NI-Gas OK's receipted gas bills; refunds duplicate payments

### Blase: 'Congratulations, your papers did it'

by Diane Miller  
In a surprise move Wednesday, May 24, officials of Northern Illinois Gas Company's main offices in Aurora telephoned Niles Mayor Nicholas Blase and informed him they planned to

absorb approximately \$6,000 in losses representing utility bills which Niles residents had paid to Edmund Laski, owner of Niles Drugs, 8001 N. Milwaukee ave., Niles. Laski never turned the money over to the utility and

consequently even though approximately 50 residents had received gas bills, Northern Illinois Gas contended the Nilesites were liable for the bills. On Thursday, May 25 Mayor Blase telephoned The Bugle and

stated, "Congratulations, your papers did it!" He told Bugle editor, David Besser, the recent series of articles in The Bugle were instrumental in NI-Gas's decision to accept responsibility for the receipted bills.

NI-Gas representatives Richard Leider and Charley Thurston attended a hearing in the Village Administration Building on Friday, May 19 presided over by Niles' Hearing Officer Gerald. Continued on Page 32

Beautification Committee gives green light to study plan

### Milwaukee Ave. study plan approved

by Alice M. Bobula

The Committee for Beautification of Milwaukee ave. called a halt last week to open hearings for input by Niles residents to the Milwaukee ave. Study.

Chairman Richard Hartzak noted that following public hearings held in April and May, the Beautification Committee felt there was "no further need for public hearings regarding the Comprehensive Development

Plan" and asked Niles trustees "to consider implementation". The Niles Comprehensive Plan to upgrade the 4.5 mile long Milwaukee ave. "corridor" prepared by the Metcalf & Eddy engineering firm at a cost of \$37,000 was approved in concept in September, 1977 by village officials. Study costs were funded thru a \$25,000 Cook County Development Grant and \$12,000. Continued on Page 34

Give the gal who lives next door to my desk, Diane Miller, an extra hosanna, for her efforts in seeking justice for Nilesites who paid for their gas bills at Niles Drugs, only to be informed they would have to make a second payment because Northern Illinois Gas didn't receive the money.

When Diane first heard about residents on fixed incomes, many senior citizens, being charged twice for their utility service, she began telephoning, and writing background material on the problem. She was relentless in pursuing the story. Week after week she spent many hours interviewing and seeking facts which led to NIG reversing itself, accepting cash payments which were made at the drug store.

After the company changed its policy, Niles Mayor Nick Blase telephoned, congratulating The Bugle for its effort. He said each week he submitted to the company, the articles Diane had written and believed this effort was largely responsible for their changing policy. We were told by Frank Wagner, Blase was also relentless in his efforts. That's a nice parley—Blase Plus The Bugle. It's more like the odd couple.

Niles Lions celebrate their 25th anniversary at a dinner-dance at the White Eagle Restaurant Friday night.

In our younger years the Lions Club was the mover and shaker in the village. Most of the businessmen in Niles belonged and whatever was accomplished in town, outside the village hall, came from the Lions Club.

Joe Conti, a new friend who ran a meat market in the old Rainbow Foods at Oakton and Milwaukee, invited me to a meeting at the Lone Tree Inn. And the luncheon meeting was just a different kind of meeting. Joe introduced me as his guest and the Lions president asked me to say a few words. When I finished I sat down and reached for my coffee cup. Suddenly an explosion went off behind my chair. One of the livelier Lions dropped an old fashioned cherry bomb a few feet away from this coffee drinker. The coffee cup flipped upwards and the hot coffee came to rest all over me. It was a great initiation into a great club which has done so much good in Niles.

### Police Chief's Citizen's Award

Niles Police Chief Clarence Emrikson (left) is shown presenting the Niles Police Department's Chief's Citizen's Award to Mrs. Sharon Creager. Mrs. Creager, a Niles resident, was given this award for her keen observation in sighting a burglary in progress and in reporting the incident to the Niles Police Department. Mrs. Creager maintained an on the spot report, after notifying the police of suspicious persons.

Stated Niles Chief Emrikson, "Because of Mrs. Creager's assistance, several subjects were arrested in addition to the recovery of property that was taken from unattended parked vehicles in the area." Emrikson continued, "It is citizens like Mrs. Creager who supply another arm for the Police Department and we commend her for her unselfish attitude and assistance." Shown with Mrs. Creager is her husband Kermit.

## Announcing two exciting new savings plans!

Two new exciting savings plans have been added to an impressive array of money market instruments designed to make your money work harder at Glenview State Bank.

One plan enables you to purchase a 7 3/4% 8-year Certificate of Deposit yielding a full 7.98% with interest compounded quarterly.

A shorter term investment alternative is our new 6-month \*Treasury Certificate which allows you to take advantage of the traditionally high interest paid on Treasury bills. The effective interest rate is based on the previous week's Treasury bill auction rate. When Treasury bill interest is highest you have the opportunity to purchase a \*Treasury Certificate with absolutely no purchase or redemption charge. And earn similarly high bank interest. The minimum deposit amount is \$10,000 for six-month term certificates. Treasury bill interest rates are posted daily on our Money Market board located in our main lobby.

## Niles Township Sheltered Workshop Craft Sale

The Sheltered Workshop of Niles Township, a community-based, not-for-profit agency serving senior citizens and the emotionally disturbed, will hold their annual "Market Day & Craft Sale" on Saturday, June 10 from 9 a.m. to 4 p.m. in the parking lot of the Evanshine Church, 4555 Church St., Skokie.

Richard Harr, Executive Director, stated that all proceeds of the event will go to aid the Workshop's Skilled Development Program. Senior citizens who participate in the Workshop's programs have the opportunity to earn extra money by doing work subcontracted from local industry.

"Our workshop enables many older residents in Niles Township to maintain self-respect and independence," Harr said. "Our Skilled Development Program," he continued, "provides opportunities for Seniors and the emotionally disturbed to learn new skills such as painting,

making ceramics, learning to type and file, growing plants, etc."

Local artisans and craftspeople are invited to exhibit and offer their wares for sale. Sculptures, paintings, ceramics and hand-made neckties are just a few of the items that will be on display. Anyone interested in exhibiting their work can contact Richard Harr at The Sheltered Workshop, 679-5610.

Members of the Workshop will offer general merchandise, plants and baked goods at substantial savings. Refreshments also will be available.

For a day of food, fun and music - the Niles Township Sheltered Workshop invites everyone to their annual "Market Day & Craft Sale", Saturday, June 10.

In the event of rain, Market Day will be held the following Saturday, June 17.

## Berger pleased with IVI endorsement

Samuel S. Berger, Democratic candidate for State Senator in the Fourth District, said this week he was honored and delighted to have received the endorsement of the Independent Voters of Illinois (IVI).

In a statement delivered to the Niles Township Democratic Organization at its regular monthly meeting, Berger said the coveted IVI endorsement represents a major boost to his campaign.

"The IVI makes its endorsement after examining a lengthy questionnaire, interviewing the candidates extensively, and considering their qualifications seriously. They do not take their endorsements lightly, and

neither do the voters of the Fourth District," Berger said.

"To have garnered their backing - especially over an incumbent - is extremely gratifying to me," he said.

Berger emphasized that IVI endorsement is particularly helpful in the Fourth District, where voters do not necessarily look to party label but to individual candidates' merits.

He added that he believes his 17-year record of public service to the community weighed heavily in the IVI's decision. Berger has been a Skokie village trustee, Niles Township collector and board attorney, Skokie Central Business District Commission chairman, and civic leader.

## Morton Grove library happenings

The Morton Grove Public Library will present the New BBC film series, "The Long Search" on Wednesday evenings at 7:30 p.m. throughout the summer, beginning on June 7 with "The Protestant Spirit, U.S.A."

"The Long Search" is an in-depth exploration of religion in today's world and presents all the world's religions from Judaism and Buddhism to Taoism and alternative lifestyles in California.

A great upsurge in religion has happened in this country and throughout the world. People are searching again for some meaning for their lives and are dissatisfied with materialism and scientific explanations.

This mammoth 13-year production took its narrator, Ronald Eyre, and the BBC filmmakers on a 13-nation journey to India, Japan, Israel, Rumania, Hong Kong, Egypt, South Africa, Spain and Italy. It is a striking travelogue of contemporary religion and is well worth viewing. Admission is free for the series.

# ANYONE CAN SEE WHY MORE PEOPLE SAVE AT GLENVIEW STATE BANK.

## Announcing two exciting new savings plans!

Two new exciting savings plans have been added to an impressive array of money market instruments designed to make your money work harder at Glenview State Bank.

One plan enables you to purchase a 7 3/4% 8-year Certificate of Deposit yielding a full 7.98% with interest compounded quarterly.

A shorter term investment alternative is our new 6-month \*Treasury Certificate which allows you to take advantage of the traditionally high interest paid on Treasury bills. The effective interest rate is based on the previous week's Treasury bill auction rate. When Treasury bill interest is highest you have the opportunity to purchase a \*Treasury Certificate with absolutely no purchase or redemption charge. And earn similarly high bank interest. The minimum deposit amount is \$10,000 for six-month term certificates. Treasury bill interest rates are posted daily on our Money Market board located in our main lobby.

## Nimrod bill to stop Nazi march

Senator John J. Nimrod, R-Glenview, confers with Representatives Arthur Telser of Chicago, Cal Skinner of Crystal Lake and Pete Peters of Chicago, who he has asked to guide his Senate-passed bill through the House of Representatives that is designed to stop a planned Nazi demonstration in Skokie on June 25.

Senator John J. Nimrod, R-Glenview, announced today that the Senate has overwhelmingly approved his bill which is designed to prevent a planned Nazi demonstration in Skokie.

On May 10, the Senate approved SB 1676 which would forbid parades or demonstrations by groups that arouse "reasonable apprehensions" that they are organized for the purpose of using or displaying physical force in promoting their beliefs.

"I am very confident," said Senator Nimrod, "that my bill will now be quickly approved in the House of Representatives and signed into law by Governor Thompson so that we can stop the June 25 demonstration by these neo-Nazis. I have asked Repre-

sentative Arthur Telser of Chicago, Cal Skinner of Crystal Lake and Pete Peters of Chicago to guide my bill through the House."

Also approved by the full Senate was SB 1811 which would make it a crime to demonstrate or display symbols aimed at defaming any religion or race.

"There were a large number of Senators who made fervent floor speeches pleading for the passage of these bills," said Senator Nimrod. "I'm delighted that virtually all members of the Illinois Senate saw the need for this legislation. I wanted to make sure that all Illinois communities are given the necessary laws so that citizens can live free from violence and fear."

## Maine Township assists ten social service agencies

The Maine Township Board of Trustees has voted to provide a total of \$391,500 to ten social service agencies providing assistance to township residents. Maine Township Supervisor James J. Dowd announced today.

Dowd said the funds will be provided to the organizations on a contract basis in order to furnish specialized services to Maine citizens with specialized needs. The use of existing agencies, he added, is more economical than for the township to administer direct programs.

The agencies to receive funds are: Clearbrook Center, \$30,000; Glenkirk Association for the Retarded, \$7,000; Maine Center for Mental Health and Family Services, \$73,500; Maine Township Committee on Youth, \$118,000; Maine Township Council on Alcoholism, \$95,000.

Maine Township Senior Citizens Organization, \$40,000; Northwest Suburban Aid to the Retarded, \$15,000; Northwest Suburban Day Care Center, \$5,000; Northwest Suburban Headstart, \$5,000; and Rimland School for Autistic Children, \$3,000.

Dowd said the money will come from federal revenue sharing and the township fund. He cautioned, however, that the actual disbursements will be subject to acceptance of the contract by the using agency and the actual availability of funds.

## At Last! An Easy Way for the Small Investor to Get into the Big Money Market!

### CitizensBank Introduces: Citizens Money Market Certificates...The Short-Term, High-Interest Certificates That can be Better Than Treasury Bills!

If you have \$10,000 or more to invest, you can now get a high-yield, 6-month FDIC insured, Citizens Money Market Certificate that pays you Treasury Bill rates!

#### How Citizens Money Market Certificates Work.

Because of a recent Federal Reserve regulation, our new Money Market Certificates pay you the same high average interest rate as six-month Treasury Bills sold at the most recent weekly auction. For example, on May 15, the average auction yield for six-month Treasury Bills was 7.01%. But unlike Treasury Bills, CitizensBank compounds this interest daily. So your effective annual yield would have been 7.26%. That's quite a return in just six months!

The new, current weekly rate, available every Thursday, is guaranteed for the full six-month term of your investment. And your certificate is fully insured up to \$40,000, subject to the limitations of the Federal Deposit Insurance Corporation, an agency of the United States Government!

#### Citizens Money Market Certificates Have Advantages.

Because the interest is compounded daily on Citizens Money Market Certificates, you enjoy a higher yield on your total investment than you would with Treasury Bills. And you don't have to pay any transaction costs. Buying a Treasury Bill could mean

### Nilesite in Allstate volunteer program

Marguerite Brettrager of Niles leaves work at Allstate Insurance Co., in Northbrook, every Friday and goes to work at another location, Lutheran General Hospital, in Park Ridge.

She's not moonlighting; she's volunteering, as she has for more than three years, and as hundreds of her fellow employees will be doing soon.

Mrs. Brettrager, a widow who raised three sons after her husband died 21 years ago, has worked 13 years for Allstate. She's a forms coordinator at its home office.

At Lutheran General — one of eight agencies which 154 Allstate employees recently signed up to

serve as volunteers — she helps out in the reception area.

This means showing new patients to their rooms, taking flowers around to rooms and in general being a nice person to meet as one begins a hospital stay.

Thirty-one other Allstate employees will also be helping at Lutheran General. They signed up after a recent "voluntary action fair" at the home office.

The other agencies are: Save-a-Pet, Children's Memorial Hospital, The Safer Foundation, Omni House, Project Sunshine, The Field Museum of Natural History, and Winchester House.

The volunteers are acting within Allstate's "Helping Hands" program which encourages employees to do some good for the communities, but it's more than that for Marguerite Brettrager, who has gotten out of her volunteer work, what she put into it and more.

When she started the work three years ago, her sons had grown and had moved out of the house. Her Friday nights hung heavy on her hands, Lutheran General is convenient to her home in Niles. It was a natural for her.

"I've met lovely people and made nice new friendships. The hours go fast. I've enjoyed it," she said.

Pirates	25	1-3

Red Sox vs. Pirates  
Bryon Immergluck got a triple and Bill Valenta pitched two scoreless innings.

#### White Sox vs. Cubs

The White Sox won their first game of the season, thanks to the big bats of Steve Boscapomi, Eric Anolowski, Scott Lappine, and especially Rich Zajdell who came thru with two doubles and a homer. Fine double play turned in by Boscapomi, catching to throw the runner out at 3rd base which was played by Gary Wisniewski. Pitchers for the White Sox were Anolowski, Wisniewski, Zajdell and the pitchers for the Cubs were Zajac, Bell, Miller and Barrett. 9-6

#### Pirates vs. Athletics

A two-run single by Tom Elenz and a run-scoring single by Mike Schoose produced a four-run third inning to take a 5-2 lead. Good team defense also keyed the first win for the Pirates. For the Athletics there was a three-run triple by Ed Schafer and Jim Allibone with 1 for 2 with an RBI. Mike Parker going 2 for 2 with an

RBI, Houman Khosheim and Dan Parker both going 1 for 2. Athletics catching was outstanding, throwing out 2 of the 6 runners who attempted to steal. Two other runners were picked off by the Pitchers.

The Pitchers for the Pirates were Immergluck, Valenta and Mayer. For the A's the pitchers were Prieto, Schafer, M. Parker and D. Parker. Final score was the Pirates 7 and the A's 5.

#### Orioles vs. Athletics

The first batter for the Orioles got a bunt single. It turned out to be their only hit as Ed Schafer, Dan and Mike Parker combined for a one hit shut-out. The Orioles also made an attempt of a double steal in the 1st inning but Dan Parker threw out the lead runner at 3rd. After that point only one runner reached 2nd base for the Orioles and no more than one batter reached base in any inning. Defensively there were no errors made by the A's and Jim Sinatra made the play of the game in center on a ball into the right-center gap. Going far to his left he made a run-diving catch of a ball that might have gone for a triple or a homer. Hits were by Khosbin, Allibone Czerlanis, D. Parker, M. Parker, E. Schafer, Burke, Haungs, and Merenda and Prieto who scored the game winner. Final score was 7-0.

#### White Sox vs. Red Sox

convincing win over the Red Sox. Excellent pitching by Eric Anolowski, allowing for no runs. Big bats were Steve Zajdell who blasted his second consecutive home run, Luigi Alfano also went 2 for 3 (including 2 doubles.) Final score was 8-2.

After losing their last 2 games, the Red Sox came back to beat the A's 4-3 in a very good game. Andy Mackowski pitched 2 no-hit innings. Jim Raffin gave up 1 hit and Jeff Grendzinski gave up 2 hits. The outfield was fantastic. Mike Sergot had two excellent catches off the bats of Dan Parker and Ed Schafer. He also participated in a double play. Dan Sullivan and Tim Lynch also made super catches. Go, you RED SOX!!!

#### White Sox vs. Orioles

The White Sox rolled to their 3rd straight win, with excellent pitching by Gary Wisniewski and Rich Zajdell. Luigi Alfano went 3 for 3 including a Homer, Ron Zymunt and Sanja Labroo each went 2 for 3, Tony Clement picked up his second hit of the season. Final score was 8-5.

#### Athletics vs. Cubs

Tense final inning with the rallying from a 5-1 deficit to 5-4 win with the bases loaded and nobody out. Dan Parker then settled down to preserve the win by striking out the next three batters. The A's pitchers only allowed 2 hits, both coming in the last inning when the Cubs staged their rally. A's hitters were Dan Parker who sent 2 for 3 with 3 RBIs including the game winner. Dan now leads the team with .571 batting average. Other hitters were Bob Burke going 1 for 2 with 2 RBIs, M. Parker 1 for 3 with 1 RBI, Jim Allibone going 1 for 1. The game-winning run was scored by Jack Haungs who walked, stole second and scored on Dan Parker's single. #### Red Sox vs. White Sox

The White Sox lost their first game of the season by a score of 12-10 in a 3-hour marathon. The game went 8 innings. The game-winning run was a 3 run double

Red Sox pitchers were Raffin, Mackowski, Grendzinski, Parlich and Scheffler. Talk about a nail biter! Credit should be given to Phil Raffin and Tom Grendzinski for their excellent coaching.

#### Athletics vs. White Sox

The White Sox pulled this game out of the bottom of the 6th with a clutch hit to right field by Chris Urgo to drive in the winning run scored by Tony Clemente. Steve Boscapomi smashed a bases-loaded triple to drive in three runs. Chris Urgo also got two hits. Gary Wisniewski turned in a super pitching performance by allowing no hits or runs. ## MNLL baseball league salutes pioneers

Pioneers of Maine-Northfield Little League (MNLL) in unincorporated Cook County will be honored in a pre-game ceremony at the Big League Division's home opener at 10:15 a.m., Sunday, June 4 on Maine North High School's varsity diamond, Harrison and Dee rd., Des Plaines.

Little League baseball is the only program of its type chartered by the United States Congress, and on behalf of the league, Congressman Abner Mikva, 10th District, will make presentations to league founder Irwin Phar, Mt. Prospect; first manager and board member Joseph Murdock, Des Plaines; Marie Murdock, Des Plaines, first Auxiliary president; first MNLL ballplayer Bill Phar, who will fly in from Texas for the occasion; and Art Sepke, Mt. Prospect, the league's longest continuing manager.

When the league was founded more than 20 years ago in the mostly farm land unincorporated area, there were few or no recreational facilities for the area's youths. Boys could not join baseball programs in adjoining communities because of established boundaries. Phar, an 18 year employee of Golf Mill Sears, secured the loan of some property and with borrowed farm equipment and the help of some neighbors and friends, built a baseball field. The handful of boys were equipped and a Little League charter obtained to bring a program to Maine and Northfield Townships. Since then, more than 7,500 youths from the community have gone through the MNLL program. Mrs. Phar, an employee of Maine East High School for more than 25 years, also will be present to see her husband cited for his community contribution.

Joseph Murdock, an Arc Disposal employee, joined Phar as the first MNLL manager and board member and his wife, Marie, recalls running over to a farm house where the occupants agreed to keep beverages cold for the players on hot days. Bill Phar is typical of the MNLL "graduates" who have gone on to successful careers in education, music, business, athletics and other fields.

Art Sepke, a 22 year employee of 7-up, has devoted 20 years to

managing the MNLL players. A former pro baseball player in Wisconsin, Missouri, Oklahoma, Texas and New Mexico and an associate scout with the Kansas City Royals, he has directed more than 500 boys through the program, and with four wins this season his teams will have chalked up 300 victories.

### Maine East Freshmen "A" baseball

May 19, Maine East 6 - Glenbrook North 5

Maine East again waited until the sixth inning to pull out their 6th conference victory and 10th win of the season against 3 losses.

Losing 5 to 4 with one out, Joel Kraiman and Craig Saxner each singled to left and advanced on a combination of stolen bases with Joel scoring the tying run on a past ball. Then Craig Saxner scored the winning run on Jim Bergs infield out. Lee Newlan pitched the complete game giving up 5 runs on 6 hits. Brian Peterson continued his heavy hitting going 2 for 3 with Phil Burbank and Scot Larson adding one hit each.

May 20, Maine East 0 - Maine South 11

In a game that could have established Maine East as the conference leader, Maine South dominated completely. Maine South scored 11 runs on only 8 hits, but were assisted by 9 walks and an unusual amount of errors and past balls. Joel Kraiman's single thru second was the lone base hit for Maine East.

From the first small group of boys to play, Maine-Northfield Little League now includes 16 minor league teams (ages 8-10), 12 major league teams (ages 10-12), eight senior league teams (ages 13-15) and two big league teams (ages 16 through 18) in the Northwest Suburban Big League. Maine-Northfield includes youths from portions of Mt. Prospect, Northbrook, Glenview, Des Plaines, Niles and Morton Grove. The Northwest Suburban Big League also includes Des Plaines proper, Park Ridge, Schiller Park, Norridge and Hansen Park in Chicago.

## Get rid of the most wasteful part of your air conditioner.

The dirt inside.

### Save with regular cleaning.

Your air conditioner does more than just cool. It cleans, too, by filtering dust and dirt out of the air. After awhile, the dirt builds up on the filter, and clogs the air flow. This makes the unit work harder. And that costs you money. Take a few minutes to get rid of that dirt and you'll hold down your operating costs.

### How to clean window-unit filters.

Check your owner's manual for specific instructions. If you don't have one, do the following: Pull the plug, and remove the front panel. Lift out the filter and vacuum it. If your filter is made of a spongelike material, wash it in warm water and detergent. Then let it dry, and put it back in place.

### How to clean central-unit filters.

Your central cooling system has a filter, too, usually in the blower section of the indoor unit. Before opening the access panel, turn off

the power. If the filter is reusable, vacuum it. If it's washable, wash it. If you have a throw-away filter, or your filter is too dirty to clean, replace it with a new one of the same size and material (note arrow on side of filter indicating direction of air flow).

If your heating and cooling system has an electronic air filter, be sure to follow the cleaning and maintenance procedures recommended by the manufacturer.

### Get professional help when necessary.

Occasionally, your air conditioner's condenser coil, refrigerant charge, or motor may need attention from a qualified serviceman. Maintenance of these parts may be best left to the professional. Remember: the less energy you waste, the more money you save. And a clean air conditioner can save you plenty.

## Here's the computerized phone system your company won't outgrow.

If your company is growing, or you're planning to move, this new electronic office telephone system could be exactly what you need.

First of all, it's computerized. This means it's programmed to do many more things than the system you have now. And it does them easier, more reliably, and by using much less space than conventional systems.

For example, to add new numbers, or to change telephone numbers of employees, no re-wiring is necessary. A printed circuit board is simply plugged into a pre-wired shelf in the equipment cabinet.

Not only that, it has many advanced features already designed into the system. Use as many, or as few of them, as your business needs require.

And as your needs change, the feature capabilities are easily "plugged in" as you're ready for them.

The compact cabinet for the entire system is only about as large as a refrigerator. Plus, it's quiet - because it's electronic.

### GreatAmerican Federal's new interest savings plans

Two new savings plans - a six month certificate paying  $\frac{1}{4}\%$  percent more than comparable treasury bills and an eight-year certificate paying 8 percent interest - will be offered by GreatAmerican Federal Savings and Loan Association beginning June 1, 1978.

John L. Domeier, chairman, said the new certificates have been approved by the Federal Home Loan Bank Board, to enable savings institutions to compete for savings deposits.

"Not only will these new plans provide savers with higher returns, but they are designed to increase the flow of money to savings institutions so that they can make home mortgages," Domeier said. He noted that the savings and loan industry finances some 60 to 70 percent of all home mortgages.

The new six-month certificate will be available in minimum denominations of \$10,000. Interest on these new certificates will be at a fixed rate of  $\frac{1}{4}\%$  of 1 percent above the average yield for six-month Treasury Bills in the most recent weekly auction prior to the time of purchase. The rate for the first issue will be pegged to the Treasury bill auction to be held on Friday, May 26. The average return to investors at a recent auction was 6.986 percent. Pegged to that rate of return, a GreatAmerican Federal Savings certificate would return 7.236 percent interest.

Previously the maximum allowable rate of interest on a six-month savings certificate at a savings and loan was 5.75 percent.

The new long-term certificates

will be issued in minimum denominations of \$1,000 and will have an 8 percent interest rate, maturing in eight years. Heretofore savings and loan associations were restricted to a maximum interest rate of 7.75 percent on certificates maturing in six years.

Domeier pointed out that with the new regulations the maximum permissible rate on new deposits of individual retirement accounts (IRA) and Keogh accounts for self-employed will jump to 8 percent because the ceiling rate for these deposits is pegged to the highest rate an institution can pay on time deposits with maturities of more than six months. However, rates on existing IRA and Keogh accounts cannot be increased until they mature.

The new certificates will also be subject to existing penalties for early withdrawal.

GreatAmerican Federal Savings will continue to offer eight existing savings plans, from regular passbook accounts with a 5.25 percent rate of interest to 6-year certificates that carry an interest rate of 7.75 percent and provide a compound annual yield of 8.17 percent.

The association now has 10 locations, including Bellwood, Deerfield, Elmhurst, Elmwood Park, Franklin Park, Niles, Oak Brook, and Oak Park and in Chicago at 230 N. Michigan ave. and 300 S. Wacker Drive. Two new offices are scheduled for June openings in Arlington Heights and Park Ridge.

### FNBOS to build Dempster, Keeler branch

This artists' rendition of the First National Bank of Skokie's Dempster and Keeler branch, scheduled to open early this Fall, shows how the facade will be modified to have the building blend with the neighborhood.

The 250 million dollar First National Bank of Skokie has received a zoning O.K. and the plans have been approved for a new branch to be located on the Northwest corner of Dempster and Keeler.

The existing office building on the site will be partially razed to accommodate the drive-in facilities section of the new branch, which will also have regular teller line, Customer Service Representatives to open

new accounts, and personnel to offer counsel on loan applications.

Dan Casey, Senior Vice President of the First National Bank of Skokie, who is also coordinator for the branch project, stated that bids for the construction are now being received and that contracts would be awarded soon so that the branch can be completed and operation early this Fall.

## Home security month at Skokie Federal

In cooperation with the Skokie Police Department, Skokie Federal has declared June as Home Security Month at its main office, 4747 Dempster, on the corner of Dempster and Skokie blvd. With summer vacations coming up, Skokie Federal recognizes that many area residents are concerned about keeping their home as burglar-proof as possible. Thus, during the month of June, Skokie Federal will have on display a series of home locks, a display put together by the Skokie Police Department. On display are locks whose security value range from very good to very poor, and each lock has a brief explanatory note describing its strengths and weaknesses.

In addition, "How To Buy a Lock" pamphlets will be available for all area residents, while supplies last. This pamphlet describes the different types of locks that are the most useful for the new home buyers and for the "do-it-yourselfer".

Also available are Skokie Police Department crime prevention tips. These tips are particularly useful for vacationers. Finally, with school letting out, Skokie Federal also has "Police and Parental Awareness" booklets from the Village of Skokie. These

booklets provide tips to parents regarding the protection of their children from criminal behavior, which becomes increasingly prevalent during the summer months.

All of the pamphlets can be found adjacent to the lock display in the lower lobby of Skokie Federal's main lobby. They are available free to area residents while supplies last.

When is a picture not worth a thousand words? When trying to depict the grace, elegance, and beauty of The Fountain Blue Restaurant.

## The Fountain Blue ... For Those With Good Taste

The Fountain Blue Restaurant, 2300 S. Mannheim rd. in Des Plaines opened its doors for the first time June 27, 1977. During the few months of existence, the restaurant, lounge and banquet facility has become the most popular and successful operation of its kind in the area. The reasons cannot be adequately described or photographed.

It isn't possible to capture the glitter and brilliance of the 500 pound Austrian crystal chandelier which graces the entranceway of The Fountain Blue on film. Nor is it possible to describe it. It is magnificent, it is awesome and it has to be seen first-hand to be appreciated.

The entire decor, from chandeliers...to thick, plush carpeting...to the intricate gold-leaf designs throughout (all done by hand by the owners, Tim Psychogios and Gus Sizopoulos) shows exquisite taste which can only be appreciated by experiencing the surroundings.

The taste in decorating isn't the only taste impossible to photograph or describe. How can anyone adequately describe absolutely scrumptious food? Words like delicious and delectable fall far short when relating the mouth-watering taste of dishes like The Fountain Blue's Shrimp De Jonghe with Garlic Butter En Casserole or the Peppered Tenderloin Steak Sautéed in Burgundy Wine Sauce. In keeping with the decor, entrees are served on fine china trimmed in blue with a delicate 24K gold edging.

When dining at The Fountain Blue, you may choose wine from a small wine list or from an extensive wine book. You are invited to visit the breathtaking wine cellar where you may view up to 3,000 bottles of wine imported from all over the world.

Lunch is served from 11 a.m. Monday through Friday at The Fountain Blue both in the dining room which seats 50 persons and in the intimate lounge which seats nearly 100. An extensive lunch menu includes sandwiches, sea food, steaks, and cold plates.

A portion of the lounge is also utilized for dinner. The lounge is open until 1 a.m. Sunday through Friday and until 2 a.m. Saturday and features live entertainment. Currently appearing are Bea Abbott, vocalist with Don Ella on the piano. The popular duet entertain with quiet, easy-listening tunes.

There is even a portion of the menu for late-night dining...after 11 p.m. The Fountain Blue's banquet rooms cater to larger groups from 25 to 475 persons.

To make your reservations call 298-3636.

## Parochial School band is 'parade bound'

An unusual grade school band composed of nine bands from local parochial schools including St. John Brebeuf in Niles, is beginning its spring parade schedule. Under the direction of Mr. Mike Finlay, the combined band participated in a winter concert tour of the schools which resulted in standing room only audiences of parents.

Although they do most of their practicing as separate bands at their individual schools, the Parochial School Band is able to

"pull it all together" for their concerts and parades. As one student said, "We sound all right by ourselves, but ohh, when all the bands are together, it sounds great!"

Becoming "regulars" at local parades, they are participating in the Park Ridge Memorial Day Parade for the fourth year. The Parochial School Band marched in the LaGrange Christmas Parade, and for the first time, they will be marching in the LaGrange Pet Parade on June 3, 9:30 to 11:30 a.m. The parade will be televised by Channel 9 and the students are naturally excited about the possibility of being on television. If you look closely, the drummer on the left, behind the Foster Grants, may well be the kid from down the street.

## ED HANSON

### "Horse'n around ..."

We'll begin at the ending and work back to the beginning.

It's 6:45 p.m. I just got back from Arlington Park race track.

This Memorial Day of 1978 reminded me of another one 40 years ago.

Back then, as today, the sun was hot, the weather clear, the track fast.

The only basic difference is me. In the spring of '38, I was 27. I was charming, pretty, and a virgin to the "Sport of Kings". The thrilling, sometimes chilling, colorful world of thoroughbred horse racing was then a new discovery to me.

In those days, if a horse was scratched, I thought it was because he had an itch. Back then, I thought, a female horse that raced at night was a "nightmare". (Oh, we're hot today.) But I was as green about racing as the turf. But, not furlong - (get it, "furlong"). How do I come up with these? Maybe it's because I have witty ears.

Anyway, I didn't remain a novice "furlong". After winning \$600 on my first trip to a race track with no knowledge of the sport, I decided to become an expert. "This is the life for me - it's easy," I said to my mother, as I tossed 600 bucks on the coffee table 40 years ago. I leered at my old man.

"Too bad you won, bum," my old man grunted.

A pro handicapper taught me how to read a racing form. I read tons of books on horses from breeding to betting - from selections to systems. I learned the lingo. I learned to ride. The more experienced I became, the harder it became to pick winners. When I was a novice, I'd "hit" big daily doubles and boxcar mutual long shots. As time and my money went by, bye, I became what all professional handicappers ultimately become - losers!

While I was making good money in the slot machine business, I was losing it f-a-s-t-e-r than my horses ran. So, I got an extra job nights doing ... guess what? Why, writing a column under the byline of "King Hanson" for Turf Digest, a monthly race horse magazine. Each month I gave my readers a system for "Beating the Horses". After two years I ran out of systems and readers. Thinking back, I musta sent more guys to the cleaners than the '29 stock market crash, Samuel Insull or Dave Feldman. Race tracks have always been a great place to get your spring, summer and fall cleaning done.

Once you discover the wonderful, colorful world of horse racing, it also leads to another adventure in the fantastic world of finance. It seems one horse player tells another about how easy it is, if you have a job, to get a small loan. There are literally hundreds of finance companies itching to give you money. Why loan companies do not have offices at race tracks has always been a mystery to me. If there were two or three loan offices at Arlington Park, I guarantee they'd have a waiting line, larger than the ticket sellers' lines.

Another business that would go well at race tracks is pawn or "hock" shops. When they build that new super Chicago stadium with a race track in it, they should build in finance and loan companies, hock shops and check cashing joints, like currency exchanges. Why not put it all together under one huge roof. To increase our blood banks throughout Illinois, it would be well to also include nurse-manned service stations where guys could sell their blood for, say, 36 bucks a pint or two #18 box triffecta tickets. There would even be room for a gypsy fortune teller or two who could give you "lucky numbers" and sell mythical good luck charms to make you a "winner".

And what more timely time than now with O.T.B. (Off Track Betting) about to be legalized in Illinois. Let's get these ideas on the drawing boards now!

That memorable day, Memorial Day, in the spring of '38, when I won 600 bucks - \$360 of it on a \$2 daily double - was a milestone in my life. How was I to know it would also become a millstone? I was young and beautiful, had a new job in the coin machine business and went to the track with 40 dollars. That was a lot of money in 1938; when you could mail a letter for 3 cents, buy a newspaper for the same amount, ride a street car for 7 cents, and make a phone call to your bookie for only a nickel. You could also have a great time on a date with a girl for only two dollars. And a 6-course meal at Thayer's Loop restaurant was only 40 cents.

Well, this Memorial Day I went to the track with a lot more money than 40 bucks, as I did in '38. I had my rent money, my insurance money, my car payment money and my food money, so why couldn't I afford to return to Arlington Park and relive those carefree days of my fascinating youth?

Well, they got a new kid riding at Arlington. His name is Ronnie Hirdes. He's only sweet 16. He's being heralded as another Cautheus. He's an apprentice rider, so he's still got the "bug" (five pound weight allowance). When you're a pro, like me, you get to know things like that. I said to Phil Georgeff, the famous race track announcer, Monday, "I hear that kid Hirdes is supposed to be a natural rider." Georgeff agreed. Before I left, I said to Georgeff, "Say, Phil, you call nine races daily at Arlington and ten at the harness tracks nightly, 6 days a week. How does that affect you?"

"It makes me a little 'horse'," replied Phil. (Oh, we're hot today.)

Anyhow, this new kid-jock, Hirdes, had 5 mounts Saturday. I thought to myself what a parlay that would be! So, I bet five on his mount in the second race - his horse, King Red Top ran out. In the third he was riding Smartest Native, a 6 year old gelding out of Exclusive Native and Le Muy. I bet ten bucks on his nose. He won and paid \$5.80. I waited till the fifth race and planked the 29 bucks on Pooker Hound's nose, a 7 year old black gelding. He couldn't get up in the stretch and ran third. In the 6th I started a new parlay with a horse called Brachz's Hilarious, a long shot. I bet \$40 to win. Hirdes moved him an eyelid blink too late and just missed winning, finishing second. (I bet several quinnellas, too, in the 6th but didn't "hit".) I took stock of my bankroll. My doubles and previous quinnellas put quite a dent in my bankroll. Of other people's money. I looked at the program. In the next race, the 7th, this kid Hirdes was riding a 3 year old filly called "Angel Hair". On the program, that was his last mount. (Later, before the 8th race went off, "Nostalgia", part of the number 1 entry, was left in and it was announced over the speaker that Hirdes would ride him. I had no way of knowing this prior to the 7th race.)

In order to pick up my losses and make a decent profit, I had to really chuck it in on "Angel Hair". This is where I called upon my vast 40 years of handicapping experience that embraced the playing of more than 80,000 races. I checked thru the form. Then it dawned upon me, like a bright light being suddenly turned on in total darkness. Last Saturday, while the rest of The Bugle staff was probably sleeping, I called on a new business that just opened in Niles at 9103 Milwaukee ave., Niles. It's called Hair Styling Ltd. A guy by the name of Tony DeStefano is a men's hair stylist. You can see how logically a great, professional handicapper's mind works. Hair, Hair, Hair, Money, Money, Money. "Angel Hair" was the name of the horse, this young jockey Ronnie Hirdes was riding. Tony DeStefano, the new hair stylist that I sold an ad to Saturday, is also a young guy. And the name of the horse was "Angel Hair". I had a "hunch" this horse would win, so I took the rubber band off the bankroll and bet 80 bucks to win on "Angel Hair", with young Ronnie Hirdes in the irons.

The six furlong 7th race was a real cliff hanger, a nail biter, a heart stopper. Angel Hair takes the lead at the start and runs head and head, eyeball-to-eyeball with the chalk Welsung. Down the stretch, still head and head, Angel Hair loses the lead by a neck but quickly regains it by a head. As Phil Georgeff called it,

(Cont. on Page 25)

## ED HANSON...

(Cont. from Page 24)

"At the 8th pole it's Angel Hair and Welsung, Welsung and Angel Hair, Angel Hair and Welsung ... then Phil Georgeff's voice thunders to a crescendo - but here comes Surprise Trip ... she's running at Angel Hair. It's Angel Hair, Surprise Trip ... it's Angel Hair and Surprise Trip - can't split 'em at the wire - too close to call. And that, Ladies and Gentlemen, is a photo finish!"

I'm having a bite to eat in the cafeteria nonchalantly not bothering to watch the race, but listening to the loud speaker, and the guy sitting across from me asks, "Who do you think got it?"

I yawned. "Angel Hair," I said, "by a hair - wanna bet?"

Well, "Angel Hair" finally won the photo by a hair on his nostril and paid \$14.40 to win.

When you're hot, you're hot.

After I collected my 8 ten dollar win tickets, I glanced at the 8th race. They had a large crowd, Memorial Day, so I started for the exits when a voice droned over the loud speaker: "Ronnie Hirdes will ride Nostalgia, as part of the entry in the 8th race - the \$75,000 added Washington Park Handicap ..."

I stopped and walked back to where I could see the pari-mutuel board. Veteran Eddie Delahoussaye was aboard the other part of the entry, on number 1A, a horse named "All The More". The morning line showed the 1 and 1A entry to be 6 to 1, with "That's A Nice" and "Improviser" to be the chalks.

Now this new kid Hirdes is riding a horse named "Nostalgia". Again, you can see how logical a horse handicapper's mind works. That's what this visit to Arlington Park was all about. Memorial Day, 1978, and Memorial Day, 1938 ... "Nostalgia", what else?

So, do I parlay the 576 bucks to win on Nostalgia's nose, the entry, or do I go to my car and go home?

(To be continued next week ...)

Special note: O.T.B. (Off Track Betting) is getting close to being legalized in the State of Illinois. I predicted a year ago, in this column, that it would pass. How will the passage of this bill to legalize Off Track Betting affect the hundreds of Messenger Services now operating throughout Chicago and the suburbs?

Right now Messenger Services are legal (unless there's a reversal) and those I have dealt with have been 100% okay, like Triple Crown, Harlem and Milwaukee ave., Chicago, and Western Race Track Agents on Higgins, just east of Harlem. Western was the first one I ran ads for and wrote about. Many, many people have told me about the excellent manner in which they've been treated by these messenger services.

Western as well as Triple Crown now have several locations and they tell me their business is growing and growing.

I am of the opinion there is a strong possibility that the Messenger Services will remain in business even if Off Track Betting is legalized by the State of Illinois.

Recently I told a representative for Western Race Track agents on Higgins near Harlem, Chicago, I have always felt all the hundreds of messenger services have expanded and increased the interest in the sport of racing. They've created new 'fans', the total handle in Maywood Park's recent meet proves it. It was the largest in their history. Just as in the early days of radio, there were many doubting Thomases who felt that broadcasting major league baseball games would knock the attendance all to hell at the old ball park. The same 'beef' was made by some dummies who said Messenger Services would hurt track attendance. When the Cubs games were first broadcast and one of their early sponsors was Prima Beer, I was in the advertising agency business. A man I worked for, named Dave Campbell, told me then that the reverse would be true.

"Eddy," he said, "it's exposure that will create new baseball fans and people who have never seen a major league ball game will go to the ball park and some will get 'hooked' on the sport and become 'fans'. Ladies Day happened and it changed the whole baseball scene. When I was a kid and my old man took me to watch the Cubs or the Logan Squares, women were rarely there, even with their husbands or boy friends. Bars or saloons, as they were called then, were free of women, too.

But now women are putting their noses in just about everything that was once the sole province of the male gender. Pretty soon, if ERA passes, they may even be capable of becoming attendants in men's wash rooms.

See you next week, men!

## Porter supports school finance proposals

Rep. John Edward Porter (R-Evanston) has announced support for changes in the state's school aid formula designed to aid beleaguered suburban school districts.

"Many of our elementary school districts have been caught in the crunch between declining enrollment and increased real property assessments, both of which combine to cut state aid substantially. District 34 in Glenview, for example, for these reasons stands to lose a large part of what they received last year. Gov. Thompson's budget provides \$110 million more in state aid for elementary and secondary education without any tax increase. Our district should receive a fair portion of that increase to meet our problems," the three-term lawmaker said.

Porter's announcement indicated his support for a proposal of the School Problems Commission (HB 2757) which would:

1. increase the state's guaranteed funding level from \$1260 to \$1300 per pupil;
2. fully fund all state-mandated programs; and
3. allow districts three years to repay amounts paid to them in excess of actual 1977-78 pro-rated entitlements.

Under these amendments to the school aid formula, 15 of 19 First Legislative District elementary and high school districts would receive additional state funds over estimated entitlements (see table).

Porter also indicated his support for a measure (HB 2803) sponsored by Representative Larry Stuffle (D-Charleston), which would:

1. increase guaranteed funding to \$1300 per pupil;
2. raise the cap on increases in any year from state aid from 25% to 35%;
3. "hold harmless" all school districts at 90% of the previous year's state payments; and
4. lower the rates districts must tax at locally in order to qualify for state aid.

Under the Stuffle bill, 18 of 19 of the First District school districts would receive additional state funds, but the total amount of the increase would be less (see table).

Porter is co-sponsor of a third school aid bill, sponsored by Representative Aaron Jaffe (D-Skokie) which would raise guaranteed per pupil school aid to \$1500 over a three-year period, raise the cap and provide a "hold harmless" as in the Stuffle measure, but omit lower qualifying rates. The Jaffe proposal is projected to cost \$97.8 million over the fiscal 1978 appropriation, while the School Problems Commission's measure would cost an additional \$22 million and the Stuffle proposal, an additional \$42 million.

"It seems obvious we can't afford the most costly program. But the principle of raising the 25% cap and a 'hold harmless' are not contained in the School Problems Commission's proposal and are of great importance to our schools," Porter said. Earlier, the Evanston legislator introduced legislation providing for a 90% "hold harmless" (HB 2564), which was held in committee.

## Social Security tax rollback

The House Ways and Means Committee voted this week for a cut in Social Security payroll taxes which Congressman Abner J. Mikva said could result in more than a \$100 savings for most taxpayers next year.

A proposal designed by Mikva to replace some of Social Security's medical funding with proportionate amounts of general revenues from the Treasury also received approval in the Committee's action.

"This is a major first step towards easing the prohibitive payroll taxes," said Congressman Mikva who serves on the Ways and Means Committee. He said, "By voting to allow financing of portions of the Medicare program from the general revenues, the Committee has opened the door for greater tax relief for families of nearly all income levels."

When the Ways and Means bill receives full approval, Mikva said that it would cut Social Security taxes for workers and employers, "thus helping to fight inflation and reducing labor costs." Mikva has urged the payroll tax cut as a substitute for a portion of the income tax cut requested by the President.

The Congressman said he believes the measure has passed its "toughest hurdle" and will win approval in both the full House and Senate.

"It is a tremendous victory for the American economy," he said.

## Camp Fire plans council fire

A highlight of the Camp Fire year is the annual Council Fire to be held on June 5th, 7:30 p.m. in the Emerson Jr. High gymnasium located at 8101 Cumberland, Niles. It is a ceremony of recognition for the girls who have worked throughout the year for various awards and includes all members of the Maine-Niles District of Camp Fire. The public is invited to this evening of pageantry directed this year by Phyllis Peterson. The girls will enter with flashlight torches to simulate a torch light procession to the Council Fire. Life size teepees will add to the illusion of the out-of-doors. All the girls will participate in parts of the ceremony and will sing several songs accompanied on the organ by Phyllis Peterson. Each program level has unique project honors which will be awarded that night. For Blue Birds (grades 1-3), there are Starbird and Solo Flight projects; for Adventurers (grades 4-6) there are Action crafts, Try Ads and Venture crafts; for Discovery (grades 7, 8) and Horizon (high school) Club, there are Torch Bearer and Discovery projects; and for Horizon alone, the Wholo Medallion in recognition of a multi-year community service and personal growth project.

A colorful feature of the evening will be the ceremonial costumes and vests worn by the girls. Within the structure of the Camp Fire program, each group selects its goals and picks an Indian name and group symbol. In addition each girl chooses her own individual Indian name which reflects her interests and goals. Symbols that represent these names as well as symbols of achievement and moments of special events in Camp Fire decorate the vests and gowns.

Since the Camp Fire program is designed to encourage the girls to give service and to receive recognition for their efforts as well as to try new skills and to think for themselves, the Council Fire represents a meaningful evening for all the members who have participated in this exciting program.

Dear Bud;  
On behalf of the Niles Lions Club, I want to extend our sincerest thanks for the fine cooperation you have shown in serving our club this past year. It is indeed a great pleasure to see a newspaper that really cares about the community as much as you do, evidenced by your support, in publishing our service clubs publicity.

Our success is tangent with the cooperation of the press and we have been served well by the Bugle!!

Sincerely yours,  
Frank (Bud) Hanson

## From the LEFT HAND

Continued from Page 1

Through the years we've been impressed with the efforts of the Club's individual members. It was Ang Marcheschi or Ginger Troiana who once told me they were not wealthy men. But they felt they could make a contribution through much personal effort. Both men have done yeomen's work on behalf of the club, spending thousands of hours helping the less fortunate. Friday night's celebration should include an extra tribute to these guys who've given so much of themselves.

A liquor dealer phoned last week complaining about Niles upping the drinking age to 21 without notifying the liquor dealers in the village. While he said most local dealers had initially been in favor of retaining the 21 year old limit, he felt Niles liquor commissioner Blase, should have notified them before he took action. He implied Niles dealers will be at a disadvantage since 19 to 21 year olds will go to neighboring towns for their booze.

Niles raising the minimum age to 21 is likely to be followed by similar actions in neighboring communities. Both Skokie and Chicago have been discussing the age increase. Hopefully, many communities will follow Niles' lead.

## Northern Illinois Gas. . . . Continued from Page 1

Murphy. The hearing was instituted by the Village of Niles' Consumer Fraud Department to determine if NI-Gas was in possible violation of a village ordinance wherein they had accepted payment from Niles Drugs with the knowledge Niles Drugs was not an authorized agent and in so doing, had implied the drug store was their agent. Six Niles residents who were representative of 50 residents who had paid their bills at the drug store were in attendance at the hearing as complainants.

When Hearing Officer Murphy asked the NI-Gas reps if they had brought legal counsel with them, they answered negatively and he strongly advised them they should reconsider making any statements without the presence of legal counsel. Upon the request of Leider and Thurston, the hearing was continued to Friday, May 26 at 1:30 p.m. and the complainants were asked to return.

The continued hearing was subsequently postponed when NI-Gas telephoned Mayor Blase on Wednesday, May 24 with their decision to accept responsibility for the losses.

On Friday, May 26 several complainants telephoned Frank Wagner of the Niles Consumer Fraud Division notifying him they had received checks in the morning mail for duplicate payments they had made to Northern Illinois Gas.

Mrs. Steve Kolakowski, 7200 Jonquil terr., Niles told The Eagle she is "happy everything had been taken care of and it was

all over finally." She also expressed her appreciation to The Eagle stating "Thank you for helping us."

Mrs. Stanley Kuick, 7612 Main st., Niles said, "I'm glad I get The Eagle every week and I've saved all the clippings on the stories so I don't forget what happened." Mrs. Kuick had paid her utility bills at Niles Drugs for 12 years and said she had no reason to suspect there would ever be a problem. "Now," she said, "I've received another bill and I'm not quite sure what I'm going to do since I don't know where I can pay it and not have to worry about it. I don't want to go through this again."

NI-Gas's acceptance of the receipted bills really was only a half-victory. Now they have an added responsibility to Niles residents. In this Village of 32,000 residents, NI-Gas does not have one "authorized agent under contract" and consequently a

problem still exists. Commonwealth Edison has two "authorized agents"; namely Unity Savings, 6361 Golf rd. and Dumke Radio & TV, Oak Mill Mall. Unity Savings also accepts gas bills as a service for their customers, but they are not an "authorized agent" of NI-Gas.

It seems to us with all the businesses available in Niles, NI-Gas should be able to work out a contract with at least two of these businesses and give the residents the prerogative of having at least two "authorized agents" in Niles. It's the least they can do for 32,000 consumers who certainly help pay the salaries of the "boys at the top." Perhaps if their proposed 12.1% increase currently before the Illinois Commerce Commission is approved, a portion of the \$60,000,000 in added revenue can be used for a few field men to track down some "authorized agents" in Niles.

Typing classes are scheduled to meet the special objectives of students who were unable to fit them into a regular school schedule. MONACEP will also offer Airline and Travel Agency Techniques. These classes also will be held at Niles West.

## Milwaukee ave. study... Continued from Page 1

in village general funds. According to the ten-month study, sections of Milwaukee ave. have become less pleasant over the years and no longer reflect high standards set by the community. Buildings are beginning to show their age...properly maintained and upkeep have fallen off in some areas...parking has become a problem...traffic has worsened and is unbearable at times." The report also called attention to an "over-abundance of signs" along the thoroughfare.

Input from citizens in a less-than-filled courtroom hearing April 4 and a handful of citizenry May 2 indicated concern over three major areas according to Harczak who listed them in the order of importance:

1) Jerry's Fruit and Garden Center, 7901 Milwaukee ave., and the traffic problems related to areas around the Center, Oak Mill Mall and McDonald's.

2) Beautification of the entryway to Niles at the south end of Milwaukee ave. (beginning at Albion ave.).

3) Problems created by cul-de-sacs of streets like Cleveland.

Harczak asked consideration by trustees of the three areas for implementation prior to final approval of the project.

Earlier the Beautification Chairman indicated a 10 year completion date for the Milwaukee ave. improvements. He said major improvements such as correcting Milwaukee ave. and Oakton st. may take three to four months of study with subsequent meetings of residents and businessmen for discussion

and evaluation. A cautious ballpark figure of \$8 million for completion of the approximately 50 improvements project was made by village administration dependent on numerous factors such as real estate values, costs of materials, etc. Sources of funding the overall figure would come from revenue-sharing funds, grants, motor vehicle and motor fuel taxes and private and business-sharing financing.

Mayor Nicholas Blase indicated a co-ordinator for the study to act as liaison between Village Board and the public would be hired within the next 30 days. The co-ordinator is expected to come up with additional sources of financing the project.

At the April 4 hearing, residents objected strenuously to planned cul-de-sacs of streets stating they were against "barricades". Jerry's Fruit Market was severely censured for health hazards, rat problems, lack of parking and traffic incidents.

Feedback during the May 2 public hearing again criticized conditions at Jerry's Market; indicated concern for beautification of the entrance to Niles at Albion ave., asked for relocation of "unsightly" overhead wires and for removal of signs, citing "flashing signs" as a safety hazard to traffic.

Resident objections, criticisms and suggestions concerning traffic flow on North Milwaukee ave. prompted Harczak to note priorities had already been set by Committee to rectify the flow of

## MG Postmaster lists new packaging deadlines

Postmaster Louis G. Principali today issued a reminder to postal customers in Morton Grove that if the Postal Service's new packaging guidelines are followed they can virtually eliminate damage to their parcels.

Postmaster Principali said that checks at bulk mail plants show that more than 80% of all articles damaged in the mails were improperly packaged.

While the regulations and guidelines adopted recently by the Postal Service are detailed, they boil down to several basic steps that can help assure safe delivery.

traffic at (in order of importance) Howard st. and Milwaukee ave.; Milwaukee and Oakton st.; at Dempster and Milwaukee ave.; and at Golf rd. and Milwaukee ave.

According to the Comprehensive Study, a "revitalization framework" planning for success of future development is centered around land use (controlled by zoning ordinances), a well-functioning thru-traffic flow, adequate and conveniently located parking, improved pedestrian accommodations (with consideration of the elderly and handicapped) and an aesthetic streetscape including landscaping, improved parkways, upgrading of above-ground public utilities and restriction of business and advertising signs.

First, select a strong carton. Use a fiberboard box with the "burst-test" number printed on it.

If the box says, for instance, 125 lbs. it can be used for mailing many types of merchandise weighing up to 20 lbs.

When a person is shipping dense or heavy materials, such as books, stronger boxes are required. For 10 lbs. of books the Postal Service recommends a box with a 175-lb. burst test.

The Postal Service suggests that wrapping paper not be used on cartons. If a wrapper is torn or lost in transit, the mailing address can disappear. Further, the paper adds nothing to the package's strength.

The use of masking and cellophane tapes for closing or sealing is prohibited. In transit they tend to peel off, and they have little strength. String is not recommended. If twine loosens, it can readily catch on processing machinery.
