Renovation of local parks continues

Park adds equipment at Chesterfield

by Nancy Keraminas

In a split vote, members of the Niles Park District Board of Commissioners met in regular session Oct. 17 and agreed to additional equipment for renovated Chesterfield Park, the first of the Niles parks to be overhauled.

While the extras totalled only \$65, members of the board noted the entire renovation went more than \$2,000 over budget. Commissioner Jim Pierski, felt the rest of the village's parks should be improved before revising an already completed project.

Board President Elaine Heinen read two letters from dissatisfied Chesterfield residents. Homeowner Association President Barb Lieber complained on behalf of the owners that there were not enough swings included. She also cited several areas thought to be hazardous.

A second resident complained in her letter there wasn't enough equipment. Heinen said Chesterfield owners supplied the plans with a user profile for the

From the Left Hand

by Bud Besser

Last Wednesday morning we were in the international terminal at O'Hare Airport when we bumped into Nilesite Ann Gagne. She became the messenger with the sad news Ang Marcheschi had passed away while we were out of the country.

There's little more we can add to the many articles and eulogies we read in the newspapers. What we found interesting was how many people wanted to express themselves publicly. When The Bugle telephoned Niles village president Nick Blase, he said he would like to send along an expression for "a special friend". It was very touching. And our own Diane Miller wrote a brief essay. She was out of town the week we had several articles about Ang. But the following week when she returned, she felt she had to write a short message about the warm, affectionate gentleman she knew. This rushing into print with your feelings hanging out indicates how intensely people liked Angie.

When we first began publishing in 1937, a butcher named Joe Conti brought us to a Lions Club meeting where we first met many of the business people in Niles. In those days most of the fellows were in their early thirties, already climbing the financial ladder. When I was introduced to the Lions, someone threw a fire cracker onto center stage

Harlem Ave. repairs to begin in 1990

by Nancy Keraminas

The Illinois Department of Transportation has notified the Village of Niles that Harlem Avenue repairs have been stepped up one year, approving a summer, 1990 construction start for the state route.

According to IDOT's Les Swieca, a state maintenance engineer inspected the road following a Sept. 25 residents meeting, where citizens complained of

noise and damage resulting from the bumpy stretch of road between Dempster Street and Oakton Avenue. At that meeting, residents were told the state did not have either the manpower or the funding for the repairs until the summer of 1991.

Swieca, in an Oct. 16 interview, confirmed the notification letter would be sent to village

Mourners pay tribute to police officer

by Sheilya Hackett

Clear, windy weather surrounded a stream of mourners who joined the funeral entourage of fatally injured Morton Grove Police officer David Shalin Oct. 11. As the procession left the Piser-Weinstein menorah chapel, 9200 Skokie Blvd., Skokie, mars lights flashed over squad cars representing more than 55 munic-

ipalities who sent representatives in respect to the fallen officer. Police came from as far away as Geneva, Darien and Lake Bluff.

Fire engine ladders arched over the funeral route and firefighters stood at attention as the procession slowly passed Skokie fire station #18, 9024 Gross Point

Local preserve protects historic prairie

by Sheilya Hackett

In early autumn the prairie is drowsy with cricket song and locust rasping. Grasshoppers spring across the path and land, swaying, on tall spears of grass. In a small land triangle just across Niles' northern boundary lies the Peacock Prairie or James Woodworth Preserve, a natural oasis edged by Golf Mill area commerce, Milwaukee and Greenwood Avenue traffic and a few quiet homes.

The fenced preserve is one of the last stands of original tall grass prairie east of the Mississippi and in fall it's a wild confusion of blowing grasses, flowers and butterflies. Several local nature lovers assist Director Al Rouffa, professor emeritus, University of Illinois, in introducing visitors to its fascination.

Originally part of the Peacock family farm, the prairie shifted ownership several times until, at the urging of conservationists, it was purchased by the University of Illinois in 1968. The family of John Leslie, former president of Signode Corporation, Glenview, and grandson of the tenth mayor of Chicago, James H. Woodworth, donated funds to build the temple-like Interpretation Cen-

ter. Visitors to the center see prairie artifacts and view slides on prairie ecology. The center's site is about the only scarred land in the preserve; in the '60s, it was a miniature golf course and go-cart track.

The Preserve was always a protected land. Even when it was part of the Peacock farm, the gently rolling field was left untilled and generally ungrazed. Before settlers came, spring lightning storms sparked the annual prairie burn-offs which aid the vigorous growth of the more than 200 species of plants found there. Indians passed through on horse hunts and the tall grasses for which the prairie is noted led early settlers to attach bells to their children so they could be found.

Today prairie directors continue the prairie burning in alternate years to clean off accumulated dead organic matter and help the soil warm up.

One prairie guide, Dr. Tom Conway, history professor at Oakton Community College, said in this vicinity, any vacant lot is called a prairie, but the word prairie is actually French for "meadow." He often gives a touring student a penny and lets him shine it

with a bunch of Horse Tail grass, an abrasive plant pioneer women used as a chore cloth.

A trail that winds through the plot passes plants with names such as Blazing Star, Knotweed, Big Blue Stem, Turkey's Claw, Rattlesnake Master, Brown-eyed Susan and Broom. Indians and pioneers made use of prairie plants, putting the orange-red hips from the Meadow Rose into tea and using resin from the Compass Plant as gum.

In the Interpretation Center visitors learn the Bone Set plant was called the aspirin of the pioneers and was used to reduce fever, stomach and body pain. The bright Golden Rod blossom was chewed and slowly swallowed by Indians to cure sore throats. Parts of the plant were ground to ease bee stings and small pieces of the root were placed in tooth cavities. Pioneers used the plant for tea and a dye.

The flowered Fleabane plant

was thrown into campfires to ward off bugs. Cattail down was used in bedding and for diapers, before the introduction of cotton fabrics. Blackfoot Indians used the down as a dressing for burns.

As Rouffa leads a visitor through the preserve, he ducks under 10 foot stalks of Prairie Dock arching over the path. He points to a small mound of dried mud that covers the underground home of the chimney crayfish, a crustacean that burrows down to the water level, explaining that settlers in need of a drink used a grass stem as a straw and drank water from the crayfish house. The most common animal at the preserve is the vole, a short-tailed meadow mouse.

The tall, white-haired Rouffa is comfortable amongst the plant profusion, and he's collected a number of enthusiasts who serve as tour guides. Some of them, besides Conway, are Karen Ramirez, a former Oakton College instructor, Jeffrey Wade of Columbia College, Chicago and Morton Grove residents Emilie

Verdin, an artist, and Opal Schrader, a gardener who just likes flowers. Verdin and Schrader came with their garden club 14 years ago and stayed to help out.

The fame of the small spot has spread. Though visitors are chiefly local students and touring clubs, last year a group of Russian botanists stopped to view the Preserve as one of the last remnants of a prairie that used to stretch across much of the Midwest. Photographer Jim Brandenburg, in the January, 1980 National Geographic, captures the color of Woodworth in an aerial view.

On a sunny day orange and black Monarch butterflies skitter across the field and yellow Alfalfa butterflies dance duets over bright flowers. Guide Verdin muses over the blowing prairie plants: "Like a classroom full of children, you get to know all the faces, who's there, who's rambunctious, who's quiet...when you find something nice, you want to share it."

Maine Township officials attend D.C. conference

Maine Township Supervisor Joan B. Hall and Trustees Bonnie B. Lindquist and Carol A. Teschky were among nearly 1,000 grassroots government officials who participated in a recent Capitol Hill Conference to discuss problems facing towns, townships and small cities.

While in Washington for the National Association of Towns and Townships (NATAT) Annual Conference, the three Maine Township board members met with Illinois congressional representatives to express their concerns on local issues and lobby for passage of a stronger Regulatory Flexibility Act requiring federal agencies to analyze the effect of new regulations on small governments.

Hall and Teschky met with U.S. Rep. John Porter, and aides to U.S. Reps. Henry Hyde and Philip Crane. Lindquist met with U.S. Sen. Paul Simon.

Also during the NATAT conference, Maine Township delegates attended workshops focusing on trash recycling, solid waste management, the impact of Supreme Court decisions on local governments, the effect on taxes and the budget on grassroots government,

MG Parks study Borg School purchase

After being presented with 2,991 signatures of residents concerned about losing the recently sold Borg School and the property around it, the Morton Grove Park District board agreed Tuesday to form a committee to study the feasibility of the park district purchasing the school.

Members of the park board stated earlier they would consider doing a study to determine the future options for the purchase of the school if there was enough proof residents were concerned about the issue.

Judge Marcia Orr of the first circuit court of Cook County set Nov. 17 for a discovery hearing in the case of a District 207 science teacher accused of sexually assaulting a 14 year old girl two and a half years ago in the forest preserve near Dee Road and Devon Avenue, Park Ridge. The girl, now 16, told Park Ridge Police she recognized her alleged attacker when she entered her first science class in August.

The tall, bearded teacher, Scott Ray Welty, 39, of Chicago, stood beside his lawyer, Raymond Garza, at a preliminary hearing Oct. 13. Judge Orr warned him failure to appear at court hearings would

forfeit his rights of due process and he could be tried in absentia. The discovery hearing in November requires both defending and prosecuting attorneys to present evidence and witnesses that will be used in the forthcoming trial. Assistant States Attorney Kathleen Crowley will be prosecuting attorney.

Welty has no known criminal record. He has taught in District 207 since 1985, instructing classes at both Maine East and Maine South high schools in Park Ridge. When charged with criminal sexual assault by Park Ridge Police in mid-September, Welty was

Melas urges support for flood control bill

Nicholas J. Melas, president, board of commissioners of the Metropolitan Water Reclamation District of Greater Chicago, today called for state legislators to override Governor Thompson's veto of Senate Bill 248. Melas said, "S.B. 248 is an important bill that will protect suburban residents, especially those along the Des Plaines River and Salt Creek, from flooding. This bill establishes flow limits for area waterways. This legislation will require that

other counties control floodwaters being discharged into Cook County."

President Melas said, "This is a good neighbor policy, pure and simple. The bill would restrict the unbridled discharges from one county to another."

He added, "We in the Metropolitan Water Reclamation District have planned regional flood control. We have constructed flood control reservoirs and spent

Seniors encouraged to adopt pets

Chicago area senior citizen pet adopters are healthier, happier and more social, according to a national survey of more than 900 seniors participating in the Purina Pets for People Program. Pets for People is a national campaign to match area senior citizens with homeless shelter pets.

Beginning its third year, the program has helped bring more than 23,000 senior citizens and pets together.

The Pets for People Program, co-sponsored by the Ralston Purina Co., enables qualifying seniors to adopt a dog or cat from their local shelter free of charge. The program covers adoption fees, initial veterinary care, including inoculations and spaying or neutering. It also provides the senior with a pet starter kit that includes a leash, collar, food and water bowls and a beginning supply of Purina Dog Chow or Cat

Chow brand food. The Dr. Scholl Foundation provides on-going veterinary care free of charge to the seniors at the Society's Clinic.

The Anti-Cruelty Society provides these services to qualifying senior citizens in the Chicago area. More than 150 shelters or humane societies in 90 cities nationwide participate in the program.

Studies show that pets can provide health benefits to senior citizens. Along with companionship, a dog or cat provides a sense of security and protection as well as a source of entertainment and unqualified affection.

Chicago area residents can help their senior citizens and shelter animals benefit from the program through grocery store purchases. Every purchase of Purina pet food during the week of Oct. 15 represents a \$1 donation to the Pets for People Program.

For more information, contact The Anti-Cruelty Society, 510 N. LaSalle, Chicago, IL 60610, phone 644-8338.

Center of Concern lists available programs

Every morning at 9 a.m. the phones at The Center of Concern start ringing with requests for help from Eva or one of the other five staff members.

Eva's expertise is concentrated on finding people to offer to share their home with someone seeking to house-share. As The Center's "matchmaker," she also receives calls from employers who have jobs available. She tries to match job offers with those looking for work.

Another service offered by the Center of Concern is the telephone reassurance program.

The caller must speak with someone in the office everyday. If no call has come in by two o'clock in the afternoon, the staff is alerted and one of them follows up by calling either the client or, if there is no answer, one of the emergency numbers on file. This telephone reassurance is especially important to those who live alone.

To take advantage of the services The Center offers, call 823-0453 or stop in at Suite 125 of the 1580 N. Northwest Hwy Building, Park Ridge.

Check earnings now, prevent Social Security overpayment

Now is a good time for people who work while receiving Social Security benefits to take a look at their earnings so far this year and review the accuracy of their earnings estimates, Thomas A. Curin, Social Security manager in Des Plaines, said today.

If people find that their actual earnings for this year will be higher or lower than their estimated earnings, it would be a good idea to let the Social Security Administration know of the

change now rather than wait until the end of the year.

An overpayment may be avoided if the revised earnings information is provided to the agency early, Curin said.

This year's earnings limit figures are \$6,480 for people under 65 and \$8,880 for people 65 to 70. Revised earnings estimates can be made by calling 1-800-234-5555. Callers should have their Social Security claim number ready.

Holiday services for Shemini Atzeres will be held at 9401 Margail, beginning Friday, Oct. 20 at 5:45 p.m. with Hakafo services. Morning services, Saturday, Oct. 21, start at 10 a.m. and include the Yizkor (memorial) prayers. Afternoon services start at 5:45 p.m.

Morning services, Sunday, Oct. 22, begin at 10 a.m., afternoon services at 5:45 p.m. Candle lighting times are 5:41 p.m. Friday, Oct. 20 and 6:43 p.m. Saturday, Oct. 21.

Shemini Atzeres and Simchas Torah culminate a month filled with uplifting experiences, spiritually, emotionally and intellectually enriching every aspect of one's life. When dancing with the Torah, the holy scroll remains in its cover since these holidays are

not devoted to study.

The joy of Shemini Atzeres and Simchas Torah supercedes any pleasure derived from intellectual study. The Sages write that the Torah itself rejoices when held by both scholar and novice, emphasizing the unity of the Jewish people.

KC fundraiser benefits retarded

Knights of Columbus in Illinois have set \$1.6 million as their goal during their 20th annual fundraising drive to help the mentally retarded slated for Oct. 27 and 28.

Since the Knights began the program in 1970 they have collected in excess of \$16.5 million. Kenneth J. Lee of Niles and Bruce Agne are co-chairing this year's fund-raising effort.

The bulk of the money collected remains within the community where it was raised. Close to 400 sheltered workshops, schools for the mentally handicapped and organizations in Illinois working with the "special children" receive financial assistance from the annual drive.

Ten percent of the gross re-

ceipts is set aside in a special fund to underwrite or help underwrite the costs of major programs for the mentally retarded.

From the special fund, more than \$140,000 has been contributed to Illinois Special Olympics, Inc. and a number of interest-free loans for operators of residential homes for the mentally handicapped have been made. To date, 10 residential homes have been instituted throughout the state, thanks to the K of C loans to the operators.

Less than 15 percent is taken from the gross receipts to purchase candy given away with each donation and insurance coverage for the thousands of volunteer collectors on street corners, highways and shopping centers.

Foundation presents documentary film

The Holocaust Memorial Foundation of Illinois, in conjunction with Loyola University, will present the documentary "The Double Crossing: The Voyage of The S.S. St. Louis" Wednesday, Nov. 8, at 8 p.m. at The Crown Center Auditorium of Loyola University, 6525 N. Sheridan Rd., Chicago.

The film depicts the ill-fated voyage of "S.S. St. Louis". The ship sailed from Hamburg, Germany, May 13, 1939, with 930 Jewish refugees bound for Havana, Cuba. They were, however, barred from entry by Cuba, the United States and other Western Nations. The refugees were finally forced to sail back across the Atlantic Ocean to Europe. Many eventually perished as a result of the Nazi genocide.

The community is invited. For more information, contact the foundation at 677-4640.

Before you have your varicose veins treated, know these important facts.

- 1. Potential dangers**
Varicose veins are not just unsightly, they're unhealthy. Without treatment they will continue to grow, causing aches, pains, cramping and reduced circulation... and can even develop into leg ulcers.
- 2. Surgery obsolete**
With surgery, damaged veins are pulled out of the leg altogether. This is a painful, rather mutilating procedure always leaving scars. It's also very costly, involving hospitalization and time off from work. And the recurrence rate is about 85% in five years. Quite unsatisfactory.
- 3. Non-surgical methods differ**
There are other options besides surgery. These include electrocautery, laser and various saline based injections. Problem is, these methods can burn the skin and leave marks. There is a better way.
- 4. MicroCure is the most effective treatment**
The Vein Clinics of America uses an exclusive injection treatment called MicroCure. It won't scar your legs. And it's administered only by licensed M.D.'s who specialize in vein disease. Our treatment works in great detail, safely eliminating vein disorders of all sizes. It's also covered by most insurance plans. Find out more.

NILES POLICE REPORT

Column

by Lt. Jerry Sheehan
Niles Police Department

Let's Keep The Burglars Out

In 1988 the FBI reported in their Uniform Crime Reports that 3,218, 077 burglaries were committed in the United States! In Illinois there were approximately 130,292 burglaries committed and in Niles we recorded 123 burglaries for 1988. We have police officers on the street 24 hours a day but it takes everyone's help to prevent and apprehend burglars. Throughout past years we have been fortunate to have received help from citizens such as Michael Kaminski, Karen Farber, Marsha Warnick, Brett Feiler, Joe Briski Sr., Anthony Leva, Ken Ranieri, and many others who have assisted the Niles Police Department in the successful apprehension and prosecution of offenders committing burglaries in our neighborhoods. The Village of Niles and the Niles Police Department take satisfaction in recognizing the contributions of these citizens and it is our hope that we receive the same mutually beneficial cooperation in the future since some of our most successful cases and arrests are made through the assistance of neighborhood people. Keeping our neighborhoods safe and desirable places to reside is everyone's responsibility.

Besides being watchful of suspicious persons there are other precautions that we can take to make our residences a less desirable target for a potential burglar. Burglars are opportunists who want to get in and out as quickly and as quietly as possible without being detected and they are going to hit the easiest mark they can. Some detectors that you might think about are sturdy bolt locks on your front and rear doors, and if you have a knob on the inside of the bolt lock keep it out of reach if a window on the door should be broken. Windows should be locked when you're out and keep landscaping from concealing windows and doors. When you are out at night keep your interior and exterior lights on and most importantly if you see someone who seems to have no purpose roaming the neighborhood call the police. We will send a squad out to investigate and if the person has a legitimate reason to be there, no harm done, if not, you might have just thwarted a burglary or theft, and this is the result we are all seeking.

Now that the days are getting shorter and it is getting darker earlier we all have to be careful when driving of kids on the street, and especially so on Halloween when the kids will be out tricks or treating, so please drive with care.

Theft

A Glenview resident was waiting in the checkout line in a retail store in the 6800 block of Dempster Street, Morton Grove, the night of Oct. 11 when a man brushed past her to exit the store. The woman discovered her wallet missing from her open purse and estimated her loss at \$250 in lost cash and \$53 for the wallet, credit card and identification.

An unknown offender used a jimmy-type tool to open the top of an '87 Nissan truck parked in the 6300 block of Lincoln Avenue, Morton Grove, the morning of Oct. 6. The truck owner, a Skokie resident and architect, told police he lost a \$400 pair of opera glasses. He estimated the truck damage at \$35.

Possession of Cannabis

The car occupants, two males, 20, from Westchester, were arrested. The passenger admitted possession of the packet and was charged with possession of under 2.5 grams of cannabis and given a court date of Nov. 22. His bond was set at \$500. The car driver was charged with speeding; his court date is Nov. 27.

Intoxicated stunt

Police and paramedics were called to 7200 N. Caldwell Ave. Oct. 10 after a 76 year old Des Plaines man tried to demonstrate a college antic where he broke beer bottles on his forehead for amusement. He asked his 26 year old Chicago buddy to help him by hitting him with the bottle. According to police reports, the friend accidentally hurt him "because of his intoxicated state."

Police News

Retail theft

A day laborer hired as a painter at Sears Golf Mill was caught stealing \$303.51 in miscellaneous Sears merchandise Oct. 9. Lavalle Mays, 23, of 6814 S. Norman, Chicago, faces felony theft charges Nov. 1. Mays was carrying a plastic bag containing VHS tapes, a 35 mm camera, an rug and a remote control unit from a VCR. He reportedly tried to conceal the merchandise under his jacket as he left the store.

Restaurant burglar

Management at Arby's, 7001 W. Dempster St., reported an early morning Oct. 14 burglary, where \$675 was taken from the restaurant safe, which had been pried open. The unknown burglar(s) popped the locks on the driveway window on the east side of the building to enter. They used a pry-type tool to peel the safe in an office near the kitchen and probably exited from a door, which was discovered with its interior lock unscrewed. Investigators found a vise-grip pliers on the scene, which was inventoried. A possible suspect is a terminated employee who was discharged after reportedly tampering with the safe and driveway window.

School, employees' property vandalized

Five employees of Mark Twain Elementary School at 9401 N. Hamlin Ave., experienced auto damage between Oct. 2 and Oct. 9 when their cars and the school building were found to have eggs and graffiti on them. At least \$500 damage resulted.

Traffic dispute

Two baseball bats were confiscated by Niles police after arresting three people who threatened a motorist during a traffic dispute Oct. 9. A 17 year old Morton Grove man was charged with aggravated assault and criminal damage to an auto. Two associates were also arrested, the dispute was at Milwaukee and Harlem Avenues and the offenders struck the door of the motorist's car with a bat. They allegedly threatened her and a passenger with words and gestures. A 19 year old Des Plaines woman was charged with assault and a 19 year old Niles man will face aggravated assault charges on Nov. 3.

Felony retail theft

A Chicago man will be in court Nov. 1 on felony theft charges. Marcus G. Moore of 4414 S. Parnell was apprehended in the Golf Mill Mall after a foot chase by security agents. Moore reportedly stole \$399.96 in women's coats from Sears Oct. 9.

Stolen auto

A 1980 Cadillac Eldorado was reported stolen Oct. 12 from Golf Mill parking lot. The owner reported \$525 worth of miscellaneous items were in the trunk of the car.

Women argue over boyfriend

Charges of resisting arrest were added to battery, after a 24 year old Chicago woman, who pulled out a clump of hair and bit the left arm of a 25 year old Chicago woman Oct. 14, had to be forcibly handcuffed by Niles police. The two women argued at the victim's place of employment at 5637 W. Touhy Ave., where the arrested woman's live-in boyfriend also works. Reportedly, the boyfriend was accused of cheating on his girlfriend with the victim. The offender was given a \$5,000 bond, pending a Nov. 3 court appearance.

DUI arrests

Several motorists were arrested in Niles after officers administered field sobriety tests to determine they were driving under the influence of alcohol. In addition, three of those arrested face additional charges because their blood alcohol concentrations tested above the .10 BAC concentration presumed sufficient to be drunk. On Oct. 13, a 32 year old Streamwood man involved in a traffic accident at Milwaukee Avenue and Main Street was found to have a .19 BAC as well as a suspended license. On Oct. 14, a 33 year old Chicago man with a .20 BAC was also charged with DUI and improper lane usage and will have an Oct. 31 court date. A 22 year old Chicago man whose BAC was over .10 was cited for driving 56 mph in a 35 mph zone on Milwaukee Avenue and Inlay Street Oct. 15. The driver registered a .28 BAC. At his Nov. 3 court date, he will also face charges of improper lane usage and driving with a suspended license.

Damage to autos

\$500 damage was alleged to have been caused to the hood of a 1989 Dodge Daytona, which was reported scratched between Oct. 12 and 13 while parked in the 9100 block of Golf Road. Someone used a hard object to reportedly smash the rear window of a 1977 Impala parked in a Niles gas station on Oct. 11. \$200 damage was caused.

Association donates to policeman's memory

The Condominium Council of Morton Grove voted unanimously to make a contribution in memory of Barry Shalin, a Morton Grove police officer killed recently in the line of duty. In so doing, the council expressed its gratitude to all Morton Grove police officers for their services to the community.

Personal injuries

The morning of Oct. 12, a 52 year old resident of the 7600 block of Church St., Morton Grove, fell 20 feet from a tree he was trimming, injuring his back and experiencing numbness in his lower body.

Friday, Oct. 13, a 23 year old worker for a landscaping crew was pruning a tree with a chain saw. He injured his left thigh with the saw and was lowered from his position 30 feet up in the tree. Morton Grove Paramedics transported him to Lutheran General Hospital, Park Ridge. The incident occurred in the 9200 block of Marion Street.

Battery

A 39 year old Forest Park man was arrested for battery last week in Niles. He was taken into custody Oct. 9 after an argument with a fellow Coca Cola employee at work at 7300 Oak Park Ave. The two men reportedly argued about the Chicago Cubs when the Forest Park man grabbed the second, a 39 year old Chicagoan, by the neck and punched him in the stomach. There will be a Nov. 3 court date.

Cash theft

Venture officials filed an Oct. 9 report asking Niles police to investigate the theft over time of \$1,040 in receipts. An employee of the 8500 W. Golf Rd. store is suspected of stealing the money between Sept. 25 and Sept. 30. Venture security agents reportedly put an extra \$20 in the register on one occasion which also was not reported.

Opal

"Precious stone" is the meaning of the Latin word opal. While every gemstone is precious, the beauty of the opal makes it clear why the Romans pointed to the opal as the epitome of a precious stone. The exciting colors which play across the opal are caused by light being refracted by transparent silica spheres. The size of the spheres determines the overall color of the stone. Opals are valued based on their display of color and light refraction.

Velvet black opals which display red are considered the most valuable. Any dark background color causes the opal to be called a black opal, though in certain countries the term black is reserved for the opal which has a black background color. Fine black opal can be prized as highly as diamond, ruby, or emerald.

White opals have a lighter background and also show play of color. The most valuable display color is red, though green and other colors are also prized. Fire opal has a reddish, fire-like body color but does not show play of color. Opal in matrix, or the host material, is also sometimes used in fine jewelry.

Best displayed in the round dome-like shape called cabochon, the opal is well suited to clothing of almost any color. Both women and men will find opal in fashions suited to their needs at our store.

Oakton competes in volleyball tourney

The Oakton Community College volleyball hopes to pull a few surprises Saturday, Oct. 21, when it competes in the Skyway Conference tournament at McHenry College.

The Raiders completed regular-season conference action with an 0-5 record after an 8-15, 6-15, 4-15 loss to Wright College. However, Oakton coach Adrienne Bairstow is confident that her team can make an improved showing.

"We started the season with some people who had never played volleyball before," she said. "Half our team didn't have any experience, and it took some time to blend in the new people with those who played in high school, but we've made quite a bit of improvement. If we continue the improvement, I expect that we'll play better in the conference tournament."

Oakton recently hosted two non-conference neighborhood rivals, losing to Harper College, 6-15, 12-15, 7-15, and to Triton College, 10-15, 2-15.

Niles North plans Homecoming

"Sack the Scouts" is the theme of Homecoming at Niles North High School. The varsity football game will pit the Niles North Vikings against the Lake Forest Scouts at 2 p.m. Saturday, Oct. 21.

Homecoming '89 will begin with Spirit Week from Oct. 16 to 20 during which everyone will participate in various activities, according to Homecoming Director Melanie Klinghoffer. "There will be a pajama day, a college day, a toga day, and a purple-and-white day for the school's colors,

along with a role-reversal day," she said. A highlight of the Spirit Week will be an indoor pep assembly featuring the Jessie White Tumblers at 8 a.m. Friday, Oct. 20.

A Homecoming king and queen will be chosen from the following students who have been elected to the Senior Court: Rachel Leon, Anita Madassery, Amy Martinez, Melissa Sargis, Julie Schwartz, Stacey Skolnik, Sandy Diamond, Jeff Gonzales, Jared Kirchner, John Ko, Marc Pechter and Jason Saltzman.

For the first time, junior students will be able to participate in Homecoming Court activities. A boy and girl will be chosen as "attendants" to promote spirit in the junior class.

Highlighting the activities on Saturday, Oct. 21, will be the Homecoming Parade beginning at 10 a.m. from the Devonshire Center in Skokie. An alumni brunch will follow at noon in the school's west cafeteria.

Homecoming '89 will end with the traditional Homecoming Dance in the main gym, with the

theme of "City Night Life" to spotlight the romantic side of city night life.

Other Homecoming directors include co-treasurers Oksana Perchenko and Joyce Pollack, secretary Amy Martinez and spirit leader Wendy Allen. Faculty sponsors are Peggy Paulsen and Marian Behr.

IT'S SOLID AND LIQUID AT THE SAME TIME.

Most things are pretty much black and white. Oil and water don't mix. East is East. West is West. Something can't be solid and liquid at the same time. Well, not so with The FirstRate Fund. Because it earns you a great rate, without tying up your principal.

Earn 9 Percent For Up To 60 Days.

From October 2 until November 30, The FirstRate Fund earns interest at an annual rate of 9 percent.

After that, it's tied to the 91-day Treasury Bill, guaranteeing a highly competitive rate. All it takes is a \$10,000 deposit to start. And you can add to it, whenever you like.

Make a withdrawal and you won't have to pay a penalty.

So, by all means, open your FirstRate Fund now, and earn an annual rate of 9 percent for as long as possible.

Solid. And Liquid, Too.

Unlike some other investments with a high return like the FirstRate Fund, you can get to your money, whenever you need to.

All you have to do is drop us a line. Seven days later, you'll have your money. We'll even call to tell you when you can pick up your check.

Insurance For Your Money.

Most investments like this require some risk taking. Not so with The FirstRate Fund. Your bank deposits are FDIC insured for up to \$100,000. Meaning your principal's safe to the maximum amount allowed by law.

In short, you have nothing to lose. But an awful lot to gain.

Where's The Fine Print? You Just Read It.

If you're going to name something FirstRate, it ought to be just that.

So there are no funny restrictions or conditions. Just a straightforward investment that, unlike a lot of competitive investments, is unquestionably attractive. Which leaves us with one last question. What are you waiting for? The FirstRate Fund. Only from First of America.

Stop by any one of our First of America offices to invest in one, or call 1-800-544-6155.

Remember, this offer may not last forever, is available to individuals only, and may change without notice.

Loyola celebrates homecoming

Homecoming Week, Oct. 10 to 14 antics and activities sponsored by Loyola Student Council provided the traditional "school spirit" build-up before Saturday's Loyola-Gordon Tech clash on the football field and the Homecoming bash later that night in the gym.

Niles West sets homecoming activities

"Let's Go to the Circus" is the theme of Niles West High School's Homecoming Festivities, which will take place during the week of Oct. 23 through 28.

Spirit Week will open Monday, Oct. 23 with a pep assembly to announce the candidates for the Homecoming Court. After voting during the week, the king and queen will be crowned at an assembly Thursday, Oct. 26.

A parade starting at Niles West, Oakton Street at the Edens Expressway, and winding through Skokie, will begin at 1:15 p.m. Friday, Oct. 27. The parade will be followed by the football games against the Maine West Warriors, with the varsity teams kicking off at 7:30 p.m. The Junior Cabinet will sponsor a dance, with a theme of "Clowning Around," after the game.

The Homecoming dance, "Under the Big Top," will be held at 8 p.m. Saturday, Oct. 28.

Homecoming festivities are being planned by the Student Union, under the direction of teacher David Brandes. Officers include president Yvonne Barazi, vice president Karin Much, secretary Karen Noesen, treasurer Abbie Greene, spirit week co-chairmen Tracy Hirschman and Holly Kahn, publicity chairman Sam Lewis and dance committee chairman Richard Yang.

Torch Club, Insignis and Student Council members decked the school halls with maroon and gold in time for Friday's Pep Rally, organized by John Langrill of Glenview. LA's marching band, varsity football team, coaches and student yell leaders kept spirits and volume high during the rally.

Decorations chairman Brian Cooper and Don Jones and their committee turned Loyola's high school gym into a college campus for this year's dance theme, "Weekend on Campus." Ticket and publicity chairman, Suki Singh and David Burns of Morton Grove sold more than 650 bids to the Homecoming dance. According to dance chairman, Ben Amponin, the only "Short Cuts" in this whole production for Homecoming Week was the live band who played Saturday night.

Niles firefighter visits school

Firefighter Chapp describes his equipment to students at St. John Brebeuf.

Firefighter Dave Chapp of the Niles Fire Department visited the St. John Brebeuf pre-schoolers and kindergartners during their study of community helpers. Fireman Dave, as the children call him, has four young children of his own and geared his talk to his young audience.

He told the children about the importance of smoke detectors, the danger of treating matches as toys, and the correct action to take when a room is filled with smoke and when their clothes catch on fire.

The children were mesmerized when he slowly put on all his fire-fighting clothes, including boots, pants, jacket, hood, mask, helmet and gloves. He explained the need for each piece and reassured

the children that he is the same friendly person he was before the equipment went on. Each child knocked on the window of his mask, and he greeted each by name as they did.

As he removed his gear, Fireman Dave emphasized the importance of having a meeting place outside the home in case of fire and of never re-entering a home in search of pets, favorite toys or missing people. This, he said is the fireman's job since he is dressed for it.

As a remembrance of his visit, Fireman Dave left with the teacher, a coloring book about fire safety, a sheet of stickers and an honorary "Firefighter's Helper" badge and card for each child.

In addition to over 100 exhibitors, there will be a Notre Dame craft table, a homemade bakery booth, and refreshments.

Ample parking is available at the high school.

Second graders study habitats

The second graders at Washington School will visit the Grove in Glenview Oct. 25, 26 and 27th. They will participate in a presentation about animal habitats.

Washington School is located at 2710 Golf Rd., Glenview and is in East Maine #63 school district.

Regina hosts parenting workshop

Regina Dominican High School will sponsor a four-week series of workshops on Parenting Teens in Today's World. Carol Kemp, M.S.W., Regina's social worker, will lead the workshops to be held on four consecutive Wednesdays from 7:30 to 9 a.m. in Regina's Library.

Topics to be explored include: normal adolescent development, Oct. 18; setting rules and limits, Oct. 25; and maintaining good relationships, Nov. 1. The series will conclude Nov. 8 with a wrap-up on taking a position for self. Parents are requested to pre-register by calling the guidance office at 256-7660.

GC celebrates peace week

Peace Week at Good Counsel High School is Oct. 16. Peace Week is held in celebration of Good Council's theme, "This is our cry, this is our prayer; Peace in the World."

Throughout the year, students are encouraged to put faith into action by performing various social services, such as serving food in soup kitchens, visiting nursing homes, and donating food, clothing and toys to the poor.

Early this month, the campus, shared by Montay College and the Felician Sister Motherhouse, will be dedicated as an official United States Peace Site.

The Peace Week celebration will begin with an all school assembly coordinated by the Campus Ministry Program and the Religion Department.

Citizen seeks 'concerned' volunteers

Larry Gomberg, a Morton Grove resident, is seeking volunteers to join Concerned Citizens of Morton Grove. "Concerned Citizens" will devote itself to promoting increased citizen communication and participation in village affairs. He cited property reassessments, tax relief, environmental issues, the funding of park improvements and animal control as a few of the issues that need to be addressed now.

In the winter of 1988, Mr. Gomberg initiated an attempt to have the village renew a discontinued sidewalk snow plowing program in response to the inability of some senior citizens to remove snow from their property. Gomberg is a member of the Village Community Relations Commission and Chamber of Commerce. His comments are his own and are not intended to represent the feelings of other members of the Community Relations Commission.

Persons volunteering to participate in Concerned Citizens of Morton Grove are asked to call Mr. Gomberg at 890-7298 (days).

Robert Cassidy announced his candidacy as a Democratic candidate for the House of Representatives from the Sixth District in the 1990 primary election to be held March 20, 1990.

A recent retiree of 20 years of service as a high school teacher and administrator in the #207 School District, Cassidy has lived with his wife Phyllis in Des Plaines for 22 years.

A moderate Democrat, he is

launching a "Marathon March" going home to home in his district. Cassidy will emphasize more direct input in policy decisions from the people of the Sixth District.

His goal in the "March" is to introduce himself and his positions to the people in their homes, while listening to their needs and views.

A native of the Chicagoland area, Cassidy is a 1963 graduate of the University of Illinois, Champaign, where he received both his Bachelor of Science and Master's Degree.

Drugs don't go away. Users do.

Three questions you should ask before you buy a Yellow Pages ad:

1. Does the directory exclusively reach customers in my local trade territory?
2. Does the directory contain local community information my customers can use?
3. Will I pay more money than necessary to reach people in another part of town who won't buy in my local market?

Your business is local, but all directories are not. Many advertisers pay extra to reach people *outside* their local market. Call your local DirectoriesAmerica Yellow Pages representative and find out how you can reach more local customers without spending a fortune.

Free flu shots available

Influenza, better known as the flu, is a viral infection of the nose, throat, bronchial tubes and lungs and can make a person ill. The flu is usually not life threatening, but for older people or for someone with a chronic health problem, the flu and its complications can cause serious illness and even death.

To prevent such health problems and needless deaths, the Cook County Department of Public Health offers free flu shots to suburban Cook County residents 65 years of age and older and to the chronically ill who are 12 years old and over. The program begins Oct. 27 and continues through Nov. 21 at 13 locations in suburban Cook County. In the north suburbs the following dates and locations are available: Nov. 6, Des Plaines Senior Center; 1040 Thacker, Des Plaines; 9 a.m. to noon; and Nov. 20, Park Ridge Senior Center; 100 S. Western, Park Ridge; 9 a.m. to noon.

Dr. Ralph Cordell, Director of the Cook County Department of Public Health's Communicable Disease Division reminds individuals that "Even those who received flu shots last year will need to be immunized again in order to be fully protected." This year's vaccine offers protection against three kinds of the flu - A-Taiwan, A-Shanghai and B-Yamagata. These are the viral strains that the Centers for Disease Control predict will be prevalent in the U.S. this flu season.

Persons who are allergic to eggs or who have a fever on the day of the clinic will not be immunized. For information about the flu or flu shots, call the Cook County Department of Public Health's Communicable Disease Division at 865-6308.

Cable special focuses on services for disabled

A special video broadcast about services for the disabled in Illinois will be aired on cable access channels in English and in Spanish throughout October and November.

"Making It: Options for Individuals with Developmental Disabilities," hosted by WLS-TV's Bill Campbell, showcases the range of community-based services available in Illinois, such as respite care, housing, education, recreation, and training and job opportunities. The program focuses special attention on the relatively new, state-funded service of "case management" that helps families cut through red tape and pull together the programs and support services they need.

"The key to obtaining services in the community, especially as needs change, is the ongoing personal relationship with a case manager," says Joannell Voigt, who is executive producer and "Making It" and director of Community Alternatives Unlimited (CAU), the case management agency that serves the disabled in Cook, Lake and McHenry counties.

"Making It" was made possible by a grant to CAU from the Illinois Planning Council on Developmental Disabilities.

"Making It," which was produced by Beverly Siegel, won a Silver CAN Award for documentary programming in the 1988 Illinois Community Television Competition.

Copies of "Making It" for in-

house use and a companion service directory are available free of charge to parent and professional groups and service providers through Birth-to-Three Clearinghouse, 840 S. Spring St., Springfield, IL 62704.

Persons interested in scheduling broadcasts of "Making It" for broadcast over cable access stations in their communities, should contact Community Alternatives Unlimited, 944-3758.

Air dates for the special are: In Chicago on CANTV 21: Monday, Oct. 16 and 23 at 7:30 p.m. in English; Wednesday, Oct. 18 and 25 in Spanish.

The Spanish version of "Making It," entitled "Adelantando" is hosted by Juan Montenegro.

Based on the book by Harper Lee, the drama about prejudice and stereotyping is set in a southern town in 1935. Scout, a young girl, and her brother Jem are faced with difficulties because their lawyer father is defending a black man who has been wrongly accused of a crime.

Because of an overwhelming

student response to auditions, the play has been double-cast. Those students not playing main roles in one performance will serve as extras, so all students are involved in each production.

The cast includes Skokie residents Tara Andersen, Craig Powpover, Reshma Kapadia, Maria Seidell, Marilyn Friedman, Sara Goodman, Ben Halperin, Ron Milow, Peter Berk, Syed Islam, Seth Winer, Mark Choi, Dwight Smith, Debbie Ann Brown, Lena Dukic, Lia Luskin, Eric Pepper, Scott Topper, Jamie Topper, Carolyn Adelman, Stacey Skolnik, Jeff Alexander, Daniel Pomerantz, Eddie Bang and Frani Bulmash; Niles residents Carolyn Applebaum, Greg Tessler, Joe Falbo, Jennifer Fogel and Ronnie Bolbat; and Morton Grove residents Robert Chencinski, Stacy Lipkin and Aaron Kurasch.

standing meats and poultry in a new department that will make shopping for savings a shopping pleasure.

OMNI's great lakes seafood company offers the best of the catch at prices below the competition.

OMNI's field fresh produce provides fresh produce hand-picked by expert buyers and shipped directly from growers throughout the country.

OMNI's crust & company fresh bakery turns out 80 scrumptious baked goods fresh from the oven each day, from coffee cake, pies, and donuts to breads, muffins and rolls.

Hero's Deli features broasted chicken, fresh pizza and party trays custom-made to order, all in addition to a wonderful selection of freshly sliced luncheon meats, homemade salads, and over 200 different varieties of domestic and imported cheeses.

OMNI's photo center develops all prints on Kodak paper, using Kodak chemicals and Kodak's Technet computerized quality control, an exclusive system that keeps colors bright, vivid and true-to-life.

over \$1 billion to combat flooding and reduce flood damages. The projects we have constructed benefit our neighbors downstream."

"I want to compliment our neighbors in the adjacent counties for the planning effort they have embarked upon in the past two years, but this planning will be virtually useless without flow limits. I would hope that the legislators, particularly those from suburban Cook County and from the adjacent counties that have been plagued by flooding, recognize this and support the Senate Bill 248 veto override," Melas said.

OMNI apple display...

ples on display, and on sale, too. OMNI will display 160,000 apples. If they could be stacked one apple on top of another, the entire display would rise over 10 miles.

Placed side by side, 160,000 apples would also stretch seven and one half miles. The apple display at the new OMNI in Niles will not stretch past Wheeling, or reach into the stratosphere; but it will weigh 30 tons. This is an enormous amount of apples to move around, so OMNI intends to sell all of it with super-saving prices.

"Lower Prices Overall" is the OMNI slogan. By buying huge quantities, OMNI Superstore will be able to offer shoppers big savings on all their favorite grocery items.

Historical Society...

Continued from Page 3

Currently, the Society is assembling a collection of ethnic costumes and dolls, tracing the history in Niles from the original Pottawatami Indians to the arrival of immigrants first from Germany, then England, Poland, Bohemia, Italy, Scandinavian countries to the present Oriental arrivals. Donations or loans of such exhibits will be greatly appreciated for display by phoning 390-0160.

Hearing set to evaluate TCI

OMNI's drug store and pharmacy has licensed pharmacists on duty to assist customers and make certain all their prescription needs are filled quickly, efficiently and at the lowest prices.

OMNI's homestyle department is a store in itself offering durable, decorative, quality merchandise at prices everyone can afford.

The new OMNI Discount Food and Drug Superstore in Niles will be open 24 hours and have twenty electronic scanning terminals and two tandem express checkout registers, giving customers an accurate, detailed account of all their purchase transactions.

OMNI Discount Food and Drug Superstores are a division of Dominick's Finer Foods, Inc.; and Dominick's is a privately-held company currently operating 95 units in the Chicago metropolitan area.

Enrollment at the Skokie campus jumped 31.91 percent over the previous year, leading OCC's overall enrollment rise. Expansion studies are underway, but incomplete, said Lyla Alukal, OCC spokesperson. She said additional classrooms are a necessity at both the OCC Des Plaines and Skokie campuses.

The need at the Des Plaines campus has become pressing because of the success of the Weekend and Kids College programs.

Alukal said Oakton East offers an extensive curriculum but lacks some more technical courses such as architecture and photography. She indicated the indoor

Upon hearing the board's decision to form the committee Miletic said, "I think it's the first step in the right direction. It shows a portion of our elected leaders are listening to what the community wants. We'd like to see the other boards follow."

Board President Dan Staackmann said the committee will consist of two park district staff members and two park board commissioners appointed by him. He also requested three community members serve on the committee.

The park board would have to vote on allocating money for the committee's study, but their staff could be utilized for the project, Staackmann said.

The school was sold to the Muslim Management Group for \$1,835,000 at a public auction held Sept. 1. The final closing date of the sale was delayed by the District 70 school board Monday until sometime after Oct. 25.

Once the sale is final the park district could condemn the property for the purpose of providing open space for the community. However, the issue would have to go to a referendum and the public would vote on whether to raise taxes to finance the purchase of the school and property. The board would have to act by Jan. 15 so that the referendum could be placed on the ballot for the April 3 election.

S and L promotes CDs, buys back toasters

There is no surer indicator of how times have changed than in a new program conducted by Skokie Federal Savings in which the Association is paying customers to bring back their toasters, some of whom received them as premiums in earlier promotions.

As a means of promoting its six-month certificates, the institution is offering customers who bring a toaster or other small appliance a \$10 credit towards the

opening of a new six-month certificate of deposit. The toaster or other small appliances will be donated to the Salvation Army for repairs or distribution to needy families.

The interest rate on the six-month certificate is currently 7.9%, yielding 8.34% and subject to change at any time. A minimum deposit of \$1,000 is required to open an account.

Accountant gives advice on home office tax deduction

The home office deduction is a favorite of self-employed persons, persons with sideline businesses, and employees who regularly work at home.

It is also one of the deductions that the IRS most frequently challenges, advises Joan C. LeValley, a Park Ridge tax accountant. Those who claim it should be prepared to defend it.

To support a home-office deduction, a self-employed person must set off part of the home to be used exclusively as an office even though the office may only be part of a room.

The office must be his or her principal place of business, or he

must meet with clients, customers or patients in the office on a regular basis.

An employee who wants to claim a home-office deduction must meet the above requirements and also show that he or she maintains the home-office for his or her employer's convenience.

For tax advice on matters of this kind, call an accountant or LeValley at 825-3857. She has offices at 841 W. Touhy, Park Ridge, and is a member of the Independent Accountants Association of Illinois, which represents over 100,000 taxpayers and small businesses throughout the state.

St. Francis to add office building

Groundbreaking ceremonies for the second Professional Office Building at St. Francis Hospital of Evanston were held Thursday, Oct. 19 at 10 a.m.

Activities were held under a tent on what is currently the physician's parking lot, just south of the existing office building.

Building plans for the eight-ten-month, \$11 million project include the construction of a five-story building to be used by St. Francis Medical and Dental staff, and a two-story addition to the parking garage.

This addition will provide an additional 60,000 square feet of office space in a facility identical

to the current Physicians Office structure. It will be connected to the present building, the hospital and garage by a covered walkway.

In addition, plans include room for customized office suites for approximately 60 physicians on the St. Francis staff.

Participants in the groundbreaking ceremony will include Mayor Joan Barr, Alderman of the 8th and 9th Wards (Ann Rainey, Richard Layton, Gene Feldman, Roberta Warsaw), members of the hospital's Neighborhood Relations Committee, and representatives of the hospital.

From the Left Hand

which sent me into a trauma for several hours. The guys were frisky and cocky and full of vim and vigor and whatever. Among the guys at center stage was Angie. In subsequent years he was everywhere. He was Mr. Lion, not only in Niles but throughout the region. He was on the board of the Chamber. He was at center stage with Niles Days. And when Niles received its All America award, Ang went out of town to help with the presentation which led to the award. In subsequent years he was in Washington fighting for a post office for Niles. He was always where the action was.

While other young turks in Niles were moving up the money ladder, Ang was doing public service for the community over and over again. It was the mark of the man.

Ironically, while he didn't make the Forbes 400, his even-handed temperament kept him above the tribulations of many of his friends. Several of those young turks got into bad financial troubles. One of them wound up in the federal penitentiary for a year. Their ambitiousness ran away with their good judgment.

Angie mapped a different course. While the money boys were playing for high stakes

Ang steered a more even keel. His energies were involved in working for the public good.

Many times we heard fellows in the Lions Club mention they didn't have a great deal of money so their efforts through the club was their way of making a contribution.

We remember nights in Ang's life when the clan rallied around. Election nights when Ang lost the Mayor's office and many more nights when he won his trustee office. There was his family, his brothers, et al, who were hugging and being warm and affectionate when it was really needed. And when his son died tragically, his many friends and family rallied around during a terrible time in his life.

We're sure many of Ang's friends will be considering creating a Marcheschi memorial.

He was a special kind of guy who gave so much to Niles, to his friends and to his family. He gave a great deal of love to others. And he received much in return. He had a loving wife and a loving family and many, many loving friends. And that has to be the best bottom line balance sheet anyone could have.

officials this week. Originally, IDOT offered the village \$25,000 to repair the worst sections of the northbound lane, but were turned down because Niles did not have the manpower to perform the work.

Mayor Nick Blase, who has himself made calls and written letters to IDOT regarding the problems, was very happy about the news. The mayor noted "people pressure" rather than lobbying by officials was probably a major factor in IDOT's change of heart. The Niles mayor said that IDOT took into account what he termed the "human factor" of people's nighttime sleep being disrupted

by the noise of tires over bumps in the road, giving priority to the largely residential project over a highway project in an industrial or commercial section of road.

Swieca, IDOT's area programmer, has indicated repairs will be financed from gas tax revenues at a cost of at least \$300,000 measured in 1989 dollars. At the Sept. 25 meeting, Swieca promised the 64 residents in attendance and Engineering Supt. Bob Kahler that he would try to persuade his superiors to move up the timetable for repairs. Prior to the gasoline tax passage, Harlem Avenue repairs had not been budgeted as of 1994.

park. Residents gave the park board the representative age range of the children in the area and later changed the figures to reflect a different proportion of tots to primary to older children than had been planned for.

Pointing out the project went \$2,500 over the budgeted \$12,000, Heinen indicated most of the changes asked for had been implemented, involving manpower rather than purchases.

The Board voted four to one for three additional swings, with Pierski dissenting. "The items requested were after the fact," the Commissioner noted, adding, "We went to the community first for their input. We want to keep close to budget and then go back to address differences after all the parks are done."

In additional business, board members voted three to two to discount by \$1 fall rounds of golf at Tam Golf Course, beginning Nov. 1. Vice President Walt Beusse and Commissioner Bud Skaja, III dissented, with Skaja later explaining, "At this time we need to leave fees as is, (or reduce them only) for three weeks. We need the revenue."

Depending on weather, Tam normally closes in the beginning of December. Beusse argued the board should have had cumulative totals of Tam receipts for both 1988 and 1989 before making a decision.

Acting Director Jim Weides had surveyed eight other comparable golf courses in the area, telling board members six of them offered fall discounts averaging \$1 per 9-hole round. The majority voted after Heinen pointed out that the fall brochure already promised fall discounts.

Commissioner Carol Panek reminded others that fees were raised in the beginning of the season and 1989 fall revenues, though discounted, would reflect the overall fee in-

crease.

Tam received a new crimson king maple tree on Sunday, Oct. 15, donated by the Park Board to honor retired Niles village clerk Frank Wagner. The Board noted they have received compliments for the appearance of the Tam maintenance garage, now under construction.

Panek announced Maine-Niles Association for Special Recreation Executive Director Lynn Parfitt submitted her resignation effective Dec. 31. The M-NASR board, consisting of board members from all the contributing park districts in Maine and Niles Townships, will meet in November to write a job description for the position. They expect to select a new director from qualified candidates shortly thereafter.

Niles' own next park director, whose name has not been announced, will not come on board until November, according to Heinen who said, "There's nothing we can tell you, when he'll be starting. We're hoping we'll have someone here by November." The board has been evaluating candidates to replace Bill Hughes, who resigned in late spring of this year.

Swimming pool changes

Board members unanimously approved a music policy at the pools. Music will be played on the loudspeakers only between the hours of noon and 5 p.m. on weekdays, "at a tolerable level", with no music on weekends. Special events may be excepted, with permission. The decision is in response to a variety of citizen complaints regarding loud music.

Tax levy update

Beusse indicated more than 98 percent of 1989's levy had been collected. The public hearing on next year's levy is slated for November, on a date to be determined.

Rd. The procession extended four miles in length and, along Harlem Avenue, bystanders lined the route to Westlawn cemetery in Norridge. Six Morton Grove policemen served as pall bearers, backed by six honorary pall bearers, friends of the dead officer, Shalin, a U.S. Navy veteran, was honored by American Legion Post 134 who played "Taps" and gave a 21 gun salute at the graveside ceremonies.

Morton Grove Police Chief Larry Shey presented the coffin flag to Shalin's widow, Iris and Rabbi Pavel Slavensky began the religious ceremonies in Hebrew.

At the conclusion, pall bearers retained their ceremonial gloves instead of placing them on the coffin, because of their closeness to the officer.

Following the ceremony, in accordance with Jewish custom, Shalin's widow and friends returned to Shalin's home for a Minion service, the highlight of which is the lighting of a candle that will burn for seven days and nights in memory of the deceased.

Shalin, 42, was struck and killed the night of Oct. 9 as he stood behind his squad car talking with a motorcyclist he had stopped near 8300 Austin Ave., Morton Grove. A grey Buick, driving southbound on Austin hit him, catapulting his body over the Buick's roof. The car was allegedly driven by Myron A. Iverson, 71, of Morton Grove who was charged with reckless homicide, driving under the influence with a fatal personal injury and failure to reduce speed.

Morton Grove Police are accepting contributions for a fund for Shalin's family. The Council of Condominium Associations of Morton Grove, meeting Oct. 11, voted to contribute \$50 to Mothers Against Drunk Drivers (MADD) in memory of Officer Shalin.
