bears were routed by the Oakland Raiders (which I also predicted), what's the next big event?

That's easy ... it's Jake's Restaurant's 5th Anniversary! But before I get into that, I want to thank George Berger of Niles for his nice comments which you can read in this week's "Letters to the Editor" column. Berger, thru the years, has been one of my most ardent readers and has taken the time, time and time again, to send me letters.

I detect from Mr. Berger's letters that he is also a man of letters and possesses a sharp wit. I thought (and so did many others) that when he referred to me in a recent letter as a "restaurant shill", he coined a classic phrase. So today I'll make the prediction that the Bears won't win the Super Bowl this year. And to please my No. 1 fan, Mr. Berger, I shall go back to "shilling" for the local eateries.

On Dec. 8 (Wednesday) Jake will celebrate his 5th Anniversary with the biggest promotion in his history. Jake will give away 25 major prizes to the public on Dec. 8 consisting of boys' and girls' bikes, TV and radio sets, toasters, can openers and other appliances. In addition, Jake's Restaurant will offer live entertainment with a top 5-piece band. Free coffee and cake will be served all day and evening. Chippo, the Clown of TV fame will be on hand, in person, for the kids. Drawings for all the big prizes will be at 9 p.m. Dec. 8, and the winners need not be present - you'll be notified if you are a winner.

While Dec. 8 isn't a ways off, mark the date of Dec. 8 down so you don't miss it.

Jake has asked me to tell you that in order to give you even better and faster service, he now has three (3) managers working 7 days around the clock to insure your satisfaction.

Incidentally, Jake has a new breakfast special which may interest you. Two country large fresh eggs, Canadian bacon, potatoes, toast, butter, and jelly for only \$1.85. This Canadian bacon special is on now and will be in effect for the next two weeks.

Don't forget Jake's dinner specials which are only \$2.27, the lowest-priced complete dinner special anywhere. And this low cost dinner special includes soup, tossed salad, potato, roll, butter and a choice of coffee, tea, milk, Sanka or Coke with selected entrees.

Beam 'N Barrel, 7136 Milwaukee ave., Niles, has made some important menu changes which you should know about. You can now have tender, center cut pork chops, fried clams, corn on the cob, a sea food platter, ribs and chicken combo or a shrimp and steak combo. These entrees are in addition to the Beam 'N Barrel's established favorites of chicken, steak, ribs and lobster. The prices at the Beam 'N Barrel you'll find to be very reasonable because everything from soup to dessert is included in the total price. And the salad bar at Beam 'N Barrel has a very large variety of items you can enjoy before your main course. The Beam 'N Barrel is open 6 days a week (closed on Mondays) and for party reservations, phone 647-0406.

Big, old fashioned breakfasts which include free orange juice and oatmeal are being served every morning at La Venecia Restaurant at Dempster and Milwaukee ave. And don't forget Greek night which is every Tuesday at La Venecia. Andy, the owner of La Venecia, has an anniversary coming up soon ... so "happy anniversary, Andy" ...

See you next week ...

## Peter Nero to perform at Maine East

Peter Nero will be the featured artist for the Pop's Night Concert sponsored by the Maine East Music Boosters. This concert, to benefit the high school music students, will be presented Saturday evening, Jan. 15, 1977, at Maine East High School.

The "Nero Style" is a rare combination of clear beat, mellow tunefulness, and superb ornamental piano work. Music from classical and popular worlds is blended into ingenious arrangements to develop an unforgettable program. Mr. Nero will conduct and play selections with the Maine East music students and with his own trio. His association with RCA Records produced 23 albums in 8 years, 2 Grammy Awards and 8 nominations, and made him a consistently best-selling artist. His subsequent move to Columbia not only brought him more Grammy nominations, but a coveted gold record for his million-selling "Summer of '42".

## Maine East V-Show

It's A Laughing Matter is the title for this year's V-Show '76 at Maine East, and the theme is the evolution and destiny of humor, ranging from a caveman act to a comic newscast.

The performance dates are a Nov. 17 matinee at 4 p.m. and shows at 8 p.m. on Nov. 18, 19 and 20. Tickets are priced at \$2, \$2.25 and \$2.50. They will go on sale in the concession stand Nov. 8 thru Nov. 19.

The master and mistress of ceremonies are Steve Forsythe and Cindy Bridges. They will introduce acts, have solo numbers of their own, and have parts in other V-Show acts.

Along with Steve and Cindy is the V-Show chorus, consisting of 20 select people, who sing with many acts, have two of their own, and also help the cast in singing on three full cast numbers.

The chorus members are Helena Brown, Kathy Dunn, Ann Edahl, Joan Harris, Heather Hawkins, Jan Matthews, Margie McEvilly, Peggy O'Hagen, Donna Sithiwicz, and Karen Vinzant.

Other chorus voices are Gary Adelman, Tom Graham, Mike Crutchfield, Steve Levitt, Bill Mairson, Mark Menich, Pete Millar, Sande Schimmel, Mark Shafarnick, and Steve Solomon.

V-Show music is supplied by the V-Show pit band, which is smaller this year than in any other year. With the great number of highly skilled musicians, the musical directors could be more select.

The pit band members are: flutes Jeni Cartland, Phoebe Crosby, Becky Johnson, and Kathy Medley; clarinets Steve

Jacobs, Marilyn Masiare, Linda Schulstad, Eva Steghart, Nancy Steigerwald, and Mary Swiderski; bass clarinet Tony Tornabene; sax Mary Markiewicz and Randi Robin; sax Steve Goone, John Nankervis, Marty Less, and Dean Kwiatkowski; Bassoon Kim Ashe and Amy Levin; trumpet Ron Krostad, Tom Porzak, Steve Snodgrass, and Ed Wong; trombone John Ochsenreiter and Neal Steinken; bass trombone Keith Janus; tuba Tim Zaehner; piano Phil Barish and Karen Willmann; bass Bill Hershell; baritone Bill Keefe; french horn Scott Steigerwald, David Wax, and Christian Zory; percussion Todd Marshall, Barry Rosenthal, and Peter Rothblatt; and mallets Lenore Goldman.

No show can be a success without a hard working and devoted crew to construct the set, run and light it, and give cues to the awaiting cast.

This year's V-Show crew has an exceptionally hard job to complete. After having made an enormous stage setting for the fall play, crew members must strike it and build the largest V-Show set ever on the Maine East stage.

Crew members are Michelle Karlins, Carl Steinke, Marci Gomberg, Dena Sterling, Marina Pistone, Ron Morgan, Eileen McCabe, Margot Dauber, Donna Cameron, Susan Dukas, Mike Eterno, Joe Ochsenreiter, Sharon McAlister, Linda Kleinstein, Lori Steer, Donna Mueller, Glen West, Mike Di Gioia, Ray Foley, Betsy Eger, Kevin Butchin, Phil Exel, Sheldon Zaccanti, Annabele Honza, Carol Kucan, Dave Eterno, and Julie Reynolds.

### DPTG program features upcoming director

Des Plaines Theatre Guild's bi-monthly membership meeting on Wednesday, Nov. 17, will feature Judy Castaldi of Deerfield, director of the group's January production, *The Night of January 16*.

Casting for this gripping courtroom drama will be completed by the date of the program, and names will be announced at that time.

Mrs. Castaldi will tell some of the interesting background information on the play in which she has previously appeared with Northbrook Community Theatre. She directed *Spoon River Anthology* for Des Plaines Theatre Guild, and won the Guild as Best Supporting Actress in the 1974-75 season for her portrayal of Theodora in *The Haunting*.

*The Night of January 16* by Ayn Rand was a Broadway hit in 1936 and has been a popular play in repertory and stock theatres ever since, because of its unique audience-participation element, wherein the jury for the murder trial is chosen from members of the audience for each performance and the ending of the play awaits the jury's verdict. Judy will tell of some of the interesting outcomes of the drama in its many presentations around the world, and about the real-life Swedish wizard of finance on whose murder the play revolves.

Anyone interested in community theatre is invited to attend the Nov. 17 meeting, whether active with Des Plaines Theatre Guild or not. A social time is planned from 8 to 8:30 p.m., with president Mary Unell calling the business meeting to order promptly at 8:30.

Refreshments will be served following the program by Judy Castaldi.

Current production at Guild Playhouse is the comedy *A Majority of One*. Performances continue weekends thru Nov. 21. On Nov. 26, 27 and 28, DPTG's Cabaret Theatre will present its all new musical revue, *There's No Business Like Show Business*. All these activities, and the Nov. 17th membership meeting take place at Guild Playhouse, 620 Lee St., Des Plaines. Ticket information may be obtained by calling the box office, 296-1211, between noon and 8 p.m. daily.

### Coin collector's show

The next date for the Chicago Coin Bourse will be held at the Leaning Tower YMCA, 6300 Touhy, on Sunday, Nov. 14, from 10 a.m. to 5 p.m. Admission is free and there is ample free parking. Eighteen experts will have exhibits on display and will be available to appraise and identify any coins, medals, tokens or paper money presented.

### The Taming of the Shrew

Frank Kon of 8341 Olcott, Morton Grove is currently appearing at Baptista, the father, in the Northwest End Theatre Company's production of William Shakespeare's *The Taming of the Shrew*, November 12 through 14, at 3633 N. California, in Chicago.

Frank was a philosophy major at Roosevelt University. He has lived in Morton Grove for the past twenty years with his wife, five children and two german shepherd dogs. He maintains his own business in Rogers Park and does custom commercial and residential remodeling.

He is active in Congregation Bnai Jehoshua Beth Elohim in Glenview, and in civic organizations in the community. Leisure time finds him involved in listening to opera, playing chess, or obedience dog training. He has appeared in a number of college plays, and more recently has appeared in several community "revue" type productions.

Tickets for the production are \$3 general admission, \$2 for students and senior citizens. For curtain times, and advance ticket information call 539-2218 or 539-3600.

### "Kiss Me Kate"

Maine North's production of Cole Porter's popular musical "Kiss Me Kate" will open tomorrow, Friday, November 12, and run Nov. 13, 19, and 20. Curtain time is 8 p.m. in the school's theatre.

Over 175 student performers and stage crew members have been preparing seven weeks for the opening.

"One of the reasons 'Kiss Me Kate' has been so popular is because it is a play within a play," explained faculty director Kurt Steinhilber. He added that Shakespeare's "Taming of the Shrew" is the play within the musical and it's the first time any Shakespearean performance has been attempted at Maine North.

"Kiss Me Kate" is the story of producer-actor Frederick Graham and his temperamental ex-wife, Lilli Vanessi, who are starring in a

revival of Shakespeare's "Taming of a Shrew."

The show is sponsored by Maine North's Fine Arts Boosters. Tickets are \$2.50 adults and students.

All seats are reserved and may be purchased by calling 729-4784.

### The Magic of Young Houdini

Due to popular demand, *The Magic of Young Houdini* is being held over for another month at the Mill Run Children's Theatre thru Sunday, Jan. 2. Directed and choreographed by Harry Lee Rogers, this popular song-and-dance production features more than 20 grand illusions with Rusty Steiger in the title role of Houdini.

In order to accommodate more children and their families who have not yet had an opportunity to experience *The Magic of Young Houdini*, Mill Run has extended the engagement of the show beyond Nov. 27 by adding these shows to the schedule: Saturday, Dec. 4; Saturday, Dec. 11; Saturday, Dec. 18; Monday, Dec. 27; Wednesday, Dec. 29; Thursday, Dec. 30; and Sunday, Jan. 2. Showtimes are at 1 p.m. and tickets — priced at \$2.25 — are available at the Mill Run Box Office and Ticketron. Special group rates are available for 30 or more, and group reservations should be made in advance. For reservations and information, please call (312) 298-2333.

### Gary Kokron

Gary Kokron, son of Mr. and Mrs. John Kokron of 8423 Shermer Road, Niles, Ill., has been promoted to senior airman in the U.S. Air Force.

Airman Kokron, a missile systems analysis specialist, is assigned at Grand Forks AFB, N.D., with a unit of the Strategic Air Command.

The airman is a 1973 graduate of Niles North High School, Skokie, Ill.

### Mill Run to install new credit card ticket service

Chicago's first credit card ticket service for entertainment events went into effect on Monday, Nov. 8, at the Mill Run Theatre. Known as *Tix-By-Phone*, the system will enable theatre patrons to purchase their tickets by phone and arrange for payment thru Master Charge and BankAmericard. Tickets will either be sent to the customer or held at the Mill Run Box Office up until an hour before showtime.

According to Owen Wonders, Manager of the Mill Run Theatre, "Mill Run will be Chicago's first theatre to provide this type of service. Installing the system of *Tix-By-Phone*, Inc., will allow us to offer our customers a convenient alternative. All they will have to do is pick up the phone and place their order instead of standing in line at the box office or finding a Ticketron outlet."

Besides being convenient, there will be another advantage to the *Tix-By-Phone* system. Whereas Ticketron has only a partial block of seats, *Tix-By-Phone* will provide full availability of all seats in the theatre.

To insure the efficiency of this new operation, Mill Run Theatre has provided office space on its premises for *Tix-By-Phone*, Inc. In addition to serving Mill Run, *Tix-By-Phone*, Inc. has operations already established in theatres in Atlanta, Los Angeles, and California.

Any Mill Run Theatre patron who wishes to use the *Tix-By-Phone* system will pay a 50 cent service charge for this convenience. The number to call will be (312) 298-3292 between the hours of 9 a.m. to 5 p.m. Monday thru Saturday.

## Extend Senior Citizens Swine Flu Program

Nearly 5,500 Maine Township senior citizens, approximately one-half the number residing in the township, have received their swine flu inoculations according to Jack Reeves, coordinator of the township's senior citizen swine flu inoculation program.

Reeves said the program, which was scheduled to end Friday, Nov. 12, has been extended thru Monday, Nov. 15, in order to reach more seniors.

Reeves stated that Margaret Chiarelli, R.N., E.T., and Donald Loftus, Vice President of Holy Family Hospital and T. L. Jacobsen, executive vice president of Lutheran General Hospital, offered to extend the program dates in an attempt to reach 100% of the township's senior citizens.

Senior citizens aged 60 and older plus those with certain chronic diseases receive a special bivalent vaccine not given to the general public. The bivalent vaccine contains swine flu serum and a second strain called A/Victoria. This vaccine is for-

mulated to prevent the serious complications older persons and those with certain diseases could suffer if they are stricken by influenza.

Reeves said persons between 18 and 60 with heart disease, diabetes, chronic kidney disease, and lung diseases such as asthma, emphysema, and chronic bronchitis should receive the bivalent vaccine, but that such persons should have a prescription or special "ticket" from their physician.

Holy Family Hospital, Des Plaines, will administer inoculations to those eligible between 3 and 7 p.m. on Nov. 15. Senior citizens and those with need for the bivalent vaccine should enter thru the side door at 1300 Golf rd. and proceed to the ground floor waiting area.

Lutheran General Hospital, Park Ridge, will administer the shots at its alcoholic treatment center, 1700 Luther Ln., between 1 and 4 p.m. and from 6:30 to 9:30 p.m., Monday, Nov. 15.

## District 63... Continued

The widening project is part of an overall plan to increase the flow of traffic from the present daily 25,000 cars to a 1995 potential of 40,000 cars. Plans have long been in state transportation offices to widen the roadway from Evanston west to Elgin.

State officials said they would pay for a \$230,000 overpass leading to the Washington and St. Isaac Jogues Schools if the participants would give the right-of-way for the construction, give daily maintenance to the overpass and assume school liability for it. They said they had no state funds available for the latter.

Sewer construction beneath the road hopefully would correct flood problems, particularly in the ditch-areas west of Milwaukee ave. Last year a local woman drowned there during a storm when she fell into a highly-flooded ditch area.

Turn bays on Milwaukee ave. north turning east into Golf rd. would also be widened and additional bays would be constructed on Washington st.

Resident Shelly Banoff, who led a citizens group meeting at Washington School in early November, cited several reasons for objecting to the project. He said traffic would increase if the road is expanded, otherwise only a one per cent increase can be expected yearly, a normal increase. He added truck traffic would increase with its accompanying brake problems. Guard rails would be needed to protect Washington st. school children who would be in the school yard alongside the highway. Banoff added St. Isaacs will not give up the right-of-way for the overpass but the widening would still take place. He believes the safety of the child is directly

in opposition to the interests of those who are most concerned with the traffic flow. He estimated speeds would increase to 35 m.p.h. and he suggested the unincorporated residents who have no one to represent them look to the school board to represent their cause.

While the board said their sole interest in the matter is the safety of the school children they passed a resolution supporting only the repaving of the present four-lane road and the construction of turn bays.

Superintendent Gogo said notices would go out to all interested parents in the district about the Nov. 23 public meeting.

In other actions Tuesday night the board approved the hiring of the Peter Warner Management firm, which will review the administering of the school district at a cost of \$4,800 maximum. Barbara Kipnis, who opposed the hiring, said she was "wary of the overview" of the study. Both Kipnis and Deckowitz were concerned about the report being a very general one, not being specific in its report.

Near the end of the meeting board member Howard Lessin unsuccessfully tried to have a resolution passed for the rehiring of art teacher Ken Silberman, with most board members admitting an error was committed in Silberman not being rehired previously. According to most members, an unwritten policy of the board is teachers whose contracts were not renewed because of cut-backs would first be rehired when there was an opening in the district. When another art teacher was recently hired, Lessin said Silberman was not selected because the board

was told the former art teacher did not have a recommended evaluation. However, when Silberman alleged to review the evaluation it was found there was nothing wrong with the report and he is well qualified.

According to Superintendent Gogo, three administrators within the district turned down Silberman when he was reinterviewed. However, Lessin said Silberman's principal at the Washington School said he was an highly excellent teacher. Lessin added two of Silberman's students were finalists in a world-wide art contest which he believed manifested the teacher's capabilities.

After the meeting a Bugle reporter was told by a friend of Silberman's he thought Silberman's activism during last year's school strike may have contributed to his not being rehired. When The Bugle asked if this was true, why didn't the union support the teacher, the accusatory statement proved unconvincing since the union took no action.

Superintendent Gogo strongly opposed Lessin's attempt to specifically hire one particular teacher. During a brief recess Gogo spoke to the school attorney who later read the school code which defined the role of the superintendent. It stated the superintendent has the sole role of recommending to the school board the hiring of personnel and believed Lessin's action was highly irregular.

Board members Deckowitz, Kipnis, Reiss and Smith opposed Lessin's rehiring proposal.

## Niles Board... Cont'd from Niles-E.Maine P.1

Evanston will make inspections of Niles long-term care facilities, nursing care and nutritional services needed to regulate the homes.

Cost to Niles will be \$1,237 per month for a trial period of six months, beginning Nov. 15, for effective evaluation of such services and subsequent cost. Evanston Public Health personnel will be available for necessary follow-up of the inspections, according to Evanston City Manager Edward A. Martin.

Success of the program, said Blase, following proper evaluation of the six-month service next May could result in an increase of the annual village license cost to nursing homes. The present fee is \$5 per bed on a yearly basis, which according to Niles Director of Health and Licensing William Hlavacek is considered to be "low" in comparison to \$12 charges by other suburbs.

Board action was initiated after neglectful care was reported earlier this year at Niles Manor Nursing Home, 8333 Golf rd. The home had been cited by state officials last January for inadequate patient care, improper diet and lack of trained and licensed staff.

Niles adopted, Feb. 11, an ordinance incorporating the state nursing home code, adding penalties of \$200 to \$500 per day per violation. Further study over the past eight months for proper nursing home inspections resulted in the Niles-Evanston contractual agreement.

Niles has 7 nursing homes: Golf Mill Nursing Home, 9777 Greenwood; Grosse Pointe Manor, 6601 Touhy ave.; Mill View Nursing Home, 8333 Golf rd.; Plaza

Nursing Center, 8555 Maynard, North Niles; Pleasantview Convalescent and Nursing Centre, 6840 Touhy; Regency Nursing Centre, 6631 Milwaukee ave.; and St. Andrew Home for the Aged, 7000 Newark.

In second action trustees approved an amending ordinance requiring standard prices (gas price including taxes) on posted signs and pumps of gas stations in Niles.

A uniform price requirement which includes sales tax on posted gas station signs, to reflect gas pump price, has long been under deliberation by trustees pending state decision.

More recently the addition of a county tax on gasoline has added further confusion for prospective gas purchasers. State statute calls for posting of the new tax.

The Northwest Municipal Conference (encompassing 13 to 15 communities) has been working on a model ordinance for the last six months, according to Blase, which requires uniform gas pricing.

"That way," said Blase, "a motorist who pulls into a gas station will see the posted gas price reflected on the gas pump."

Village Manager Kenneth Scheel indicated the possibility of competitive objection from station operators due to surrounding villages which do not have a similar gas price code.

In other action trustees approved a request by Bulko Station Operations Manager Dorsey to erect a 30 ft. by 99 ft. steel canopy over the gas pumps at 7662 Milwaukee ave.

The structure would provide protection, said the petitioner, for customers in event of rain or

snow, "particularly if self-service should become legal in Illinois."

Director of Building and Zoning Joseph Salerno said the proposed canopy would be similar to the '76 Station at Greenwood and Dempster. No projected problems with snow were expected, he said.

"Unanimously approved installation of 'No Parking' signs on Maryland and Oak (presently a 3-way stop); stop signs at Greendale and Prospect ave. and at Field Drive and Greendale; and a 'Slow-Children' sign at Greendale and Prospect ave."

## Notre Dame Hockey 3-1

The Notre Dame High School varsity hockey team opened its season on Oct. 21 with a 5-2 victory over St. Viator at the Niles Sports Complex. Mike Lasco scored ND's first and only goal of the first period. Larry DeSalvo and Bill Madura both scored in the second period. John Salemi and Mark Entwistle each put the puck in once during the last six minutes of the game.

A week later on Oct. 28 in another home game the ND Dons ambushed Glenbrook South 17-1. Notre Dame tied or set several team records in this rout including Craig Belluomini's five goals, Larry De Salvo's nine points with three goals and six assists, and the Dons' record shattering 61 shots on goal. Titan goalie Chip Allen faced a 29 shot barrage in the opening stanza as ND waltzed to a 7-0 lead. Bob Miller turned aside 14 of 15 shots in the Don nets. John Salemi and Jim Latal were the other multiple scorers for ND.

On Oct. 30 in an away game the Dons suffered a heartbreaking loss 5-4 to Homewood-Flossmoor in the last minute of the third period. The Dons were scored on while short-handed as an untimely penalty with 1:08 left gave the Vikings an opportunity for victory. Larry De Salvo and Bill Madura had each scored twice to bring the Dons back from a 4-2 first period deficit. Sophomore goalie Bob Mueller held H-F at bay till ND knotted the score at 4-4 with six minutes remaining. Bill Butler of H-F got the winner and the veteran Vikings skated off with a hard-earned win.

Notre Dame's hockey squad got the Catholic League portion of their schedule off to a good start with an 8-1 trouncing of Marist on Oct. 31 in a home game. Senior Don Hitzel led the attack with 3 goals and 2 assists. Larry De Salvo, Chris Vana, Bill Madura, Jim Latal, and Craig Belluomini got single tallies. Senior ND goaltender Bob Miller turned aside 22 of 23 Redskins shots while the Dons bombarded Marist goalie Joe Ferguson with 58 shots on goal. Marist's only goal came in the first period with 2 Dons in the penalty box and it cut ND's lead to 2-1. However, 3 ND goals in the second period sealed the Redskins' doom.

## Oakton has winning season

The Oakton Community College Cross Country team recently completed its most successful dual meet season ever. The running Raiders finished with a perfect record as they won all 15 dual meets of 1976.

The hurrying harriers were led by co-captains Ken Hampe and Tom Riley. Bill Chamberlain who ran number one man most of the season was voted Most Valuable Runner by his teammates. Also running on the team were sophomore Kevin Craig and Freshmen Chuck DiPrima and Norm Gonzales.

Oakton's Cross Country team finished second in the Skyway Conference one point behind Lake County. The running raiders won team trophies in their own Raider Invitational and the Gateway Invitational where they were the only Illinois school in the eight-team field. One other highlight of the 1976 season was the team's eighth place finish in the State Meet.

## From the LEFT HAND

pushed many into the second court. Judge Martin Brodtkin was hearing another case and asked for quiet, and another ten minutes was spent against a second wall of another overcrowded courtroom.

When the presiding judge arrived, we went thru the same motions again. All the attorneys introduced themselves. Young's attorney wanted a delay to enable Congressman Rhoades, minority whip for the Republican Party, to be involved in the case. County official Stanley Kusper explained how 2,500 absentee ballots from the 10th District were not counted because they were not delivered properly. Mikva's attorneys wanted the absentees counted, even before the judge would make a decision, to expedite the matter because the public's "right to know" must be served. The mild-mannered judge, confronted by some of the most high-powered, legal people in Chicago, told Young's lawyer he wanted him to have sufficient time to present his case, compromised on his later request, and suggested Wednesday would be the better time to hear the case, enabling him to contact Rhoades and prepare his case.

Kusper reported the print read-out gave Mikva about a 200-unofficial vote lead but the Mikva people were pushing for the opening of the absentee ballots and the Young representatives were delaying such action. It was the Mikva people's contention their man would overwhelmingly win the absentee, since he had a 5 to 1 lead in those ballots in the last election, and it was reported the Mikva forces worked very hard to muster a large absentee vote this time.

Since the Young vote was 200 votes down, one wondered why they were not anxious even for these absentee votes to be revealed in hopes of a slim chance for an upset among the absentees. But they were banking their hopes for victory on a final canvass minus the absentees which seemed a highly unlikely action.

While the Judge was still discussing the two-day delay, we bounded out of the courtroom, down the elevator, out onto Dearborn st., and fought the November wind back to Wacker Drive where we retrieved our car. Forty-five minutes later we were back in the office, shaking our head dismally for spending all that time away from our home base. We paid for it by working until 10 p.m.

There's really little more to this story. The final disposition of this news story will take place Wednesday or Thursday, likely in time for Wednesday or Thursday's metropolitan papers, but too late for local community papers.

We're appending a whole column relating this almost non-story to let you know the movie and TV scripts which you eventually see do not tell you the many hours of dreariness which goes behind the scenes. This relates to newspapermen, to lawyers, whose drudgery requires many hours in lonely research, and to detectives and policemen, who spend tedious hours, days and sometimes weeks, in similar unproductive efforts, before their eventual work is culminated.

## New alternative action-learning program for Maine East seniors

Next year, Maine East seniors may choose an alternative program of education rather than the traditional course of studies for their last year in high school. The new program, identified as SEAC (Senior Experience Action Curriculum) will involve highly individualized plans of study and learning activity in English, Science, Social Science and Career Exploration. At its Nov. 1 meeting the District 207 Board of Education approved implementation of the SEAC program on a trial basis for a one-year period, beginning next Sept. at Maine East.

Participation in the program will be voluntary, with only 100 seniors accommodated during the trial period. The 100 students will be divided into four groups of 25 each, with each group devoting an entire school quarter (9 weeks), on a full-day basis, to each of the four academic areas listed above. A full year's work in the subject will be completed during the school quarter, and a full credit given for each subject, providing performance is satisfactory. Special arrangements will be made for students to meet Physical Education requirements.

The activities and content of each of the four courses in the SEAC program will be characterized by action-learning that employs community, state and national resources to a large extent. Educational experiences will include field trips and educational tours, with students going to off-campus resources individually or in small groups. Student initiative will be an important ingredient in this individualized learning activity; the teacher role will be that of tutor-counselor. Parental permission is needed for enrollment in the program.

At the end of the one-year trial period the program will be evaluated to determine if it has proved successful, and if so whether it should be continued at Maine East and implemented at the other three Maine Township High Schools.
