3 arrested in coin shop robbery

Three men, including a Glenview resident, have been arrested following what may be the largest armed robbery in Niles history. The three suspects have been charged with robbing a local coin dealer of nearly \$100,000 in coins, jewelry and cash on Friday, July 31. Police reported one of the suspects entered Schwimmer-

Haymarket, Inc., 7637 Milwaukee Ave., about 2 p.m. last Friday afternoon. After inquiring whether the coin store would purchase gold, the suspect turned a revolver on the store owner, Harry Schwimmer of Chicago, and proceeded to handcuff him. After Schwimmer had been handcuffed, an accomplice entered the store. Schwimmer was ordered to

reveal the combinations to the business safes which, after some delay, he did. Taken from the safes were \$90,000 in rare coins and jewelry and \$8,310 in cash. Before fleeing the coin store the robbers tied Schwimmer's feet and placed a gag in his mouth. Once alone Schwimmer was able to get up and activate a burglar alarm as well as signal a passer-

The Morton Grove Police Department was ordered to remove their police officer from in front of the Magical Mystery Tour, Ltd., 6010 Dempster st., Morton Grove by Judge Anthony J. Scottillo of the Cook County Circuit Court last Thursday, July 30. The order was issued after the store owner, Raymond Dreifuss filed a suit charging police and village officials with harassing his customers and hurting his business which sells drug-related paraphernalia. The Morton Grove police officer was stationed in front of the business after complaints had been made by residents about the business. Police said they were just making sure no one under 18 years of age was purchasing the paraphernalia. It has been reported that several Morton Grove residents plan to picket the store this week protesting their sale of drug-related paraphernalia.

Threatens to pull out of RTA; proposes new ways to fund system

Blase plans action against bus cutbacks

by Bob Besser

As North Suburban Mass Transit (NORTRAN) officials prepare to implement service cutbacks in the on-going RTA financial crisis, Niles Mayor Nicholas Blase is threatening to propose new ways to finance NORTRAN which include pulling out of the Regional Transit Authority (RTA). After meeting with RTA officials NORTRAN has tentatively agreed to cut their expenses by reducing service on a number of bus routes. Effecting Niles residents will be the reduction in service on the 291 Des Plaines-Howard L. line. The 291, which travels east and west on Touhy, ave., is slated to have its mid-day service eliminated. Additionally, plans are under consideration to reduce service

on NORTRAN route 266 on Oakton st. in October. New plans will include changing rush hour pick-ups on Oakton st. from every 30 minutes to once each 40 minutes.

However, NORTRAN official Tim Doron noted if RTA should not fulfill its financial commitments to NORTRAN, these service cut-backs will not be implemented.

In the meantime, Blase has stated if the NORTRAN system is forced to shut down due to RTA funding problems, the 23 suburban communities served by NORTRAN should then consider pulling out of the RTA and assuming sole responsibility for the funding of the commuter bus service.

The care and feeding of the handicapped

This is the year of the disabled. Haven't we done enough already? We carved away parts of the curbs, put in special phones and toilets, and now they have all the good parking places. Imagine all those spaces close by and we have to walk! Fact is, not too many of the spaces are even used. We've done plenty for them, now it's time we did it with them.

After many years of working with the handicapped, I feel like I would like to express some views, and I am grateful to Bud Besser and the Bugle for the opportunity.

At a recent meeting I attended, there were a number of handicapped to discuss their disabilities. During our personal visits, I referred to them as "MS's" and "CP's" (multiple sclerosis and cerebral palsy). They were not pleased to be so labeled and wanted to know what I was. "Normal", of course (knowing all the time that wasn't true). "You're a 'TAB' - temporarily able bodies." "What a terrible thing to be called, but true. Something is going to slow us down temporarily or permanently as we get older. That means that all of us need to become aware of the needs of the handicapped.

An expression...an opinion... a point of view...

Guest Columnist

At this meeting, we saw a film that demonstrated some of the handicapped's everyday problems. One woman walking and the other woman in a wheelchair came into a shoe store. The clerk asked the walking woman what kind of shoes she wanted. "They're for the other person." "What kind would she like," asked the clerk. "I don't know, ask her." We think of the handicapped as totally disabled: Our government is trying to edict acceptance, but, in theirusal manner, are making it worse. It must be an individual effort for all of us.

My tenure as a "TAB" ended recently with an orthopedic operation. I became temporarily handicapped and received some of the indignities of the malady-over solicitousness (don't think there is such a word, but it sounds good). I just wanted to go about my work or play, but no, "What can I do for you?", "I'll get that for you," "I'll do that for you." The handicapped should and do want to do for themselves. To be allowed the courtesy and dignity of their handicap is something we must learn. Helping someone is admirable, helping someone to help themselves is noble.

An uncle of mine had a stroke that left him slightly immobile on one side of his body and he could not speak as clearly as he did previously. His false pride and the way people make handicapped self-conscious has forced him inside himself. From an outgoing person, he almost became a recluse. We have produced a society that is hooked on youth and one that believes handicapped is a weakness.

Sometimes we do too much for the disabled. Have you ever seen an underweight or undernourished handicapped person? Rarely. Continued on Page 35

A Maine Township senior citizens center will soon open offering area seniors inexpensive hot meals, organized programs during the day and, above all, much needed companionship.

The center, to be located at the now empty Shelley Nathanson school, Church and Potter rds. in Des Plaines, is scheduled to begin serving meals on Monday, August 17.

The program is sponsored by the Community Economic Development Assoc. (CEDA) of Chicago. CEDA is a privately funded, not for profit social service organization, which runs eight community centers throughout suburban Cook County. In addition to working with senior citizens, CEDA also offers programming throughout the suburbs in day care, housing and energy, nutrition and employment.

Explaining the Maine Township program Mary Kay Morrissey, Director of Niles Senior Center said, "What we'd like to provide is a good nutritional meal to people unable to cook for themselves or who need...to eat with other people."

According to Morrissey, the center will be open to any senior citizen in Maine Township, 60 years of age or older. A minimum donation of \$1 to \$1.50 will be collected from participants for each meal though no one will be turned away if they cannot afford a meal, according to Morrissey. Additionally, meals will be on a first-come, first-serve basis.

While Niles free Courtesy Bus system will not transport area seniors to the new center, Morrissey said she hopes a shuttle bus system from Lutheran General Hospital to the center will be set up.

Supervising the establishment of the senior center's planning have been representatives of Niles, Des Plaines, and Park Ridge as well as a staff member from Lutheran General Hospital and an employee from the Citizens Bank in Des Plaines. Morrissey said this is the first time representatives from independent municipalities have Continued on Page 35

RESPONSE FROM CONGRESSMAN PORTER

A common question among seniors over age 65 is, why doesn't Medicare pay for more of my personal medical bills? Besides the yearly deductible and the fluctuating fees of service providers, the reimbursements by Medicare are also affected by two other variables. According to Congressman John Porter, "Under Medicare guidelines, new reasonable charges go into effect each July 1 and are based on the physician's or supplier's charges from the previous year. The prevailing charges are limited year to year by Congress according to an economic index."

So actually, the reimbursements seniors receive today from Medicare are based upon the average rates charged for similar services a year ago. With constant rising costs in health care and the economy in general, Medicare's reimbursement, or lack of it, can become exaggerated.

Knowing these facts does not solve any problems but does shed light on the Medicare dilemma. A special program on What Every Senior Citizen Should Know About Health Insurance, will be presented at 7:30 p.m. on Monday, September 28 in the Morton Grove Public Library. Florence Murdoch of Blue Cross and Blue Shield will be the guest speaker.

NUTRITION REPORT

Dietician and home economist, Paulette Gardner, reported in July's Library/Health night, some very interesting and profitable tips on saving money while eating nutritiously. Mrs. Gardner provided these hints on saving when shopping.

- shop just once a week
- don't take a cart throughout the store unless absolutely necessary
- generic foods are equally as nutritious as the name brands
- plan menus before shopping
- utilize coupons: an in-store and a newspaper coupon can be used on the same product
- Eating nutritiously is also a concern in saving.
- avoid junk foods which contain empty (unnecessary) calories
- increase grains and decrease fats
- diet products, with saccharine, contain salts and should not be consumed in excess
- additives and preservatives should be avoided. "If you can't pronounce it, don't buy it."

MEALS-ON-WHEELS

Volunteers are needed to deliver meals-on-wheels to older residents in Morton Grove who are unable to prepare their own meals. The meals are prepared in the kitchens of the Bethany Terrace Health Care Facility and are delivered within the Village.

Anyone interested in helping is asked to donate an hour or so around lunchtime and a car. For more information contact the Morton Grove Health Department at 965-4100 ext. 269.

VISITING NURSE ASSOCIATION IN MORTON GROVE

The Visiting Nurse Association (VNA) offers health care in the home under physician's orders usually to people returning home from a hospital stay or to those who have an on-going acute condition. Such care has been provided in this community for more than 80 years.

The VNA is not a nursing pool. It is a health care organization whose staff are fully trained, licensed and experienced professionals.

One of those professionals is Christine Frisoni, a nurse specialist in the health problems of the older person. Cris will be available to Morton Grove residents Monday mornings between 8:30 and noon to answer questions, make home visits, and to conduct health education programs. Contact Cris at the Morton Grove Health Department, 965-4100 ext. 269 or the VNA main office at 677-6164.

YOU CAN CONTROL THE RISK OF CANCER

Habits, medical history, health practices, and workplace can all be contributing factors to the mystery of cancer invasion. Yet cancer is not as mysterious as it once was, the American Cancer Society continues to pursue answers to questions surrounding this disease.

At 7:30 p.m. on Monday, August 24th, the Morton Grove Health Department will show the new Cancer Society film, "You Can Control The Risk of Cancer". Discussion on cancer topics as well as free literature will be available after the film. This free program is open to all, and will be held at the Morton Grove Library's Baxter Auditorium.

ST. FRANCIS HOSPITAL

A tele-care program for senior citizens living alone or handicapped is available through St. Francis Hospital in Evanston. The program is designed to provide daily phone calls from friendly volunteers to seniors who would just like to hear a friendly voice. The calls are made between 10:00 a.m. and noon, seven days a week. For more information, call Sister Margaret Rose, 492-2230.

The evening Service is not as formal as Sunday Worship. The hymns and sermon theme are the same but Pastor Housholder gives his sermon, not from the pulpit, but while standing in front of the pews. After last week's Worship it was said, "I felt as if I was in my small, hometown church again. The rays of the setting sun coming through the stained glass windows behind the altar added to the warm, beautiful feeling of the Service."

Tradition has assigned additional subsequent major tragedies to the ninth of Av. The day's special liturgy which has developed from the biblical Book of Lamentations recalls the pain and suffering of the Jewish people.

Government Pension offset may affect spouse's social security benefit

If you work in a federal, state, or local government job not covered by social security you should know that the pension from your work could affect the social security benefit you will receive as a husband or wife.

Social security benefits for a husband, wife, widow, or widower are reduced-dollar for dollar-by the amount of your government pension. This offset will not affect the amount you receive based on your own work that is covered by social security.

The law provides an exception for some people, however. You are exempt from the offset if you are eligible to receive a federal, state or local government pen-

sion before December 1982 even though you do not apply for it. You must, also, meet all the requirements for wife's, husband's, widow's, or widower's benefits that were in effect in January 1977. At that time, a man had to have been dependent on his wife for more than half of his support to be eligible as a husband or widower. A divorced woman's marriage had to have lasted 20 years, rather than the 10 years now required for her to be eligible. In addition, the offset will not apply if your government job is covered by social security on the last day you work.

The purpose of the offset is to prevent "windfall" payments to retired government workers who have their own pensions and

would also receive social security benefits as a spouse or surviving spouse.

For more information about the government pension offset call 823-0815, the special teletext number for the Des Plaines area. Ask for the free leaflet, **Government Pension Offset-How It may Affect You.**

Skokian sentenced in tax fraud case

Donald E. Bergherm, District Director of the Internal Revenue Service for Northern Illinois, announced that William J. Howard of Skokie was sentenced today to 30 days in a work release program, five years probation and a \$10,000 fine for filing false and fraudulent Federal income tax returns.

Howard, age 58, resides at 8420 McCormick Blvd. in Skokie. He is the owner of Howard Tire Sales.

Howard had pled guilty on June 14, 1981, which charged him with subscribing to false and fraudulent income tax returns for 1974 and 1976. Howard admitted to using an assumed name, Howard Miller, in understating income from his business.

Judge Marvin Aspen announced the sentences. Under existing law, a person convicted of criminal tax offenses, in addition to whatever sentence is imposed, is also required to pay the tax determined to be due as well as interest and civil penalties that may be assessed. The investigation was conducted by the Internal Revenue Service.

Safety hints from the Secretary of State

A driver who fails to stop at the scene of an accident involving his or her vehicle in which someone is killed or injured may, upon conviction, be sentenced to not more than one year in jail and fined up to \$1,000.

Illinois law also requires the Secretary of State to revoke the drivers license of any person convicted of leaving the scene of an accident involving death or personal injury.

If you are the driver of a vehicle involved in an accident which causes damage to an unattended vehicle or other property, you must stop immediately without obstructing traffic. Find the owner or driver and inform him or her of your name, address and license plate number. If you are unable to locate the owner or driver, you must furnish the information in a written notice attached in a prominent place on the vehicle or property.

Then you must, without unnecessary delay, notify the nearest police station and make out the required accident reports. Failure to do so may result in the same penalty mentioned above.

If you have any questions about the Secretary of State's office, please feel free to use our toll-free telephone number (800-252-8980).

(A copy of the Rules of the Road will be sent to upon request. Write to Jim Edgar, Secretary of State, Springfield, IL 62756.)

State troopers policing for results

"Illinois State Police are placing a greater emphasis on the results of their activity rather than the numbers achieved," stated Superintendent R. J. Miller. "This represents a major turnaround in enforcement."

Rather than concentrate solely on the number of arrests and warnings obtained we are looking at the effects of that enforcement activity. Such a viewpoint allows for creative policing. It also allows us to view the results of our efforts.

The following chart depicts a perfect example of the results obtained by planning and controlled policing efforts. The chart points to three important facts:

Only three states in America saw highway fatalities decline each year in 1977, 1978, 1979 and 1980: Illinois, Alaska and New Mexico; Since 1977 Illinois while, nationally, fatalities have increased 4.2%; Illinois' 1980 highway fatalities were the lowest since 1962.

Those wishing to apply must provide a photocopy of a deed or title policy or torrens certificate, a recent property tax bill, and proof of age, such as a birth certificate or baptismal certificate; or two other proofs of age together, such as a driver's license and a medicare card. In the case of a married woman, the marriage certificate must accompany a birth or baptismal certificate (to show the change in name).

Rep. Pullen said her office will provide photocopy service for those who need it in regard to the Homestead filing. The deadline date is September 1, 1981 for this year.

Those applying now will receive the benefit on their 1981 tax bills, reflected on the second installment, payable in the summer of 1982.

Nilesite thanks police and firemen for emergency help

Dear Chief Emrickson:
I recently had to call upon the services of the Niles Police Department to handle a situation which required police attention.

My compliments to you on the efficient manner in which the Police responded to the call for help. In particular, I would like to give thanks to Lt. Peter Pasek, Badge #13 who responded as well as Officers Dean Strzelecki, Badge #122. The efficient manner and the care and concern shown by all these gentlemen are a credit to the Village of Niles and in particular to the fine training given to them and the excellent leadership shown by yourself.

Once again, I would appreciate your extending my personal thanks to them.

Sincerely,
James A. Mahoney, Jr.

Charges MG board with 'dictator tactics'

Dear Sir:
If you had attended the Morton Grove board meeting July 27 you would have witnessed the most arrogant, disgraceful, little dictator type board tactics anyone has ever seen. It would have made you ashamed to know these people are your elected officials.

Apparently, citizens can no longer raise valid questions about the budget without being told by the mayor, to me, to "...go on, get out of here". It's a sad day in this town, folks, when these media darlings think they are invincible & beyond valid criticism. Well, they are fallible & they will continue to have their shortcomings exposed to the public eye, believe me.

If the people really knew the inside story about how their government is being run & how it responds to it's citizens they would have an eye opening experience.

Sincerely,
John Hilkin

THESE GUYS CAN MAKE YOU LOOK LIKE A GENIUS.

The ceilings and walls are packed with insulation to help you stay warm when you should be cool and weather-stripping around every door and window so you won't waste money heating and cooling the great outdoors. Instead of an air conditioner and furnace, there's an electric heat pump.

In summer, it pulls heat from the warm air inside and forces it outside to keep you cool. In winter, it reverses itself, drawing residual heat from the cold air outside and pumping it inside to keep you warm. Happy too, because all winter long this amazing little machine actually provides at least fifty percent more energy than it uses. And nobody

has to tell you what that means. All in all, a house that's energy-smart costs less to operate than one that's not so smart. And since the price of energy isn't going down for any of us, it'll be worth that much more should you ever decide to move on.

If you're in the market for a new home, talk to one of the energy-smart builders. It could be the most smart thing you ever did.

St. Demetrios Greek-American fun time

Chicago's Greatest Greek-American Festival, the 32nd Annual Annunciation St. Demetrios Picnic will be held on the church grounds (2727 Winona) for four days, Thursday thru Sunday, August 20-23.

The rhythm of Greek music and the aroma of charcoal-broiled shish-kebob and chicken will fill the air during the four day picnic, where more than 80,000 people are expected to take part in the largest celebration of Chicago's Greek-American Community. The festival will feature an authentic Greek Taverna, where you can relax and meet your friends. Wine, Ouzo, Metaxa, Gyros and Greek appetizers will highlight the fare.

Young and old alike will work up a good appetite dancing the zembekiko, a rhythmic folk dance to the music of Greek bands. A Ferris wheel, carnival rides, game booths, contests, and balloons will add to the "Greek-American Fun Time!"

The high point of the picnic will come at 11 p.m., Sunday, when the winning raffle tickets are drawn. \$10,000 in cash prizes include: 1st - a Grand Bonus of \$5,000; 2nd - \$2,000; 3rd - \$1,000; and \$500 for the 4th, 5th, 6th and 7th prizes. Emmanuel Vergis, Skokie, St. Demetrios has promised to smile on the celebration with letter-perfect weather. "In case of rain, most of the events will be held in the huge church auditorium," says Chairman Ernest Neokos and Co-Chairman Nick Cosmos. Teleprompter - In the Public Interest

One day, the most popular show on Skokie television might be the price of beef.

At least, that's the result of our local marketing survey on cable television. 82% of the Village residents questioned said that they would like programs on comparative shopping and consumer affairs. No other category scored higher.

In response to this expressed preference, Teleprompter has incorporated a special consumer affairs channel into its cable television proposal for Skokie. On this channel, viewers would be able to check the prices of food at area stores and plan their shopping trips accordingly. They will also obtain valuable information on planning nutritious and tasty meals for the family.

Teleprompter has requested and received opinions on every aspect of cable programming. Our market survey has shown us what residents tend to want in the way of movies, sports, local news, religious programs and more. Our in-depth assessment interviews have further shown how we can best serve the Village's communications needs.

ED HANSON

"Don't leave home with them"

If you read Sidney J. Harris' column in the Chicago Sun-Times last Monday, Aug. 3 about American Express Travelers checks, or the "Gold Card", you'll know what inspired this piece.

Normally, I only read Sidney J. Harris when I have difficulty going to sleep. I have always been adverse to taking any kind of drugs (something pounded into my young mind, as a kid, by my mother) and, as a result of this environmental conditioning, I had to find a wholesome substitute turned out to be, Sidney J. Harris, the syndicated celebrated columnist.

I discovered thru the years that a few paragraphs of Sidney J. Harris could send me into the arms of Morpheus faster than computerized hypnosis, or any anesthetic drug, including opium, ether, laughing gas or sleepers.

So, Monday, after a weekend of adventure, fun and frivolity with the Polish Princess Angie at her Wisconsin summer home, I was so titillated, so tense, and so emotionally uptight, I just couldn't fall asleep. Therefore, upon retiring in my lonely little hotel room, I began to read Sidney J. Harris' famous syndicated column.

A FUNNY THING HAPPENED. Instead, of quickly succumbing to sleep, as previously had always been the case, I found myself stimulated by that satanic inspired inspiration.

I leaped out of bed, quickly unchained the little monkey whom I have constantly pounding the keys of my typewriter (in the hopes he will someday write a masterpiece) and dashed off this masterpiece.

What he said about American Express Traveler checks and the "Gold Card" rang with truth, based upon my own experiences with them. Having used American Express Traveler checks in the days when Calumet City, years ago, was at the height of infamy, I found they were as good in the big, floating crap game they used to run at the Owl Club and other locations.

Recently, I happened to have American Express Traveler checks at Arlington Park, and years ago, all one had to do was go up to the information window and "cash 'em." Try it today! Now you have to go down to the general office, see the general manager (and he's hard to find and apparently doesn't hear well, because he never answers his pages). If you're lucky enough to catch him in his office, you must show 3 ID's and maybe, just maybe, he'll initial 'em. Then, you have to take the American Express Traveler check back upstairs, wait in line at the information window and then maybe they'll "cash 'em." All this takes lots of time and before I cashed one for a lousy fifty bucks, the race was over and my horse had won paying \$46.50 to win. (This upsets me emotionally and gives me the urge to kill!)

So, I agree with Sidney J. Harris' column about American Express Traveler checks, and his comments about Karl Malden. I never could accept Karl Malden's image as a detective. Perhaps, as a reporter, I could...

He certainly looks like a man that has a "nose" for news. Besides, I agree with Angie's financial wisdom when she says, "I only use the Polish credit card - CASH!"

passing in an effort to save time. The impatient driver takes risks without regard for his or her own safety, and unfortunately, the safety of others.

You'll enjoy your visit to the fair even more if you leave a little early on your return trip home. Try to do all of your driving during daylight hours, both coming and going. It's always easier to drive with your family when everyone is well rested.

Take special care if you are an exhibitor and must transport livestock or machinery to and from the fair. The added size and weight of your vehicle and/or trailer make your responsibility toward safety even greater.

Project VITA seeks volunteers in ESL program

Project VITA (Volunteers in Teaching Adults) is seeking tutors to help non-native English speaking adults improve use of the English language and understanding of American culture.

The project operates as a part of MONNACEP's English as a Second Language Program. MONNACEP is the continuing education element of Oakton.

Project VITA will train volunteers to work with non-native English speaking adults under the guidance of a classroom teacher, according to Marilyn Appelson, coordinator of the volunteer program.

Ms. Appelson points out that knowledge of a second language is not a requirement for volunteers. "Project VITA trains and supervises volunteers to provide

instructional options and create for foreign students a link to a new language and culture."

Comments by volunteers underscore the rewards of volunteering in Project VITA. Ms. Appelson adds, noting the following comments.

Doug Harris, Glenview: "It provides an opportunity to help people who so obviously need help."

Shirley Ward, Northbrook: "The students' joy in learning and their enthusiasm is so rewarding."

Shirley Roskin, Northbrook: "Each session brings a new challenge. The students are a delight-so enthusiastic."

For further information and to volunteer, call Ms. Appelson. 635-1983.

\$1,000,000 gift to St. Francis Hospital

The Gouletas family, principle owners of American InvSCO Corporation, donated one million dollars to St. Francis Hospital of Evanston in honor of Steve Gouletas, the 66 year-old father of the founders of the InvSCO Corporation. Mr. Gouletas successfully underwent aortic valve replacement and coronary bypass surgery in St. Francis Hospital on Friday, July 24.

The donation will go toward the purchase of a fourth-generation Computer Assisted Tomographic Scanner. This acquisition will replace the current scanner and meet the need of providing more clearly detailed, dimensional views of internal organs. Through this detailed visualization the physician can

detect tumors, slipped discs; internal organ disease and other disorders.

Among the advantages of the newest equipment is the ability to conduct follow-up studies on coronary by-pass patients. The new equipment will conduct procedures in 1 to 2 seconds compared to the previous 18 seconds of the hospital's existing scanner. The CT Scanner, as it is commonly known, has been called the most significant diagnostic advancement since the invention of x-ray equipment.

In recognition of the gift, the hospital's new lobby in the east addition will be named after the Gouletas family. Ground was broken for the addition in early June.

Blase . . . Continued from Pg. 1

Blase said during a Monday interview with The Bugle that should the NORTRAN communities eliminate the one cent state sales tax which currently goes to the RTA and replace it with a quarter cent tax, this would raise the revenue needed to completely finance NORTRAN.

NORTRAN's 1982 budget calls for \$8.9 million with an anticipated deficit of \$5.5 million. Blase is particularly incensed that NORTRAN may not receive the funding it needs even though the 23 NORTRAN communities are contributing \$33 million annually to the RTA through the state sales tax but receiving only \$6 million back from the RTA for NORTRAN.

Blase said, "If we don't get funding and (NORTRAN) closes down...we will have no alternative" but to find new ways to fund NORTRAN.

MG Legion Carnival winners

The names of the grand prize and savings bonds winners of the Morton Grove American Legion Post #134 annual Krazy Daze carnival recently held on Post grounds have been released by prize chairman, Gus Karsoulis, of Morton Grove.

Coin shop robbery . . . Continued from Pg. 1

Following the robbery Niles police notified surrounding police departments as well as Chicago Police of the robbery and issued descriptions of the suspects.

The three suspects were apprehended Monday, Aug. 3 at the Grove Motel, 9110 Waukegan Rd., Morton Grove. Participating in the apprehension were Niles and Morton Grove Police as well as members of the Chicago Police Department's Central Investigation Unit.

The robbery suspects were apprehended, according to Niles Police Sgt. Al Golbach, after "Chicago Police developed information (on the robbery) through informants."

Arrested at the Grove Motel were Peter R. Bianco, 40, of Glenview along with Victor Skrobacz, 18, of Chicago and John Szostek, 30, of Chicago. Bianco was charged with grand theft and possession of stolen property. Skrobacz and Szostek were charged with armed robbery.

According to Golbach, armed robbery in Illinois is a Class X

during the July 12 area-wide flooding. Village officials hope to find patterns indicating which areas of the village are more prone to street and home flooding than others. Up to 11,000 surveys will be sent out by the village.

Niles residents should expect numerous construction projects to be delayed or postponed throughout the village due to the current Heavy Equipment Operators strike. Construction work on Dempster St. and Oakton St. improvements have been stopped. Additionally, major work to be done on Caldwell Ave., Maryland Ave. and Courtland Ave. may have to be put off until next spring. Niles Village Manager Ken Scheel noted these postponements could result in construction projects planned by the village for next year having to also be rescheduled.

House-Senate adopts Porter Student Loan

Congressman John Porter (R-10th) has obtained House-Senate approval of his proposal to assure higher educational loans guaranteed by the government for all students, with the interest cost varied on the basis of need.

The house-passed Porter Guaranteed Student Loan (GSL) proposal was adopted last week by House-Senate conferees to the 1982 Reconciliation bill, which cuts the budget by \$37.3 billion in the Fiscal Year 1982, \$48.1 billion in FY 1983, and \$56.4 billion in FY 1984. The conferees action must first be ratified by both houses and signed into law by President Reagan to take effect.

The Senate version of the Reconciliation bill did not include the Porter-sponsored provision but would have guaranteed subsidized 9% student loan-only to families earning less than \$25,000 annually and those earning more than \$25,000 who met a "remaining needs" test. Such a test would weigh not only income, but equity in assets, number of children in school, debt obligations and other factors.

The Porter GSL provision allows for those students and their families who show "remaining need" to obtain a 9% loan of \$2,500 and those unable to show "remaining need" nevertheless to borrow up to \$2,500 annually at market interest rates to finance their college education, either through parents loans or as independent students. The conferees adopted this concept but provided that those families earning less than \$30,000 would automatically be exempt from the "Needs" test, and pegged in-

Kustra accuses Assessor Hynes of playing politics

State Representative Bob Kustra (R-4th) labeled Cook County Assessor Thomas Hynes' criticism of the Illinois Department of Revenue's multiplier increase a "cheap political trick."

According to Kustra, "Hynes knows better than to blame the Governor for the multiplier increase. The multiplier merely equalizes assessments among counties. Because Hynes assesses low in Cook County, the new multipliers will have the effect of raising assessments."

State law requires that property be assessed at 33 1/3% of fair market value. Kustra points out that the average assessed valuation in Cook County is around 19%. "So it is state law which requires the Department of Revenue to bring assessments

up to a higher level in order to bring them in line with other counties. Hynes knows this, but it is politically popular for him to assess low in Cook and stick the State with the job of enforcing the 33 1/3% requirement."

Kustra charged that Assessor Hynes has no interest in serious reform. "If the Assessor finds the 33 1/3% law so difficult to live with, then he can send his political allies in the General Assembly to reduce it. Obviously, he hasn't because it benefits the big 'tax eaters' like Cook County government and the Metropolitan Sanitary District who reap windfall tax dollars by the higher assessments. Hynes is part and parcel of that system and he isn't going to bite the hand that feeds him."

Kustra urged taxpayers to monitor the actions of local government bodies if they want to hold down taxes. Kustra remarked, "It is absurd to blame the State for property tax increases which actually result from decisions of local government officials to raise tax rates. As I prepare this statement, I read that a park district board in my district just raised its tax rate 22%. That's what makes tax bills go up."

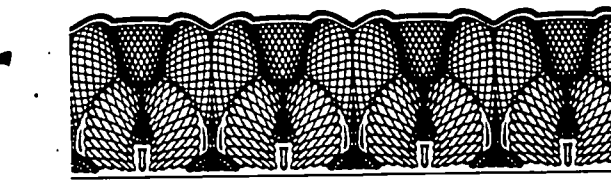

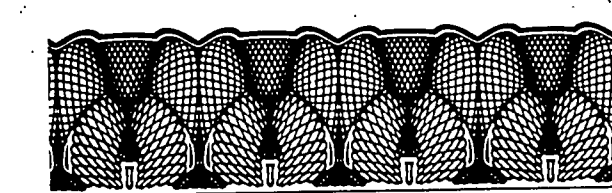

Praising recent truth-in-taxation legislation passed by the General Assembly, Kustra predicted that the Governor will sign the bill soon and that it will aid taxpayers in finding the real reasons behind tax increases.

Cash Builder Plan

under \$5000 = 13 1/2%
over \$5000 = 16%

The Cash Builder Plan is a better idea whose time has come. It offers outstanding benefits both to large and small savers and has numerous advantages over money market mutual funds.

Yields are high and stable. The yields on your Cash Builder Plan investment are high and are very competitive, but unlike money market mutual funds do not vary over the term of your investment. And that's true even if rates fall.

Your principal won't fluctuate. Your investment can never be worth less no matter what happens in the money market. You can count on the predictable value of your investment — you'll never have to worry or guess.

You'll have ready access to your funds. Cash Builder Plans are written for 89 day terms, but if your needs change you'll have instant access to all or any portion of your money. And that's with no early withdrawal penalty on principal or interest. Just a small transaction charge.

There are no fees or commissions. Unlike many mutual funds, the Cash Builder Plan has absolutely no front-end fees or broker commissions. Every penny you invest is yours — always.

The minimum investment is low. You can invest as little as \$2500 or as much as you like (up to just under \$100,000).

There is no high sales pressure. With the Cash Builder Plan you'll never be pressured to invest in some other commissionable security, or in anything else. It's not an investment "come-on."

Free checking is available, too. To make it even easier for you — a free no-minimum-balance checking account is available to qualified depositors. And it's a Skokie Federal checking account, one of the most flexible and efficient you'll ever find.

The service is personal and helpful. You'll never feel like just another account number at Skokie Federal. Trained, helpful counselors are ready to answer your questions and provide assistance.

Skokie Federal locations are convenient and local. Your Cash Builder Plan may be opened at any Skokie Federal office (except Jewel-Venture). You won't have to risk the uncertainty of mail transactions. There's a Skokie Federal branch open six days a week during hours that are convenient to you, not to your broker.

EPILEPSY

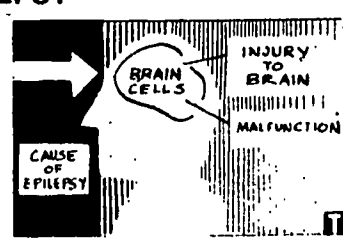

Literature and history have managed to make epilepsy—a rather common condition—a source of myth and misunderstanding.

Alexander the Great, Alfred Nobel, Dostoyevski suffered from it, as do two million Americans today—one out of a hundred.

Among the common myths about epilepsy is what causes it. It may be caused by anything that injures the brain—accidents, infections, tumors, birth injuries. But it's not genetically inherited and it's not contagious. Thus, it is not a disease, but a condition: a symptom of disturbed electrical activity in the brain.

If a person's brain is damaged, some of the 12 billion nerve cells may malfunction, disrupting the normally smooth-running pattern of electrical activity. The damaged cells "overload."

The result of this temporary overload is a seizure which causes some body activities to go awry. There's a sudden loss or disturbance of consciousness. The types of seizures range from convulsions to momentary lapses of attention. There's no pain with the seizure, and usually no

Many people don't know the facts about epilepsy: It is not a disease. It is not contagious. It is not inherited.

long-term after-effects. Many people who've had seizures, especially mild ones, are unaware they've had one. Because damaged brain cells cannot be repaired, there's no cure for epilepsy. Some people—notably children—do appear to outgrow it. About 30 percent of epileptic seizures can be controlled partially or totally by medication, so many people with epilepsy remain virtually seizure-free for a lifetime.

An interesting, easy-to-read booklet on epilepsy, "Breaking Down the Walls of Misunderstanding," is available free by sending a stamped, self-addressed, long business envelope to "Epilepsy," Department 383NA, Abbott Laboratories, Abbott Park, North Chicago, IL 60064.

Set into the inner walls of the Washington Monument are 190 inscribed stones contributed by states, individuals, organizations and foreign countries.

Because of their problem, they compensate themselves or they are overindulged by their families and friends. This harms them in many ways. They get heavier, so, therefore, they are even less mobile. They can do less exercising. They feel more lethargic and can become more depressed. The additional weight is unhealthy and cannot help fight further complications.

During the past years, with a greater emphasis on exercise, the handicapped person goes deeper into themselves because they cannot compete or do well. Recently, however, we have seen extreme examples of persons overcoming their problems by doing all sorts of extraordinary feats, even in professional sports. What we need is to demonstrate to everyone that they can make some marked improvements with a continuing effort in exercise. I am prejudiced about the remarkable changes that can be accomplished with water exercise. Water is supporting, water is relaxing (even for the non-swimmer), water is consistent. There are many activities that are available for the handicapped. However, it does take individual effort on a continuing basis.

There are many agencies ready and willing to help. There is legislation that is trying to help. But there is more that one can do for oneself. Because our physicians, our nutritionists, our physiologists are doing such a fine job in increasing our life span, we will be facing continually growing requirements.

The placement of telephones to more convenient heights, removal of curb barriers, etc., are ways that we are mechanically allowing the handicapped to move about more freely. Now we need to learn how to bring the handicapped into what is being called the "Mainstreaming"—allowing the handicapped to make their way into our society-work and play.

You can help. Take a handicapped to lunch-treat them like they are a real person-let them do for themselves-talk to them as if they were a real person. Do not talk about their handicap or "Mainstreaming". Get to know them. You may even get to like them. And see if you can get them to pay the check.

Senior Center ... MG reminds residents of garage sale ordinance

worked together to help create such a center.

The seniors center will eventually offer programs from late morning until afternoon for participating seniors. Morrissey said programs such as bingo, card playing and parties will be scheduled.

Ray Hemenway, 28, has been hired as the supervisor of the new center. Hemenway had formerly headed up a similar senior citizens facility in the Berwyn-Cicero area.

Noting the work accomplished so far as well as the programs still to be developed, Morrissey said, "If we can meet these goals, I think we will have accomplished a lot."

MG Legion ...

Continued from MG P.1 Christmas shopping early at the American Legion.

There will be new items as well as used. The items range from the field of books, silver and gold jewelry and toys to clothing items, plaques, ornaments and decorations, novelty articles, imported Polish folk art and antiques and collectables. Two 80 year old ladies will display handmade candles and afghans and stoles.

More exhibitors include wooden hand carved items, paint supplies, electronic gadgets and tools, ties, belt and buckles. Other displaying goods will feature crocheted articles, primitive, mirrors, household goods, ceramics and sculptured items and also hand made miniatures.

Exhibitors will be found not only outside on the grounds, but both upstairs and downstairs in the Legion Home.

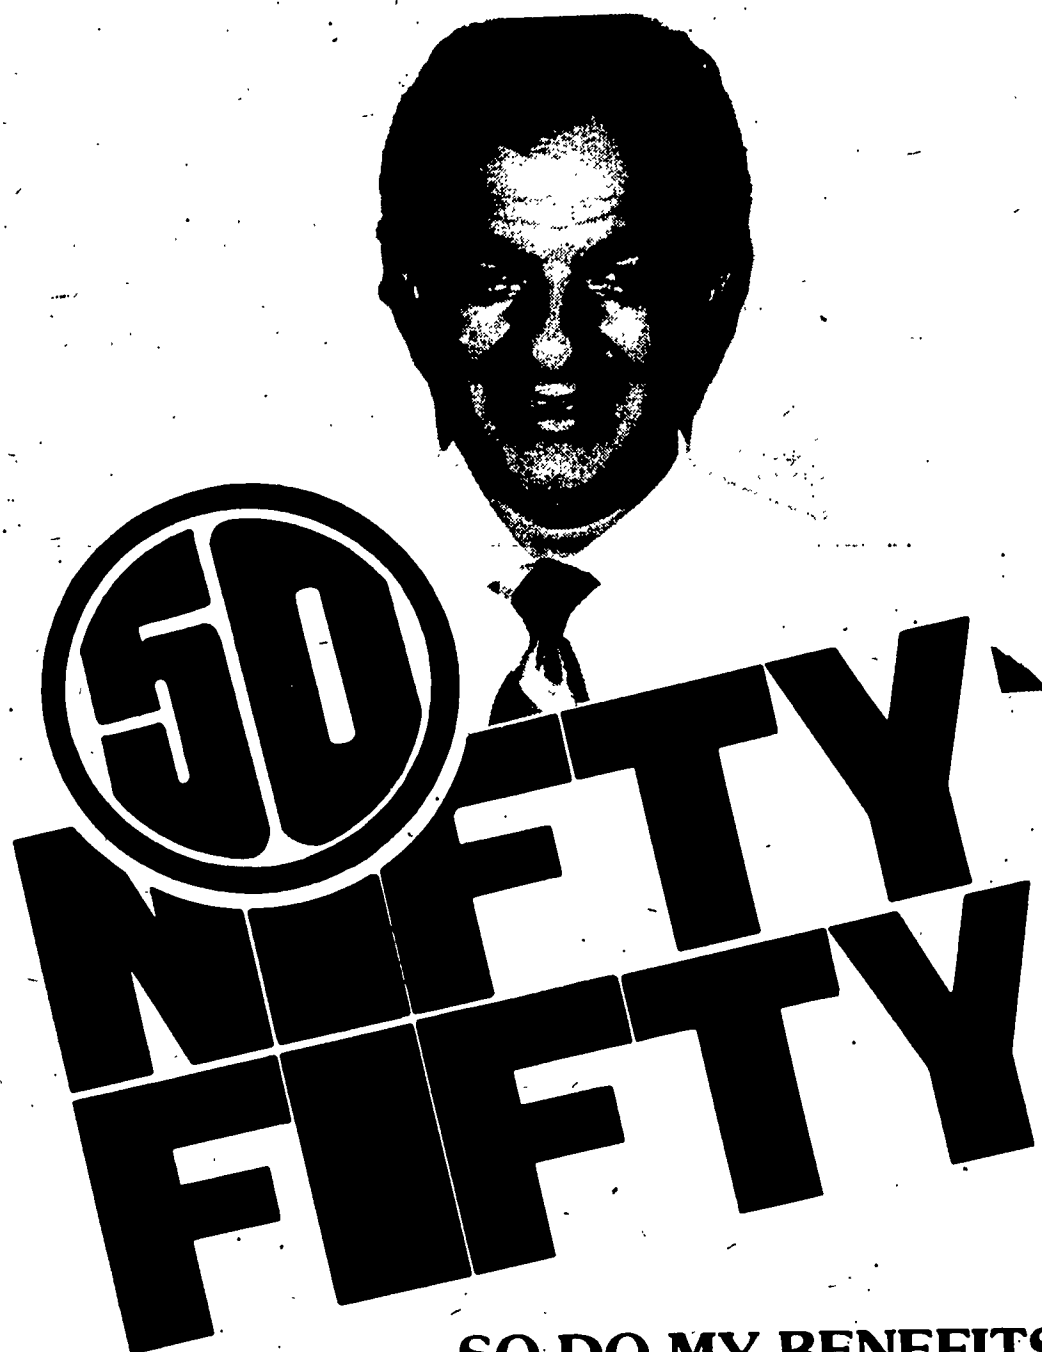

Refreshments and liquid quenchers will also be available for those desiring a snack or meal. Hamburgers and drinks and pizza will be just part of the menu. Prices are reasonable for these palatable food delicacies.

There is a quantity of free parking adjacent to the Legion grounds.
