Murphy will replace retiring

From the LEFT HAND

by David (Bud) Besser

Back at the old stand again for another year, it's time to
focus our attention on the most noteworthy story of recent
months. It concerns Niles' flip-flop on choosing Cable TV
companies and it concerns every resident in the community
who will be paying for Cable TV service.
Carol Panek, Niles trustee who has represented Niles for
2½ years in the studying of Cable TV, sent us a letter 2 weeks
ago outlining why she was the lone dissenter in opposing the
Cablevision Company.
Carol, representing Niles, spent the better part of 2½ years
joining with representatives from 20 northwest suburban
communities in studying Cable TV companies. At the end of
this exhaustive study 17 communities chose Cablenet, Inc.
and 5 suburbs chose Warner-Amex. Cablevision was the
third choice of all these communities. It was the second
choice of Niles.
After negotiating for 4 months with Cablenet, the last mon-
th Cablevision came forth with a new proposal which Carol
said was substantially the same as past ones except it offered
\$500,000 up-front money as pre-payment of the franchise fees.
Niles went for the bait.
Carol contends the choice was a poor one. She believes
Nilesites will eventually have to pay for this advance through
higher monthly fees and services and more important, she
believes Cablenet, with its 120 channel system, will have far

What's in a name?

I've long been fascinated by athletes' names. Made-up, marquee-sized, movie star monikers like Rock Hudson and Tab Hunter pale in comparison with a genuine baptismal bestowal such as Bart Starr. Bart Starr - that's one of my favorites. Doesn't it conjure up the image of the All-American sports hero? It does for me. The guy who quarterbacked the Green Bay Packers (my favorite team name) during their most formidable years lives up to that image, too, from all I hear.

Over the years, my husband Harry and I have watched many sporting events on TV. At first it was in an "if you can't beat 'em, join 'em" frame of mind but soon the action, thrills and suspense converted me into an avid fan. Besides, team rosters unfailingly provided several colorful examples of parental imagination and pride and, in quite a few cases, surnames seemed to prophesy the infants' future vocations.

An expression...an opinion...
a point of view...

Guest Columnist

In glorious living color I've seen Gary Player make golf look easy. Palmer, Hands and Fingers pitched baseballs while men with names like Homer, Singleton, Strain, Scurry and Gamble tried to score on them. Butkus and Baschnagel smashed into the Bears' opponents and Gale Sayers ran like the wind for the same team. Could these men have followed any other profession? Would the most famous infield in history have performed as effectively if their highly touted double play combination read Smith to Jones to White instead of the immortal Tinker to Evers to Chance? I doubt it!

Unincorporated Des Plaines North Maine Fire Department is in the midst of a major battle with Fire Chief Walter Kelly and the fire board of trustees on one side and firemen on the opposing side. The firemen, represented by the Association of Independent Municipal Employees, have in recent weeks charged that Kelly has been intoxicated while on duty. Kelly has denied the charges. Now firemen claim the fire board is not only ignoring this allegation but preparing to fire the vocal firemen. Firemen have now gone on the offensive and are recruiting volunteers to pass petitions in the unincorporated area to try and unseat the appointed fire board replacing it with an elected board of trustees.

Preliminary consulting report gives Teleprompter highest rating

CTIC, the cable consulting firm, hired by the Village of Skokie, has carefully evaluated each of the submitted proposals and issued a Preliminary Report.

In the 22 categories ranked by CTIC, Teleprompter was rated "BEST" 19 times. In some areas, such as System Design, Teleprompter held the highest rating alone. In others, the company shared the distinction of "BEST" with other applicants.

In total "BEST" ratings, Teleprompter was significantly ahead of the other six competing companies. In fact, the next closest company was ranked "BEST" 11 times.

Ratings, of course, don't tell the entire story. A number of other findings by CTIC pointed out strengths within Teleprompter's proposal, for example: "the most complete access support" (along with one other applicant) (p. VI-28);

"appears to offer the strongest proposal" in engineering and technical analysis (p. V-38); "careful plans for resources to apply the services promised" (p. VI-9);

Lions work for sweetest reward on Candy Day

The Lions Club of Illinois will use sweets for a sweet reward. The sweets are candy rolls of either hard candy or mints, and the sweet reward will be help for the blind, visually handicapped, deaf and hearing impaired.

The event is Lions Club of Illinois Candy Day for Humanitarian Services, and the date is Friday, October 9. On that date, from sunrise till dark and after, the state's 33,000 Lions from more than 670 Lions Clubs will give away candy and accept donations in every nook and cranny of Illinois to try to raise \$1.2 million to fund a year's worth of programs for the blind and deaf.

Funds from Candy Day are used in a variety of ways for those with vision or hearing impairments. The uses break down into three basic categories: use by local clubs, statewide projects administered by the Foundation on behalf of the clubs, and grants awarded to outside agencies serving the blind or deaf.

The Foundation provides these direct services: ...A Mobile Glaucoma Screening Unit that travels the state at the invitation of local clubs. The unit screens from 20,000 to 30,000 adults each year for visual acuity (how well you see how far) and for glaucoma, an eye disease marked by an increase in fluid pressure within the eyeball. Untreated, glaucoma is blinding.

...A Mobile Hearing Services Unit that travels that state furnishing hearing screenings for adults. ...An Eye Donor Registry to help alleviate the chronic shortage of eye tissue for corneal transplants and other medical needs. Approximately 16,000 persons have signed eye donor pledges under the program. Tissue is distributed to several eye banks as it becomes available.

...Camp Lions for children with severe sight and hearing impairments. More than 400 children attend camp each summer at two locations: Camp Lion "Ravenswood" at Lake Villa and Camp Lions "Touch of Nature" at Carbondale. A special part of the camping program, Camp Lions Adventure Wilderness School (CLAWS), an innovative program

for blind or deaf teenagers, is the only one of its kind in the nation and is a winner of the American Camping Association's coveted Eleanor P. Ellis Award.

...A Used Eyeglasses Program that is responsible for collecting more than 250,000 pairs of used eyeglasses annually for redistribution to poverty areas all over the world.

...A Used Hearing Aid Bank to furnish refurbished hearing aids to Illinois citizens who could not otherwise afford them. ...The Lions Low Vision Clinic at the Illinois School for the Visually Impaired, Jacksonville. Through the clinic, ophthalmologists and optometrists work at no charge to the children to turn minimal sight into usable vision with a variety of low vision aids. The Lions also pay for the needed aids for the children who could not otherwise afford them. (The school is a state-run facility; the clinic is Lion-sponsored at no cost to the taxpayer.)

...A Department of Social Services and Referral that offers a variety of aid to the blind and deaf. Among services are information, red tape cutting, provision of equipment such as white canes and Brailles, and assistance to the poor in finding quality health care or eye exams and eyeglasses at minimal cost. (We do not provide direct financial aid.)

Through the Foundation, the Illinois Lions Clubs also award grants to Lion-approved facilities. In the past, grant recipients have included Hadley School for the Blind; Leader Dogs for the Blind; Dialogue With The Blind, a recorded, Brailled, and large print magazines; the Illinois College of Optometry for low vision research and low vision programs; and the Department of Ophthalmology of the Abraham Lincoln School of Medicine, University of Illinois at the Medical Center, for medical eye research. The Lions of Illinois Foundation is a non-profit charitable organization registered with the office of the Illinois Attorney General and qualifies for tax-deductible contributions under Internal Revenue Service guidelines.

When the Morton Grove American Legion Post #134 and its Auxiliary hold their 59th joint installation on Sat., Sept. 12, music will be part of the evening as it usually is. Conn helps plan business conference

Eunice Conn has been named logistics chairperson of the October 25-27 Illinois Conference on Small Business to be held in Springfield.

The Conference, titled "Speak Up Small Business," is designed to examine small business issues on both the state and federal levels and to develop an action plan for implementing conference recommendations.

The Independent Business Association of Illinois (IBAIL), an organization which grew out of the 1980 White House Conference on Small Business, is coordinating the event. An additional 42 associations and chambers of commerce from across the state have joined IBAIL as participating sponsors of the conference, Conn reports.

Conn was a delegate to the White House small business conference and is one of the founding members of IBAIL. She currently holds the office of vice president of administration for the association.

In April, 1981, Conn was a mayor candidate in her hometown of Morton Grove. The recently appointed conference chair is vice president of E.B. Conn Vending, Inc., in Niles.

NIU graduates join Skokie accounting firm

Janet L. Nelson, of Winthrop Harbor, and James B. Tichy, of Roselle, have joined the public accounting firm of Miller, Cooper & Co., Ltd., Skokie, as staff accountants.

Nelson graduated from Northern Illinois University this spring with a Bachelor of Science degree in Accountancy and Finance.

Also a graduate of NIU, Tichy graduated this year with a Bachelor of Science in Accounting.

Miller Cooper, founded in 1920, is among Chicago's forty largest accounting firms.

Skokie Federal's All Savers Program

In the hotly contested race for All Savers accounts, Skokie Federal Savings has taken aim at the small saver by offering a 20% introductory interest rate with a low, \$500 initial deposit.

"Although federal regulations require all institutions to accept a \$500 All Savers minimum deposit, many S&Ls are not extending the high interest rate offer to the smaller saver," said association president John R. O'Connell. "We feel a responsibility of offer the top rates to all savers regardless of their account balance."

Until the October 1 kickoff date, funds earmarked for the new tax free account will be invested in a Cash Builder Repurchase Plan earning 20%. The All Saver certificate will earn 70% of the Treasury Bill yield.

O'Connell noted the association expects to transfer 40% its current \$140 million money market certificates into the tax

free account thus reducing saving costs 2% or so and improving bottom line profits.

The association also announced that existing Skokie Federal repurchase holders would be able to transfer funds into the new All Savers account without a service charge.

O'Connell warned that the one year, tax free account would probably not be attractive to everyone. Only those savers in a 30% or higher tax bracket would benefit from the tax free aspect. Assuming a 30% tax bracket and a rate of 11.75% the certificate would produce an effective yield of 17.28%. At the 50% tax rate it would yield 23%.

The actual All Savers rate, the lifetime \$1,000 interest exemption (\$2,000 per couple) and the deposit amount would also influence the yield on the certificate. O'Connell expects an average account balance of \$11,000.

Gronck joins Century 21 Elm staff

In April, 1981, Conn was a mayor candidate in her hometown of Morton Grove. The recently appointed conference chair is vice president of E.B. Conn Vending, Inc., in Niles.

From 1972 thru 1975, Ron was a "Million Dollar" producer. In addition to his sales achievements, Ron attended many real estate classes to broaden his skills and knowledge, in order to serve the public better. He also took time out of his very busy schedule to secure the real estate Broker's License.

The years 1976 and 1977 were especially rewarding to Ron. He sold "Two Million Dollars" worth of real estate in each of these years. In 1978 he sold in excess of "Three Million Dollars" worth of property and was nominated as "Salesman of the Year" by the Northern Illinois Region of Century 21.

In 1979, Ron Gronck decided to share his knowledge and experience by joining management as a Branch Office Manager. He concurrently was elected to the

Board of Directors of the Northwest Real Estate Board. He served two years as a Director of the Board and as Chairman of the Salesman's Council.

Ron and his family presently live on the very out-skirts of Chicago's Northwest Side. He is most anxious at this time to meet the challenges ahead in his new Real Estate endeavors with Century 21 Elm, Realtors.

Leaning Tower "Y" special opportunity

Leaning Tower YMCA is offering discounts on new memberships—\$23.50 off the price of a new family membership and \$11.50 off the price of a new adult membership. The discounts will be in effect during Leaning Tower YMCA's Fall Membership drive from now through Sept. 12. For details, call Leaning Tower YMCA at 647-8222. Interested persons are advised to call early before popular Fall Classes are filled.

"We think YMCA membership is such a good idea that we want more people to benefit from it," said Jim Kohler, Program Executive.

Despite its name, the YMCA doesn't limit itself to serving young men. Activities range from learn-to-swim classes for tiny tots to social and recreational programs for senior citizens. Last year, 46 percent of the persons served and 46 percent of the members of the YMCA of Metro-

politan Chicago were women and girls. Locally, Leaning Tower "Y" served 9,200 women and girls and 11,900 men boys.

"The changes in Leaning Tower YMCA reflect a number of changes that have occurred in YMCA's across the country, both in programs and in participants", Kohler explained. He pointed to the rapid growth of family memberships as one example.

"The number of family memberships in the United States has risen by nearly 10% in the last five years, increasing from just over one million to more than one and a half million memberships. "In the last few years, participation by women and girls has been the most rapidly growing area of participation nationwide," he said. "If recent trends continue, they should make up at least half of Y participants by the end of the '80s."

Kustra appointed to School Problems Commission

State Representative Bob Kustra (R-4th) has been appointed to the School Problems Commission by Illinois House Speaker George Ryan. Kustra, who serves on the Education Committee in the Illinois House, also sits on the Education Subcommittee of

the Appropriations Committee. In response to his appointment Kustra announced his intention to hold a series of meetings with school district staff, board members and parents. "I will be contacting local school districts to schedule meetings in the fall."

Jaffe blasts RTA shortchange of NORTRAN funding

State Rep. Aaron Jaffe (D-Skokie) charged that the Regional Transportation Authority Board has not given the suburban communities served by Nortran a fair shake in the distribution of funds. In the wake of proposed RTA plans to impose drastic cuts in Nortran service,

Jaffe recommended that the 23 suburban municipalities be permitted to cease paying the 1¢ RTA sales tax and replace it with their own ¼¢ sales tax for suburban public transportation

needs. Jaffe claims revenue generated from this greatly reduced tax will be more than sufficient to support full, and probably better, Nortran service for the suburbs, and he is willing to sponsor legislation in the General Assembly to permit the taxing change.

Jaffe explained, "The 23 suburban towns that comprise the Nortran district are now contributing \$33 million annually to the RTA. This is proportionately far more than the amount of

revenue given by any other transportation district in the RTA. "Up until now, Nortran has been getting back only \$6 million a year. The commuter trains used by many suburban taxpayers get almost nothing from RTA."

Jaffe continued, "If the present taxing policy continues and further RTA-planned cuts in Nortran service go into effect, the suburbs will be left with a continuing bill for \$33 million or more and will receive back for it

a decomposing, ineffective transportation system.

"Although we realize that the rest of the RTA system needs support, even the most impartial observer would have to conclude that the suburban communities are not getting fair treatment from the RTA."

"It would appear," Jaffe commented, "that the kind of ride the RTA has planned for the suburbs has nothing to do with that on public transportation."

Jaffe further explained, "In order to assure that the Nortran

communities receive the public transportation service our suburban taxpayers pay for and deserve, I suggest we totally eliminate imposition of the current RTA 1¢ sales tax in the 23 Nortran taxing bodies. We would then impose only a ¼¢ sales tax in these communities—a tax that would more than support a full-service transportation system. Our beleaguered suburban taxpayers would get a tax break and some good, dependable transportation as well—and its about time," Jaffe concluded.

District 207 . . . Continued from Pg. 1

ministrative organization, budget, formulation of policy and development of the machinery for the introduction of curriculum and management reform.

Additionally, Murphy had to oversee the development of a 1977 desegregation plan for the North Carolina district.

The Wake County School System employs 3,000 teachers and 3,000 non-professional personnel and has an operating budget of \$100 million annually.

In announcing Murphy's selection District 207 Board President, Charlotte Storer, said, "The most important thing a school board ever does is hire a new superintendent for a district."

Storer said District 207 had received over 100 applicants from around the country for the prestigious District 207 superintendent's job. Storer said a committee which included two university professors screened all applications "to search out quality candidates" and submitted to the District 207 Board a list of over twenty recommendations.

The District 207 Board narrowed that number to seven applicants and, after interviewing the finalists, chose Murphy.

Murphy, who will take over the District 207 job on September 15, will receive an annual salary of \$55,000 as well as a two year contract.

Outgoing Superintendent Richard Short announced his decision to resign last April.

While acknowledging there were qualified candidates for the superintendent's position within the district, Short urged the board to look nationwide for his successor because of the high school district's excellent reputation.

Among his accomplishments Short is credited with restructuring the administrations of Maine East and West high schools in the late 1960's and early 1970's "so we could be more open," recalled Short in April. Short said he had derived great satisfaction during his 16 years in District 207 as he supervised "the creation in the Maine schools of

the finest educational environment for youngsters to live in and learn in." During Short's 16 years in District 207 there had been \$25 million in new facilities created throughout the district.

After leaving District 207 on October 1 Short will become the Vice President of Education and Research at Lutheran General Hospital in Park Ridge. Short will be responsible for up to 30 education and research programs involving more than 100 resident doctors and several hundred nursing students.

Short will also run educational programs for the general public at Lutheran General Hospital.

ny's great defensive play around 3rd base and Tony Baran's play in left field which included throwing out 2 runners at 3rd base and homeplate.

Gary Amato was cited for pitching an outstanding 8 hit game. The Niles offense was awesome. Home runs came from the bats of Amato, Tony Fidanza, Eddie Bacher, Jr. and Ron Strelecki, the latter two with 2 men on base.

Terpinas said the Niles Police team would enter the Niles Park District's 16 inch Softball League next year.

Increased 1981 enrollment at Oakton

Enrollment in college credit courses for fall 1981 at Oakton Community College has increased more than 20 percent over 1980, according to college officials.

Enrollment of full-time students is up 16 percent. More than 5,000 students attend classes at Oakton's Des Plaines campus while more than 3,000 have classes at OCC/Skokie.

John P. Donohue, vice president for student development, pointed out that the jump in enrollment at Oakton was spurred by several factors.

"It is not only the economy and restricted financial aid," he said. "With the operation of new facilities in Des Plaines and Skokie, Oakton is more established in the community and is able to meet the needs of more students."

About 10 percent of the students enrolling at Oakton this fall requested some kind of financial aid. Sharon Nordloff, manager of financial aid at Oakton, said that students needed financial assistance for tuition, books, and commuting costs. She pointed out that many students at Oakton are self-supporting and need money to supplement reduced wages or loss of income from unemployment. They have returned to school to upgrade skills to qualify for openings in the job market.
