Senior Citizens Law Enforcement program

THE BUGLE, THURSDAY, JUNE 5, 1997

Cook County Sheriff Michael F. Sheahan invites all Cook County senior citizens to particicpate in the Senior Ctitizen Law Enforcement Academy beginning Tuesday, June 17, 9:30-11:30 a.m., at the Schaumburg Park District, 505 Springinsguth Road in Schaumburg.

The academy meets Tuesdays through August 5 and offers seniors valuable information on the county's law enforcement system. Sheriffs' officials educate attendees in personal safety, gang and drug awareness, police department operations, criminal and civil laws, county courts and more. To register or receive more information, please call 773-890-7725.

GlenBridge Fantasy Cruise a Big Success

GlenBridge Nursing and Rehabilitation Centre set sail on a fantasy cruise on May 12 at 2 p.m. We started our trip with a Bon Voyage Party featuring the Electric Bluze Brothers.

On Tuesday, our "ship" took us to our first port of call, Puerto Rico, where Arlene Pagan, a native of Puerto Rico, was the tour guide of the day. Arlene provided us with some of the history of Puerto Rico throughout the day. Later in the afternoon, Arlene provided everyone with some of the local cuisine.

Mike Grisham was our tour guide for the island of Hawaii on Wednesday. Mike dressed up in native attire and provided our residents with some of the history of Hawaii. Later that evening, we had our Hawaiian Luau with the Royal Polynesian Revue. Mike was selected to dance with the Hula girls. Eileen Bregianos, our Director of Nursing, was there to

Thursday, we arrived in New Orleans where we learned about some of the unique culture and traditions of that city, and about Mardi Gras. We also were able to sample some of the local cuisine at our Mardi Gras Party. We had poorboys, king cake, hopping John, and many other delights. Everyone enjoyed the Cajun music and party atmosphere.

We ended our trip by heading out to Texas for a good ol' fashioned Bar-B-Q on Friday. Mike and Eugene were manning the grill as they cooked for over 300 people.

We had an attendance of over 100 people at each event through our cruise. Most of the attendants were residents. Some of the people attending were family members and many more were members of the Niles community.

GlenBridge **Fantasy** Cruise a Big Success

The following Monday, Kathy Doherty, activity director at GlenBridge, was touched by the thank-you notes that were given to her by residents, family members, and the members of the community. Kathy and her staff were especially touched by one resident, Josephine Olszowka, who said that the staff of Glen-Bridge really do make a difference. GlenBridge truly cares with

The Niles Senior Center is open to residents of the Village of Niles age 62 and over, and their younger spouses. Niles seniors interested in obtaining additional senior center information should call or visit the center and be placed on the mailing list. The center is located at 8060 Oakton Street. YARN NEEDED

The Senior Center is requesting any left over yarn or scraps of material (8" x 8" or bigger). Lap robes and shawls are made for veterans at Hines Hospital. Volunteer knitters and crocheters are needed also. If interested, contact Mary Vandenplas. SHIP PROGRAM

Volunteers from the Senior Health Insurance Program are available on Monday and Friday mornings to assist with Medicare and supplemental insurance questions. Call for an appointment

Spaghetti Dinner at Legion

The Morton Grove American Legion Auxiliary Unit #134 invites the public to a spaghetti dinner on Sunday, June 8th from 4-8 p.m. at the Legion Memorial Home, 6140 Dempster. Reservations are encouraged, however, tickets will be available at the door.

The donation is \$6.50 for adults and children 10 and over, children under 9 is \$4.

The all-you-can eat spaghetti dinner will be served with meat sauce and/or meatballs, a salad, garlic or plain bread, dessert and coffee.

For further information and reservations from Auxiliary president Pat Kim, 847-966-3674 or Myrna Smith, 847-673-2197.

Oasis Waterpark & Iceland Pool **Resident Rates**

The resident daily admission rates for both Niles Park District pools for 1997 are as follows: afternoon-\$4, evening-\$3, Seniors afternoon-\$3, Seniors evening-\$2. Niles Park District residents who wish to visit either pool MUST present a resident ID pass in order to receive the resident rate. This pass consists of a photo ID, which can be obtained at the Howard Leisure Center, located at 6676 Howard Street, at no charge. Niles Park District residents who wish to obtain a resident ID at the Howard Leisure Center need to bring proof of residency in the form of a photo ID with an address listed on it along with a second form of ID that lists the address. July 14th will be the last day that a drivers license may be used to verify residency for pool admission. After that day, if no resident ID is presented, resident admission rates will be denied, and non-resident fees will be charged. For more information, please call 847-967-6633.

Legion Blood **Drive in Morton** Grove

The Morton Grove American Legion Post #134 is calling upon the citizens of Morton Grove and the surrounding communities to join in their blood donor program. A blood drive will take place Mon., June 9th, at the Post Memorial Home, 6140 Dempster from 3:30 - 7:30 p.m. A mini physical is given to each prospective donor.

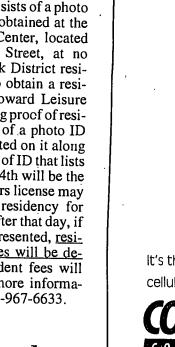

Blood Donor Chairman Tad Kimura can be reached at 847-965-4730 for further information. He will also take appointment times, although a definite time is not a pre-requisite. Walk ins are always welcome.

No Legion affiliation is neces-

sary.

Leo Madura wins **Senior Spelling Bee** for third time

THE BUGLE, THURSDAY, JUNE 5, 1997

Leo Madura of Niles has won the distinction of being the Spelling Bee champion of The Niles Senior Trident Center for three years in a row.

The fifth annual Spelling Bee was held at the Trident Center on Wednesday, May 28 and 8 members: participated in the yearly event. In addition to Madura, other participants included Rosaleen O'Malley, Wally Kane, Phyllis Dina, Lucille Kozanecki, Laura Palewski and Mary Karris.

Moderator for the spelling bee was Dr. Robert Varga, superintendent of District 63 and judges included Niles Library Public Services manager Pam Nelson, Niles Village Clerk Kathy Harbison and Diane Miller of The Bugle Newspapers.

All the seniors were presented with certificates for their participation in the Spelling Bee and the three top winners received gift certificates.

time, as directed and don't stop. COMMISSION ON AGING The Morton Grove Commission on Aging will hold its next monthly meeting at 1 p.m. on Tuesday, June 10 in the Flickinger Municipal Center. The commission provides an arena for discussion and planning of services and programs to benefit Morton Grove's senior citizen population. All interested residents are welcome to attend.

On Tuesday, June 10 from 1 to 3 p.m., the Morton Grove Senior Center offers a free personalized check-up of medicines. During this check-up, pharmacist Gene Bernstein, R.Ph. will review medicines and discuss individual medicine-taking routines. The conversation is private and there may be follow up with the individual's physician about serious concerns. Interest-ed seniors should contact the Morton Grove Senior Hot Line at 470-5223 to make an appointment for the check-up and bring all medicine in the original containers. **OSTEOPOROSIS SCREENING**

Each year, several hundred thousand older people are seriously disabled by broken bones. The incidence of hip and arm fractures goes up with age, particularly in women, and it is estimated that 10% to 20% of seniors who suffer broken hips die within six months of the injury. One reason for this increase is that since bones are not as strong as they once were, even a minor impact may result in a fracture. Osteoporosis, the gradual thinning and weakening of bones with time, occurs to varying degrees in most adults. White women with small frames have the highest incidence. A body scan-type screening for osteoporosis will be available from 9 a.m. to 12 noon on Saturday, June 14 in the Maine Township Town Hall, 1700 Ballard Road in Park Ridge. The cost is \$10 and reservations are required by calling the Suburban Area Agency on Aging at (708) 383-0258.

"TEA -RIFIC" GIRL SCOUT TEA PARTY Join Morton Grove Girl Scout Troop 741 in an afternoon of tea and entertainment. This "Tea-rific" Party will feature several young local musicians. There will be cake and assorted teas served. The Brownie Girl Scout Troops from the area will accompany each senior as a hostess. The "Tea-rific" Party will be held from 1 to 3:30 p.m. on Thursday, June 19 in the Morton Grove Village Hall Senior Center. This afternoon delight is free and open to all Morton Grove senior citizens. Call the Morton Grove Senior Hot Line at 470-5223 to reserve a spot with the Girl Scouts. COOK COUNTY CANINE UNIT

The Morton Grove Park District's "Take Time for Thursdays" series presents a special demonstration and program by the Canine Unit of the Cook County Forest Preserve Department of Law Enforcement at 1 p.m. on Thursday, June 19. Hear and observe how the dogs help police to keep law and or-der and investigate crimes. If weather permits, the program will be presented in the Prairie View Park adjacent to the Community Center. This is a great program of experience with grandchildren, so please bring them along. The program is free, but reservations are required by calling 965-1200. and a second a second a second a second a second a second a

Morton Grove Senior Citizens 470-5223

SIX SECRETS TO CONTROLLING BLOOD PRESSURE

Know the numbers and have blood pressure checked regularly. Normal blood pressure (less than 130/85) should be rechecked at least once every two years. "High normal" is 130-139/85-89, and blood pressure equal to or greater than 140/90 is considered high. A free blood pressure clinic is offered from 9 to 10 a.m. on the second Tuesday of each month in the Morton Grove Village Hall Senior Center. This month's date is

2) Maintain healthy weight. If overweight, the surest way to help control blood pressure is to shed pounds and getting regular exercise. But even if a person is lean, regular exercise can lower blood pressure.

3) Limit alcohol. It's simple, heavy drinking can raise blood pressure, and cutting back can lower it. 4) Use less salt. Studies now show a weaker link between

sodium and high blood pressure. But many experts still think cutting back is worth a try. Why? About 10% of people are "salt sensitive," meaning sodium raises their blood pressure.5) Mine those minerals. Calcium, magnesium and potassium are considered important in blood pressure regulation.

Low-fat dairy items and some green leafy vegetables, like spin-ach and broccoli, are not only good sources of calcium, they're also high in potassium and magnesium 6) If taking a prescribed medication, be sure to take it on

Suburban art contest winner

Cook County Commissioner Maria Pappas has selected the winner of her 1997 suburban high school art competition. Kevin Millins of Prospect High School in Mt. Prospect, will be honoed prior to a meeting of the Cook County Board on Tuesday, June

Paulina Daley, an art teacher at Prospect High School, commended Commissioner Pappas for organizing the competition, saying in a letter accompanying entries from her school, "The students really like the assignment. found their work particularly touching, knowing the difficult family life some of them endure." Commissioner Pappas asked that entries depict what best rep-resents family. Mullins' winning entry portrays family life among people of all ethnic backgrounds, depicting persons of various races in family settings.

A \$500 U.S. Savings Bond is Kevin's prize. The painting will be displayed in Commissioner Pappas' district office until next year's winning artwork replaces

for Cancer Research America's cultural obsession ith being thin may have a new victim. The media has recently focused on the fear some women have of gaining weight during pregnancy. While the desire to avoid excessive weight gain in pregnancy is quite reasonable, education is needed about the necessity of weight gain for a healthy baby.

Since a typical healthy newborn often weights between six to eight pounds, some women worry that the rest of a normal twenty or thirty pound weight gain during pregnancy is the result of them getting fat. Yet, weight gained during pregnancy includes not only the baby's weight, but also about one-and-ahalf pounds of placenta (the connection between mother and baby), two pounds of amniotic fluid within the uterus, three pounds as a result of the necessary expansion of body fluid and blood volume.

Doctors recommend that women who are overweight before they become pregnant should gain between 15 and 25 pounds to allow for proper tissue develop-

The Gentle Touch of Massage Therapy

The therapeutic art of massage

therapy will be offered to the community one day a month at Glenview Terrace Nursing Center. Every second Tuesday, from 1 to 4 p.m., students from the Chicago School of Massage Therapy will offer this form of muscle re- May 4 through 10. laxation and stress relief.

Kathy Gerken, Nationally Certified in Therapeutic Massage and Bodywork, and who works in the Business office of Glenview Terrace, says that massage therapy is particularly beneficial for those people who use a wheelchair or walker and are especially prone to tight shoulder and neck muscles.

Massage therapy also helps ease emotional stress, enhances morale and lifts spirits. The touch of a massage therapist is soothing, gentle and reassuring. Many elderly experience touch deprivation and physical isolation.

The free massage therapy sessions will be 15 to 20 minutes with the next session being on Tuesday, June 10. Reservations are requested. To make a reservation, call Kathy Gerken at (847) 729-9090. Glenview Terrace Nursing Center is located at 1511 ney failure. Greenwood Road in Glenview.

DesPlaines Camera **Club celebrates** anniversary

The DESPLAINES CAME-RA CLUB held its Annual Awards Banquet on May 18th at The Fireside Restaurant in Morton Grove celebrating the Club's 45th Anniversary. The program, "Touring the Holy Lands", was presented by George Doerner, member of the DesPlaines Camera Club.

One of the oldest camera clubs in the Northern Illinois area, it was formed on June 23, 1952 by a group of individuals who shared an interest in photography. It provided the encouragement to members to fulfill their ambitions to make photography a hobby inwhich they could not only learn from one another, but to have an outlet for their creative interest.

Officers for the 1997-98 photo season (September 1997 through May 1998) were re-elected. President Norb Wrobel of DesPlaines, Vice-President Evalyn Mikes of DesPlaines, Treasurer George Keller of Arlington Heights, Recording Secretary Jean Ungar of DesPlaines, and Corresponding Secretary Kay Michaely of DesPlaines.

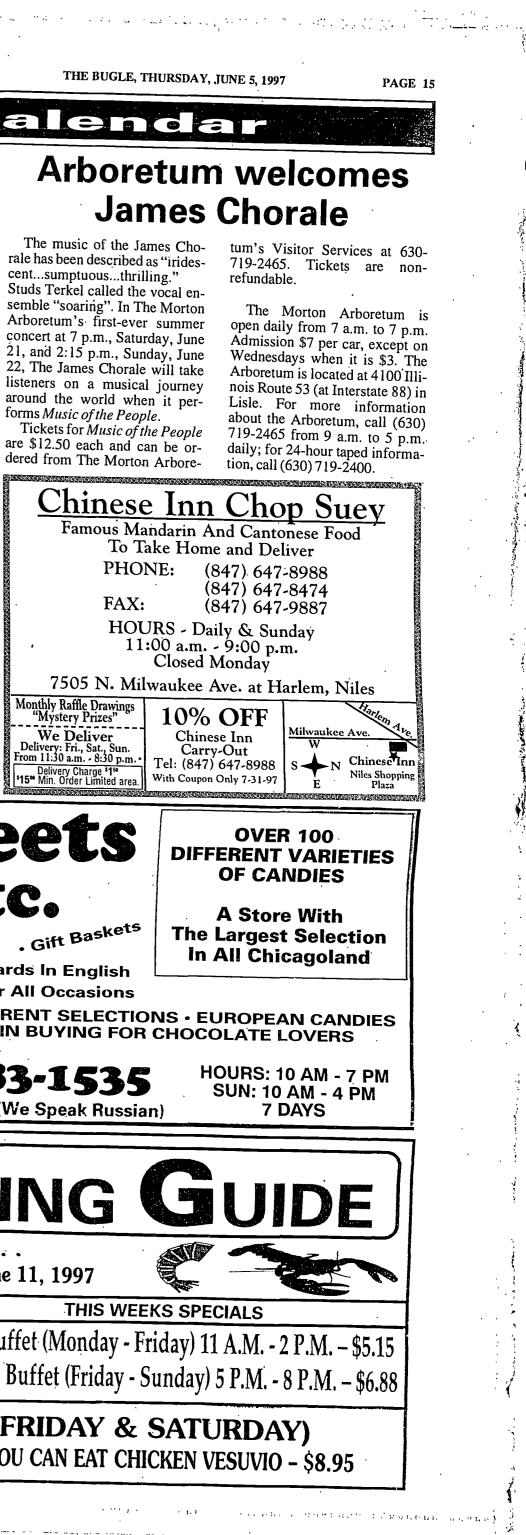

The DESPLAINES CAME-RA CLUB meets on the second and fourth Monday of each month, September through May at the PRAIRIE LAKES COM-MUNITY CENTER in the Prairie Room. The Center is located at 515 Thacker in DesPlaines. Meetings will resume on September 8th at 7:30 p.m.

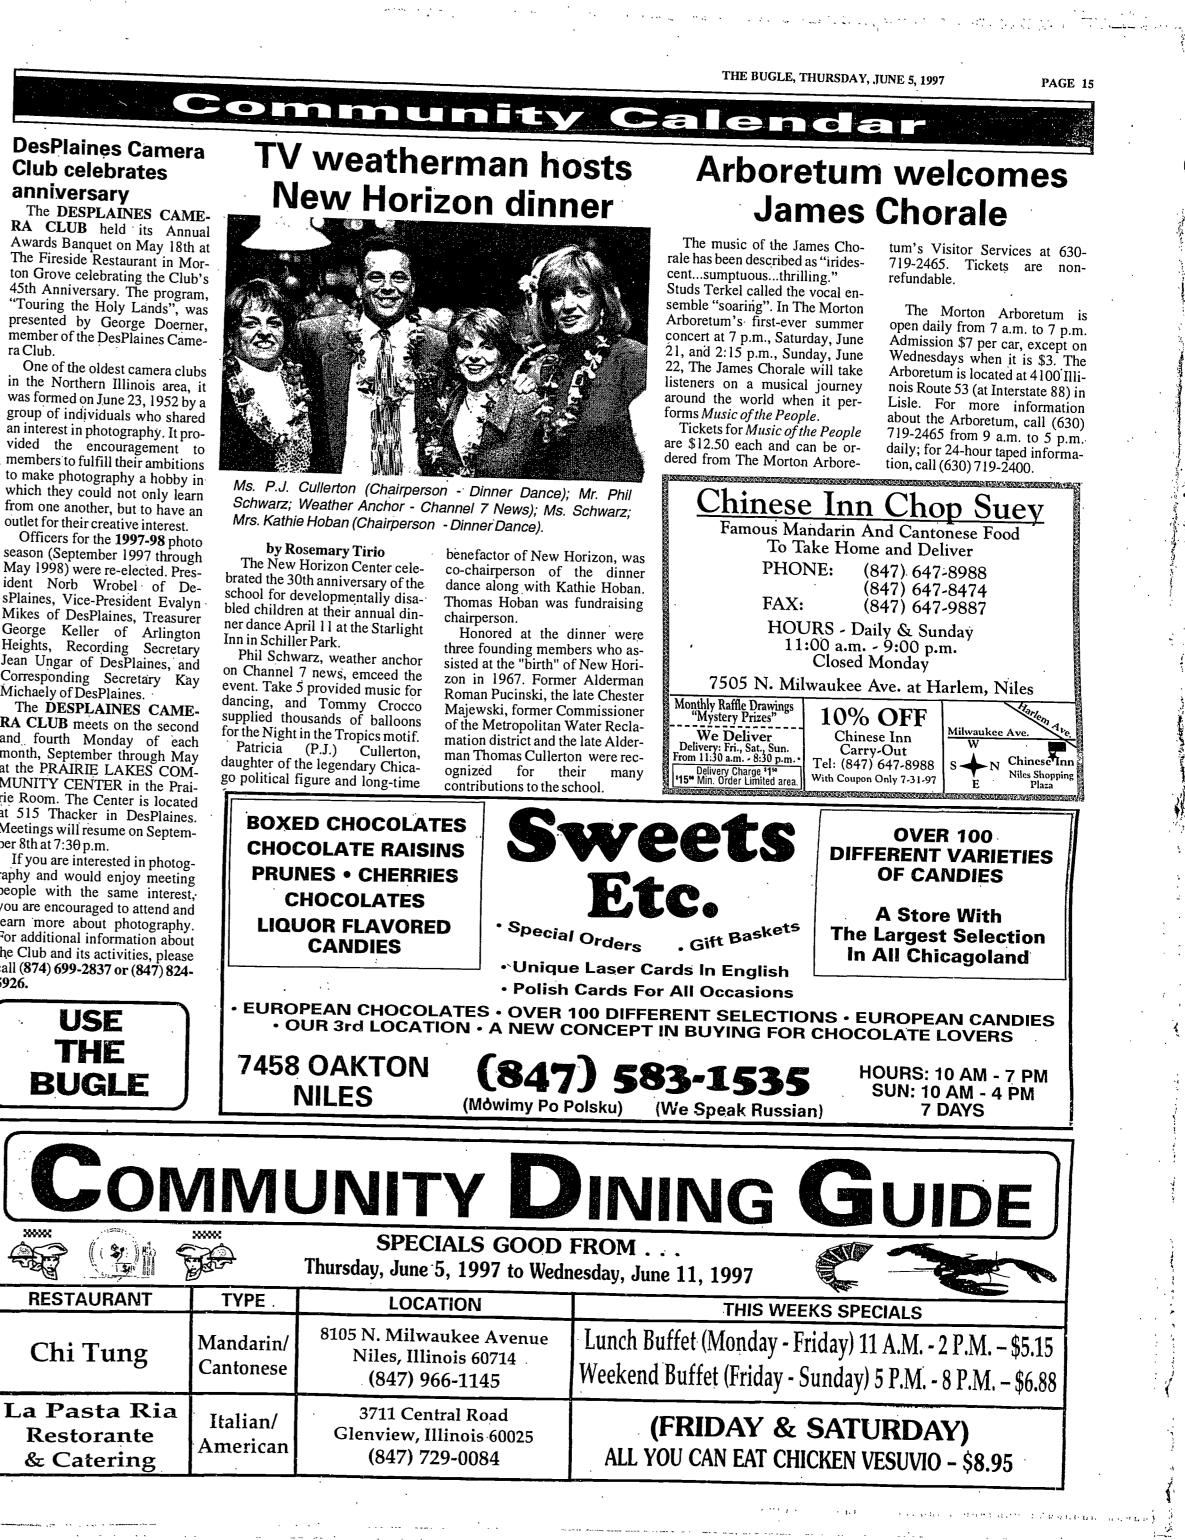

If you are interested in photography and would enjoy meeting people with the same interest. you are encouraged to attend and learn more about photography. For additional information about the Club and its activities, please call (874) 699-2837 or (847) 824-5926.

Butler measure expands testing in public schools

Illinois schools should see a higher quality of education under a new testing plan approved by the Senate, according to state Senator Marty Butler who sponsored the measure.

Butler says this plan builds on last year's Quality First education plan to create a more stringent testing schedule. These changes were made at the request of the State Board of Education.

Under this initial proposal, students would be tested in grades 3, 5, 8 and 10 on reading, writing and math. Science and Social Science exams would be given in grades 4, 7 and 11. Fine Arts and Physical education/health progress would be assessed at state and/or local level by sampling or census.

"Once we start negotiations with the House, I expect to add another exam for 11th or 12th grade students," Butler said.

Introduction to Internet lecture

Sandra Wittman and Judith Mayzel, head librarians at Oakton Community College's Learning Resource Centers, will conduct an introductory hands-on class on the Internet and the World Wide Web on Tuesday, June 10, from 1-2:30 p.m. This presentation is held as part of Passages, the weekly lecture series sponsored by Oakton's Emeritus Program. This lecture will be held in Room C120 at the Ray Hartstein campus, 7701 N. Lin-

coln Ave., Skokie. Learn how to search for information on the Internet and the World Wide Web. Windows experience is useful. Preregistration is required.

Admission is \$1. For more information, call (847) 635-1414.

The Niles Fire and Police Commission recently promoted Firefighter/Paramedic Jeffrey Riemer to the rank of lieutenant. Jeffrey replaced Richard Pickup who retired after 32 years of service. Lieutenant Riemer will be in charge of Engine 2 a crew of five firefighters on the Black shift quartered at Fire Station 2 on Dempster. Pictured left to right, Commissioner Sam Bruno Lt. Jeff Riemer

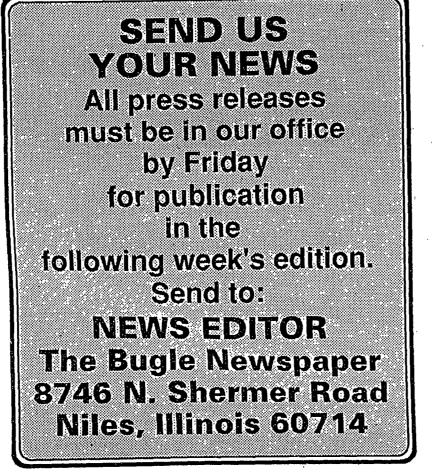

and Commissioner Anthony Scarlati.

damage.

On March 22, five lottery players from different parts of the state split an \$11 million LOTTO jackpot. Only one of the five winners opted for computer generated "quick pick" numbers, the other four had personal methods of selecting numbers. Three of those winners met for the first time. Skokie resident Tony DiFronzo, Chicago resident Nora Johnson and Chicagoan Lester Payton compared methods at a press conference in Chicago after each claimed a \$2.2 million LOTTO prize.

The winning numbers from the March 22 drawing were 07-20-24-30-40-49.

DiFronzo's winning ticket was purchased at Galen Pharmacy, 3926 W. Touhy, Lincolnwood. For selling the winning ticket, the retailer will receive a 1 percent bonus of \$22,000.

The 1995 FBI crime statistics no easy way to enter a home, if it have been released and, for the appears that someone is home or fourth year in a row, the number if there is no place for them to of burglaries in the United States hide, a burglar is likely to pass by has decreased. While this four that home for another target. A percent drop is good news, homefew simple security measures can owners should not be lulled into a go a long way in discouraging a false sense of security.

Despite the decrease, at a rate of one residential burglary every 18 seconds, the numbers add up. In the next hour, 198 home across the country will be burglarized. That's 4,756 residential burglaries today; 33,382 this week; 144,657 this month; and 1,735,881 this year. When you look at it that way, it really hits home. So, can you prevent your

home from being hit? No one can make their home 100 percent safe, but there are steps you can take to lessen your chances of becoming one of the statistics -- namely a few tips from the experts and a little common sense. "It's unfortunate, but the majority of people think of home security only after a burglary," says Mike Bruening, executive director of the Burglary Prevention Council, a national non-profit organization dedicated to the prevention of residential burglaries.

Is Your Home Secure? The Burglary Prevention Council recommends evaluating your current security measures and then addressing the trouble spots. "More often than not, there are simple, inexpensive solutions to most problems," says Bruen- and \$1.00 to the Burglary Preven-

Burglaries remain a cause for concern

Effective steps to keeping your home safe include always locking all doors and windows securely, including sliding glass doors and the door to an attached garage; using times and outdoor lighting to create the illusion that you are home; and keeping shrubs and trees trimmed.

According to FBI statistics, the average loss is a burglary is more than \$1,200 -- and this does not include the damages incurred as the thief was breaking in. "Taking the time to secure your residence now could save you a lot of time and headaches later on," says Bruening. "The key is to safeguard your home before you become a statistic.".

Booklet Offer

To help homeowners protect their property from burglars, the Burglary Prevention Council offers a 12-page booklet called "Safe & Secure." It outlines a comprehensive security program for those who live in singlefamily homes, townhouses, condominiums and apartment build-

He is the son of Thomas L. and Margret A. Carlile of DesPlaines.

Thef

A 37-year-old manager at the elevator company in the 7200 block of Harlem Avenue reported that an unknown person entered the unlocked finance office sometime between 4 p.m. May 23 and 5 p.m. May 28 and pried open a cabinet and removed \$4,000 cash from a petty cash envelope.

There were no signs of forced entry, and a drawer was placed back so as to conceal the theft. The money was hidden in an unmarked envelope in the cabinet among many others that were not disturbed. No other offices were entered or ransacked. It appears that the offender had knowledge of the money's whereabouts, police said.

Unlawful use of credit card A 69-year-old Niles woman received a phone call around 8 p.m. May 27 from an employee of retail establishment asking if she had authorized a credit card pur-

At 10:30 a.m. May 28 she received a second phone call from the Home Shopping Club asking the victim to authorize another credit card purchase. The HSC employee informed the victim that the phone order was to be sent to an address in Harvey.

The victim told police she suspects that the offender may be an employee of the Office Supplies store in the 8300 block of Golf Road, because that is the only place where the victim used the credit card in question.

Criminal damage to auto A 50-year-old Chicago woman reported that an unknown offender used a sharp cutting tool to slash five soft plastic windows and the vinyl roof of her 1993 Jeep Wrangler while it was parked in the 9000 block of Milwaukee Avenue sometime between 7:30 p.m. and 11:35 p.m. May 28.

Nothing was missing from inside the vehicle. Damage was estimated at \$1,000.

A 22-year-old Mt. Prospect radiologist reported that while she was driving her 1990 Mazda 626 northwest bound in the 7900 block of Milwaukee Avenue from the muffler shop in the 7300 block of Milwaukee Avenue, the hood suddenly flew open, went backward and struck the windshield shattering it.

The cost to repair the damage was unknown at the time of the report.

While on routine patrol around 12:30 a.m. May 27 police noticed a Mercury Tracer with four flat tires and a broken window in the

7700 block of Nordica Avenue. Police located the 19-year-old oashier who owns the vehicle. She said she was not having any problems with anyone who could have damaged the car.

Criminal damage to property A woman reported that the

mailbox at Washington Street and Ballard Road had been damaged. Police inspected the mailbox and observed that the bottom rear of the the box had a gap and the mail inside was exposed.

Some of the mail was scorched and paper debris similar to that of explosive fireworks were among the mail A postal inspector responded

to the scene and took custody of the mailbox and its contents.

Police contacted the complainant who advised them that a witness observed two possible suspects at the scene. Police spoke with the witness who related that two male subjects about 16-17 years of age approached the mailbox and one placed an item in the box. The two walked northbound toward Church Street . In approximately 15 minutes, an explosion occurred in the mailbox, the witness said

Burglary

A 38-year-old Algonquin construction worker reported that unknown offender(s) entered the construction site in the 7000 block of Touhy Avenue sometime between 5 p.m. May 25 and 8 a.m. May 27 and used a blow torch and lock cutters to gain entry into the supply area.

Removed from the area were 20 copper rolls valued at \$500 each, 2 Sears air compressers valued at \$600 each, another air compresser valued at \$400 and a tripod valued at \$600.

The offenders needed a truck or van to remove the items, police

A 19-year-old maintenance man employed by the gas station in the 5900 block of Touhy Avenue reported that unknown offender(s) gained entry to the maintenance room, possibly by using a key, and removed a Karcher pressure washer valued at \$2,800 by cutting the wire chain that was securing it.

The only people who have keys to the maintenance room are the station owner, the complainant and a main key for cashiers. The complainant suspects a few terminated employees may be connected with the incident.

Ambulance request

Police responded to an engineering company in the 6100 block of Mulford around 6 a.m. May 28. A 36-year-old Chicago man employed at the firm was taken to Resurrection Hospital.

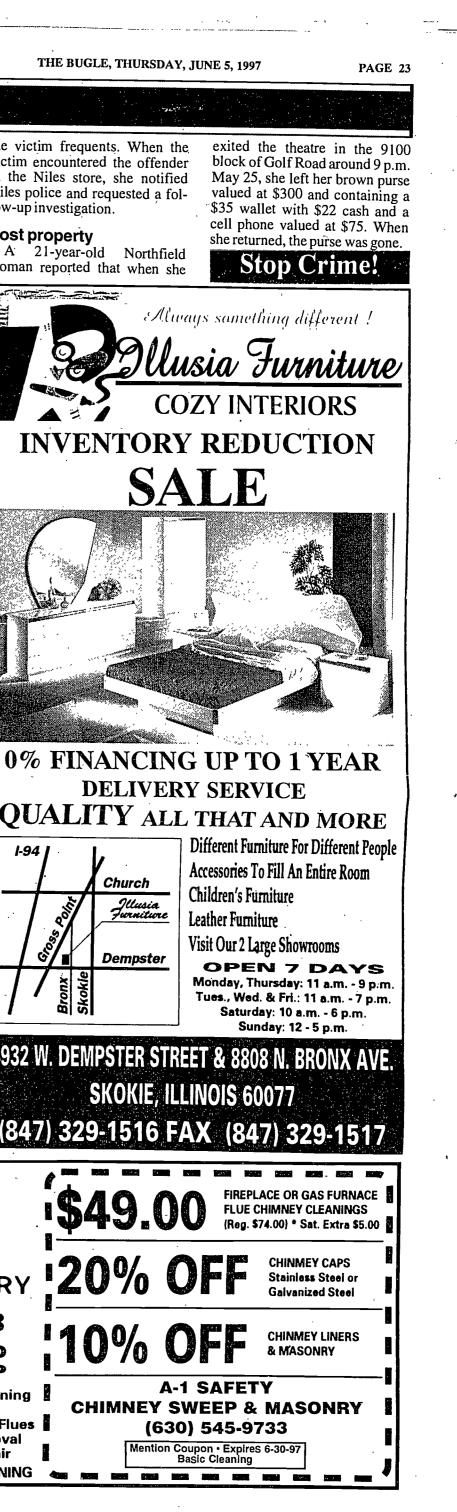

Police learned that the man had sustained a head injury as a result of an armed robbery/ aggravated battery that had taken place around Central and Lehigh avenues in Chicago. The victim told police two male offenders approximately 20 years of age and both stainding about 5 ft. 8 in. tall and weighing about 150 pounds attacked him with a dark colored handgun.

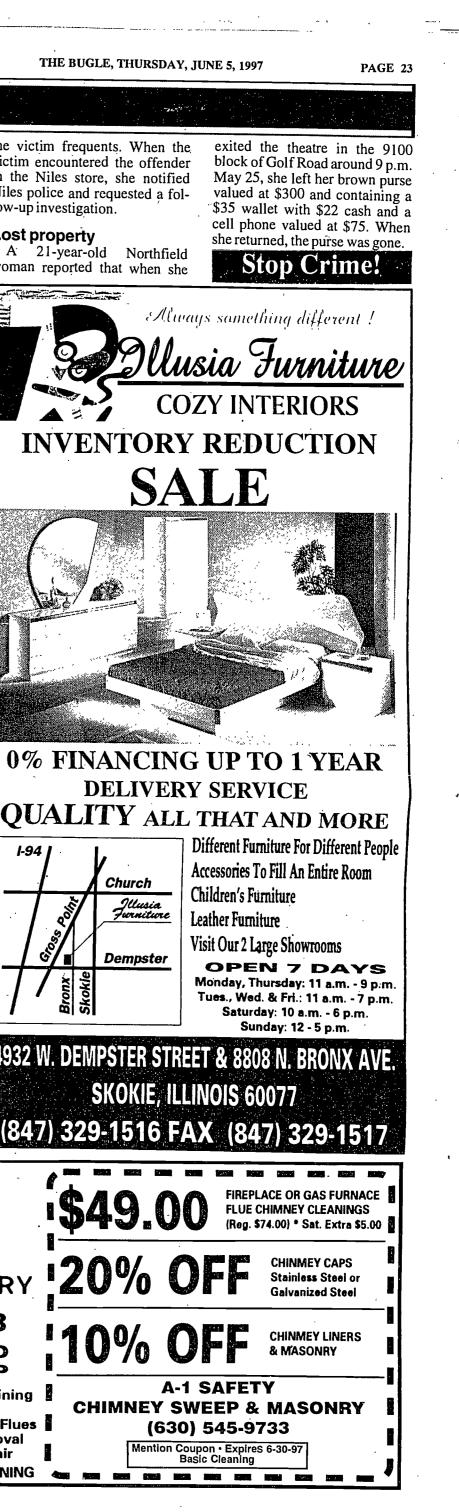

The matter was turned over to Chicago police.

The best place to find rewarding work right now is in Information Technology. Explosive growth in Client/Server systems and the Internet has created more openings than there are skilled people to fill them. Good news for job seekers and career builders! Hiring bonuses and special benefits are even being offered by some companies to attract those with the necessary qualifications.

Even better news is that you no longer have to be a "computer nerd" or "rocket scientist" to get in on interesting work in computer programming. By taking intensive courses, in a short period of time, it's possible to learn basics like C-language and UNIX-operating system. These are among classes offered days, evenings and weekends at B.I.R. Training Center, a school dedicated to providing "high-tech software skills - within your reach".

B.I.R. Training Center distinguishes itself from other schools by

focusing on cutting-edge software skills -- those in greatest demand today and into the future, with best earnings potential. Visual Basic C++, ORACLE, SQL, and Windows NT are among subjects currently taught. The school is NCA accredited and all instructors are working prworking professionals, with up-to-date knowledge of programming techniques and many contacts in their field. There is ample lab time for practice, tutoring, and the school offers placement assistance. A 'wall of fame' is posted in the office proudly dis playing recent successes. It's possible for brighter, recent highschool grads seeking employment to take the training. Most of the students, however, are new job seekers who already have some college background. There

How to Build a Better Career

by Alicia Adams

are also those who feel underutilized in their work and mainframe programmers who attend for software skills building. If you enjoy problem solving, can apply your concentration, and are willing to make a small investment, with time and dedication, B.I.R. Training Center can help you get on your way to a better, professional career. Arrange a free tour and career conference by calling (773) 866-

Last-minute strategies for paying college costs

months, millions of parents of college-bound students will be making the inevitable switch from saving for college to paying for college. If your child didn't qualify for need-based financial aid, or if what he or she received wasn't enough, the Illinois CPA Society suggests you consider the following last-minute strategies for paying college bills. **GOFOR FREE FIRST**

A State of the second second

If you haven't already done so, now is the time to review all possible sources of grants and scholarships. By now, most of the athletic and academic scholarships have been spoken for, so you'll need to be more creative. Check with your employer. Many companies have scholarship programs open to children of their employees. There are also many private scholarships available that are not based on need but, rather, on personal, occupational and education background, as well as organizational affiliation, talent, ethnic origin, and other factors. You can find a number of catalogs and directories that provide comprehensive lists of potential grant and scholarship sources. Or, you can do your less any other financial aid the search electronically, by checking out the enormous amount of your child's cost of attendance is scholarship information availa- \$10,000, and he or she receives ble on the Internet. However, if \$2,000 in other financial aid, you Illinois CPA Society programs, you still find yourself coming up may be able to borrow up to events, products and services, inshort, borrowing may be your \$8,000. Like the Statford Loan, only option. TURN TO THE FEDERAL

sophomores can get up to \$3,500, you may be able to use the equity and \$5,500 is available for each of the two remaining undergradu-ate years. The Stafford Loan's variable rate, adjusted each year home equity loan is fully deduction July 1, is capped at 8.25 per- ble. However, borrowing against cent. However, the student must the equity in your home puts your pay an origination fee of 4 percent of the amount borrowed, which is deducted from the loan amount.

Interest on unsubsidized Stafford Loans begins to accrue following the first disbursement. Students pay the interest while they are in school or can choose to defer interest payments until six months after graduation, at which time the accrued interest due is added to the loan balance. Students have up to 10 years to repay Stafford Loans. Depending on the college, the student may arrange for a Stafford Loan either through a bank or through the college's financial aid office.

Parents with good credit histories also can apply for a PLUS loan to pay the education expenses of a child who is enrolled at least half-time. Under the PLUS program, parents may borrow the total cost of the child's tuition, child receives. For example, if the interest rate is variable and is Web site at http:// adjusted each year on July 1. www.icpas.org However, at 9 percent, the cap on The government offers several PLUS Loans is slightly higher

Ready or not, here come those sidized Stafford Loan. Freshmen student can borrow up to \$2,625, For example, by applying for a home equity loan or line of credit, you have built up in your home to pay for tuition. In most cases, interest on up to \$100,000 of a home at risk if you default on the payments

Your 401(k) retirement plan provides another source of funds, although it should be used only as a last resort. Most plans allow you to borrow half of your vested balance, up to a maximum loan of \$50,000. The loan must be paid back within five years. If you quit or lose your job with the loan outstanding, the debt is considered a distribution from the plan. That means the money is treated as taxable income to you and, if you're under age 55, is subject to a 10 percent penalty.

Finally, you also may want to encourage grandparents or other relatives who were planning to make large gifts to your children to do so sooner rather than later to help pay the cost of college. By making such gifts, they'll also be able to reduce their taxable estate. The Illinois CPA Society is the

state professional association representing over 26,000 certified public accountants throughout Illinois. For information on dividuals can visit the Society's

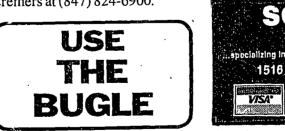

Willows Graduation Day set

The Willows Academy, 1012 Thacker St., will hold Commencement Exercises for the Senior Class of 1997 beginning at 2:30 p.m., Sunday, June 8. Stephanie Gilbert of Lisle has

been named valedictorian and Theresa Hercik of Chicago, salutatorian. "We're proud of all the girls;

they've done their best," said the school's director Barb Sunko. "We're sad to see them go, but we wish them all the best because we know they will excel wherever they go."

The Willows Academy is an independent college preparatory school for young women in grades 6 through 12. The school last summer moved from Niles to DesPlaines to provide space for more students. For more information about The Willows, contact Admissions Director Gemma

Leader Walter Dudycz (R-7th, Chicago) has been asked to accompany members of the Illinois National Guard on a training exercise in Poland in mid-September

Major General Richard Austin. Adjutant General of Illinois, asked Dudycz to participate in the State Partnership Program, September 12 to 19.

"The State Partnership Program pairs National Guard units from different states with former Warsaw Pact nations," Dudycz said. "Illinois is aligned with Poland and will be participating in a military event known as Eagle Talon in mid-September. General Austin has asked Illinois government, business and community leaders to accompany the unit to see the successful program firsthand.'

General Austin says the exercise will mark the first time that

A. Employers often include dental insurance in their benefit backages. This has sparked consumer interest in using insurance to pay for dental expenses. As a result, many individuals are shopping for dental coverate for themselves and their families.

There are companies that offer dental insurance to individuals and families. You can choose from a variety of programs ranging from HMO's, to indemnity plans, to PPO's, to discount service plans.

Questions to consider when you buy dental insurance: 1) Are preventive, diagnostic, and emergency services covered? 2) Is their a maximum benefit allowed for dental procedures? 3) What types of routine dental care are. covered? 4) How are complex dental procedures handled? 5) What are the exclusions?

If you are interested in buying dental insurance, your local health insurance agent can help you. To find out more call us at the Illinois Insurance Hotline.

Illinois Insurance Hotline is a monthly column based on typical questions asked of the Illinois Insurance Hotline 1 (800) 444-3338, a toll-free consumer program funded by many insurance companies doing business in Illinois, and operated by the Illinois Insurance Information Service, a not-for-profit organization of major Illinois insurers.

We are and the second s

We're now four Bulls championships later and we're sure VanLier would have a different choice in the 1990's. But his answer proved interesting. No matter how good you are, if you don't win the top prize, your value is diminished in the eyes of fellow professionals.

The second VanLier story was heard by thousands of TV watchers Sunday night. During the last minute of the game Utah's Karl Malone was about to shoot two free throws which would have put his team in the lead. Bulls' Scottie Pippin went over to him and using Malone's nickname, "the Mailman" (he always delivers), Scottie said "On Sunday in Chicago the mailman never delivers." Van Lier reported the story and without missing a beat, said "In Chicago the mail isn't delivered any day."

The pain relieving power of copper

COPPER ENERGY is intro- joint. ducing a treatment for arthritis pain that has been around for cen-bracelet is made from pure cop-pure copper pennies onto the afturies. Pure copper in contact with the skin creates a reaction between the mineral salts in copper and the body. This reaction is believed to have incredible pain relieving capabilities in the bones and joints.

Henry's wife Lillie was stricken with severe back pain. The doctors diagnosed her as having arthritis. Simple tasks like just getting up in the morning or setting the table was almost impossible. Lillie became depressed and bedridden. She had begun to give up on the life she once enjoyed.

Lillie would spend hours in hot mineral baths to ease her pain. While visiting a hot mineral bath spa, she met and befriended a couple from Greeley, Colorado. Lillie asked why they were wearing copper necklaces and bracelets made from copper safety pins. They told her they suffered from painful joints and bones due to arthritis and the copper, in contact with the skin, gave incredible relief.

When Lillie shared her personal experience with pain, they urged her to try pennies taped to the afflicted area. Henry's response was, "nothing else has helped, let's try it."

Henry got a handful of pennies and began taping them to Lillie's back along her vertebrae. In a few days, Lillie could not believe how good she felt. She had found relief! Henry wanted to share this experience with the world. After extensive research on the benefits of using copper to help relieve arthritic pain, Henry decided to manufacture the COPPER EN-ERGY bracelet so other people with arthritis could feel better and live a more normal life again.

Copper has been used in natural healing treatments for years. Chemist Dr. W. Ray Walker, Ph.D., discovered that copper was hard to synthesize in the body and must be supplied by outside sources. He did an experiment with copper bracelets and found that copper bracelets would lose up to 13 milligrams of copper a moth; dissolved by the perspiration of the wearer. He believed that copper can be absorbed through the skin, into the bloodstream where it can affect the arthritic area. He was not alone. Biochemist Helmar Dollwet, Ph.D., recommeded to the medical profession they consider the validity of copper bracelets in the treatment of arthritis. There is speculation that most people have a copper deficiency which can be remedied by the absorption of copper through the skin. Other biochemists have concluded that copper, combined with aspirin was 30% more effective than medical remedies in the ability to control inflammation. It is copper that creates a beneficial role when inside the affected-

Warning signs that air conditioning needs service

Your home's central air condi- ing sound by your condenser intioning system is a sophisticated dicates your contractors may piece of equipment that has have pits in it and the electrical be checked annually. Just like current. This could require your your automobile, it requires reg- compressor and condenser fan to

nois Gas, recommends homeowners have their air conditionresult in costly repairs, fuel inefficiency and the inconvenience of scheduling emergency re-

What are the trouble signs that indicate to homeowners they should call an air conditioning repair service?

Consumers should check these signs to see if their equipment's performance is wasting their cooling dollars:

•The air conditioning unit sounds like it's running all the time. This could be a sign that your unit is low on Freon, the refrigerant that cools the air in your home. If the system is 1/2pound low on Freon, it may re- ing service calls. Penalties for quire additional electricity to operate and this could increase the cost of using the system by 10 percent. That means your ener- fers a choice of home heating, gy dollars are being wasted.

operating properly. This situaof cardboard in front of your car's engine, blocking the air flow to the radiator. A dirty furnace filter can also cause problems in your system's ability to delivery maximum performance. An annual clean and tune-up will help extend the life of your compressor, and help protect your valuable investment in your home's cooling system.

•Last summer's electricity bills were unusually high. If your electricity costs soared last rain date is September 13). Each summer, it may be a sign that team of volunteers will be reyour air conditioner was using sponsible for painting the exterity, low on Freon or the out-of- nancially-limited senior or drawing more current.
