Niles Police say gangs not based in Niles

by Tracey Labovitz

The Niles Police Department held a press conference Monday morning to dispute rumors that Niles Police are unaware of local gang problems.

The conference came following a November 7 gang shooting at Mark Twain School in Niles. Three men were hospitalized in the incident, two with gunshot

wounds. Nine suspects were arrested and seven charged.

At the press conference, Niles Police Chief Raymond Giovannelli referred to a comment made on WGN radio, "Now maybe Niles will understand that there is a gang problem."

"We are conscious of gangs," Giovannelli said. "We know

gangs exist."

"We are aware that we have gang problems," continued Deputy Chief Bill Reid. "But at this time, we don't have gang turf."

Reid explained that, although there are undoubtedly Niles residents who are members of a gang, there is no gang turf, or concentration on teenagers and said everybody in the room had the same

"We have gangs, so does every other state. We're just going to

Oakton has been working very hard at Cost Containment, and the growth for the year, 3.2% is less than the rate of inflation. David Hilquist, Vice-President for Business and Finance, estimates that this tax levy will cost the typical homeowner in the district \$2.88 for the year.

It was noted that the Student Trustee serving on the Board

would be allowed to make and second motions, however he/she may not vote.

Vice-President for Curriculum and Instruction, Margaret Lee, has been appointed to the Institute on the Commission of Higher Education.

MONNACEP received another letter of commendation from one of the older adults who participated in the Opera Field Study Courses led by Oakton faculty member Patrick Casali.

District 207 board passes 10.19% levy

The 10.19 percent tax levy that was passed by the Maine Township High School District 207 Board of Education recently will mean less than a \$50 increase in taxes on a \$225,000 home, according to James L. Elliott, superintendent.

Assuming minimal growth of less than two percent in equalized assessed valuation, the \$54,951,431 levy is \$5,082,419 more than the 1992 tax extension of \$49,869,012. The actual tax rate equals the levy divided by the equalized assessed valuation and is estimated to be \$2.16 for 1993. Historically, the tax rate has been as high as \$2.51 in 1976.

November Alzheimer's awareness month

The Chicago Area Chapter of the Alzheimer's Association has begun a four-county awareness campaign for its 47 support groups throughout Chicagoland during November, National Alzheimer's Awareness Month. Each support group serves family members and caregivers of Alzheimer's disease patients.

Caregivers of Alzheimer's patients are often called "the second victim," because they must commit full-time attention to patient-care. Caregivers feel stressed, burdened and often border on exhaustion from managing every phase of their adult loved-one's life, while simultaneously living their own lives. The Chicago Area Chapter hosts 47 support groups through-

out Cook, DuPage, Kane and Lake Counties where caregivers share their experiences with each other and with trained leaders. Support groups teach caregivers how to survive and to cope with the effects of Alzheimer's disease.

Alzheimer's disease is a terminal, progressive, degenerative disease that attacks the brain and results in impaired thinking, memory and behavior. The Chicago Area Chapter of the Alzheimer's Association provides patient and family care for Alzheimer's victims and families through a 24-hour Helpline, Family Day Care Center, respite aide training programs and an extensive referral network.

Dudycz resolution calls for senior citizens rights

The General Assembly has adopted a resolution sponsored by Assistant Senate Majority Leader Walter Dudycz (R-7th, Chicago) creating a Bill of Rights for senior citizens in Illinois.

Senior citizens represent a growing segment of the population. After a lifetime of hard work and contribution to our society, they deserve the utmost dignity and respect," Dudycz said. "The idea behind House Joint Resolution 73 is very simple. It urges Illinois lawmakers to be more aware of senior citizens, their rights and their needs when voting on legislation and passing laws that affect them."

Testifying in support of the resolution was Judge Marian Stanice from the Circuit Court of Cook County. Judge Stanice has been a member of the Advisory Council on Aging in Chicago for more than 33 years.

House Joint Resolution 73 states that senior citizens in Illinois have the following rights:

1. To have equal access to all the resources our society has to offer including, but not limited to, the legal system, social services, credit, health care, police protection and consumer advocacy.
2. To have age and physical condition taken into consideration for scheduling of court dates and accessibility to the legal forum.
3. To have effective court supervision and oversight of proceedings affecting senior citizens in their physical and financial affairs.
4. To have the fact that senior citizens usually live on a fixed income taken into consideration in determining transportation fares, taxes and utility rates.
5. To have thorough and prompt investigations into allegations of physical abuse and financial exploitation against senior citizens.
6. To obtain and maintain suitable housing, independently selected, designed and located with reference to special needs and available at costs which senior citizens can afford.
7. To access a comprehensive array of community-based, long-term care services adequate to approximately sustain senior citizens in their communities and in their homes.

The resolution is also sponsored by State Rep. Ralph Capparelli (D-13th, Chicago).

AARP OFFERS TIPS FOR WINTER DRIVING

With winter approaching, 55 ALIVE/Mature Driving, a classroom refresher course of the American Association of Retired Persons, offers the following suggestions for driving in poor weather:

- * If driving in snow or ice conditions, reduce speed and increase distance between cars.
- * Keep all windows and lights free of ice and snow.
- * Be especially careful driving on bridges and overpasses. These areas freeze first, and retain ice longer.
- * An icy or snow packed road is more slippery at 32 degrees than at lower temperatures.
- * In fog, turn on low beams for greater visibility.
- * Chain reactions are common in fog. Pull off in a safe area and wait for conditions to improve. Do not creep along at five or ten miles per hour.
- * Make sure wiper blades are in good shape. It's not a bad habit to replace them once a year.

According to Gus Habighurst an instructor with Morton Grove's AARP 55 ALIVE/Mature Driving program, the best advice for motorists is to avoid driving during adverse weather conditions. The AARP 55 ALIVE course, which helps older drivers sharpen their driving skills and avoid accidents, is offered to motorists age 50 and older throughout the country. The eight-hour course is offered in two half-day sessions. Illinois law requires all auto insurance carriers to offer a discount on premiums to qualified graduates aged 55 and older of approved courses such as 55 ALIVE. Policyholders should contact their insurance carriers for more information about such discounts. The next 55 ALIVE class is being held from 9 a.m. to 1 p.m. on Nov. 29 and 30 in the Flickinger Senior Center. The course fee is \$8. To enroll please call the Senior Hot Line at 470-5223.

Letters To The Editor

Tomoleoni explains resignation

Dear Editor:

I have made the decision to resign my position on the Niles School District 71 Board of Education.

As an explanation to those who voted me into this office, I would say that it is no longer in my heart to serve a community that permitted the abuse and degradation that I and my family endured during the election process.

The offenders did not force me out. I saw my campaign through with even more determination and was elected. The true reason for my leaving lies with my profound disappointment with my community and District 71 for standing by and allowing something like this to happen. I saw no effort was made to put a stop to it and that there was no interest in getting to the bottom of it. Should the circumstances have been reversed, I know that I would have gone to my opponent's defense, to preserve his right to fair treatment and a fair defense, to preserve his right to fair treatment and a fair chance to win. The people who knew who was involved did nothing.

This is not only the usual void of leadership coming from the district, but probably a neglect of a responsibility and duty to insure a clean election process. No steps were taken to put a stop to it or to even inform me about it. Afterward there was no effort to resolve it. The Board's attitude was "too bad, what a shame, O.K. let's move on."

So I decided that I could no longer look them in the eye and respect, trust, or work effectively with them.

I did find out that I have some true friends who were outraged at the unfounded smearing of my name, and I am sorry if I am disappointing them with this decision.

Besides my personal disappointment, I have an even more important reason for resigning. I felt that my children (all children) needed a better example of how adults should act. What does it matter what we teach our kids with our textbooks if we show our kids that this is really the way life is. It is pretty obvious to many of us that our society has some sick social values. The message to our children is that we just don't get involved, that this kind of behavior is permissible, that what we teach in school is purely theory but not practiced by adults, that life is really vicious and deceitful. I hope to have given the children the message that this should be unacceptable in a civilized, respectable community. I am an educator and I firmly believe that to narrowly focus on academics without addressing attitudes and values will always limit what can be accomplished. This is why our District had started on a family and community involvement program in the schools, because it is true that "The parent is the first teacher and that the home is the

Great School of Character." What has occurred exemplifies the need for this approach to teaching values and ultimately reaching new heights in total student growth and achievement.

Had the community acted, it would have shown integrity and a respect for decency. They didn't, so I am trying to do that for them. I think that the adults as well as the children needed this lesson.

Now, after I have resigned, people are asking what they can do. My answer to them is just to follow their conscience, as I have done. Some will not know how to, for they may have lost their conscience long ago.

I am fearful that this school district will continue in perpetual mediocrity, while it has the potential to be prominent state-wide in achievement. I hope that the Board will find the determination and persistence necessary to drive this vision to fulfillment.

With regards,
Richard Tomoleoni

Disapprove use of foreign language

Dear Editor:

I do not approve using any foreign language for official business in the United States of America.

I do believe only American English should be the official language used in my United States of America.

Please do all you can to cause American English to become the official language of the United States of America, otherwise we could become a split country.

Thank you sincerely,
Mrs. Cora Moore

CDs for people who aren't afraid of heights.

6.58% is the Annual Percentage Yield (APY) you would have earned on a two-year deposit maturing on October 23, 1993. APY is based on historic results and is not intended to indicate future yields or results.

Introducing The Market Rate CD. Wall Street Thrills Without Wall Street Chills.

Lock Up A Rising Rate With A CD That Won't Lock You In.

This year we're offering you a blue chip opportunity to invest in a new kind of two-year CD. One that allows you to go after Wall Street's potentially higher rates without risking your principal. Your Market Rate CD can be opened with a low \$2,000 minimum deposit. At the end of each 52-week period, your interest is calculated based on the average change in the S & P 500® Index** as reported in *The Wall Street Journal*. And at maturity, you're guaranteed a 100% return of your FDIC-insured initial deposit. The new Market Rate CD. Now the best way to lock in the market's high earnings potential is with a CD that has no risk to principal.

Every six months of its initial two-year term, our Rising Rate CD gives you a guaranteed increase in your interest rate without locking you in. The rate earned for each six-month period rises as the chart above indicates, giving you 5.00% APY during the final six-month period.* You can withdraw all of your investment within the first 10 days of any six-month interval during the initial two-year term without penalty. Or you can make a partial withdrawal without penalty as long as you maintain a \$1,000 balance. And the minimum deposit amount is only \$1,000. The Rising Rate CD. The liquidity you want, with the guaranteed interest growth you need.

For more information, call or visit your nearest First of America bank office today.

FIRST OF AMERICA
A bank for life.™

A substantial penalty will be imposed for early withdrawals made other than in periods stated above. Deposit limits apply. Deposits insured by the FDIC up to \$100,000 per depositor. *Rising Rate CD rates good as of 10/31/93, subject to change without notice. Individuals and sole proprietors only. Limited time offer available at participating banks only. Annual percentage yields shown above reflect the yield for each six-month period separately, and are not cumulative yields. At the fourth maturity, your CD will automatically renew as a standard two-year CD. **S & P 500®, Standard & Poor's®, S & P 500®, Standard & Poor's 500®, and 500® are trademarks of McGraw-Hill, Inc. and have been licensed for use by First of America. Thanksgiving

"It Is Good To Give
Thanks To The Lord"
Psalm 92:1

The Pilgrims celebrated their first Thanksgiving with a grateful heart for God's loving care through the many challenges they faced. They shared their bounty with friendly Indians who offered goodwill and peace.

Thanksgiving today is an official holiday but it is a part of our christian and spiritual heritage. With grateful hearts we can thank God for His guidance and blessings. We can celebrate with family and friends the abundant provision that our forefathers never dreamed of.

We would like to invite you to our Thanksgiving service, to worship and sing praise to God for His faithfulness to us.

Yul Brynner foundation comes to Holy Family

On October 23, Sister Patricia Ann, President and CEO of Holy Family Hospital, welcomed the Yul Brynner Research Foundation's Board of Directors to their first meeting of 1993.

Ovarian cancer screening program offered

A new program for the early detection of ovarian cancer will be offered by The Evanston Hospital starting November 1.

The Ovarian Cancer Screening Program, the only program of its kind in the Midwest, will be located in the Evanston Professional Building, 1000 Central St., Evanston, just across the street of the main hospital building.

The program will provide screening tests for women at high risk for ovarian cancer, in particu-

lar women who have had breast or colon cancer, or who have a family history of breast, colon and/or ovarian cancer.

According to Herbert Beck, M.D., gynecologic oncologist and director of the Ovarian Cancer Screening Program, survival rates of ovarian cancer are good if the disease is diagnosed early. However, because symptoms seldom appear until the disease has spread beyond the ovaries, early diagnosis is rare. The screening program, which consists of ultrasound and blood tests every six months, is expected to detect ovarian cancer before symptoms occur.

In the United States, one out of every 70 women will learn she has ovarian cancer at some time in her life.

In addition to the screening tests, the program is designed to educate the public as to who is at higher risk; to educate physicians to identify women who are at higher risk; and to counsel high-risk women on ways they can reduce their risk.

For more information, or to apply for program admission, call (708) 570-5020.

Learn breast self-exam techniques for early cancer detection

Some women ignore breast cancer because they are afraid of the unknown. In reality, if you find a lump or any abnormality, there is an 85 percent survival rate compared to 56 percent for those who discover the disease after it has spread.

Since early detection dramatically increases chances of survival, women should follow important guidelines to reduce the risk of breast cancer. One method of early diagnosis is a breast self examination (BSE). If done correctly, the self exam should take about 10 minutes.

"Many women are afraid of what they may find or they are unsure of what to feel for," states Paul Goldman, MD, chairman of the obstetrics/gynecology department at Holy Family Hospital.

"When performing a BSE, you are not looking for cancer, you are looking for changes in the way your breast looks and feels," states Dr. Goldman. The best time to check your breasts is two to three days after your period. If your periods are irregular or have stopped, pick a day in the month that will be easy to remember.

There are three parts to a BSE: visual, standing and lying down. This simple, effective self-test is a way for you to know what's normal so if there is a difference, you will contact your doctor.

Regular physical examinations and mammography screenings are also key components in early detection. Holy Family Hospital offers a mammography suite that is accredited by the American College of Radiology (ACR).

As an ACR-accredited mammography program, Holy Family

ly's facility has met all necessary requirements, including a peer physician review of staff qualifications, certification of equipment, quality control and quality assurance programs, imaging quality and certification of the low amount of radiation the breast receives.

Along with the accredited mammography suite, Holy Family offers the best services available for women including the new Family Additions, LDR/maternity unit, giving women the opportunity to experience the birthing process in their own

private labor, delivery and recovery room. Other plans include providing specialty services in gynecological oncology, uro-gynecology, and the addition of a breast center and a menstrual disorder center.

Police News

Niles eatery burglarized

A restaurant at 8526 Golf Road was the site of a burglary November 10. A Niles police officer on a routine check of the area noticed the rear service door being held ajar by a branch.

Upon investigation, police noticed that screws on the hinges and door handle on a large floor safe had been removed, and markings showed that someone had beat and pried on the hinge.

The assistant manager reported that three men entered the establishment at closing time. When told the place was closing, one asked to use the men's bathroom and another followed. Police reported ceiling tiles had been removed in the men's bathroom and foot and hand prints were made on the pipes and metal supports.

Niles man reported missing

A 20-year-old Niles man was reported missing from his home on November 11. The man, who had been staying with a 46-year-old Niles resident for three months, removed his clothes and a television from the residence on November 8 and hasn't been seen since. The man is a senior at Maine East and has not returned to school.

Watchful neighbor observes break-in

A Niles woman observed an offender throw a brick through her neighbor's window lower pane, release the window lock, open the window and climb in on November 9. As the witness called police, she observed the offender go back to the window in a rushed manner.

Police searched the house, but

Niles woman encounters thief in home

On November 13, a 69-year-old Niles woman was the victim of an attempted burglary. The woman returned home from shopping, left the garage and front door open and went in the backyard to rake leaves.

When entering the house, she observed an offender standing in

the living room. "What are you doing in my house?" she asked. "I lost my cat," he said. "Can you help me find it?" The offender asked her to go to the basement and look for the cat while he searched the backyard. When she came back, he was gone. So was \$60 out of her purse, which was in the living room. An I-Denti-Kit was done.

Police seek blind and deaf thief

A 71-year-old Niles man, parked in the Golf Mill Sears parking lot on November 9, returned to his 1988 truck to find that it had been broken into. Taken was a pair of eyeglasses, valued at \$59, and a hearing aid, valued at \$600. The man said the offender(s) entered through the vent of the driver's door.

Unbalanced thief now on track

A 27-year-old Des Plaines man was witnessed stealing a pair of shoes from a sporting goods store, 7233 Dempster.

Police arrest drunken driver after accidents

A 39-year-old Morton Grove man was arrested at a bar, 9003 Milwaukee, where he had created problems at before.

The intoxicated man entered the bar and was refused alcohol by the bartender. The offender began calling people names and became belligerent. The offender then said he had a gun and he was going to go to his car to get it and use it.

The man left the parking lot and re-entered. He attempted to park his car when he hit two cars.

Team jackets stolen

A manager of a sporting goods store, 575 Golf Mill, observed four offenders by a Starter coat wall on November 8. One of the offenders put on a Miami Hurricane team jacket and another put an unknown Starter jacket on. All four left the store with the jackets. The manager followed the suspects into the parking lot where they ran away. No I-Denti-Kit was done because the offenders had their backs to the manager the whole time.

He moved his car back into the lot and tried another spot where he struck another car.

The arriving police officer on the scene searched the man and found a badge. He asked if the man was a police officer or if he represented himself as one and the offender said no. The badge, a Winnetka Fire Department Badge, belonged to the offender's deceased father.

No physical evidence was recovered from the scene. The car alarm was in the "on" position, but the victim did not hear the alarm go off.

Red Cross offers safety tips to winter drivers

In recognition of Winter Storm Preparedness Week, Nov. 15-19, the American Red Cross reminds automobile drivers to take safeguards while driving during hazardous winter weather.

"The best way to stay safe during a winter storm is to remain inside and not drive in foul weather. However, that is not always possible," says Vicki Kastory, American Red Cross spokesperson. "The next best thing is to be prepared by keeping your car in good operating condition and by carrying an emergency kit in your trunk filled with things you will need if stranded in a storm."

To keep the car in good operating condition, be sure to keep the gas tank as full as possible, have the car winterized and carry extra antifreeze, winter grade oil, snow tires, chains and a defroster in your trunk.

A winter storm emergency kit should be stored in your trunk and include the following items: Battery jumper cables; Tire chains; Shovel; Tools (pliers, screwdriver, adjustable wrench); Sleeping

bags or blankets; Food supply of high calorie, non-perishable foods such as canned nuts, dried fruit or candy bars; Matches and candles; Windshield scraper; First Aid Kit and pocket knife; Flashlight with extra batteries; Transistor radio with extra batteries; Winter clothing including wool caps, mittens and boots; Sack of sand; Two empty three-pound coffee cans (They can be used to burn candles for heat or for sanitray purposes).

If you must weather a winter storm in your car, the American Red Cross advises you to run the engine and heater periodically for short periods of time (about 10 minutes) to keep the car warm. To prevent carbon monoxide poisoning, be sure to keep one car window cracked for ventilation and make sure snow has not blocked the exhaust pipe. Also, avoid prolonged exposure to the cold and do not over exert yourself by attempting to push your car or shovel heavy snow drifts.

The American Red Cross operates around the clock, every day of the year, providing community disaster preparedness and relief, health and safety training courses and services to military personnel and their families. The Mid-America Chapter services the 8 million people in the 4,110 square-mile, seven-county area of Chicago and suburbs including Cook, DuPage, Kane, Kendall, Lake, McHenry and Will counties.

Three Duke University researchers have published an important study showing that disability rates among the elderly have decreased significantly in the past decade. From 1982 to 1989, the over-65 population increased 14.7% but the chronically disabled elderly population increased only 9.2%, according to the study. And the proportion of seniors having no disabilities rose from 76.3% to 77.4% during that period. The researchers say a possible reason for the figures is technological progress in surgical areas like cataract removal and joint replacement.

The holidays should be a time of family and sharing. But sometimes distance separates older persons from their loved ones and they find themselves alone for the holidays. This holiday season, the Suburban Area Agency on Aging service network is offering Meals on Wheels Illinois to make sure homebound seniors in need receive some special attention on Thanksgiving.

Cable program addresses nursing home decision

Like it or not, the nursing home decision is one that many must make. How do adult children grapple with the problem of providing proper care for aging parents?

Bill Blaine, host of the TCI network show Plain Speaking said today that the program "The Nursing Home Decision" looks at this dilemma. He asks, "Who makes the decision? How does an adult child handle the feelings of guilt sometimes associated with this problem?"

To discuss this issue on Plain Speaking are Jeff Kuehl, Vice President, Consulting Services, Parkside Division of Lutheran General Hospital; Jay Lewkowicz, Administrator, Oakton Pavilion, Des Plaines; and Arlene van Hook, Co-founder of Children of Dependent Parents.

The nursing home decision is seen on Plain Speaking TCI Channel 33 through December 11, Monday at 8, Wednesday at 6, and Saturdays at 2.

Video tapes of Plain Speaking series are available from the Mt. Prospect Public Library. Subjects include: "Funding schools in Illinois," "Nursery Schools," "Homeless in the Suburbs," and "The Public's Libraries."

Odyssey offers Thanksgiving dinner to seniors

Six hundred Chicago seniors, normally homebound or with no family to celebrate the holidays, will enjoy their Thanksgiving dinner this year aboard the Odyssey on Friday, Nov. 26. Each year, the Chicago Department on Aging and the Odyssey sponsor a Thanksgiving Cruise for senior citizens.

More than 150 Odyssey employees and students from St. Ignace High School will volunteer their time to serve the seniors.

able to prepare a special holiday meal. Last year, in suburban Cook County, 154 seniors received meals served by volunteers recruited by local service agencies. This special holiday program supplements the Home Delivered Meals program which supplies an average of 6,024 meals weekly to older persons in suburban Cook County.

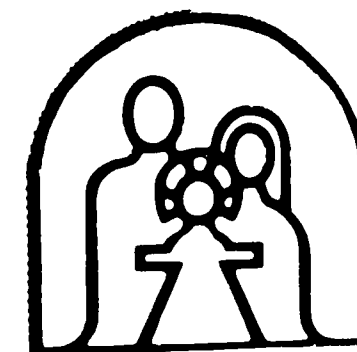

A home delivered holiday meal through the Meals on Wheels Illinois program costs just \$7. That's the value of a special, commemorative holiday card offered by the Area Agency to help support the program. It is the perfect way to make the holidays a true cause for celebration for a lonely, homebound elderly person. The entire donation for each card is used exclusively for the cost of a meal and is tax deductible.

Those who would like to purchase a card, or who know of an older person in need of a special holiday meal this Thanksgiving, or to make their own holiday a little more special by delivering a

meal to a grateful senior, should call the Suburban Area Agency on Aging at (708) 383-0258 and ask for the "Meals on Wheels Illinois Program." Contributions of time and money will help to make the holiday especially memorable to a senior who may feel forgotten and alone. Those who know of an older person in another area of Illinois who would appreciate a special holiday meal, should call the Illinois Department on Aging at 1-800-252-8966 to locate the local service agency coordinating the Meals on Wheels Illinois program.

The Suburban Area Agency on Aging is one of 13 agencies in Illinois designated by the Illinois Department on Aging to plan, coordinate, advocate and fund services for people over age 60. In its fiscal year 1993, the Area Agency service network served 86,007 individuals age 60+ in suburban Cook County. Services are supported by the Older Americans Act, Illinois general revenue funds and individual contributions.

Video focuses on senior's fitness

Cindy Lee Hanawalt grew up with her grandparents, so she learned first-hand the limitations of an aging body. She found older adults - even healthy ones - can have trouble reaching an item on the top shelf or standing up from the toilet seat because of poor flexibility or strength.

So Hanawalt combined her education at The University of Iowa - a bachelor's degree in physical education and a master's degree in preventive medicine - with her longtime skill as a certified instructor to produce an exercise video for senior citizens to help improve their quality of life, prolong independence, and enable them to maintain strength and flexibility.

It's called "55+ AND FIT." The 55 minute, color video is designed to help seniors remain independent and prevent ailments common to aging bodies. "The focus is range of motion, flexibility and strength training," says Hanawalt, 27, of Iowa City. "It is not high impact or a heavy cardiovascular workout. Many older adults don't even work up a sweat during the exercises." An East Amana, Iowa woman described the video as, "Something someone my age could handle."

Presentation offered on Alzheimer's

St. Matthew Lutheran Home presents "The Healing Family" Saturday, Nov. 20 from 9 a.m. to 11:30 a.m. in Lutheran General Hospital Johnson Auditorium.

Families and caregivers of people with Alzheimer's Disease are invited to attend a free presentation and discussion presented by Nellie Ryan, MSW/LCSW. Ryan is the director of Outreach and Education at the Center for Alzheimer's Disease and Related Medicine. Pre-registration is necessary. Contact Faith Place Alzheimer's Unit at St. Matthew Home, a program of Lutheran Social Services of Illinois (708) 825-5531 for information and registration.

Of the more than 200 exercise videos listed in "The Complete Guide to Exercise Videos" only five are targeted at the mature population and only one of those emphasizes stretch and tone. "That's why I created this exercise video," Hanawalt says, "for the older adult; now independence can be maintained long after 55." Hanawalt, who is nearing completion of her doctorate in preventive medicine with an emphasis in gerontology, helped produce the video with a university grant awarded to the U of Iowa Department of Leisure

Studies and the University of Iowa Video Center. The beauty of this video is seniors can stay in their homes and work their way up to performing the entire program of exercises, she says. "It helped to see some other older people in the background working hard too," says Violet Schamberger of Cedar Rapids, Iowa. Although hand weights and rubber tubing can be added for extra resistance training, these exercises can be performed without additional equipment or with household items such as canned goods. Seniors should check with a physician before performing the video's flexibility and strength exercises, Hanawalt says.

"55+ AND FIT was distributed in Iowa when it was first completed," says Hanawalt. "The response to the program has been so wonderful that we are making it available to people across the entire nation immediately and we are now using a toll free number - 1 (800) 369-IOWA - to accept orders. Many people have also asked us for the resistance rubber bands and tubing so we supply those now, too."

Retirement Planning is Urged

Thomas Curin
Social Security Manager
Des Plaines

"Typically, people spend about 20 years in retirement so it is important to plan ahead for those years," said Thomas Curin, Social Security Manager in Des Plaines.

"Anyone about to reach age 62 or anyone age 62 or older who plans to claim Social Security retirement benefits should contact Social Security in advance," Curin advised. He added, "We encourage individuals to check into their Social Security retirement benefits up to a year before they actually plan to retire. That's because some individuals can get benefits even before they stop working."

Curin stressed that, "People should obtain as much information as you can before they actually retire." They can do this by calling Social Security's toll-free number, 1-800-772-1213. A teleservice representative will answer any questions a caller may have, assist them in obtaining a benefit estimate, and advise them about when and how to schedule an appointment to actually file for benefits.

Curin stressed that people who plan to file for retirement benefits in January, February, and March, should call the toll-free number as early as possible to obtain information about their retirement.

Curin suggest that people who want to file actual claims for retirement benefits, can do so by phone as well. He explained, "The completed application is then mailed back to the caller for verification, signature, and return to the Social Security office for processing. A birth certificate, and proof of recent wages will be needed at this stage. People who file by telephone may bring or mail the original documents or certified copies to their office, where they will be photocopied and returned."

Usually, a few weeks after the application for benefits is filed, the applicant will be notified by mail of their Social Security monthly benefit amount and the date it will begin. They also receive a Social Security booklet explaining their rights and responsibilities as a beneficiary.

Seniors eligible for tax deferral

State Senator Arthur L. Berman (D-Chicago) says an additional 76,000 senior citizen homeowners will be able to delay paying part or all of their property taxes because of action taken this week in the Illinois Senate.

The Senate joined the House in overriding Governor Jim Edgar's veto of legislation raising the income threshold for participation in the program from \$14,000 to \$25,000.

"The governor was wrong in vetoing this legislation, and I am delighted that more seniors will be able to participate in this important program and receive well-deserved tax relief," Berman said. "Hefty property tax bills can pose an extreme hardship on many seniors living on limited incomes. This program allows

qualified seniors to delay paying all or part of their estate taxes by effectively taking out a low-interest loan.

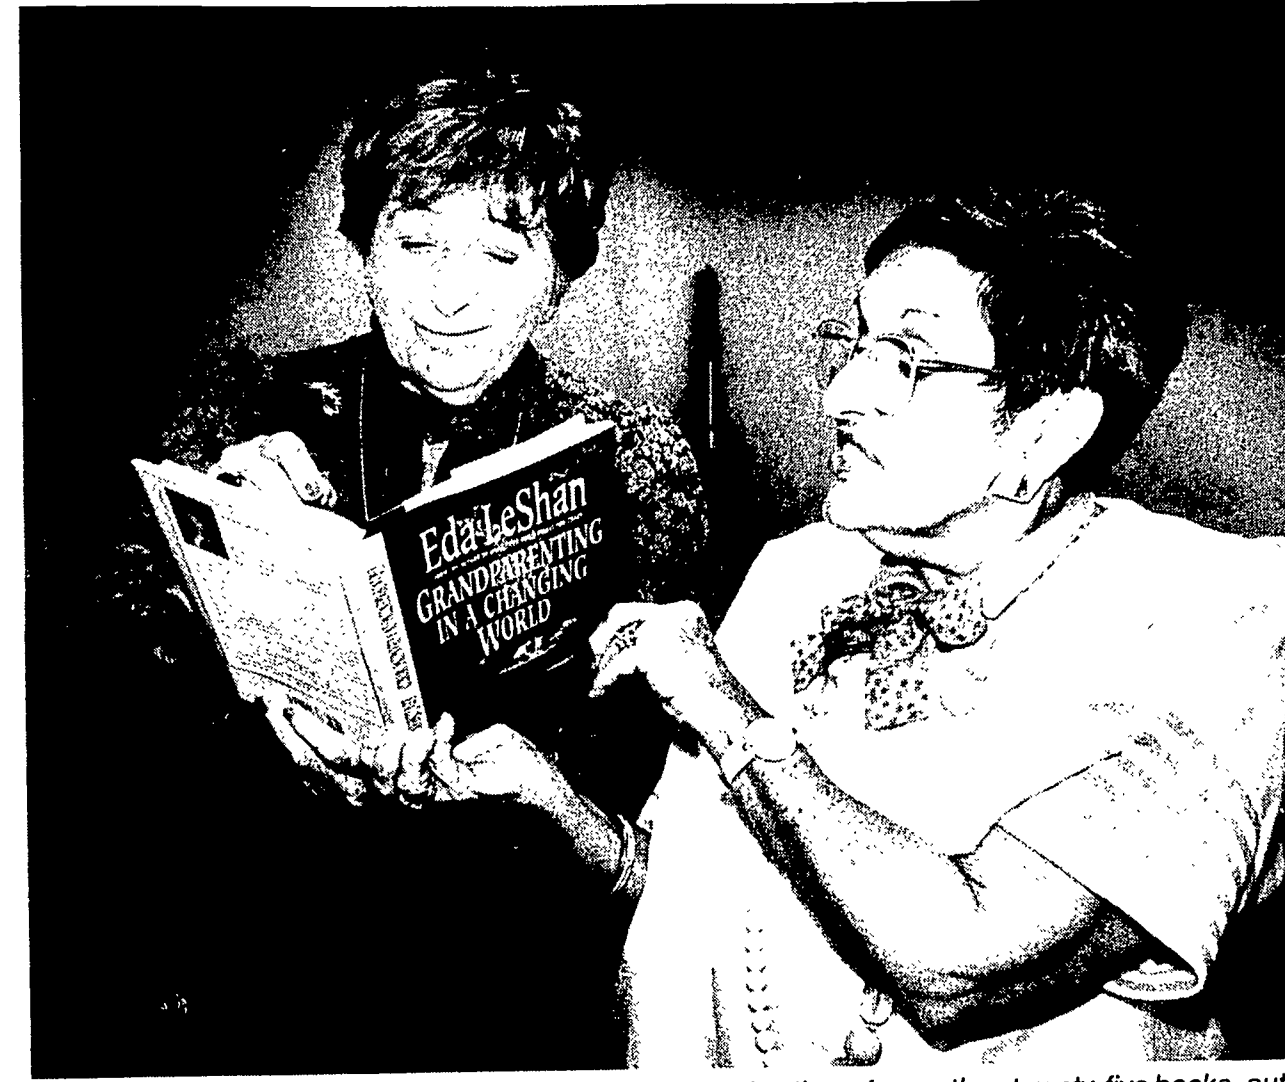

Qualified taxpayers can defer paying real estate taxes that equal up to 80 percent of the equity in their homes. An individual must be 65 years old by June 1 of the year they are filing; have a total household income of \$25,000 or less; own their own home and have lived in that home for at least three years; and have no delinquent taxes on the property. The state will pay the taxes and records the debt against the property with a 6 percent annual interest charge. Payment is not required until the homeowner sells the house or dies. The program is supervised by the County Treasurer.

Determination and Rehabilitation at Ballard Return Louise Home Again

Rehabilitation at Ballard is committed to helping people regain their independence and return home.

Louise, an active 82 year-old, is returning home again after her second rehabilitative stay at Ballard.

Louise keeps a busy schedule. Her days are filled with visiting friends, shopping, baking and taking in a good movie now and again. Her granddaughter even commented to me that Louise has a more active social life than she does!

When a stroke left Louise unable to continue with her busy life, she came to Ballard for her first rehabilitative stay.

With the help of our trained therapists, Louise successfully relearned the skills she needed to take care of herself. After a month's stay of intense rehabilitation, she was able to return to her home and active lifestyle with the assistance of a caregiver.

Later, additional medical problems brought Louise to the hospital, but for Louise this was a minor setback. Back at Ballard for her second rehabilitative stay, Louise endured a program

of recuperation and continued therapy, and has once again returned home.

Now Louise is looking forward to the holidays and all the baking she will do. Four generations of her family will get together to bake over 50 varieties of holiday cookies!

Stories like Louise's are heartwarming. With the determination to get well and a good rehabilitation program, the results can be amazing.

Trio performs at Luther Village

A Chicago-based vocal trio performed recently at Arlington Heights' innovative Luther Village Retirement Community.

The female trio, known as Stardust, hosted a revival of '30s and '40s music that has put them on stage with such greats as Maxine Andrews, the Tommy Dorsey Orchestra and Marvin Hamlisch -- not to mention various nationwide symphony engagements.

A more perfect audience could not have been found than the 300 Chicago-area guests buzzing in Luther Village's Lakeview Club. Recognition rang through the room at Stardust's expert revue of swing standards, ranging from "In the Mood" to "Begin the Beguine" to "Mr. Sandman." The greatest dose of nostalgia came by way of an old-time radio commercial break--Halo Shampoo, Brill Cream, Chiquite bananas, and Pepsi-Cola, to name a few. Stardust's fast-paced style aligned well with the active 55-

and-over lifestyle characterized by Luther Village. Residents of Luther Village are full equity homeowners, enjoying all the tax and legal benefits of real estate ownership while having access to an array of services, amenities, and future health care options. What's more, Luther Village residents are never at a loss for social and cultural activities such as

Stardust. The backdrop for Stardust's performance, via floor to ceiling windows, was the silhouetted frame of Bradley House--Luther Village's newest midrise building, to be completed in August of 1994. Both Luther Village and Stardust are evidence that the golden era of the '30s and '40s is still swinging around Chicago.

Former MG resident celebrates 90 years

Theresa "Tess" Clarkens-Krmicek of Ingleside recently celebrated her 90th birthday. The former owner of the Fox Lake Bowl on Rte. 12, and past entrepreneur of the White Eagle Resort, now called the Jackson Bay Resort on the west shore of Grass Lake in Spring Grove, lives with her daughter and son-in-law Ruth and Raymond Nick, where she's resided since the 1980s.

Krmicek was born on Aug. 15, 1903, under the maiden name of Betz, in a town called Niles Center which has since been renamed Skokie.

In 1923, she married William Clarkens who was killed in a trac-

tor accident in 1960. Mr. Clarkens was a contractor who moved Tess and their son to Fox Lake from their home in Morton Grove in 1954 to live closer to the bowling alley which they had owned since 1952.

During 1962, the Ingleside resident married her second husband, John Krmicek who passed away in 1972.

Krmicek's birthday party which was held at The Old Mill Inn in Wonder Lake, was attended by members of her family including her children, Alice Knaack and her husband Norm of Crystal Lake; and Bernice Winstead with her husband Wade, of Danville, Illinois; as well as Ruth and Raymond Nick. The birthday girl's other children, who by the way, were all born at home, include Irene Canovi of Libertyville, Shirley Gled of Glenview, and her only son, William Clarkens of Morton Grove.

The 90-year old explained her perception of the special day. "It was a good feeling. I don't feel that old yet," said Krmicek. The woman close to a century in age, has several secrets.

Krmicek is a member of the ooh, where a special prayer was said for her 90th birthday, explained her daughter Ruth.

For years, Krmicek had a polly parrot which she loved to teach words to so he could talk. However the bird passed away recently, said the 90-year old, who noted missing him dearly.

Krmicek had never been a patient at a hospital until 10 years ago, said Ruth. Krmicek has had three surgeries recently, including a mastectomy and even that won't slow her down.

Besides being a mother of 6, Krmicek is a grandmother of 15, a great-grandmother of 24, and a great-great-grandmother of 2.

Krmicek and her loved ones hope that she can add a penny a year for a long time to come to the penny lamp which lights up her bedroom saying "1903" made from copper coins, given to her by one of her grandsons.

Res Pavilion installs aviary

Residents at the Resurrection Nursing Pavilion, 1001 N. Greenwood Ave., Park Ridge, are enjoying the chirping and singing of small finches and canaries heard throughout the halls. The new Living Design bird aviary recently arrived at the pavilion and provides an access to nature for patients who are incapable of being outdoors.

According to Patricia Tiernan, Vice President of the Resurrection Nursing Pavilion, the aviary offers a sense of peace to the residents as they watch and listen to the colorful birds. "In anticipation of the long winter months, the aviary brings the outdoors inside to the residents," she said. "For many of the residents, a visit to the aviary is a special and relaxing time of the day."

It's a fascinating experience for residents to watch the birds in their own habitat. Residents can watch the adult birds nesting and caring for their hatchlings. The

Lawyer referral service expands senior citizens will program

A will is as important to seniors with modest estates as it is to those with vast holdings. To better assist seniors seeking legal help for will planning, The Chicago Bar Association Lawyer Referral Service recently expanded its Senior Citizens Will Program.

The Senior Citizens Will Program offers eligible seniors one free consultation with a lawyer and the low-cost preparation of a simple will. The program originally was offered only at participating suburban senior centers, but it recently expanded to five sites in Chicago.

To qualify for the program, a senior must be at least 60 years of age, with annual earnings of \$15,000 or less (\$20,000 for a couple). Assets, excluding a home and personal car, cannot exceed \$30,000, and the prospective client must reside in one of the areas served by the participating senior centers.

The fee for preparing a simple will is no more than \$50 for an individual or \$75 for a couple. Program attorneys may also consult with clients about Durable Powers of Attorney for health care of property at a fee of up to \$75 (\$125 for a couple), as well as advice on Living Wills at a charge of no more than \$50 (\$75 for a couple).

Senior centers that participate in the program are located in Des Plaines, Niles, Park Ridge, and Skokie. Co-sponsoring the program with The Chicago Bar Association are the Chicago Department on Aging, the Suburban Area Agency on Aging, and the Cook County Legal Assistance

Accountants offer advice on estate planning

According to the Illinois CPA Society, anyone who owns property or has children should design a plan for distributing his or her assets. A comprehensive estate plan can help to minimize the estate tax burden placed on heirs and provide the peace of mind that comes from knowing that property will be distributed according to the owner's wishes.

A Will Is The Cornerstone Of An Estate Plan

An estate includes everything owned at the time of death: bank accounts and investments, real estate, insurance policies, pension and profit-sharing benefits, interest in a closely held business, even home furnishings, jewelry, and antiques. Some property, such as the proceeds from insurance policies and pension plans, will pass directly to the beneficiary who was named. Any property held jointly will pass to the co-owner. However, writing a will is the only way to be sure that the rest of the property is distributed according to the owner's wishes.

A will helps to minimize estate taxes and other estate settlement expenses, allows designation of a guardian for minor children, and permits retention of some control over assets after death. Without a will, a court-appointed administrator will distribute property according to state law.

The Unified Tax Credit

Everyone is eligible for the federal unified tax credit, which allows leaving up to \$600,000 of assets to heirs free of federal estate tax. To estimate the size of an estate, total the fair market value of all property and other assets. In valuing an estate, use the current market value of the assets. Once the gross estate has been estimated, subtract funeral costs and administrative expenses for settling the estate.

Also, deduct any amounts owed, from the mortgage to unpaid credit card bills. If the adjusted value of the estate is more than \$600,000, the executor of the will must file a federal estate tax return with payment of estate tax due by nine months after the date of death.

Be aware, too that there is a movement in Congress to reduce the amount of the unified tax credit. If this happens, alteration of the estate plan may be necessary.

The Tax Advantage Of Gifts

One of the most effective ways to minimize estate taxes is to reduce the size of the taxable estate by giving away some assets before death. Any number of people can be given up to \$10,000 per year, per recipient, without paying the gift tax.

Giving a gift jointly with a spouse allows up to \$20,000 a year per recipient without triggering the gift tax. However, gift tax returns must be filed for such joint gifts. The gift tax can be escaped if medical expenses or tuition bills for a relative or friend, regardless of the amount involved are paid by the giver. To qualify for this exclusion, gift tax law requires that the bill be paid directly to the educational institution or to the person providing medical care. Keep in mind that the gift tax does not apply to gifts made to spouses.

A careful plan of lifetime giving can help bring an estate below the estate tax threshold or lower the estate's taxable amount if tax is due.

Donating To Charity

The size of a taxable estate can be lowered by giving money and property to a charitable charity through donations either while alive or through bequests in the will. When a donation to a charity is made during one's lifetime, the property is removed from the estate, and an income tax deduction is earned for the charitable contribution.

Use Of The Marital Deduction

The unlimited marital deduction allows spouses to leave their entire estate to the surviving spouse without incurring federal estate tax liability. Be aware, however, that, if as a result of this deduction, the spouse's estate totals to more than \$600,000, the spouse's estate will be subject to federal estate tax upon his or her death, unless other steps are taken to distribute part of the estate prior to the spouse's death.

Establishing Trusts

Placing property in a trust is another way to eliminate, or at least reduce the federal estate tax liability. A trust is an agreement in which the grantor transfers legal ownership of property to a trust on behalf of one or more beneficiaries named by the grantor. A trust can not only help to minimize taxes, it can provide for the management of assets in case of incapacitation and provide for minors and others who may be unable to manage their inheritances.

There are two major types of trusts, testamentary and living trusts. A testamentary trust is established in the will and takes effect upon death. Testamentary trusts permit determining what happens to the property after death and are administered by the trustee named by the grantor.

A living trust is set up and goes into effect during one's lifetime and may be revocable (can be changed or dissolved any time during a lifetime) or irrevocable (cannot be changed). In most states, if desired, the grantor can serve as the trustee and maintain complete control, or someone else can be named as a trustee to manage the property on behalf of the grantor and his beneficiaries. After death, the trust's assets automatically pass to the chosen heirs or remain in trust in accordance with the instructions. The nature of the trust will determine

whether or not the trust will have an effect on estate tax liability. Estate planning is a dynamic process that can help people achieve their goals for taking care of their family and heirs. It requires careful planning and up-

dating, a long-term strategy, and help from qualified professionals, such as CPAs and attorneys. For further guidance on estate planning, contact the Illinois CPA Society at (312) 993-0407 ext. 240 or 1-800-572-9850 and

Seniors say family is most important criteria in deciding where to live

Florida always has been known as a hot spot for retirees. But friends and family are what makes a place warm, and many seniors are retiring, or re-retiring, to the Chicago area. A close and loving family warms even the coldest Chicago winters, and makes a faraway, unfamiliar city home.

Ruth Ezsak and her husband lived in Florida for 20 years. When her husband died, she decided to come to Chicago. "This is where I belong; it's where I came from originally." She found her new home in The Breakers at Golf Mill in Niles, a rental community for seniors.

Family Comes First
The Breakers is close to Ruth's children and grandchildren, who are scattered throughout Chicago's suburbs. "I have to be with my children and grandchildren. They're important to me."

Deena Cohen, another Breakers resident, agrees. She raised her family in Fond du Lac, WI, so she's used to the cold weather. The thought of moving to a warm climate to escape the midwest winters never crossed her mind. She simply wanted to live close to her family.

Her children and grandchildren live in Skokie and Riverwoods, and she enjoys seeing them often. She doesn't miss any of her grandchildren's recitals, plays, Bar Mitzvahs or Bat Mitzvahs. She has a comfortable apartment for her family to visit. "I have an eight-year-old granddaughter who loves to come over. She was here for dinner the other night, and she stayed over and 'slept with Grammy.' She had breakfast yesterday morning and she didn't want to go back."

Children Take the Lead
Often, children are the major force in pulling a parent close to them. Years ago, Jessie Fox chose to be a teacher so she could spend time with her children as they grew up. Now a great-grandmother 12 times over, Jessie

Shown above (l to r): Deena Cohen, Jessie Fox, Ruth Ezsak and Regina Korabel, all residents of The Breakers.

sie had help and advice from her family in selecting a retirement community near her children, grandchildren and great-grandchildren. "I lived in Florida for 10 years and I liked it very much. But my children showed me The Breakers - they knew what I liked."

Regina Korabel came from Poland and lived in New York City for 31 years, and thought she would never leave. But her son, who lives in Morton Grove, was concerned about her living alone in such a big city. Together, they decided that she should move into The Breakers. Her son is comforted that his mother is in a beautiful, well-equipped apartment. He also knows that she's safe. The Breakers uses a 24-hour, total network security system, and emergency call buttons, located in all bedrooms and baths, instantly signal the 24-hour Emergency Response Center.

Regina enjoys seeing her son and two grandsons and she says, "I'm glad I came."

A Busy Schedule
Before she moved into The

Breakers, Deena didn't have access to all the opportunities a big city offers. It's been just a blessing for me. Living in a smaller town, you don't get the quality of life that you can here. At this time of your life, you really want to take advantage of it."

And she does.
"My grandchildren try to call me and they say, 'You're never home, Grandma.' After breakfast, I go to the walking club, then exercise class and lectures. We have sing a longs, trivia contests and entertainment on Saturday nights. I can go to plays, the library, museums, downtown to shop. We go to the symphony and plays. They pick us up by bus, wait for us and take us home. We saw Phantom of the Opera, Les Miserables, Miss Saigon. They offer wonderful educational programs. I did take Spanish, but I dropped it. You don't do everything. I don't have enough hours in the day!"

Ruth Ezsak says that she enjoys the variety of programs, parties and events available to her. "In the later years of your life, you have to have something to look forward to. It's the place to be for people like us." She also enjoys the freedom she has at The Breakers. "You go and come as you please." Some residents at The Breakers have a car, others take advantage of the PACE bus, which runs seven days a week and costs nothing for seniors. Residents can also take advantage of The Breakers courtesy van, which has regularly scheduled routes throughout the area.

An Extended Family
When they moved into The Breakers, these women got more family than they bargained for. Deena, who shares an apartment with her sister, says, "I've made so many new friends, they're like family."

Ruth, in the short time she has lived at The Breakers, also has made many new friends by becoming involved in the community. She adds that the staff, from the events coordinators to the administration to management, is another part of her new family. "Even the waiters call us by our first name. They have the patience of saints. Whatever you want, they get for you. The second day I was here, they knew my name."

"These are my golden years, when I can take advantage of so many things," says Deena.

Skokie office offers low-cost wills

Eligible senior citizens are offered low-cost will preparation services through the Senior Citizens Will Program Wednesday, Dec. 8, at the Skokie Office of Human Services. Appointments will be scheduled 9:30 to 11:30 a.m. that day.

An attorney from the Chicago Bar Association will provide free consultations about wills to seniors who register for the service. At a client's request, the attorney will also prepare a simple will for a reduced fee. The cost for drawing up a will is not more than \$50 for an individual (\$75 for a couple).

A senior may also ask the attorney to prepare a Durable Power of Attorney or Living Will document. A Durable Power of Attorney allows a senior to designate another person to make property or health care decisions in the event the senior becomes physically or mentally unable to do so. A Living Will allows an individual with a terminal health condition to express his or her desire to

have death-delaying procedures withheld or withdrawn.

The fee for completing a Durable Power of Attorney document is \$75 maximum for an individual (\$125 maximum for a couple). The cost for establishing a Living Will is no more than \$50 for an individual (\$75 for a couple).

To be eligible for the Senior Citizens Will Program, a client must be age 60 or over. Annual income must not exceed \$15,000 (\$20,000 for a couple); and assets, excluding a home and personal car, should be worth no more than \$30,000.

The Senior Citizens Will Program is sponsored by The Chicago Bar Association, the Suburban Area Agency on Aging, the Chicago Department on Aging, and the Cook County Legal Assistance Foundation.

To schedule an appointment for the Senior Citizens Will Program, contact the Skokie Office of Human Services at (708) 673-0500, ext. 208.

Honored with World War I medal

Elmer Frohardt and his son, Bud Frohardt.

Elmer Frohardt, 101, a resident of Regency Nursing Centre in Niles, was presented with an honorary medal commemorating the 75th Anniversary of World War I.

Frohardt enlisted in the War as a student when he was 25 years old.

His wife, Minnie, who passed away last year at the age of 98, wrote to him every day. "Even though I didn't receive the letters every day, I could tell by the postmarks that she was writing me daily," he explains. Frohardt met his wife when he was a 9-year-old and she was a 7-year-old living on an island in the Mississippi River between Missouri and Illinois.

Before going to France, Frohardt was a student studying agriculture at the University of Illinois. He also spent time in Canada, along with 300 other Americans, helping with farm work.

When he returned to the states,

Frohardt went back to school for one semester, and then his father, who was a superintendent of schools in Missouri, needed a teacher to fill in for a few weeks. Frohardt took the job and stayed 39 years, teaching General Science to high school students.

The Frohardts had two children: a daughter who passed away in 1975 and a son, Bud Frohardt, who lives in the Chicago area.

Frohardt's best memory of World War I is the day he arrived back in the United States. His eyes light up when he talks about the momentous occasion.

The 75th Anniversary of World War I Commemorative Medal is a gift of the Robert R. McCormick Tribune Foundation, a private, not-for-profit foundation, located in Chicago. Patterned after the World War I Victory Medal, awarded to those who served in that war, it is surrounded by a wreath of laurel signifying honor.

FCS offers tips to help enjoy the holidays

Thanksgiving marks the traditional kickoff of the holiday season, a time of closeness, special family times, and warm, friendly meals shared together, creating memories for years to come. Not so, according to the staff of Family Counseling Service of Evanston and Skokie, a social service agency that provides supportive services to families in the north suburban area.

"The holidays can be a particularly stressful time for families," said John Buckley, Executive Director of FCS. "The media images of warm, happy times don't usually measure up to the realities of most people's lives, and so there is an inevitable sense of disappointment."

The reasons for holiday stress and burnout are varied: heightened expectations, too many demands and not enough time, increased financial pressures, or painful memories of past holidays that may have been different or more enjoyable. The best cure for the holiday blues, other than a long vacation overseas, is planning.

Family Counseling Services is one of the few agencies in the near north suburban area that offers counseling on a sliding scale, and FCS staff report an increase in the number of people seeking help during the holidays. To help those families, and to provide some preventative planning advice for others, FCS has developed a list of tips to help families plan for the upcoming holiday season.

The key, according to the FCS counseling staff, is to have realistic expectations. For parents, the always difficult challenge of balancing their own needs with the needs of children can be extra stressful around the holidays. Tana Paul is the assistant director of FCS and head

of the Child Abuse Treatment program, which provides counseling and parenting skills education to nearly 175 families each year. She encourages stressed out parents to take time out for themselves and talk with their children about what is happening in the family.

Cindy McKay, a north suburban mother with four young children, says one key to maintaining holiday sanity is to include children in holiday preparations, even if this means that your cookies will not look exactly like the pictures in the magazine.

"Lock up those credit cards!" says Mary Rose, director of the Consumer Credit Counseling program at Family Counseling. "Don't let the manipulative messages of ads and sales get you off your budget."

Many points to excessive spending as one of the chief reasons people come to Family Counseling for debt management assistance. She suggests making gifts, or agreeing as a family to limit gifts to only things that cannot be purchased. Adults can stretch their imaginations and give gifts such as coupons, to rake the leaves or shovel snow. Children really enjoy craft projects, and their finished product is more valuable than anything that can be purchased in a store.

For those who are feeling overwhelmed or have more serious problems coping with holiday pressures, help is available. FCS's sliding scale counseling is available to residents of Evanston, Skokie, Morton Grove, Niles and Lincolnwood through four main programs: Child Abuse Treatment, Family Couple & Individual Counseling, Senior Services and Consumer Credit Counseling.

Call (708) 328-2404 for information.

Choir presents program

The Niles Symphony and Concert Choir will give its annual Christmas program on Sunday, December 5, 3 p.m., at University of St. Mary of the Lake Chapel, Routh 176 (just east of

Holiday Gift Guide

'Toys for Tots' program underway

The U.S. Marine Corps Reserve will once again be distributing new toys for Christmas to underprivileged children nationwide through their "Toys for Tots" program.

This year, 370 Northwest Financial branch offices in 40 states will serve as "Toys for Tots" collection sites for new, unwrapped toys. Toys are needed for kids of all ages, infant through teenager.

More than 8 million toys were collected and distributed to children nationwide last Christmas thanks to the "Toys for Tots" program.

Residents of greater Chicago interested in donating new, unwrapped toys can bring their gifts to any of the seven area Northwest Financial offices. The offices are open weekdays during regular business hours.

Catholic Charities seeks Christmas gifts

Celebrate the season of joy by donating a gift for someone who otherwise will not be remembered during the holidays. Catholic Charities is seeking 10,000 Christmas gifts this year for the most vulnerable of the people it serves. Who are these people?

They are the children who live in fear, poverty, often without love and usually without hope; children who have been abused physically, emotionally and/or sexually; children born with AIDS, sexually-transmitted diseases or with cocaine in their systems. They are elderly men and women who live in severe poverty, have no family left and are homebound. They are people of all racial, religious and ethnic backgrounds.

One can participate in Catholic Charities' Toy Shower Season by bringing a new, unwrapped gift to one of eleven drop-off locations. Call (312) 655-7174 for a free brochure with gift suggestions, ways to donate and addresses.

The chorus is made up of thirty five members and meet every Tuesday evening for rehearsal at the Recplex. In addition to the concert on the 14th, the chorus will perform a concert at the Mount Prospect Library on Sunday, Dec. 12 at 2 p.m.

Donald Fraser's "The Christmaside" originally written for soprano Jesse Norman, and arrangements of "Fum, Fum, Fum" and "I Saw Three Ships" for chorus and piano four-hands, as well as many other favorite carols will be the pianist. Homemade holiday bakery items will also be on sale at the concert.

Presented will be a variety of Christmas anthems and carols including Benjamin Britten's "A Hymn To The Virgin." November 18 designated as 'Family Reading Night'

Secretary of State and State Librarian George H. Ryan is calling on parents to set aside time to read with their children on Nov. 18, Illinois' second Family Reading Night.

"Study after study shows that we are raising a generation of children who can read - but don't," Ryan said. "Reading has never been more essential to success in school and in life. That's why I'm asking parents to switch off the television set on Nov. 18 and spend some time with their children reading as a family."

Ryan created Family Reading Night last year to encourage more families to make reading part of their daily routine. Hundreds of families and about 300 schools, representing about 25,000 students, wrote Ryan's office to say how much they enjoyed the event.

Several parents wrote to say thanks for reminding them how peaceful it was to turn off the television, while others said thanks for reminding them how much

fun it was to read and exchange ideas with older children.

"Although we try to read every night," one family wrote, "we all enjoyed the 'special night' by reading together in front of the fireplace, with our pillows, blankets and popcorn."

Following up on last year's program, a special incentive once again is being offered to new families. In cooperation with the Illinois Hospital Association, Ryan will present a reading packet to the family of every child born in Illinois on November 18.

The complimentary packet will include a washable ABC book; a parent's guide to reading, "Babies and Books: A Joyous Beginning"; and a copy of "Ladybug," a magazine for preschoolers.

Family Reading Night is sponsored by the Illinois State Library and supported by the Illinois State Board of Education and several library and reading groups.

ated areas in which gangs meet, in Niles.

Reid referred to the recent gang shooting and pointed out that only one of the men involved in the incident, one of the injured men, is a Niles resident.

"There is a difference between an encounter and a continued presence," Giovannelli said. "It would be foolish to say there are no gangbangers in town, but I don't know of any spot in the Village of Niles that I would call a gang presence."

Giovannelli said that although the police department is aware of gang problems, it is impossible to prevent every gang activity from occurring.

"It would have taken a great deal of luck to prevent what happened on November 7," Giovannelli said. "That doesn't mean that police can't prevent what happened."

The police chief noted the aggressiveness of the Niles Police Department after the shooting, stating that the suspects were "racked up" within 24 hours.

He also stated that the court dealt harshly with bonds for the suspects, granting one suspect a bail of \$100,000 and four others \$250,000 bonds. Chad Hathaway, 20, Des Plaines, was charged with attempted murder and received a bond of \$500,000.

Jesse Navarro, 22, Wheeling, was charged with attempted murder, armed violence, aggravated battery, aggravated discharge of a firearm, unlawful possession of a weapon by a felon and mob action. Navarro received a bond of \$1,000,000. According to police, bail has not been paid for the suspects who remain in the custody of Cook County Court.

"Many gang members we've encountered throughout the years don't feel comfortable in Niles," Reid said. "They feel we adhere

too strictly to the letter of the law and that bothers them."

Reid said three other suspects will possibly be arrested in connection with the incident and that they are "still being sought". Reid also said police may have a lead on the identity of the second shooter in the incident, but would not comment on whether it is one of the seven already charged.

The suspects charged in the gang shooting are scheduled for court on November 24. Giovannelli said the sentence for attempted murder can range from 6 to 30 years and pointed out that any time the men spend in jail now will be considered time served when sentenced later.

Niles police have followed up with Ray Cooper, principal of Mark Twain School, who plans on adding more outside lights to the property.

Giovannelli said Niles police meet regularly with administrators in various schools, such as

Maine East, regarding gang members. In addition, the police department maintains close contact with other police departments and sheriff's offices in the area. If the department learns of a potential gang member living in Niles, Giovannelli said, "we follow up."

"We are doing everything we can to keep gangs out of Niles," Giovannelli said. "Niles is very aggressive with gang members, but we can't prevent everything."

Reid and Giovannelli also warned of a tendency to attribute crime to gangs, when in reality, the crime events may have nothing to do with gang members.

"People should be careful," Giovannelli said. "Two or three 17-year-olds walking down the street are not necessarily gangbangers."

"It is not against the law to be a gang member...yet."

Another shooting ...

Continued from Page 1

Police said a student brought a .22-caliber Magnum five-shot revolver, the gun used in the shooting, into Mather on Tuesday in an effort to hide it.

Five Mather students were in custody being questioned by police Tuesday. Three of the students have since been released.

"We still have two subjects in custody," said Skokie Police Officer Jim Chwalisz Wednesday morning. "They haven't been officially charged yet, I don't know what the hold up is."

Investigators said they have no clear motive for the shooting. Skokie police said neither the suspects nor the victim had any apparent gang affiliation, but authorities will continue to investigate for any gang connection.

"We think this was basically a disagreement that occurred in Chicago several weeks ago that came to pass here," Chwalisz said.

have to something about it in the park district."

The seminar came as Niles experienced its first-ever gang shooting at Mark Twain Elementary School, 9401 Hamlin, November 7. On Monday, another shooting, possibly gang-related, occurred near Niles North High School in Skokie.

Park Board President Bud Skaja, Jr. attended an all-day seminar at the convention about park safety. He said he thought the way the Niles Park District was doing park safety was great -- until he sat through this seminar.

"The ice rink grand opening was well attended and fun," said Commissioner Myrna Breitzman. "I was surprised at how many people were there."

"I want to congratulate the staff on the wonderful ceremony and opening at Iceland," continued Baczek. "I am happy and privileged to be a part of the whole renovation process."

The Iceland staff and programs will be featured in the winter-spring Park District brochure coming on December 3, "so look for it," Breitzman said.

Breitzman also reported that fall registration is up 11 percent since last year. Children can look forward to the Breakfast with Santa, scheduled for December 11 at 9 and 11 a.m. at the Rec Center. For \$3 children will eat a McDonald's breakfast, create craft projects, sit with Santa and get their picture taken.

Finally, Skaja reported that there is no update on the Oak School purchase and that it is now between the lawyers.

"It is moving along," Skaja said. "You know how the wheels of justice move...very slow."

MG plans Thanksgiving dinner

Through the efforts of the Niles/Morton Grove Rotary, the Morton Grove Foundation, and the Morton Grove Park District, the annual Thanksgiving Dinner at the Prairie View Community Center will be held again this year.

This event is for those who, for whatever reason, would be alone for this holiday. The entire day is free of charge.

The day begins with a football game shown on TV and hors d'oeuvres followed by a traditional holiday dinner. The day will end with a choice of desserts.

Gregory Boyle, son of James and Jaclyn Boyle of Skokie, was among the students receiving the Bachelor of Arts degree from Carleton College.

Graduates

The Department of Illinois Jewish War Veterans Auxiliary will hold their regular meeting on November 28, at the Warren Park Fieldhouse, 6601 N. Western Ave., at 10 a.m.

President Ann Weiss will give her report on the N.E.C. meeting that will be held in Skokie.

dent occurred November 7 at Mark Twain Elementary School, 9401 N. Hamlin, and involved at least two gang members from the Latin Kings, a Chicago gang.

Two men were shot in the incident and one received a severe injury after sustaining blows to the head by an aluminum bat. Nine men were arrested and seven charged in connection with the attack.

Police said that both Mather and Niles North high schools have gang members among the student body.

The Maine Township Task Force Against Gangs met last night at township hall.

In Grade 4, 66 percent of the students exceeded state goals in Social Science and 71 percent in Science.

In Grade 6 at Culver, Reading was the only subject that had any students that did not meet state goals, and that amount fell at a mere three percent. However, in the same subject, 33 percent exceeded state goals and seventy-three percent did it in Writing.

Fifty-five percent of the students in Grade 7 fell into Level 3 in Science and 39 percent in Social Science; the rest met state goals.

Postal Service provides tips for mailing photos

Since one picture is worth a thousand words, the U.S. Postal Service suggests mailers follow their advice to ensure their memories reach the intended destination.

"We process millions of pieces of mail for destinations throughout the United States every day," says Jim Curtis, Plant Manager, Chicago Bulk Mail Center. "Occasionally pictures and other small items slip out of their original packaging. But when customers label each item in their package, we can still effect delivery even if the items are separated."

With the holiday season quickly approaching, the Postal Service is providing a little extra packaging advice for those customers who routinely send precious photographs through the mail.

Put a name and address label on the back of each picture so that if, for any reason, the pictures are separated from the original packaging, they can be returned to you.

Place pictures between two sturdy pieces of cardboard and tape the cardboard together to keep your photos securely in place.

Use an envelope that will provide a snug fit for your pictures, and

Make sure you properly label your envelope "Photos Enclosed -- Do Not Bend."
